Figures Elsewhere the

LOCAL SITUATION IS UNCHANGED.

A Decided Increase in the Demand for Pig Iron in the South.

THE OTHER MARKETS EAST AND WEST While advices from the East indicate stronger markets for mill irons, here there

is no change in the week past. Grey forge iron is a shade lower to the cash buyer than it was a month ago. In the early part of August the consumption of iron dropped off, and stock accumulated for a few weeks. Though mills were crowded with orders they were unable to consume their regular amount, owing to extremely hot weather. Hence, furnaces accumulated stock, and some were ready to shade prices. This time a year ago the upward movement of raw iron was fully on. There are no signs of any upward movement now, nor are there any signs of weakness.

Mills are generally carrying light stocks, and the outlook for a large fall trade is

Bessemer iron continues alow, contrary to general expectations. Muck bar is very active, and markets

show an upward drift. Manufactured iron is in good demand, and prices are well maintained.

Blooms and billets are scarcely as strong as they were a week ago.
Steel rails are quiet owing to competition

among manufacturers.

Nails are steady and unchanged. The Manufacturers' Association, at its last meeting, reaffirmed prices on wrought iron pipe. The mills are sold ahead and markets are very firm. Nails are steady at

old rates. Wire rods are weak, and prices are a shade lower. Following are latest quotations: Structural Iron -Angles, \$2.20; tees, 2.85c; beams and channels, 3.10c; sheared bridge plates, steel, 2.65c; nuiversal mill plates, Iron, 2.35c; refined bars, 2c card.

Barbed wire fencing, galvantzed, \$3.00; plain wire fencing, galvantzed, \$3.00.

## REVIVAL OF BUSINESS.

The Arrival of Fall Has Improved Matter in the East.

PHILADELPHIA, September 5.-The first week of September has fully sustained the an-ticipations of the iron trade as to the revival of business in the fall. In every branch of the iron business the conditions are excellent and there is a uniformity of activity excellent and there is a nufformity of activity that is almost surprising. There are no weak spots in the market, nor is there any abnormal activity in any single branch of trade. Business is in a well balanced and steady condition that has not been seen for many mouths. Both production and consumption are well adjusted and there is a steady movement of all iron making material from ore to manufactured iron. The large demand for rolled iron and steel of every description is still the most important factor in the market, as the consumption of cruids iron is the greatest in

of crude iron is the greatest in line of those grades used by g mills and steel works. The great rolling mills and steel works. The great rolling mills and steel works. The great actively throughout the country in bridge construction and building operations creates a beavy demand for structural material in iron and steel while the car builders and pipe-makers are consuming an enormous amount of lar and pipe iron. The improvement in the pig iron market which was noted last week has been well maintained, although there has been been well maintained, although there has been no further increase in the demand during the no further increase in the demand during the predictions. The samply of crude iron is pig iron market which was noted last week has been well maintained, although there has been well maintained, although there has been no further increase in the demand during the past few days. The supply of crude iron is nowhere large, and the furnate men are not pushing sales. The prices now ruling which have not changed for several months past are very firmly held, and the condition of the market is such that any further increase in consumption of pig iron would advance the current figures. The appearance of a few large buyers in the pig iron market would doubties have a stimulating effect upon trade to a very large degree. But large orders are far apart this year, the rule being small and frequent purchasers.

and frequent purchasers.

Recognized brands of Eastern pig fron are still selling at \$18 00@18 50 for No. I foundry; Elf for No. 2 foundry, and \$15@16 for gray forge. In the South the output of pig iron con-tinues heavy, and many furnaces are reported innes heavy, and many furnaces are reported as being oversold, especially as regards the better grades of foundry iron. Bar fron shows no change from its continued activity, except a slight decrease in new business, but this makes no impression on the market, as orders in hand cover all the output of the mills for some weeks into the future. For strictly best refined bars the figure is still 185c to 1.95c, with perhaps a tenth off for common grades. The steel rail trade continues steady, but rather quiet as far as new business is concerned. The mills are running full, and there is no prospect of a slackening of trade judging from the orders in sight, but not yet placed. There is no change in quotations—\$16231 50 east, \$33.50 west and \$31.50 (\$32.50 at Pittsburg. This is a great pressure upon all the mills rolling structural material, and the indications point to an extended continuance of the present activity. Prices are very firm at previously quoted figures, as follows: netivity. Prices are very firm as previously quoted figures, as follows: [3Universal plates, 2.25 to 2.35; sheared bridge plates, 2.30 to 2.40; angles, 2.20 to 2.30; tees, 2.70 to 2.80; became and channels, 3.10. Old material other than rails is active at good prices, No. 1

## ANOTHER QUIET WEEK.

Inquiries Scarce at St. Louis, and Sales Few and Far Between.

PECIAL TELEGRAM TO THE DISPATCH. St. Louis, September 5.—Rogers, Brown & Meacham say: We have to report another quiet week with light inquiry and lighter sales. me of the latter have been closed at dethe relative strength or weakness of the different Southern furnaces. ## INCREASE IN THE SOUTH.

A Decided Improvement in the Demand for Pig Iron.

REPECTAL TELEGRAM TO THE DISPATOR & BIRMINGHAM, ALA., September 5 .- The demand for pig iron continues to increase and there has been considerable improvement in trade since last week. A steady flow of small ders for immediate shipment is coming in rom the Western markets and with a good ig order now and then from the far East, the urnaces have not increased their stocks any this week. The outlook for a good fall and winter trade has not been better at this season n several years and furnace men are much in acceral years and furnace men are much pleased at the prospect.

No changes in prices have occurred since last week, but furnace men do not care to make long contracts at present figures. No orders are being refused where the iron is to be delivered by October I. but some offers for large lots to be delivered in November at present prices have been declined. Stocks on hand in the district are not large and the orders coming in are almost equal to the output. A few of the furnaces are sold ahead, but most of them are keeping well up with their orders and have a little

IRON TRADE REVIEW. iron on hand. Every furnace in the district is in blast.

The new furnace of the Vanderbilt Iron & Steel Company, which went in blast a week ago, is working like a charm and turning out a good quality of iron.

MARKET FAIRLY ACTIVE. Some Accumulations of Special Grades Have Affected Prices a Little.

PEPECIAL TELEGRAM TO THE DISPATCH. CINCINNATI, September 5.—Rogers, Brown & Co. say: The local market for pig fron has continued fairly active, and generally speaking, prices have been well pressived, but in a few instances where furnaces have accumulated special grades, producers have granted some concession, either in price or delivery. Confidence has continued to be a prominent feature of market entertained for both buyers and sellers. The tounage on back orders is heavy, but some improvement is noted in the making of deliverjes previously retarded. A better inquiry is experienced for softness, and there is a moderate but steady movement in charcoal brands. Toward the close of the week some large orders relieved the Southern furnaces of any accumulation which might have taken place, and a stronger feeling has resulted. Orders for finished iron continue heavy and the melting of pig metal is almost unprecedented. ontinued fairly active, and generally speaking

New York Iron Market. New York-Pig fron dull and steady. Copper nominal. Lead strong and dull; domestic, \$4 87\frac{1}{2}. Tin quiet and firm; straits, \$22 20.

## THE MARKET BASKET.

Creamery Butter Weak - Western Fish Scarce-Tomatoes Remarkably High-Prices of Staples but Little Changed-Trade Brisk.

At the fruit and vegetable stalls of Diamond market an improved trade is reported for the week past. The pilgrims to mountain and sea-shore are returning, and the effect is apparent n increasing demand for market basket filling There are few changes in prices since last Sat-urday. Cool nights have put a chill on market urday. Cool nights have put a chill on market gardens in this vicinity, and the yield of tomatees has been very much diminished. Price of tomatoes has doubled within a week. A year ago at this time tomatoes were a drug at 25c a bushel. Now they are firm at \$1.50 a bushel. In the lines of butter, eggs and poultry the week has developed no new features.

In a jobbing way creamery butter is easier than at the beginning of the week. The sharp advance a week or two ago brought cloe to the front, and hence the arrest of the upward movement of genuine butter. Florists report a quiet week, with prices unchanged. There is still a scareity of Western fish. Dealers report that it is impossible to meed demand. Prices are unchanged. Staple meats move along in the old ruts unaffected by the ups and downs of live stock. Tenderioins and rib roasts are soid at the same figures as when beeves were nearly double their present price.

Following are the latest retail quotations of market basket filling:

Staple Ments.

The best cuts of tenderloin steak range from 20 to 25c, with last figure for very fancy; sirloin, best cuts, from 15 to 18c; ling rib roast, from 15 to 20c; chuck roast, 10 to 12c; best round steaks, 1236 to 15c; boiling beef, 5 to 8c; sweet breads, 20 to 50c per pair; beef kidneys, 10c apiece; beef liver, 5c a pound; calf livers, 25 to 35c apiece; beef liver, 5c a pound; calf livers, 25 to 35c apiece; corned beef from 10 to 12c per pound. Veal for stewing commands 10c; roast, 12½ to 15c; culets, 20c per pound; spring lambs, fore quarter, 10 to 12c; hind quarters, 15c. A leg of mutton, bind quarter, of prime quality, brings 12½c; fore quarter, 8c; loin of mutton, 15c; giblets, 5c per pound. Garden Stuff.

Cabbage, 5 to 10c; potatoes, 20c per half peck; tomatoes, 15c a quarter peck; bananas, 15 to 20c a dozen: carrots, 5c a bunch; lemons, 30 to 40c per dozen; oranges, 35 to 50c; cauliflower, 15 to 35c a head; lettuce, 5c per bunch; beets, 5c per bunch, 85c per dozen; cucumbers, 5c apiece, ( bunch, 85c per dozen; cucumbers, 5c apiece, 6 for 25c; beans, 35c a half peck; apples, 29c a quarter peck; huckleberries, 15c a quart; celery, 5c a bunch; roasting ears, 20 to 25c a doz; eggplant, 10, to 15c apiece; squash, 5c apiece; pie pumpkins, 10 to 50c; watermelons, 20 to 46c apiece; cantaloups, 10 to 25c apiece; California apricots and peaches, 35 to 50c a dozen; German princes, 35c a dozen; Delawarg and Niagara grapes, 15c a pound, 2 for 25c; Concord grapes, 10c a pound.

Choice creamery butter, 30c. Good country

Choice creamery butter, 30c. Good country butter, 15 to 20c. Fancy pound rolls, 30 to 35c. The retail price for fresh country eggs is 25c. The range for dressed chickens is 50c to \$1.00 per pair; ducks, 60c to \$1.00.

Ocean Products. Following are the articles in this line on

Flowers. per dozen; Brides, \$1 25 per dozen; yellow and white, 75c per dozen; Bennetta, \$1 00 per dozen; Beauties, 25c apiece; carnations, 30c per dozen; litium auratum, 20c apiece; gladislus, \$1 a dozen; hydrangea, 20c apiece.

NOVELIST Wm. Black's Great Story is the best fiction ever offered necespaper readers in this Sunday issue of THE DISPATCH.

## HELPS MANY THINGS.

Almost Every Branch of Trade Benefited by House Building.

IMPORTANT DEALS IN REALTY. A Wood Street Landmark Quietly Picked

Up at a Good Round Figure. THE NEWS AND GOSSIP OF THE CITY

Few people ever stop to think how many trades are benefited when one building is erected. Of course, the more expensive and important the structure the more trades are embraced in the operation. Take, for instance, observes the Building Era, a firstclass dwelling house of semi-fireproof construction, with all modern improvements, and let us consider how many different materials enter into it, thus calling upon the various building trades for their respective contributions and service. Beginning with the materials used in the mere construction of the house, we have stone, brick, mortar, lumber, iron, nails, screws, building paper, mineral wool, etc. Each of these materials has required a longer or shorter, and in many cases a difficult and toilsome process to prepare them

When the outer shell of the house is erected, then comes both the exterior and interior finish. The exterior finish requires paint or stains, as the case may be, outside blinds, with their locks and hinges, outer doors with their knobs, escutcheons, locks and hinges, tin or galvanized iron gutters and spouts, shingles, tiles, slate, or tin for the roof.

