game was started. It proved an exceedingly fine exhibition. Both sides were on their met-tle and the sharpest kind of work was witnessed from start to finish. It was either side's victory until the last man was disposed of. The visi-tors outplayed the home team at the bat and in helding, but luck was against them. Anderson's work in the lox surprised every one, and he has shown himself to be a valuable addition to the tail enders. Five hits is all Brooklyn se-cured off his delivery, but this small number was made to connt as they came in just in time to score runs. Lovett's work was also com-mendable. Anderson's work was so grand in the second game that it was thought advisable to let him pitch the third game, but the strain told on him, and in the first two innings Brooklyn did some great stick work, virtually ending the game. After this Byrne's men could not find him. Terry had the Smoky City lads at his merry. He had terrific speed and lots of curves, and this is what bothered the visitors badly. The fielding was sharp, and numerous pretty plays were made on both sides. The visitors' infield now is very strong, and the outfield is by no means what it has been for some time. The scores:
