UNEARTH THE ENTOMBED MINERS.

News of Occurrences in Suburban Towns and Neighboring States,

PEPECIAL TELEGRAM TO THE DISPATOR ! KITTANING, September 2.-The celebrated case against Charles Silverman, in

which he was acquitted at last June's session in this county, under the construction of the "original package decision," and found guilty on account of selling to persons of intemperate habits, on indictment preferred against him, was brought to a conclusion in court this afternoon by a refusal of Judge Rayburn to entertain a motion for new trial, and the infliction of a sentence of \$500 fine and imprisonment for 60 days in the county fail. This will be the end of a drama that has been agi ating the quiet-going people of Leechburg for some time.

Mr. Silverman was taken into custody by the Sheriff and submitted to this unexpected turn of affairs with ill-disguised discomfiture. It is not indicated that any further legal action will be taken in the matter, but it is possible there

There seems to be more of a spirit of malevclence prevailing than of reform, in the meth-ods the people of the Kiskimeneras are taking in the question of the liquor traffic, but in all probability this will end the career of Mr. Silverman as a liquor dealer, and another consideration is that he will not emerge from the con-fines of prison until the coming campaign is

TROUBLE IN THE CHURCH.

A Catholic Priest Asked to Resign for Unknown Reasons.

SPECIAL TELEGRAM TO THE DISPATCH,1 Youngstown, September 2.- A sensation has been caused in ecclesiastical circles here by Bishop Gilmour, of Cleveland, demanding, without giving reasons, the removal of Rev. George Leeming, pastor of the Church of the Sacred Heart, located in the eastern part of the city, and the refusal of the latter to obey

Under the rules of the Catholic Church, if a priest remains in a diocese for three years he secomes irremovable, except by the Pope. The Bishop has the power to serve notice extending the term of probation two years, but this was not done in the case of Father Leeming. Having been here in the diocese eight years, it is claimed that he cannot be removed on the whim of a sick Bishop.

CALLS RECEIVED

Meeting of the Westmoreland Presbytery Mr. Plensant, Pa.

SFECIAL TELEGRAM TO THE DISPATCE. MT, PLEASANT, September 2-The Westmoreland Presbytery of the United Presbyterian Church met here to-day. Calls were received by Rev. Marshall from Turtle Creek, Rev. Whiteside from Latrobe, and Rev. Lytle from Parnassus, while Revs, McBride and Brandon were released from their charges at Laurei Hill and Leechburg, respectively. Rov. M. E. Dunn preached a trial sermon and was approved for license.

This evening a conference on church finances was held. The Presbytery meets next at Turtle-Creek. The meetings were well attended, ministers and eiders being present from Latrobe, Greensburg, Scottdale, Elizabeth, Turtle Creek, Sewickiey and other places.

DIGGING FOR THE ENTOMBED MINERS.

The Fire Killed by the Fan and a Search INFECTAL TELEGRAM TO THE DISPATOR.1 SCOTTDALE, September 2.—Mine Inspector Kieghly, Assistant Mine Boss Doran and Su, scrintendents Hill and Lang effected an en. trance into the Hill farm mine yesterday at Dunbar. They went in 1,600 feet and did not

canoniter any obstacles. They are satisfied that the fire has been extinguished by the Ian erected for that purpose a week or so ago.

Poter Wiss and other laber leaders will go there to-morrow to beein the search for the dead. There is great excitement in the vicinity of the mines, and the families of the 29 dead miners hope at last to learn how their husbands and fathers died. A searching party will likely be organized at once. The party that made the entry went in from the main lead.

VA., September 2—A cow-brdly murder occurred last night 50 miles east of here on the Chesapeake and Ohio passenger train. The train had just pulled out of Hawk's Nest station when William Demasters walked up to William Saunders, a miner, and, without saying a word, fired at him four times, instantly killing him. He then jumped from the train and disappeared. No cause can be assigned for the dued.

the deed.

The remains of Saunders were taken to Sew-eil and an inquest will be held. A party is scouring the country for Demasters, and, if he is caught, short work will be made of him.

STARTING UP AGAIN.

Labor Claims Will be Paid and the Hunt-ingdon Works Opened.

HUNTINGDON, September 2-The newly or ganized Iron Car Equipment Company of New York, successors to the defunct from car com-Tork, successors to the defunct from car com-paint, entered a mortgage here yesterday for \$2,000,908, representing the par value of the stock of the new commany. The Huntingdon Manufacturing Company, which failed in consequence of the iron car company's failure, has been reorganized and will be operated under the direction of the New York company. The labor claims will be paid this week and the works again put in operation.

ANOTHER RAILROAD BLOCKED.

Freight Brnkemen on the P., S. & L. E Strike, and Traffic Is Suspended.

SPECIAL TELEGRAM TO THE DISPATOR. BUTLER, September 2.—The freight brake men on the Pitisburg, Shenango and Lake Erie railroad went out on a strike this morning for an increase of 20 cents par day and all freight traffic is suspended in consequence.

It is said that if the demands of the men are not conceded the firemen and engineers will also be called out. The passenger traffic is not interrouted.

THROUGH THE MONTH. Rumors Regarding the President's Coming -Mrs. Harrison Attends a Tea Party-Gossip About Pittsburgers at the Moun-

tuin House-Mrs. Halford Ill.

THE WHITE HOUSE LADIES TO REMAIN

SPECIAL TELEGRAM TO THE DISPATCE. CRESSON SPRINGS, September 2.-Mrs. McKee said this morning that the family from the White House are so delighted with Cresson that they will remain here all this month. There is a rumor to the effect that Mrs. Harrison will leave to-morrow morning on the limited for Washington, and when she returns, which possibly will be the end of this week, the President will come with her. Mrs. Harrison remained in the Park Cottage all the morning and was

not "at home" to callers, but this afternoon

she received between four and five. Nearly

all the cottagers and several guests of the

hotel left their cards today. This morning Mrs. Russell Harrison and Mrs. Dimick went out driving, while Mrs. McKee stayed at home to receive the callers on her mother. Every one is waiting anxiously for the arrival of the President, and it is likely that the probability of his coming is all that keeps the guests here, though September is the most delightful month of the year on the Alleghenies.

Mrs. A. E. W. Painter gave a tea at 5 o'clock this afternoon for Mrs. Harrison, at which all the ladies of the Presidental party, the cottagers and two or three of the guests at the hotel were invited. This is the first "tea drinking" that has been for Mrs. Harrison, but several others already are mooted. It is likely that Mrs. Russell Har-rison and her little daughter will accom-pany Mr. Russell Harrison, who comes on here in a few days, back home. Miss Margaret Darlington, of Pittsburg, who has been visiting in the East is expected at Cresson this evening. It is a rather strange coincident that Mr. Harry Darlington should be the right-hand neighbor of the Harrison family at Cresson and his son occupying a house immediately adjoining the President's old residence in Indianapolis.

Indianapolis Miss Garrison, of New York, arrives at Gresson to-morrow morning and will remain here some time as the guest of Mrs. John H. Ricketson, of Pittsburg. Mr. and Mrs. Charles Donnell and their family left to-day for Pittsburg. Mrs. Halford, the Private Secretary's wife has been ill with a cold and to-day was confined to her room.

Wildwood Territory.

And Standing Close Together in the Field About Chartiers,

A STRIKE IN RITCHIE COUNTY, W. VA.

SPECIAL TELEPHAN TO THE DISPATCH. WILDWOOD, September 2 .- Seven wells on top, and in the sand is the interesting feature to-day in the Wildwood field. None of these ventures have any particular significance as to extension of the pool except the Whitney & Stevenson gasser, on the Bidekerier farm, located nearly one-quarter of a mile southeast from Bryant No. 1 and about 1,500 feet almost directly east from Semple station. This well has been reported as far enough in the sand to find the second pay, but upon careful investigation from an authentic source, the drill has not penetrated the rock more than ten or 12 leet. There is yet a chance for a well on deeper drilling. and at the present stage of the venture it in nowise condemns the territory in this locality. It is the largest gasser in the field, and when shut in will show a pressure of 350 pounds. To-night the McCaslin well reached a depth of 2,000 feet, and all hope of finding oil has been abandoned. The Shay well is 45 feet in the sand, and makes occasional flows of eight or 10 barrels. The engine has been repaired and drilling resumed, and by to-morrow the second pay will be reached; the chances for a good well are favorable.

DRILLING STILL DEEPER. Dunlap & Phillips' No. 1, on the Smith farm, located 400 feet a little north of east from the Shay well, found sand Saturday night. The boiler was moved out Sunday and on Monday when drilling was resumed, the well made a five inch flow which has been re-repeated at intervals since the drill was started. The well is 20 feet in the sand and should it not improve with deeper drilling, will, in its present condition, make a 60-barreler. Coast, Evens & Co.'s No. 1, Roishouse, is in the sand, and by morning should find the pay. It is located 2,000 feet southeast of Barnsdall & Co.'s well on the Whitesell. Greenlee & Gorst's No. 1, Roishouse, is also in the sand, and with a straight run will find the pay some time to-motrow. Griffith & Co.'s No. 2, Rolshouse, with ordinary luck, expects to cut the melon about the same time, while the Roth Oil Company's No. 1, Harbush, is on top the sand, and by Thursday the operators will know what their venture is good for. The Bear Creek Refining Company's well, located almost a quarter of a mile east of Stevenson & Whitney's gasser, is down 650 feet, and Griffith & Co., on the Mink farm, 1,500 east of the gasser, is the next well due on the southeast line. night. The boiler was moved out Sunday

STRUCK SALT WATER. The Smith Farm Oil Company, on the Smith farm, are down 1,700 feet with No. 2. Salt water was struck below the casing in both their Nos. was struck below the casing in both their Nos. I and 2, and are now reaming down to a dryer country. In the northwest part of the field the next well due is Burk & McBride's No. 1, on the Moon farm, and by Thursday, if all goes well, will top the sand. This venture is section of the field, as it is located 1,800 feet northwest from Barnsdall & Co.'s well on the Whitesell farm. If it proves a paying well it will extend the territory to the northwest distance, as above indicated. On the same farm some three or four more locations have

ship.