The interior finish calls for stain, paint, or

hardwood finish, according to the specifica-tions, fireplace furniture and tiles for the hearth, mantels, mirrors, glass for windows and doors, from plain American to French plate, and stained glass of the most approved manufacture, screens, gas piping, gas fixtures and furniture, bath tubs with the necessary pipes and fixtures of brass, copper, or nickel, closets with their appurtenances, sta-tionary washstands in bathrooms with appro-priate fixtures, stationary washtubs with appliances, slop hoppers and sinks with traps, pipes, etc. Furnaces and the necessary registers, or radiators, doors, both single, dwarf, sliding, or double doors, with hinges, knobs, locks and different kinds of fittings and furniture for pantries and storerooms, wardrobe hooks for clothes closets, electric bells, speaking tubes, elevators; and for decoration, wall papers of all kinds, lincrusta, gold, copper and bronze paint, various kinds of plaster ornamentation,

picture moldings, etc.
In fact, there are so many items which enter into the construction and completion of a mod-ern house that it is almost impossible to remem-ber them all at one time. Each of the items mentioned has, in nearly every case, its special manufacturer, and of each branch not one only, but many manufacturers. It will readily be seen then that there are few kinds of business seen then that there are few kinds of business of more importance or more wide-reaching influence in the world than that of architecture and building. In its numerous ramifications thousands of men and many women and boys are employed annually. are employed annually.

Rusiness News and Gossin. Judging from the transactions reported be low something is going on in the real estate market, Croakers will have to haul in their

horns. James W. Drape & Co. say: We have just received notice that a proposition for a large manufacturing plant near the city, involving about \$1,225,000 has been accepted. This is the second deal of a similar character that has passed through our office within 60 days, the papers for one of \$1.500,000 having been signed. all particulars and names being withheld.

Hamnett & Meredith have sold \$20,000 worth of lots in the Edgewood Park plan within a month, or less-all for improvement.

A business writer has figured out that the entire amount of wealth in the world divided by the total number of people living gives a result of only \$7 to each person.

Ten of 35 mortgages on file yesterday were for purchase money. The largest was for \$10,000. \$10,000. Nineteen were for \$1,000 and over. The

smallest was for \$150. Convincing evidence of prosperity in this "neck of the woods" may be discovered in the small number of forced sales. The wolf never visits the door of those who have money to pay

their debts.
The Sterling Emery Wheel Company has decided to remove its plant from West Sterling, Mass., to Tiffin, O. There was some talk of coming to Pittsburg, but Tiffin held out supe-

rior inducements. Messrs, W. A. Herron & Sons are overhauling their offices for the fall campaign. They

look as bright and cheery as a new silver dol C. J. Holman, H. A. Christy and C. H. Craig

have sold their stock and retired from the Ex-The treasury statement of total amount of oney in circulation will show an increase fo

August of \$4,300,000.

W. A. Herron & Sons have opened for sale the Calhoun property at Howard station, Pittsburg, Virginia and Charleston Railroad, adjoining and below Homestead, in plots of 100 acres, as advertised in another column.
Only two permits for new buildings were taken out yesterday. Joseph H. Turner, frame one-story dwelling 12x14 feet, on Rebecca street, Nineteenth ward; cost \$1,900. George C. Garrison, brick two-story dwelling, 20x31 feet, on Ruth street, Thirty-second ward: cost \$1,500.

- C. H. Love—The real estate market is in good shape. I have seldom known so many large deals to be on the string at one time. The inquiry for building lots is very active. The demand for houses is in excess of surply. I

## Movements in Real Estate.

look for brisk times this fall.

