Citizens' Line Employes Get More Pay and Better Working Hours.

THE DISPATCH some time ago referred to the fact that the Citizens' Traction line employes were agitating for a reduction in hours. The company has been unable to grant any reduction in the working hours, but are willing to give the men an increase in wages. Yesterday the pay of the grip-men was raised from \$2 25 to \$2 40, and that of the conductors from \$2 to \$2 20. The time schedule was also rearranged. The "swingers" who formerly were the first out in the morning and the last home at night, will now be relieved at 9 o'clock.

The arrangement gives general satisfaction No Decision Reached. A meeting was held yesterday at Bissell's

DEAD AND UNKNOWN

The Rev. Mr. Brendt Finds a Man Dead in

Bis House. Coroner McDowell was called again erday to clear a mystery surrounding a

death in Braddock. So far only a part of the veil has been lifted. On Tuesday evening a handsome German applied for sid at the house of the Rev. Mr. Brendt, who is pastor of the German Lutheran Church of that place. The minister was away, but his wife, with her characteristic hospitality, received the man. He was a handsome fellow about 26 years old and

fairly well dressed. He wanted a supper and lodging, and was given both.

Nothing was noticed wrong with the man except that he appeared tired. Yesterday morning the man did not get up, and when the minister went to see what was the mat-ter he found the man dead. Mrs. Brendt remembered that she had not asked the man's name. The Coroner was notified and went at once to investigate. An autopsy was ordered and the fact that the man died

of varioloid was developed. Up until late last night the remains were not identified. A PUBLIC SUNDAY MEETING.

The Defendant Furnishes Bail and Then

P. L. Kunz, the senior member of a con cern located at No. 533 Wood street, and dealers in subscription books, is under bail for a hearing before Magistrate Succep this morning on a charge of larceny by bailee. The charge is made by Mrs. Elenora Walters, whose son, W. H. Walters, was em-ployed by Kunz as collector for several months. The story related by Mrs. Walters, when she made the information, indiested that she regarded Kunz & Co. as the

proprietors of a swindle. Last March her son secured a position a collector. He was required to place \$25 in the hands of Kunz & Company, as a guarantee of hopesty. He had met with an accident in Oliver & Roberts' wire mill, by which he had lost one hand and his mother earned the money necessary to secure his position. When he paid the \$25 he was given the following receipt:

COPY OF THE RECEIPT. NEW YORK MANUFACTURING CO. SUBSCRIPTION BOOKSELLERS, PITTSBURG, PA., March 15, 1890. PITTSBURG, PA., March 15, 1890.)
Received of W. H. Walter, minor, twenty-five dollars, as security for collecting, to be refunded within ten days after his services have ceased. New York Manufacturing Company. Per K. The trouble lies in the fact that although

young Walters' services ceased several weeks ago, his mother has been unable to secure the return of her hard-earned money. After making several unsuccessful at-tempts to get the forfeit, Mrs. Walters brought both a civil and criminal suit. Armed with a warrant early yesterday morning, Constable Sherran, called on Mr. Kunz at his office on Wood street. The officer says that upon his first call, Mr. Kunz denied he was the gentleman wanted. Sherran then went for Mrs. Walters who identified Kunz. The latter was then arrested and taken to Magistrate Succop's office, where he wanted to have his wile's name accepted as bail, but the magistrate said that would not do. A commitment was made out, and on the way to jail Kunz

met a friend who kept him from being locked up. In explaining his business to the constable, Kunz said the New York Manufacturing Company had become defunct some time ago, and that he knew nothing about it. His firm has only been in existence a short time, and yet Mrs. Walters says he is the same man who hired her son for the New York Manufacturing Company. KUNZ NOT IN TOWN.

A call was made at the boy's home, No. 319 Carson street, last night, but he was not at home. A man named Yeager, Mrs. Walters' landlord, said he knew of the boy's trouble, and had heard him say that boy's trouble, and had heard him say that Kunz & Co. were not the most agreeable neople to work for. A call was made at the Merchant's Hotel, Water street, where Kunz and his wife had been stopping. Mr. Hutchinson, the proprietor, said Kunz had left yesterday morning and had not returned. He had no idea where the man had gone to, but he paid his bill before leaving.

leaving.
Magistrate Succep said last night there is no doubt in his mind that the concern is shaky. Other persons have called on him wanting to make similar charges against the same firm, but he always refused to take the suits, thinking it not worth while. The 'Squire also says that an action was brought igninst the same firm about a year ago, but that the cases never amounted to anything. No one could be found last night who knew anything about Kunz, and whether or not he will be at the hearing this morning re-

case of the train wrecked at Osceola on the Raltimore and Ohio Railroad two weeks ago, by which three men were killed, visited the scene of the accident yesterday afternoon, and after making a careful view of the three miles passed over by the train after it first struck the obstruction on the track before it was overturned, adjoured until this morning at 10 o'clock, when the case will probably be concluded.

