OLEO TO THE FRONT

The Upward Movement of Butter Onto Stendy-No Life in Helps Butterine Trade. Hog Products.

STATE LAW A DEAD LETTER HERE. The Advance in Garden Stuff Arrested by

Timely Showers. LIGHT HIDES TENDING DOWNWARD

OFFICE OF PITTSEURG DISPATCH.
TUESDAY, September 9, 1890. By reference to the domestic market column of late it will be seen that the drift of cheese market has been upward for some time past. One of our leading jobbers in this line said to-day: "The supply of cheese in the Old World is below average this season, and a European syndicate has been formed which, of late, has been buying up American Swiss cheese in anticipation of higher prices. Wisconsin is now the leading source of supply in this country, and advices from the factories there indicate that representatives of the foreign syndicate are gathering in the cheese product as fast as it ripens. Through Ohio cheesedom, manufacturers have been growing firmer in their views of values the past week or two. All

more honored in the breach than in the observ-ence. Chicago butterine manufacturers look

more honored in the breach than in the observance. Chicago butternse manufacturers look upon this as the best point in the country for the sale of their goods notwithstanding the fact that the laws of Pennsylvania forbid the sale of their goods within its borders. In Philadelphia the law is strictly enforced.

Oleo Sald in Quantities.

According to the law on our statute books every constable in Pittsburg is required to take oath again and again that no cleo is sold on his beat to his knowledge. The fact that close to six carloads are sold weekly in this city shows that the law has become a deal letter. Said one of the leading jobbers in dairy products: The law against the manufacturers of cleo in this State has put many of dollars into the pockets of Chicago manufacturers. Just before the law was enacted by our Legislature an Allecheny citizen nut about \$60.000 to the Produce Exchange; rallied like the process of the law has become a deal letter. Said one of the leading jobbers in dairy products: The law against the manufacturers, Just before the law was enacted by our Legislature an Allecheny citizen nut about \$60.000 to the Produce Exchange to down on the crop weather abroad and the increased amount on passage; rallied like the process of the products and the increased amount on passage; rallied like the products are allected and the increased amount on passage; rallied like the products are allected and the increased amount on passage; rallied like the products are allected and the increased amount on passage; rallied like the products are allected and the increased amount on passage; rallied like the products are allected and the increased amount on passage; rallied like the products are allected and the increased amount on passage; rallied like the products are allected and the increased amount on passage; rallied like the products are allected and the increased amount on passage; rallied like the products are allected and the increased amount on passage; rallied like the products are allected and the inc ter. Said one of the leading jobbers in dairy products: "The law against the manufacture of oleo in this State has put many of dollars into the pockets of Chicago manufacturers, Just before the law was enacted by our Legislature an Allegheny citizen put about \$40,000 into a plant for the manufacture of oleo, and his extensive machinery was sold out at scrap from prices, entailing a loss of not less than \$20,000.

from \$1 50 to 75c a busbel, and cucumbers from from \$1.50 to 75c a busbel, and cucumbers from \$1.50 to \$1.00. Last week green beans were active at \$1.00 a bushel. This morning they were slow at 65c to 75c a busbel. Turnips were \$1.50 a busbel last week and are now \$1. Everything an the line of parden stuff has declined since the late rains. But with the sharp decline to day prices are better than at this time last year.

till too high, and generally refuse present rates. Prices have held up better in the West, but even there signs of weakening have appeared in the past week. Light hides have suffered most from the decline. The price of light hides is fully le per pound below the highest point reached last month. Heavy steer hides have not declined so much, but markets in this line are plainly weaker, with the drift of prices downward. the drift of prices downward.

The price of sheepskins fail to move upward because of weakness of wool. The wool mar-ket controls price of pelts, and, as wool is weak and slow, pelits are correspondingly slow. Sneep and lambs being on the upward movement of late butchers are disappointed that pelits fail to jain in this movement. The reason, as given by one of our leading dealers, is the weakness of wool.

Use Hersford's Acid Phosphate. Dr. W. W. Blackman, Brooklyn, N. Y., says:
"I am very much pleased with it in seasickness,
Several cases have been brought to my attention where it afforded prompt and entire relief."

