SPECULATIVE MANIA.

Short Cuts to Fortune Are Beset With Many Obstacles.

HONEST, PATIENT INDUSTRY BEST.

Some Signs of Pittsburg's Great Presperity at Present.

TRADE DOES NOT NOW NEED PUSHING

OFFICE OF PITTSBURG DISPATCH.
TUESDAY, September 2, 1890.

The current number of the Youth's Companion has a timely editorial showing forth the dangers of young America from these three sources: The cup, speculation and indorsing others' notes.

Under the head of speculation there are some timely words which would be of incalcuable benefit to Young Americans who would take heed. Said a successful professional gentleman of large experience and great success in his particular calling:

would have been worth more than double what I am if I had entirely avoided outside schemes for making money. A number of times in my life when I had a little money ahead, gathered from hard work in my regular calling, sometime and the feeling developed wassome. Motto for Business Men.

"The few who succeed in speculation are advertised far and wide, but the many who fail in these speculative schemes are little known. The proverb, Let the shoemaker stick to his last," is one particularly applicable to our times and people. For one man that succeeds in speculation a dozen fail. The sure winning card in business is the mastery of some trade or profession, and then the grace of sticktoativeness. All schemes which promise sudden and vast wealth should be med with: "Get thee behind me, Satan." Their name is legion who have gone down into the whiripool of bankruptcy because they stepped aside from the business or trade which they understood to dabble in outside things. The which the inexperienced young man little dreams of. A young man of good habits and a trade or profession which he has mastered is better equipped for business success than if he inherited millions. And wise is he who sticks to the calling for which nature and training have fitted him.

Signs of Presperity. "The few who succeed in speculation are ad-

no need this season to push trade. Business of late, has been rather better than they like. With prices generally drifting upward, the goods generally prove more valuable than money. The jobber finds it impossible to replace stock. In the lines of syrups, canned and dried fruits and rice, it has been difficult of late to keep up with the upward movement and hence the goods have been more valuable than money.

Trade in Dry Goods. NEW YORK, September 2.—Business in dry ions and more spirit. The scarcity of fabrics, however is being everyday more and more re-alized and, with jobbers' stocks getting low, a rish for goods is looked for by many. De-mand is active for cotton and woolen dress goods and fine and medium bleached cottons.

Better Feeling in the Grain Pit, and Most of Monday's Loss Recovered -Buyers Scared by Predictions of Cold Weather.

CHICAGO—Wheat—There was a stronger feeling in the market to-day, and most of the decline of yesterday was recovered. There no doubt was a change in sentiment, some of the larger traders who have been operating on the short side leaning more strongly to the bull side. The opening was 36% chigher than yesterday's closing, and after fluctuating some little time within a 96c range started up and advanced 11/2c above inside figures, held rather firmly and closed about 11/2c for August, 13/2c

for December and 1%c higher for May than closing figures yesterday.

Corn—There was a fair business within a %

Lard—Demand was moderate and offerings not very large. The feeling was rather steady and prices exhibited only slight changes. Trading was only fair, and the market closed steady at medium figures.

Short Rib Sides—Trading was only moderate.

Signs of Presperity.

An evidence of Pittsburg's prosperity is seen in the fact that jobbers in most departments of trade report that there is no longer a necessity of hunting custom. Trade is more disposed to come to us than it has been at any time since the war. Wholesale grocers particularly have no neced this season to push trade. Cheese on the Rise.

A Pittsburg dealer in dairy products has just returned from an extensive trip through the Western Reserve, and thus reports the situation as to cheese: "The feeling at the factories is that prices are bound to go higher, and hence it was very difficult to find any of the makers who were willing to sell or consign stock. In some places it was claimed that the shrinkage of milk production was 30 to 40 per cent, as compared with the highest point reached in July. There is no doubt that the cheese factories are more bare of stock than they ordinarily are at this season of the year. However, here is no dauger of a cheese famine. The yield and quality will be up to the average season. I never saw finer July cheese than that turned out by the Objectioners' A." \$60, cut loaf, 613-l6c; crushed, 513-l6c; popound. The speculative influence is already apparent in the cheese market. Stock is gathered in as fast as produced, and all signs point to higher prices.

PERMITS FOR NEW BUILDINGS. Pittsburg's Probabilities a Strong Factor in

THE NEWS AND GOSSIP OF THE CITY

Maintaining Values.

