One Hundred Thousand Dollars Damages Claimed by the H. C. Frick Coke Company for the

VIOLATION OF A WAGE CONTRACT.

K. of L. Cokers Quit Work and Caused a

we have about made up our minds to see whether there is any legal responsibility on the part of labor organizations, or alleged representatives of our men, for violation of contract. The agreement referred to is either a contract or it is not a contract. If the parties who made it were the duly authorized repre-sentatives of the men, as they claimd to be, then the men are bound by it, and are liable for all damages we may sustain by the shutting down of the plant.

THEY HELD THE MONEY. "If, on the contrary, the parties to the agree

ment were not the duly authorized agents of the men, and have been guilty of false and fraudulent misrepresentation in signing their names as such, they are responsible as individuals, not only for the money damages, but also for criminal conspiracy. We propose to test this matter in the courts. If it is decided that the men are responsible, we have \$27,000 of their money in our hands toward liquidating the judgment. If the individual signers are responsible, we will bring both civil and criminal actions against John E. Rea, Robert Watchorn, R. D. Kerfoet, C. M. Parker, M. P. Kane, John DeHaven and James Keegan, whose names appear on the agreement as representing all of the workers; not the Knights of Labor alone, mark you, but as the text of the agreement more fully expresses it, 'a committee representfraudulent misrepresentation in signing their more fully expresses it, 'a committee represent-ing all the workmen at all the works owned by, or operated by, the H. C. Frick Coke Company,

a Connellsville.

Being asked for a history of the trouble, Mr.

ynch said: On Thursday, August 21, the local

ommittee at the Standard Works visited Su
crintendent Robert Ramsey and demanded e discharge of all non-union men employed at the works, within six days from the date of the order, under penalty of a strike. Ramsey replied that he did not know who were union

HOW THE STRIKE STARTED. The local committee interrupted him to say that they would furnish a list of the non-union men. Ramsey said it made no difference to him whether the men were union or non-union, so long as they did their work properly they

would not be discharged. Two days later, August 23. I received the following notice, signed by the local committee and R. D. Kerfoot, District Master Workman, and C. M. Parker, District Secretary of the K. of L.:

Mr. Thomas Lynch, General Manager of the Standard mine of the H. C. Frick Company:

We begin notify you that after the expiration of We hereby notify you that after the expiration of this of influence over some les and refuse to be-lone we are held responsible, and refuse to be-se partners in an agreement made with your upony to good faith, the same having been sidered by the local committee of the Standard

and breby properly signed.

"Now," said Mr. Lynch, "I did not consider the notice seriously, and why? Because of the position taken by General Master Workman Powderly in the New York Central Ruitroad strike. If you will remember he justified that strike on the ground that employes were discharged because they were Knights of Labor. He pointed out in glowing terms that the strike was for a vital principle, the maintenance of the liberties of man.

POWDERLY'S POSITION. "I could not think that an order, whose official head had made such a declaration of princial head had made such a declaration of principles, would so far forget them as to declare a strike here because we refused to deprive our workmen of their liberty by coercing them into an organization against their will. We do not ask men who apply for work at any of our plants whether they are union or non-union, and no distinction is made in this regard between men at work. There is no claim by the K. of L that union men were discriminated against at the Standard. What do you suppose the K. of L would say if we gave notice that on or after a certain date, any and all of hat on or after a certain date, any and all of our works would be closed down, if all the mison men employed there did not withdraw rom their organizations? We would have from their organizations? We would have just as much right, under the February agree-ment, to give such notice and shut down any and all of our works, as the K. of L. have to stop work because non-union men are not dis-charged, or coerced into going into the organ-ization.

"On Thursday evening last General Organ-rer Wise came into my office at Scottdale and canted to know if I had got the notice. In the course of conversation he acknowledged to asking been at the meeting which authorized he notice, but said that he had not favored uch action, and had left the hall before it was aken.

CHECKMATED THE SCHEME.

"On Friday, the date of the expiration of the notice, it was secretly given out by the local committee that work should stop at 2 o'clock that afternoon. The idea was to leave no coal samply for our boilers in case of a strike. So lent Ramsey checkmated this scheme

sapply for our bollers in case of a kirke. Superintendent Ramsey checkmated this scheme by stopping the larries at loclock, allowing the chargers their full may. The coal hoisted during the next bour was stored away in the boss and larries for use in the boilers.