Fleishman's New Clouk Department Offers black cheviot, tailor-made jackets, double-breasted, reefer style, with large lapels, at \$9, worth \$12, MARKETS BY WIRE.

Whent Lets Go on Lower Cables and Free Selling-Corn a Shade Better and

CHICAGO—Wheat—A good business was transacted to-day and prices were again lower. It was mainly local with shorts covering and the longs selling. A prominent local trader credited with having sold 3,000,000 bushels yesterday again sold quite freely to-day. The market opened about the same as it closed yes-terday, held steady for awhile and then became reak and prices declined le, advancing 1%0 and the closing was %c higher than yesterday. Market advices from other points were un-favorable. Cables were generally lower.

favorable. Cables were generally lower. Corn—There was moderate trading, most of which was local within narrow limits. The market opened steady and under good buying advanced 1/61/4c, reacted 1/61/4c, again advanced 1/61/4c, ruled easier and closed with a shade advance.
Outs were traded in moderately and a steady

feeling prevailed. A feature of the trading was the bidding for round lots of May by a prominent local operator, and offerings being light prices were bid up 1/2%c. The other deliveries were traded in sparingly within a small range, and closing prices were at about the outside.

Mess pork—Not much life was manifested.
Opening sales were made at yesterday's closing figures. An advance of 5@10c was gained later in the day, and the market closed at about outside figures.

In the day, and the market closed at about outside figures.

Lard—Trading was only moderate. Opening sales were made at yesterday's closing figures, and a few transactions later in the day were reported at 25c advance.

Short ribs—Hardly enough business was transacted to establish a market, Prices advanced 25cm26.

Cash quotations were as follows:

weaker; yeilow Western, \$2.0003 16. Wheatproducts: It is that has put many of dollars
into the pockets of Chicago manufacturers.
Just before the law was enacted by our Legislature an Allegheny citizen put about \$40,000
into a plant for the manufacture of oleo, and
his extensive machinery was sold out at scrap
iron prices, entailing a loss of not less than
\$20,000.

The Chicago manufacturers are reaping the
benefit of the Pennsylvania law forbidding the
manufacture of butterine. Within the past
few months a combination of the Pittsburg
oleo dealers has been formed by which the Government tax of \$480 is divided between ten
firms. If Uuels Sam's law was strictly enforced
each one of these ten firms would be made to
pay \$480. The law against oleo in this State is
an utter abortion, and the sooner it is abolished
the better. There is no longer an pretense in
this city to enforce the law. As it is the consumer is often made to pay butter prices for an
prices which, if it sailed uoder its own colors,
would not bring much more than half its present prices. The law puts a premium on crooked
dealing, and in the end the people are the sufferors.

Rains Wenken Garden Stuff.

The late hot weather and timely rains have
had the effect of bringing to a sudden end the
upward movement of garden stuff. For a
week past tomatoes have been firm at \$1 25 to
\$1.50 a bushel. Yesterday morning \$1.00 was
casily obtained. To-day market is draggy at
50c a bushel. Yesterday morning \$1.00 was
casily obtained. To-day market is draggy at
50c a bushel. Roasting ears have dropped
from \$1.50 to 75c a bushel, and cucumbers from
\$1.50 to \$1.00. Last week green beans were

TOLEDO—Wheat active and firm; cash, 96%@ 97c; September, 97c; December, \$1 01; May, 100. Corn dull; cash and September, 49c. Oats quiet; cash, 36%c. Cloverseed active; cash and October, \$4 37%; December, \$4 50.

DULUTH—Wheat was weak and most old to-day, firming up near the close. Closing prices are as follows: September, \$1 00\\(\frac{1}{2}\); December, \$2 00\(\frac{1}{2}\); Cash, No. 1 hard, \$1 00\(\frac{1}{2}\); No. 1 Northern, \$4\(\frac{1}{2}\)c.

New York, September 8.—In the absence of Western mails, trade in drygoods at first hands was more quiet on the surface, though there continues a steady, full movement of the productions of many mills to meet the urgent demands of jobbers. The Bates staples have been advanced 'gc a yard. Business in bleached cottons continue very fair, and colored cottons are very firm. The market generally is in good shape and under a firm tone. Jobbers had an active trade.