It is not so much what Pittsburg is as what she promises to be that constitutes the real basis of real estate values. Her growth is of a kind that not only embodies all the elements of stability, but of indefinite expansion. He would be a bold man who would undertake to set limits to her con-

Public and individual munificence is devising a system of parks, or breathing places which will, when accomplished, add greatly to the attractions of the city and its surroundings, and enhance the value of property. If to this be added the advantages of rapid transit which is reaching out like an octopus into every nook and corner, it will be

seen that the prospect is as pleasing as the most ardent could desire. The suburbs are destined to be the homes of the people. The city proper will be devoted to business. This is so now to a great extent, but the lines will be more closely drawn as population and business increase. This will enlarge the demand for outside property and pre-vent a reaction in prices. Fairly viewed and judged in the light of fact and probability, Pittsburg real estate is as safe and sure as

Permits for New Buildings. Hereafter building permits will be published n this column as they are issued from day to to day. The regular summary will appear as usual every Sunday morning. Permits taken

out yesterday were: Leopold R. Shaltenbrand, frame two-story stable, 14x20 feet, on Cedar street, Sixteenth ward. - Ingelsberg, two brick two-story and at-

tic dwellings, 24x83 feet, on Ligonier street, Sixteenth ward. Barnes Bros, Ltd., brick two-story stable, 24x 48 feet, on Penn avenue, Twelfth ward. Duquesne Theater, brick four-story building, 74x112 feet, on Penn avenue, Fourth ward.

Plus Soder, frame one-story washhouse, 8x12 feet, on St. Thomas street, Twenty-seventh M. Leise, frame two-story dwelling, 16x32 feet, on Norton street, Twenty-seventh ward.

A. Brener, brick one-story stable, 14x15 feet, n rear of Seventh avenue, Fifth ward.

Business News and Gossip.

Business is always quiet after a holiday. Yesterday was no exception to the rule.

Joseph S. Finch & Co. are building a fourstory addition to their warehouse at the foot of Second street, Southside.

A Pittsburg gentleman who was recently in

Kansas City says the building trade there is at a stand owing to short crops

Buckeye oil seems to have lost all the friends it ever had-except the Standard. It posed

yesterday without a transaction.

The Duquesne Traction Company has planted poles on Negley and North Highland avenues. Both tracks have been laid on North Highland, and on Negley both tracks are down from Bryant street to Hayes.

Rea Brothers & Co. sold 20 shares of Pleasant

Valley Railway stock at 28. The steadiness of natural gas stocks shows that fears of failure of supply are not wide-

The Pittsburg and Lake Erie Railroad Company will, early next month, occupy rooms in the Pittsburg National Bank building. Of 26 houses in Coltart square, Oakland, and eight on Forbes street, built by William Wood, of Philadelphia, all but three have been sol through the agency of W. A. Herron & Sons. Reports from the West say the crops were greatly improved by the rains which fell last

Quite a number of absentees have returned to the city, and others are on the way. Their reappearance in business harness will make

things more lively.

The reduction of fare to East Liberty to 3 cents would be a boon to that part of the city. It would attract many home-seekers and quicken business in real estate. Indeed, every nterest would be benefited. Something is said to be wrong with the abut-ments of the bridge over Wood's run, which

may delay its completion. It was stated yester day that they had been condemned.

Movements in Real Estate. C. Beringer & Son sold for John S. Shaffer a two-story dwelling of seven rooms on Erm street to A. C. Davis for \$2,500. Samuel W. Black & Co. sold a lot in Osgood place, situate on Maple avenue, Twelfth ward, Allegheny City, size 48 feet front by a depth of

115 to an alley, for \$1,400. W. A. Herron & Sons sold the last house remaining unsold in Coltart square, Oakland—a new brick house of nine rooms and all the most modern improvements, lot 34x90 feet, for \$6,600 on reasonable payments.

Black & Baird sold for W. C. Jutte to John

P. Penny the property No. 124 North avenue, Allegheny City, corner of Irwin avenue, being a handsome three-story brick residence, with lot 20x70 feet, for \$9,800. They also sold another lot for J. Walter Hay, being No. 11 in the Val-ley View Place, Nineteenth ward, for \$425. S. A. Dickie & Co. sold for R. D. Elwood and J. W. Smith to William M. Vogleson four lots on Sheridan avenue, north of station, each 27x

M. F. Hipple & Co. sold to Andrew Harris lot No. 19, on Harmar street, 25x120 feet, in the Denny Twenty-eighth street plan, Thirteenth George C. Sleeth sold for E. M. Hill, two story

frame house of five rooms and finished attic, with lot 25x130 on Grazier street, for \$2,450 cash. Also sold for Sloan & Co. six lots in Lemington Square for \$2,900.

James W. Drape & Co. sold a lot on Charles street, Allegheny, about 20x75 feet, for \$875.

HOME SECURITIES.

Few Trades and No Important Price Changes-Three Calls Again. The I o'clock call was resumed at the Stock

Exchange yesterday, but without any apparent benefit to business. Sales at the three calls were 15 shares and \$400 Electric scrip at 80. Philadelphia Gas and Luster showed some improvement, but the rest of the list was practically unchanged, except that New York and Cleveland Gas Coal closed a point lower than the opening.

AGAIN ON TOP. Banks Resume Business After the Doubl

Holiday-The Monetary Situation. The business of Saturday and Monday, as represented in the Clearing House report resterday, was of good proportions, indicating a fair movement in the regular lines of trade.

Something must be going on to make such an exhibit possible. Exchanges were \$2,859,729 07, and balances \$346,927 93. and balances \$346,927 98.