'That evening the men had a meeting. Secretary Parker attended it, and was appointed on a committee to confer with Superintendent Ramsey. He asked the latter why the works were sunt down. They had not intended to strike until Saturday night. Ramsey pointed out the fact that he had not shut the works down, but had only taken the precaution to store away onal for the pumps in case of idleness. He reminded Parker that he himself had signed the notice of the stoppage and delivered the same to me, and concluded by informing the committee that the men could work on the morrow if they so desired. In pursuance of this permission he had the fire boss examine the pit in the morning, and other preparaine the pit in the morning, and other prepara-tions for a full day's work, but none of the men put in an appearance, and the works have been idle ever since."

LEGAL ADVICE FROM PITTSRURG. Being asked if he was acting under legal ad-

vice, Mr. Lynch said:
"Certainly, and I don't mind showing you what it is," and he drew out a legal brief. It proved to be a written opinion from Knox & Reed, the well known Pittsburg legal firm, as to the extent and nature of the responsibility.

The opinion says: The opinion says:

The men represented by Rae and others, now striking at the Standard works, are responsible to you for all damages you may sustain by reason of a breach of contract, which damages may be recovered by notion at law. As to who are represented by the committee, we think all men who went to work under the agreement thereby acceded to if and became bound by its laws.

The arresponding of Fabruary for the street of the s

The agreement of February 6 says:
It is distinctly agreed and understood that the
sanagement shall have the right to employ any
oresia or persons they desire to employ and no General Manager Lynch thinks this clause

customerly affirms the right of his company to cupley non-union men; that a strike against such action would be a breach of contract, and that the present strike for the diamissal of non-union men employed at the time the agreement was made is even a more flagrant breach.

The labor officials say that the works were closed down Friday, when their notice did not expire until Saturday, and therefore the responsibility rests with the owners and managers of the mnes. They also say the agreement was violated by the company because they did not give the required six days, notice of shut-down, and claim they have a contra suit against the company on these grounds.

A mouster mass meeting was held at Morewood last night, and some 2,500 miners attended. The Standard matter was discussed, and resolutions passed to lend financial support to the men at that place.

MAYVILLE, Pa., September 4.—This place was thrown into a furor of excitement by the actions of runaway cars on the New York, Ontario and Western road. The freight which passes through here at 7:30 was running at a high rate of speed, and just at the crossing near the Grier Hotel the engine struck and killed a cow. The cars immediately began pli-ing up, while the train broke in two, and the second end ran off the track and into the Grier House.

The house was torn from its foundations, the walls being torn apart, and the house toppled over on its side. William Lyons, who was sleeping on a sofa in one of the lower rooms, was instantly killed. The man had called early in the evening, but finding the people of the hotel away he had fallen asleep while waiting for them. The wreck was not fully cleared from the track until early this morning, and as a consequence all trains were badly delayed.

STRIKERS THREATEN MURDER.

Workmen Driven From Coul Mines by Men Armed With Guns. PEPECIAL TELEGRAM TO THE DISPATOR !

ALTOONA, September 4.—The striking miners in and around Armbry, on the Cresson and Clearfield Railroad, created considerable excitement on Wednesday at that place. The places of the strikers have been filled by a number of new men from other points. About one-half of the usual force were at work when a large number of the strikers entered the mines with loaded guns and made a demand upon the workmen to quit and leave the place. The men, afraid of their lives, left the mines, followed by the angry strikers. The armed men were drunk and were arrested. and around Armbry, on the Cresson and

Seal Sacques Made New. With the approaching fall sea-son we are already very busy in our fur department. Ladies should therefore bring their old seal garments to us at once, as we will

continue our summer prices until September 1. We can re-dye and make into the fashionable short jackets at a very moderate price. Old garments too much worn to use in their present shape, can be made into beautiful shoulder capes, either entirely of seal or combined with Persiana

or Astrakan. Highest cash price paid for old seal sacques.

DANAIULI D, STORES FOR THE PEOPLE, DANAIULI D, Sixth and Penn, Sixth St. and Penn Ave, Sixth and Penn,

It has been said that certain kinds of business—and professions, too, are not needed, and that the world would get on just as well without them. Don't you think there is some foundation for this statement?

In our opinion there are entirely

TOO MANY CHIROPODISTS! If all shoes were made so as to fit perfectly there would be little dehand for their services. But as a large number of shoes do not fit at all, the chiropodist thrives and humanity suffers.

Our shoes fit as well as they wear-and their wearing qualities have become proverbial.

THE CUT IN PRICES Last week drew thousands to our stores. The same figures will prevail this week. If you want bargains, now is the time to buy.

A \$6 SHOE FOR \$4 87. A \$3 00 SHOE FOR \$2 48. A \$5 SHOE FOR \$3 90. A \$2 50 SHOE FOR \$1 98. A \$4 SHOE FOR \$2 90. A \$2 00 SHOE FOR \$1 69.