When baby was sick, we gave her Castoria, When she was a Child, she cried for Castoria, When she became Miss, she clung to Castoria, When she had Children.she gave them Castoria

IT WILL BE BUILT

Promoters of the Short Cut Railroad to Homestead Mean Business.

LITTLE MORE LIGHT TURNED ON.

Pittsburg Speculators in the Same Boat

With Those in Other Cities.

THE NEWS AND GOSSIP OF THE CITY One of the most important of the projected suburban improvements is the Short Cut Railroad to Homestead. It has been referred to more than once in this column and is brought up again to afford opportunity to say that there is no longer a reasona-

changes were \$2,297,241 15, and balances \$263,619 45.

Line upon line is old but good. It causes
people to think, Exchanges in 1806, when the
Clearing House was established, were \$83,781,242 17. Last year they rose to \$654,760,507 41.

This year they will approximate \$800,000,000 if
the unexpected do not happen. All this in 24
years. Marvelous growth.

A Wall street specual says garding the
money market, it is thought at the bear
party will manipulate it as mu., as possible
between now and the 10th inst., when it is expected that the Treasury disbursements will
relieve the situation.

Money on call at New York yesterday was
tight, ranging from 6 to 25 per cent, last loan 20,
closed offered at 20. Prime mercantile paper
nominal at 7698. Sterling exchange dull, but
steady at \$4 74½ for 60-day bills and \$4 85 for demand. Mr. Ira M. Burchfield said yesterday: "I am now satisfied that the road will go through. The promoters have spent over \$1.00 in surveys and other preliminary work, and as they are shrewd business men, they would hardly do this without knowing how they are to get their money back. Several routes are under consideration, but I think the one through Calvary Cemetery will be selected."

The road will be of great benefit to the district through which it will pass by aiding in the sevelopment of property, stimulating improvement, and opening up new territory to home.

New York Citations. 124 Mr. & T. Gen. 3s., 65½ U. S. 4s. reg. 124 Mr. & T. Gen. 3s., 65½ U. S. 4s. reg. 104 Mr. & T. Gen. 104 Northern Pac. 1sts., 116½ Pac., 16s., 105 Northern Pac. 2ds., 114 Northwin doesnis 140 Nort ble doubt that it will be built.

ment, and opening up new territory to home seekers. It will reduce the distance to Home stead by nearly four miles, bringing that bor-ough practically into the city, and opening up to its citizens business opportunities, the want of which they have long felt.

Trentment of Inciplent Fires. A French savant suggests a new method for extinguishing incipient fires. After mention-ing the great expense at which many factories mills and stores have indroduced pipes and valves for extinguishment by water, he says: "The most simble and efficient of all sub-stances for fire extinguishment is sulphur. This, by heat, absorbs oxygen and forms sul-phurous acid, the fumes of which are much heavier than air. The quantity required would be small, since 70 grammes of sulphur can make 100 cubic meters of air unsuited to aid combus-tion. Besides sulphur, which gives every satis facton-both in its effects and from its low cos -we find a similar property in another active and cheap substance, ammonia. An automatic sulphur extinguishing apparatus can be made of various forms. One consists of a large sheetiron box of moderate depth and open at the top, hinged at one end or side to a protected ceiling and kept close up thereto by a cord or wire connected with a wire or strip, formed chiefly of cadmium, fusing at 144° F. Inside the box is to be placed a considerable quantity of cotton wadding containing much powdered sulphur. On the heat of an incipient fire melting the wire or strip, the box drops a short dis-

sulphurous acid gas is instantly evolved, extinguishing the fire by rendering the air unfit for combustion." The objection to this is that the appartus might be set in operation by accident, in which case it might cause a serious fire. But this could be guarded against on the same principle The matter is of great importance, and every new theory or suggestion should receive careful

consideration. Business News and Gossip. The Building Inspector had an easy time yes terday. Only two permits were issued, one to James Moreland for a brick addition to his store and dwelling, on Penn avenue, Nineteenth ward, to cost \$2,500, and the other to George Atkinson for a chicken house, to cost \$75. Plank walks are being iald in Brushton. Bet