It was learned vesterday from a prominen attorney that the property occupied by George A Kelley & Co., and formerly known as the B. A. Fahnestock drug warehouse, corner of Wood street and First avenue, lot 40x80, with a four-story business house thereon, had just changed hands at \$70,000, Mr. Kelley being the

purchaser. Rev. Dr. J. W. Sproul has sold his residence, No. 55 Montgomery avenue, Allegheny, to a young merchant of that city for \$16,000. The transaction was closed yesterday.
It is understood that the price paid for the centrally located business property mentioned a few days ago, was \$57,000. It was purchased

by a prominent real estate broker.
The report published a week or ten days ago that Mr. W. H. Keech had purchased a Shady-side residence was verified yesterday when the deed passed. The property belonged to C. C. Briggs, and the consideration was \$80,000. Mr.

Keech will occupy it as a home. Reed B. Coyle & Co. sold to John McNought, for J. A. Hawkins, a seven-roomed frame dwelling on Church avenue, Emsworth, Pitts-burg, Ft. Wayne and Chicago Railroad, with lot 60x150 feet, for \$2,750 cash.

Hamnett & Meredith sold lots Nos. 10 and 11 n Edgewood Park plan of lots, to A. C. Frey,

for \$2,000. Black & Baird sold for Charles L. Powers 23 lots in the Brown plan, Thirty-first ward, for \$2,300 cash. They were purchased by Galen C. Hartman. They also sold to George Eckert Wagner, lot No. 26 in the J. Walter Hay plan, Nineteenth ward, for \$325.

James W. Drape & Co. closed the sale of four

and sold a farm of over 150 acres on a line of railroad, about 15 miles from the city, for \$10,-Samuel W. Black & Co. sold a lot about 45x 110, Oakland, Fourteenth ward, for \$2,400; also sold for Black & Baird a lot 23x100 on Wilmot street. Fourteenth ward, for \$750. M. F. Hipple & Co. sold for M. F. Hipple a lot 25x120 feet, on the north side of Lytle street,

in the Blair estate plan, Twenty-third ward, for

W. A. Herron & Sons sold a lot 40x160 feet,

on the west side of Negley avenue, formerly Roup street, between Fifth and Wilkins avenues, Twenty-second ward, for \$1,600.

Brown & Saint sold to Orrin H. Price for \$100 a large triangular shaped lot, with 94 feet front-age, on Beech street, Walls station, being No. 159 in Mellon's new Walls plan. They also sold lot No. 135 in the same plan, with frontage of 42 feet on the same street, for \$100.

TRADING IN STOCKS

Of Narrow Dimensions, With a Downward Drift in a Few Specialties. The second and third stock calls yesterday were waterhauls. At the first 85 shares changed hands, besides several bundles of Electric scrip. Active interests were Switch, Pipeage

and Electric,
Although there were no important price Although there were no important price changes, the tendency was downward. Philadelphia Gas and Pittsburg Traction scored fractional improvements, while Pleasant Valley, Luster, Switch and Signal and Electric submitted to slight concessions, as compared with the previous close. Manufacturers' Gas could have been sold at 15.

The market maintains its old attitude of watching and waiting. It would be hard to reduce it to a materially lower level, but a moderate buying demand would easily give it an unward impetus.

tric scrip at 80.

The total sales of stocks at New York yester-day were 129,337 shares, including: Atchison, 7,300; Delaware, Lackawanna and Western, 4,860; Louisville and Nashville, 4,710; Missouri Pacific, 8,300; St. Paul, 14,170; Union Pacific, 6,200.

#### GOOD OMENS.

Local Monetary Movements Show a Satis-

factory Condition of Trade. Heavy checking and depositing and a good demand for money were the features in local financial circles yesterday. These point to a satisfactory condition of business. The ruling discount rate was 6 per cent. Exchanges were \$2,891,713 81, against \$1,920,848 70 same time last year. Balances were \$405,811 59.
A leading financier fired the following broad-

A leading financier fired the following broadside: "If given their way the habitual croakers would do more to bar progress and set the
world back than could the concentrated adverse seasons of a quarter of a century. But,
fortunately, the pessimists are able to exercise
very little influence in this world. The spirit
of trade and commerce is progressive, and
pauses not to seek out obstacles and is not
moved by ill omens due to superstition or disordered liver.