The only testimony taken yesterday was

that of Night Operator Lydon, at Bissel station, a few miles beyond where the accident occurred. He disapproved the theory that has been advanced that the ties across the rails had been dropped from a passing construction train by testifying that at 8:35 that night a passenger train had passed over the line and had met with no obstruction. Afterward, shortly before the time of the accident, two through freight trains passed over on the same track, and there was not a car carrying railroad ties in either train. There was not a construction train of any kind passed over the line between Pittsburg and Bissel from 8 o'clock that evening to the time of the accident, and the obstruction of the track had been done within three-quarters of an hour before the accident oc-

The Coroner considers this evidence con clusive, when considered with the result of his investigation of yesterday and the testimony heretofore presented. There is yet no clew to the perpetrators of the plot, and a verdict will probably be rendered charging the crime to a person or persons unknown.

CHICAGO'S MAYOR'S VIEWS. He Says the Force Bill is Not Favorably

The Hon. D. C. Cregier, Mayor of Chicago coompanied by Mrs. Cregier, arrived in the city yesterday en route to New York on a pleasure tour. Mayor Cregier talked of Chicago and her people he said: "The people of Chicago are not taking much interest in anything o a public nature at present outside of the World's Fair, and opinious differ widely as to the location of the world's exhibit. While not engaged discussing the probable site for the fair, they give some thought to the questions uppermost in the minds of people in every section. They do not take kindly to the force bill, from what I have heard. The leading business men of our city pro-nounce it to be one of the most radical and unconstitutional measures ever introduced in the Senate, and believe that if it is passed

it will materially affect the business relations that now exist between the Northern and Southern States.
"I think that the bill, if passed, will unposition as European nations which are governed by unserupulous rulers. It is so rabid that I don't see how any fair-minded man, with the nation's welfare at heart, could conscientiously advocate it. I believe that tariff reform will ultimately be brough about. The condition and opinions of

American people demand that material changes be made on tariff duties." ANOTHER PHASE OF IT.

Policeman Schafer's Superior Officer bolds His Action. Captain Stewart, of the Southside, said last night that Officer Shafer had been fully justified in shooting at Elkins, the man he had the fight with on Mt. The officer had a warrant for Elkins, who was wanted on a charged of disorderly conduct. During the fight between the two

men Elkins bit the points from two of Shafer's fingers. Captain Stewart says Shafer is one of the best officers on the force and if the people of Mt. Washington had been given the true version of the fracas, they would not have gone to the trouble of getting up a petition for his removal.

There is a general opinion that this section of the law should be repealed, and there are indications that a movement will be placed on foot to have the matter remedied by the next Legislature. Another phase of the question sought to be remedied is with regard to the division of the districts and the location of the inspectors. The State is at the machine company, and which appeared The statement was accepted as outlining positively and clearly the attitude of the managers of the various branches with re-gard to the position taken by the men form-erly in their employ, and was regarded in the nature of an official deliverance on the question. The prospects, conditions, and outlook of the strike were freely canvassed, and, as a result of the meeting the general sentiment ended in agreeing that they had "been whipped in a fair fight" as the members expressed. The chairman of the meet-ings, Mr. Charles M. Mason, insisted on surrendering command at once, rather than later, of a disorganized force, saying that the number of men who had gone back had broken the strike. He therefore recommended the committee to declare the strike

The committee acquiesced, and it was done at 9 o'clock, with the exception of as far as the detail department was concerned. They reserved their decision until they should meet in the afternoon. When the result of the deliberation became known, the employes dropped down to the offices in Garri-son alley and began to make terms for themselves. Some of them were rejected, while a good many got promises of work and others were taken back.

The detail department held a meeting at 5

o'clock in Jefferson Hall, Allegheny. There was a majority of the instrument and tool makers present. A sub-committee was sent to Foreman Philip Lang, asking if they might be reinstated as a body. Mr. Lang replied in effect that no man was pro-"Let each man," he said, "stand in his

position to-morrow morning, and I or Mr. Sass will wait upon him and designate work, as owing to the delay things had got ten into some con usion and it would take a few days to straighten out matters." This reply the sub-committee reported at another meeting held last night in Allegheny. The decision of the meeting could

not be obtained. Chairman Kirk, of the Executive Committee of the machinists' organization, was asked for a statement. He said: "The action of the Electric Company's men was taken without notifying or consulting me. We have had nothing to do with their break-ing away. So far as the machinists—in which I include the instrument makers—are concerned, there will be no compromise The strike is still on and, so far as I see, will remain on. There are some people collect-ing money without proper credentials. No one should pay money on books which have not my signature as chairman.

but the Men Kick.

Master Mechanic Schafer, of the Pennsylvania Railroad Company shops, yesterday caused a notice to be posted in the works intorming the men that from to-day the hours of labor would be reduced to nine hours. A general kick has ensued in consequence. The men are paid by the hour, and don't appreciate losing an hour's wages every day. The machinists and boiler makers at once otified the master mechanic that they would notified the master mechanic that they would not work to-day, and the other employed held meetings last night and discussed what action they should take. What the out-come will be is not said.