er late than never still holds good. A mortgage expert said yesterday: "The talk of Eastern money being cheaper than the home article is all bosh. It is really dearer, for it is expensive to place. Besides, thos who control it are so particular in the choice of property that it is but seldom all the conditions can be met. A loan of \$10,000 has just been refused on a purchase money mortgage on which \$25,000 has been paid. Eastern people

want cream or nothing." There were only 19 mortgages on the list yesterday, seven of which were for purchas money. The largest was for \$4,200,
J. J. Shanefelter has sold his membership
and retired from the Exchange. Those who affect alarm in regard to the stability of the real estate market should bear in mind that as a rule property is bought for im prevenent. This is a guarantee of security.

Shareholders of the Bank of Pittsburg voted yesterday on the proposition to extend the charter for 20 years. So far as could be learned the vote was unanimously in the affirmative. Talk on Wall street yesterday was unfavor-able to holders of stocks. Too many are want-

Movements in Real Estate. It was stated yesterday by the owners that the Demmler property, on Sixth avenue, has never been offered at a lower price than \$3,000 a foot, Samuel W. Black & Co. sold a Schenley lease hold, on Sherman avenue, Allegheny, fronting the park-being a lot 20x110 feet, with dwelling

Charles Somers & Co. sold to G. Mattes, for J. O'Neill, the property No. 873 Chartiers street. Allegheny, consisting of a lot 24x140 with a two-story frame building, containing store-room, hall and six dwelling rooms, for \$4,100. Ewing & Byers sold for George M. King to Joseph McCall a new two-story frame house of five rooms and hall, with lot 20x100, located on Wandless street, near Wylie avenue, for \$1,600,

on easy payments.

Black & Baird sold for T. A. Gillespie to S. Leech lot No. 47 in the Herron Hill Park plan, Thirteenth ward, fronting 40 feet on Madison avenue by 100 in depth, for \$1,000. George Schmidt sold to Joseph C. Zinsmeis ter one of his new six-roomed frame dwellings, with lot 30x100 feet, on Cypress street, for

\$1,000 cash; also a lot in his Herron avenue plan, between Wylie and Center avenues, for \$750 cash. Slean & Co. sold lot 164 in Kline Bros.' West Wilmerding plan to Mrs. McCreery for \$600 also four lots, same plan, to Jos, Brown for \$600. They also sold lots 173 and 174 in Lemington square plan to John Curtin for \$450, and 16 and 17 to Robert Mackinsen for \$1,000. Charles Somers & Co. sold for George Mc Kee to J. Martin Runz vacant ground 22x110,

End. for \$900. ABOUT THE SAME,

Limited Demand for Home Securities and

No Important Price Changes. The total sales of local stocks on call yester-day were 145 shares, contributed by Electric Philadelphia Gas and Pleasant Valley Railway Closing prices, as compared with those of the previous day, showed some gains in Pleasant Valley and Luster, and corresponding loss in Philadelphia and Bridgewater gas. The rest of the list was about steady.

sellers whenever they could find anybody willing to take the stuff. Pennsylvania oil opened at 82, which was also the highest. The lowest was 80, and the closing 80%. Clearings were 165,000 barrels, Buckeye remained out in the A broker said: "Buckeye oil is not handled A broker said: "Buckeye oil is not handled right. We have no direct wire to Lima or Findlay, and don't know what they are doing. If we were in direct communication with them, as we are with New York and the Pennsylvania oil country, the stuff would be continually before us during the sessions of the Exchange, and we could take advantage of the fluctuations. This would certainly stir up trade by giving the pykers a chance."