## AFTER THE BREAK.

New York Stocks Not Much Affected by the Great Suwyer, Walince & Co. Fallure-A Rallroad Sensation in the Street.

NEW YORK, September 5.-The great failure of the firm of Sawyer, Wallace & Co. was the principal subject of conversation in Wall street to-day, and the general expectation was that the stock market would sell off upon the bad news. The course of prices, however, gave no indication that the failure had any influence upon the market either one way or the other, but the bulls were inclined to think that as the market had stood such a catastrophe without showing any signs of disturbance, that it would show great strength under any really good news, and the traders were disposed to take the long side again upon that theory. The day, however, brought forth no developments, and the market was as flat as it has been at any and the market was as flat as it has been at any time, the operations in the Granger stocks being confined within very narrow limits with the result of the disappearance of the late activity in them, and the display of a firmer tone in the general market.

A little pressure was brought to bear upon St. Paul for awhile, seemingly to test the stock, but the attack was of short duration and the fluctuations comparatively insignificant. Rock Island at one time showed special strength, and talk was leard in the crowd that a pool was buying the stock, but the dealings in that and the other Grangers gave no evidence that any important interest was trying to accumulate alone. Even Sugar Refineries during the greater portion of the day was dull and stagnant with the rest of the market, and the weakness in silver certificates, while reappearing in the early dealings, disappeared before the forenoon was over, and the trading in them lacked the vim and the volume of that of yesterday. Its prices were well held from that time out, but dullness was the principal feature for the day through the entire list.

The opening was made on a very limited business at irregular changes from last night's

final figures, and, while the traders were inclined to hammer the market at first on the strength of the failure, the resistance met changed them over to the built side, and, during the afternoon, prices were brought up generally to a small fraction better than last night's figures. At this time, however, the sensation of the day was brought out. It was rumored two days ago that after Burlington and Quincy had been disposed of, that Illinois Central would be given a twist. Upon the publication of an article devailing supposed dissensions between the stockholders and the management of the Illinois Central in an evening paper, the stock, which had sold at 110%, was offered down rapidly to 107% on sales of only 1,255 shares. At the same time money was bid up to 12 per cent, and the general market felt the influence, closing rather heavy at small concessions from last night's figures as a rule. The last sale of Illinois Central was 3% per cent below its only sale of yesterday, but it closed at 108 bid, offered at 108%. The course of prices to-day shows that a number of stocks have been largely over-old, and the feeling continues that as soon as the market becomes settled there will be better buying of securities.

Railroad bonds were still dulier than usual DOMESTIC MARKETS.

Choice Nearby Eggs Are Very Firm at Our Quotations. GENERAL PRODUCE TRADE QUIET.

Shell Corn, Wheat and Flour Show Weakening Tendencies.

SUGARS ARE STILL ON THE ADVANCE OFFICE OF PITTSBURG DISPATCH, & FRIDAY, September 5, 1890.

Country Produce-Jobbing Prices. settled there will be better buying ties.

Railroad bonds were still dulier than usual to-day, the sales of all issues reaching only \$401,000, while the dealings were devoid of feature. The San Antonio and Arkansas Pass issues were positively strong, rising each about 2 per cent in the last hour, but no other movement was to be noticed, and the usual stagnation reigned. Western eggs are firm at higher prices than have prevailed the past week or two. Choice Creamery butter is alow, and the cash buyer would, no doubt, find holders ready to concede on our quotations. The only articles in berry lines now on market are elderberries and huckleberries. Apples are in fair supply, but general quality is poor. Melons are slow and prices on the decline. In tropical fruit lines, the market sagged off and became dull, remaining so until the close.

