

MR. BLAINE'S RECIPROcity PROPOSITION STRIKES A RESPONSIVE CHORD IN THE BREASTS OF VERY MANY MEN IN PITTSBURGH.

Merchants, Manufacturers, Preachers, City Officials and All Kinds of Business Men

THINK THE IDEA AN EXCELLENT ONE.

It is Considered a Way to Extend the Market and Secure Profitable Trade.

Secretary Blaine's proposition to add an amendment to the tariff bill for the promotion of reciprocal commercial relations between South America and the United States...

The general opinion set forth in the following is altogether in favor of Mr. Blaine's proposition...

A TRIFLE MORE SO.

MANY WHO WOULD GO EVEN FURTHER THAN MR. BLAINE.

Preachers, Business Men and Officeholders Who Think the Scheme Good as Far as It Goes—Some Not as Conservative as the Man from Maine.

Quite a number who were approached thought well of Mr. Blaine's reciprocity as far as it goes...

A. B. Stevenson said Blaine was all right so far as he went, but he stopped short of the goal...

N. W. Shafer, Esq., is favorable to the Blaine doctrine...

John Egan, of Boehmer & Co., says that he is in accord with the man of Maine...

Ex-Alderman J. S. Kennedy, "Pap," likes the idea of reciprocity...

Harry C. Rowley, of the County Commissioners' office, said: "Blaine is my ideal of a statesman..."

W. W. Murray, also of the Commissioners' office, said on the same ground...

County Commissioner Mercer said: "Blaine and I agree on the subject."

Alderman P. B. Kelly said the idea was a good one, but added: "But it defeated Cleveland. The world is meeting."

Some Ingenious Reasoning.

J. W. Smith, of Elwood & Smith, grain dealers, said: "Jim is getting around to my creed..."

Over on the 'Southside.

How Reciprocity Ideas are Regarded in That Section.

Feels That It Might Interfere With the Welfare of Labor—Otherwise the Reciprocity is Universally Extolled.

Blaine and his reciprocity project have many warm friends on the Southside.

Several of the most prominent business men and citizens, who are always interested in public affairs...

John Kemler, the jeweler, was first seen. He said: "I hope Mr. Blaine's project is all right and that it can be adopted to advantage..."

James Irwin, ex-County Commissioner, and Democratic wheel-horse, agreed with Blaine...

Dr. B. M. Harvey, Eye, Ear, Nose and Throat Specialist, also, of 720 Penn street, Pittsburg, Pa.

BUSINESS MEN'S VIEWS.

UNANIMITY IN THEIR OPINIONS ON THE SUBJECT.

The Demands of Trade and a Wider Market—Some Who Pin Their Faith on Blaine—Others Who Would Remove Politics From the Question.

A marked unanimity of opinion was discovered among business men...

George A. Kelley, the wholesale druggist, said: "The idea, as advanced by Secretary Blaine, I think is perfectly feasible."

The business in our line with the countries of South America, at present is comparatively small.

In a conversation with a gentleman who visited South America recently, I learned that there was a prevailing desire among the merchants of that country to trade with the United States more extensively.

They recognize the undisputed superiority of the products of this country over those of the other countries...

Dr. F. M. Pollock, a Democrat, said: "I admire Mr. Blaine for his great ability to see what this country needs for its future greatness..."

Dr. F. M. Pollock, a Democrat, said: "I admire Mr. Blaine for his great ability to see what this country needs for its future greatness..."

by which we can quietly slip in on England and gradually get what belongs to us.

W. C. Bernard was as enthusiastic an admirer of the proposed reciprocity plan as any of those seen.

Said W. J. Friday: "I am up to my eyes in work, but I am always glad to talk to DISPATCH men on any subject..."

John Jenkins, the wholesale grocer, replied to the querist: "I don't care to be interviewed and I am now too busy to talk..."

MUST CLIMB HIGHER.

Light and Power Wires Will Have to Take Second Place on the List.

FORCED TO GET OFF THE EARTH.

Some Municipal Legislation Which Makes Street Railways Rulers.

TWENTY FEET FIXED AS THE LIMIT

Street railway wires rank first in Pittsburg. The wires of lighting, heating and power companies have to either take second place or get off the earth—at least, they can come no nearer than 20 feet, and in many cases they will have to descend the sky at a much greater altitude.

There was a large attendance, but no opposition, and, outside of W. A. Magee, who is a member of the committee, William Flinn was the only one of the city leaders present to look after the interests of this new child of municipal legislation.

WHAT IT ALL MEANS.

The ordinance provides that hereafter all the electric wires of light, heat and power companies must be placed at least 20 feet above the sidewalks, and where there are street railway wires, the wires of the former must be placed a sufficient distance above the latter to be entirely out of the way, and also must have guard wires placed under them to prevent any possibility of broken wires falling down on the street railway wires.

WHAT THEY THINK OF IT.

Mr. Thomas Connelly, electrical engineer, of Manchester, England, and Mr. Alfred Stevens, mechanical engineer, from London, are in the city, the guests of Superintendent Morris Mead, of the Bureau of Electricity. The visitors are here to combine a pleasure trip with the purchase of machinery for a big corporation in London.