The agents will watch the Eist End on days when heavy loading of live stock is done, and see that no wagons are overloaded with animals. Secretary Davidson reported contributions as follows: Mrs. Thomas Carnegie, \$100., Mrs. John Walker, \$25. Laird, Ray & Co., \$5. John A. Thompson, \$5. John S. Roberts, \$2. Mrs. James Irwin, Boston, \$10, Miss Mary Nimick, \$10.

A CASE FOR FISH WARDEN HAGUE.

At Least One 50-Feot Gill Net for Him to Clear Away.

It appears that there is a chance for Fish Warden Hague to do something for the protection of his charge in the vicinity of Coraopolis. On Sunday, while on a visit to Sewickley, Mr. Harry Moore went over to take a look at the wing-dam which twas out from the liower and of Coraopolis.

Futting Them in Thickley.

Well it will extend the territory to the northwest distance, as above indicated. On the same farm some three or four more locations have been made, but no work will be done until the result of Burk & McBride's venture is fully established. Byrne & Co.'s No. 2 Simpson has been treated to two shots, one 40 and the other 50 quarts, but the well will only make a small pumper. Gibson & Giles are having goodluck with their nishing job on the Scott farm, and expect to take hold of the tools to night. It is reported to night that Creation & Dunlap's well on the Nancy Gibson farm has been drilled to the fourth sand and made one or two small flows: The Disparcies and made one or two small flows: The Disparcies and made one or two small flows: The Disparcies and made one or two small flows: The Disparcies of a mile north from the Whitesell tarm developments. Should the well prove to be a paying investment from the fourth sand horizon it will be an important factor in the future developments of this field. The production of Wildwood is approximately 1.400 barrels and ay, 700 of which comes from Giffith & Co, Whitesell No. 2

Putting Them in Thickly. CHARTIERS-Chartiers seems to have re ceived a new impetus from some source not visible, and the cry now, so to speak, is: "On to Chartiers," Six or seven new rigs are up and under way, some of which are located in close quarters. The DispartCH reporter, in perambulating the field to-fay, counted ten derricks on less than eight acres. Two of these were wells producing, four were wells drilling, two rigs ready for the drill and two rigs building. The Fisher Oil Company's No. 2 on the Dickson farm, is classed among the best wells in the field. A gauge of the well for the past ten bours shows a production of 24 inches in a 200-barrel tank. Their No. 1 on the same farm got the sand to-night, and by to-morrow or next day will be drilled in. They have cased No. 3, same farm, and are building No. 4 rig, located 500 feet northwest from No. 2. On the Steinmiller the same company have a well drilling in the 100 foot, and have located No. 1 rig on the Painter lot. A Chartiers syndicate, on a lot adjoining the Steinmiller, will start spudding in the morning. Dr. Black, on the May farm, is in the sand with his well but not deep enough to determine results. Bryant & Co.'s No. 1, Bryant are on top the 100 foot, and Lauinger & Co., on the Caughey farm, are through the 100 foot and have No. 2 rig about completed. Stevenson & Co., on the Baily farm, are down 200 feet, and McKee & Co. have a rig about completed on a lot adjoining the Crawford. Still & Co. are down 350 feet on the Crawford. Ladies' Fall

We show an endless variety of original, unique and exclusive designs, and have spared no efforts to present a very complete line of all seasonable styles and materials; and, with our well-known low prices, we feel confident to meet the approval of all. We have directed our particular attention to the perfection of faultless fitting garments, and warrant each and every garment perfect in fit, workmanship, style and general makeup. A visit to our popular Cloak Parlors will prove interesting to Ladies, whether they wish to purchase or not. NOTE — A special feature of our store during the season will be our popular Friday Bargain Sales. See our window display during the coming week to show you what we have in store for next Friday.

WHAT'S YOUR OPINION?

It has been said that certain kinds of business—and professions, too, are not needed, and that the world would get on just as well without them. Don't you think there is some foundation for this statement In our opinion there are entirely

TOO MANY CHIROPODISTS!

If all shoes were made so as to fit perfectly there would be little de-mand for their services. But as a large number of shoes do not fit at all, the chiropodist thrives and humanity suffers. Our shoes fit as well as they wear-and their wearing qualities have become proverbial.

THE CUT IN PRICES