The Post says: The alleged reason for the attack on Burlington yesterday was that there had been a very large falling off in the flour and grain receipts of the Granger roads at Chicago in August as compared with August last year, and that as this would affect the earnings of all the Granger roads, and as Burlington had experienced no decline to correspond with Rock Island, "it ought to decline." There is in fact something in the falling off of receipts of grain at Chicago. This has been caused partly by the speculation in grain, the advancing prices of which have induced country homers of wheat, especially not to send it to market. bananas are the slow factor. Supply exceeds demand. Lemons and oranges are very firm at quotations. The first fruits of the crop of

Florida oranges are due by the 1st of October. Quantity is reported below average, but quality was never better. General trade in produce lines is quiet. Markets have not materially changed the past week.

Wood yesterday returned from Louisville, and while at Cincinnati he conferred with Colonel Merrill about the imhere to Cincinnati. A list of the obstructions which are to be removed has already been published in THE DISPATCH. Captain Wood states that work will be commenced immediately upon Colonel Merrill's receipt of the ap-propriation. The obstructions have caused propriation. The obstructions have caused several accidents to the coal fleet which went out last week. Captain Wood said that the channel at Three Sisters Islands has filled up and grounded one of his boats while on the way up with a tow of empty barges. The crew was paid off and sent home by rail, which is a cost be had not counted upon. The Pennsylvania Ship Canal Commission will meet next Wednesday in this city. Captain Wood states that he will bring the question of low bridges before the commission. It is likely Wood states that he will bring the question of low bridges before the commission. It is likely some action will be taken in order that the surveys can be completed. There is a law which prohibits any bridge company obstructing navigation, and the riverman will make an effort to have it enforced.

Business was light about the wharf yesterday. The big wharfboat was not taken down to the ways until 5 o'clock on account of insufficient water. The United States Marshal stated yesterday atternoon that he would sell the sunken Joseph Nixon next week, to pay the claims against her. Several parties representing lower river transportation lines have arrived in the city to attend the sale of the big steamer, Joseph B. Williams, on Tuesday. The wickets at Davis Island dam were all raised yesterday, which put the water on the six-foot

dull; No. 2, 67c asked. Fiaxseed, \$1 40 bid. Provisions—Pork, \$10 50. Lard, \$5 87%.

Grain, Fleur and Feed.

Sales on call at the Grain Exchange, 1 car No. 2 red wheat, \$1 04, 10 days; 1 car 2 w. oats, 40%c, 10 days. Receipts as bulletined, 28 carloads. By Pittsburg, Ft. Wayne and Chicago Railway, 1 car of hay, 1 of corn, 1 of wheat, 1 of middlings, 1 of malt, 5 of flour. By Pittsburg, Cincinnati and St. Louis, 4 cars of corn, 4 of oats, 1 of wheat. By Pittsburg and Western, 1 car of oats, 1 of wheat, 1 of rye. By Baltimore and Chicago At 1 car of wheat. By Pennsylvania Railroad, 1 car of wheat. By Pennsylvania Railroad, 1 car of hay. The general drift of grain and hay is toward lower prices. Shell corn is dull and oats are steady. Wheat and flour are weak at a decline from highest point reached a week or two ago. Jobbors of flour, however, quote prices at same rates as last week. There is little doubt that the seller will shade prices to the cash buyer. yesterday, which put the water on the six-foot mark. The indications are for a rise within the next few days, a heavy rain storm passing over the city, and reports show it to be raining at all river points. orn is duit and oats are ateady. Wheat and our are weak at a decline from highest point eached a week or two ago. Jobbers of flour, owever, quote prices at same rates as last eek. There is little doubt that the seller will hade prices to the cash buyer.

### MARKETS BY WIRE.

Wheat Active and Higher-The New York Failure Tided Over-Good News From the Corn Belt - May Oats

Strong-Pork Steady. CHICAGO—Wheat—A large business was transacted during the first half of the session. After that the market ruled quiet and steady for a while, but at the close again showed more life, and prices also were further advanced. The opening was about 11/2011/2 lower than yesterday's closing, and it was expected that the market would open panicky, but instead active buying started in at the decline and a firm feeling developed, prices advancing about 1@15/c above opening figures, held steady and later adranced %c more, and closed %c higher than yes-

The New York failure caused some apprehension among operators, and it was on this dealers feared a panicky feeling, but it was claimed that the interest of this firm in gram was small, and the action of a few large traders in buying freely at the opening checked further decline. There was nothing specially new in way of outside news.

decline. There was nothing specially new in way of outside news.