While there was no special demand for money, considerable was taken out by regular customers, and some outsiders were accommodated. There was enough for all, and a big nest-egg left. Rates were 6@7 on call and time.

HOPE IN THE FUTURE.

Though Business Was Small on Wall Street the Market Displayed a Firm Tone-Opened With a Boom-An Un-

pauni Trade in Stocks, NEW YORK, September 2.—There is a grow-ing disposition in Wall street to look upon the hopeful side of the situation. The market there-fore displays a decidedly firm tone on a small volume of business. To-day there was some-thing like a boom at the opening, and sales were made at material advances over Saturday's final figures, the gains generally extending to ¾ per cent, while Sugar Refineries were up 13-7 per cent. The number of stocks traded in was larger than usual of late, and the strength reached all portions of the list, although the further gains, especially in the general list, were insignificant. London was the moving factor in the advances. Commission buying helped the early gains but the demand was soon

helped the early gains but the demand was soon satisfied, and, duliness becoming again a feature, the traders were again encouraged to take the short side, especially as there was an effort to bid up money, which, however, was unsuccessful, and rates immediately dropped back to the lowest point of the day.

Sugar yielded materially in the forenoon and the rest of the market sagged off in syanpathy, though in but few cases was more than the opening gains neutralized. The statement recently issued by the cotton oil officials met with some favor and all classes of the stock felt timestimulus and the receipts rising to 27 against 24% Saturday, and the new stock to 22 from 19. The downward movement in the remainder of the list was not checked, however, and the close was dull and heavy generally, at fractional losses from the opening figures. The final changes are in all cases for small fractions with the exception of Rock Island, which is down %20.

Railroad bonds were very quiet, and, as usual, without pronounced tone, and the changes in quotations were generally confined to insignificant amounts. The sales reached changes in quotations were generally confined to insignificant amounts. The sales reached only \$585,000.

Government bonds have been dull and steady. State bonds have been entirely neglected.

The Post says: The reason for the greater activity and higher prices for the Granger stocks to-day was that there is still a very large outstanding short interest in them which is getting uneasy, though there has as yet been no marked attempt to cover it. All of these stocks and to some extent, also the Vanderbilt stocks were sold short, partly on account of threatened railroad strikes, partly on account of the tight money market and partly also on account of the rumors about the financial condition of Rock Island, which as a representative granger road was presumed to indicate something of the affairs and prospects of the other granger roads. But now that the capitalists who control and manipulate St. Paul have begun to talk about a dividend on the common stock some time in the near future, possibly next year, it will help to strengthen all the Granger stocks.

Great Activity in Groceries, and Syrups

Country Produce-Jobbing Prices. Last week's prices of creamery butter were reaffirmed by the powers that be on Monday afternoon. The upward movement of butter has been arrested. Oleo has come to the front since the recent advance, and as a result the genuine stuff has slightly weakened. Cheese is still on the advance, and our prices are raised, in accordance with facts based on actual sales. Tomatoes have suddenly taken an upward turn, on account of the cool weather. which prevents their ripening, and prices are double what they were a week ago. Potatoes are steady at quotations. Melons are slow. Supply of sweet potatoes is above demand and narkets give signs of weakness. Demand for grapes is fully up to supply, and prices are

NEW ADVERTISEMENTS PAIN! PAIN! PAIN!

Terrible Suffering of a Lady-Her Neighbors Thought She Must Die. As further evidence of the cures made by the catarrh and dyspepsia specialists of 323 Penn avenue, and of patients who have suffered from disease in its most aggravated form, and

The aches and pains she had in almost every part of her body were simply unbearable. Immediately after eating, her stomach would be seized with terrible pain and cramps, which would continue until she would vomit up her food, and the gas that formed would cause her stomach to swell as if it would burst. In fact all kinds of food except milk would cause pain. She had pain over her eyes, dizzioess and noises in her ears. Her mouth would have a bitter, disagreeable taste every morning. She had pain in both sides and across the small of her back, and in the nights she lay on her left side she would be seized with the most excruciating pain, and her heart would palpitate as if it would jump out of her body.

Night sweats weakened her fast, and she had a constant tired feeling, but more tired in the morning than on going to bed. While in this condition she consulted the above specialists, whose reputation for making permanent cures has long since become thoroughly established. She says of the matter:

"Although I had doctored with several physicians and with patent medicines, I got no relief, but gradually grew worse. In fact my neighbors and even I myself thought I could only live a few months. Reading in the papers how Mrs. Bratt had been cured of terrible cramps and pains by the catarrh specialists at 323 Penn avenue I took a course of treatment and now I gladly testify to my complete cure of all my aches and pains as above described. I cheerfully recommend these specialists to all suffering from catarrh or stomach trouble. Signed with my own hand.

"MRS. HEN RY HUNZIKER."

Please remember these catarrh specialists are permanenty located at 323 Penn avenue and Mrs. Henry Hunziker.