strong and Higher Throughout the Day-

Rise at the Last Hour-Money Bids Run Up-Government Bonds Dull and Stendy. NEW YORK, September 2.-The stock market was without stimulus to-day of any kind, but the pressure to sell was much less than yesterday, and as a consequence prices moved more in obedience to natural inclination than for some time past. All the news of the day, which was very meager, was rather of a favorable tenor, but was not of a character to have any material effect upon the course of prices. The railroad statements were all on the right side of the account, and the reports from Boston went to show that the failure of Potter, Lovell & Co, would not turn out so bad as expected. The reports from Washington, how-

ever, did not give so favorable a prospect for sugar, and less business was done in that stock, with some reaction from yesterday. The bears renewed the pressure upon Chicago Gas and, to a lesser extent, on Burlington and Quincy. Rock Island was firm, with light transactions. St. Paul again occupied a prominent place in the dealings. Lackawanna was a feature, and showed marked strength at times, under considerable animation. Illinois Central sold higher, and was still in demand at a premium for use, while late in the day none was offered below 112, which is I per cent better

than the last sale before it was marked off so rapidly. The feature of the day was the strength in the afternoon in the face of high rates exacted for money which reached 25 per cent at one time and closed at 20. There were a large number of loans called and the shifting of loans made a sharp demand. The weakness in Chicago Gas was accompanied by the old rumors of some action against the company by the local authorities. The demand in the loan crowd for stocks was fully as urgent as that for money, while the prespect of easy money gave the bulls encouragement the bears were taking in their contracts under cover of high gave the bulls encouragement the bears were taking in their contracts under cover of high rates for money. The realizations in the last few minutes caused a slight set back, but the close was strong. The final changes, with a few unimportant exceptions, are almost entirely unanimous in upward movement. Rock Island, Missouri Pacific and Pacific Mail are each up 1½ and Union Pacific 1 per cent.

In railroad bonds the tone was rather heavy and while the business done reached \$630,000, the only important changes were losses of 1 per cent in Canada Southern 2nds at 97, Colorado midland 4s 1½ at 736734, and Denver City cable firsts 1 at 100. Government bonds have been dull and steady. State bonds have been entirely neglected.

The Post says: The stock market was strong and higher throughout the day, the highest

and higher throughout the day, the highest prices having been made in the last hour when prices having been made in the last hour when nearly all stocks were from ½ to ½ higher than yesterday the greatest advance having been on the grangers, with Lackawanna Pacific Mail and Union Pacific next in order. Money was bid up to 10 per cent, but no larger amounts were placed at the high rate.

The following table shows the prices of active stocks on the New York Stock Exchange yesterday. Corrected daily for THE DISPATCH by WHITNEY & STEPHENSON, old Pittsburg members of New York Stock Exchange, 57 Fourth avenue:

OFFICE OF PITTSBURG DISPATCH, P TUESDAY, September 9, 1890.

The hot weather of the past few days has been very damaging to perishable stuff. Large quantities of apples are on the market in a sorry condition, and are being sold at nominal prices Potatoes, both Irish and sweet, are slow and show a downward drift. Creamery butter has weakened, and prospects are for lower prices before the week is out. The recent advance of butter has served to stimulate the butterine trade, and the genuine article is slow. Eggs are very firm, and outside prices are easily obtained for fancy nearby stock. The great

tained for fancy nearby stock. The great scarcity of the apple crop is already felt in the advancing prices of cider.

APPLES—\$3 00@4 00 a barrel.

Groceries. The sugar market does not show the same firmness as noted for the past week or two. While there is no reduction, prices are evidently weaker. Coffee is fairly steady. Teas are very firm at the advance noted in this col-umn a week or more ago, and prospects are for still further advances. There are no signs of a let-up to the upward movement of all canned goods. Everything in the fruit and syrup line is firm, with an upward tendency to prices.

white, 10c; globe, 14@14%c; claine, 14%c; carnadine, 11%c; royaline, 14c; red oil, 11@11%c; purity, 14c.

To the long list of complete and permanen well-known merchant tailor, of Sharpsburg. tion that formed in her throat became very tenacious and hard to spit out, she felt much

pain in her lungs and across her back and shoulders. She also had pain and a nauseous, sick feeling in her stomach after eating. She could get but little sleep, and she had a weary, tired feeling.

After taking a course of treatment from the catarrh specialists, she says: "With the many others of my Sharpsburg friends who have been cured by the catarrh specialists at 323 Penn avenue, I gladly testify to my complete cure. I sleep good, and feel entirely well. I sign my name MRS. V. HENSEY."

Please remember these catarrh specialists are permanently located at 323 Penn avenue, near Fourth street, and newhere else in this city.