Corn—There was a fair trade during the first half of the session, after which the market became rather quiet. First trades were at 100% decline, the market ruling better later on, seling up 16, reacted some, became stronger and closed with 100% closs. Good rains were reported in the corn belt, especially in Iowa, with the temperature normal.

Outs were weaker and sold 160 lower early in the session. The recession induced a number

ported in the corn belt, especially in Iowa, with the temperature normal.

Oats were weaker and sold 3c lower early in the session. The recession induced a number of Juyers to take hold, and prices advanced 1634c, May showing the most strength, and closed at almost outside figures, and at 3c advance on yesterday's closing for May, but at a slight decline for near deliveries.

Mess Pork—An active trade was reported. The market opened quiet and weak with sales at 356373c decline, quickly followed by a further reduction of 356373c. At the decline the demand improved, and prices rallied 30640c, and ruled comparatively steady.

Lard—A fairly active trade was reported. Opening sales were made at 5c decline, and a few sales were made at 5c decline, and a few sales were made at further slight reductious, Later prices rallied 3610c and closed comparatively steady.

Short Hib Sides—Quite an active business was transacted. Opening sales were made at 10c decline and a further decline of 1061234 was submitted to. Later prices rallied 16620c and closed comparatively steady.

A small sale of Georgia was made at 25/c. There was a fair demand for pulled wools, and sales of super were made at 35@40c, and of extra at 22@35c. Foreign wools were quiet but firm.

New York Drygoods Market.

NEW YORK. September 5.—Business in dry-goods continues fairly active with agents and large with jobbers. Orders came to hand from all sections and more freely than usual from the South, with the demand for the finer grades of goods a new tea ure this season. Pri quite active and many staple cottons were both active and scarce. There seemed to be no general expectation of an advance in prices, but the tone was very firm and some lines are looking up in value, particularly colored cottons, Bleached cottons are also very strong. Agents advanced Hamilton N, XX and O O tickings Mc a vard.

## PAIN! PAIN! PAIN!

The Terrible Suffering of a Lady-Her Neighbors Thought She Must Die. As further evidence of the cures made by the catarrh and dyspepsia specialists of 323 Penn avenue, and of patients who have suffered from disease in its most aggravated form, and after they had exhausted all available means elsewhere, is that of Mrs. Henry Hunziker, who resides at 249 Colwell street, in the Eleventh ward, of this city.

Mrs. Henry Hunziker. The aches and pains she had in almost every part of her body were simply unbearable. Immediately after eating, her stomach would be seized with terrible pain and cramps, which would continue until she would vomit up her food, and the gas that formed would cause her stomach to swell as if it would burst. In fact all kinds of food except milk would cause pain. She had pain over her eyes, dizziness and noises in her ears. Her mouth would have a bitter, disagreeable taste every morning. She had pain in both sides and across the small of her back, and in the night if she lay on her left side she would be seized with the most excruciating pain, and her heart would palpitate as if it would jump out of her body.

Night sweats wenkened her fast, and she had a constant tired feeling, but more tired in the morning than on going to bed. While in his condition she consulted the above specialists, whose reputation for making permanent cures has long since become thoroughly established. She says of the matter:

"Although I had doctored with several physicians and with patent medicines, I got no relief, but gradually grew worse. In fact my neighbors and even I myself thought I could only live a few months. Reading in the papers how Mrs. Bratt had been cured of terrible cramps and pains by the catarrh specialists at 323 Penn avenue I took a course of treatment and now I gladly testify to my complete cure of all my aches and pains as above described. I cherfully recommend these specialists to all suffering from catarrh or stomach trouble. Signed with my own hand.

"MRS. HENRY HUNZIKER." part of her body were simply unbearable. Im-mediately after eating, her stomach would be

Please remember these catarrh specialists are permanently located at \$23 Penn avenue and nowhere else in this city.
