BRIGHT OUTLOOK IN LUMBER LINES

OFFICE OF PITTSBURG DISPATCH, WEDNESDAY, September 16, 1890. Country Produce-Jobbing Prices. Large quantities of stuff have been coming to market in bad shape by reason of hot weather, and the result has been that the drift of markets is downward. Apples are in large supply, but choice stock is scarce. Potatoes are slow at a decline from rates which have are slow at a decline from rates which have prevailed for a week or two past. Sweet potatoes are in supply above demand, and prices are weak. Grapes are coming in freely, and quality of offerings has very much improved or late. With improved quality prices are drifting downward. In tropical fruit lines there are few changes in the past week. California fruits are firm. Bananas are slow, and lemons and oranges are strong at last week's prices. Eigin creamery butter is slow at prices Ic per pound creamery butter is slow at prices ic per pound below last week. Cheese is still very firm. Fresh nearby eggs are steady at outside quota-

Sugars are weak as a result of reaction from ate boom. Coffees are steady. Crops are undoubtedly below average in this line, and any doubtedly below average in this line, and any future changes are about certain to be toward a higher level. Teas have advanced from 5 to 8c per pound in the past month, and prices are very firm at the advance. Markets for canned fruits are unsettled. The few who have a surplus of goods are very firm in their views of values. All signs point to higher prices for all canned goods. The movement of general groceries continues very active. Staples are more valuable than money, as stock can hardly be replaced and sold at present prices.

Largest Run of Cattle of the Season at the East Liberty Yards.

THE AVERAGE GRADE VERY POOR.

Common and Inferior Stock Slow at a De-

OFFICE OF THE PITTSBURG DISPATCH, WEDESDAY, September 10, 1890. The supply of cattle for the local trade at East Liberty yards was the largest of the season, while quality was below average. At the opening of markets on Monday morning there were over 140 loads on sale. Later in the day there were reinforcements, and the total arrivals for the week have been about 160 carloads. Our local trade calls for little more than half this number. As a result of the big run markets were off 10 to 15 per cent from last week on all grades excepting prime stock, which were not to be had. Light tidy butcher beeves, weighing from 1,160 to 1,200 pounds, would have easily brought last week's prices, but they were

not on hand in carload lots.

The hot weather of the early part of the week had a bad effect on the selling interest. This with the generally common and inferior quality of offerings, had a depressing influence on trade, and placed sellors at the mercy of buyers. Frime beeves, weighing 1,500 to 1,700 hs, were quoted at \$4.50 to \$4.75, but so far as could be armed there were none of this grade on sale, he top of the market at East Liberty was \$4.25. t hers who handle prime stock are buying sect from Chicago. Certain it is that they uld not have been supplied from the East berty yards this week. The quality of cattle fered at Herr's Island this week was fully up average, and, in a retail way there were sales ere at \$5.35 per hundred.

Higher Prices in Chicago.

Advices from Chicago indicate higher prices for the week to come. Top prices there are \$5.25, and there is little doubt of an advance here or heavy losses next week to the drover. There were about 20 car loads of sheep and lambs on the market at East Liberty yards this week. Quality was scarcely up to average, and far below par. A single deck of sheep weighing about 162 pounds of fine quality was sold at \$5.00. This was outside of the regular market. The general range for sheep was \$1.50. This was outside of the regular market. The general the market varied very little this week from last. Good stock was firm, and low grades, which were in the majority, were slow. The run of hogs for the week has been light as compared with last week, and markets have been quiet. There were about 23 loads on sale Monday, and top prices were 175 to \$8.50. NEW YORK, September 10.—The local drygonds jobbing trade continues on a scale of full activity, and it includes considerable package business. The movement is regular and at steady prices, Jobbers are behind hand in shipments, and the facilities are overtaxed and embarrassed by accumulation. With the commission houses there was not much change. Business continues good in cottons, and the market tone remains strong.

the yield of spring wheat than the last report. The opening was from about the same as yesterday's closing to 1/20 lower, prices varying some, but declined after some fluctuations 1/20, or off to \$1 01 for December and \$1 05 for May, then became stronger, and under fair buying advanced steadely 1/20, or to \$1 021/2 for December and \$1 031/2 for May, cased off some, and closed 1/201/2 for May, cased off some, and the first times was relatively firmer on the near futures, October in particular, while May was heavy. Rains were reported in Missouri, but elsewhere in the corn oelt the weather was clear. First trades were at a slight advance, prices ruling firm for a time, then, went off 1/201/20, advanced 1/201/20, card wanced 1/201/20, card and higher. Prices advanced 1/201/20, and closed at nearly outside figures. The strength was attributable to the advance in wheat and corn, and to the purchases by a heavy local trader.

Mess Pork—A moderately active trade was reported. Offerings were light carly. Rather more pressure to sell later, particularly for October, and prices declined 50200 on the near future and 123/201/2 on the deferred deliveries. Toward the close the decline in prices for the deferred delivery was fully recovered. The market closed steady at about medium figures. Lard—Not much life was manifested. Changes in prices were slight—rather favoring sellers.

Short Rib Sides—Very little business was A level-headed business man who has acquired a large fortune in the stove trade, said vesterday: "I have just returned from New York, where I had a good opportunity to investigate the financial situation. I could discover nothing wrong in it. Business men said they could get all the money they wanted at 6 per cent or less. Speculators were the only ones that complained of pressure. They prey on the public and the bankers prey on them. Wall street is a land unto itself. Tight money there does not necessarily imply the same condition else-

"So far as I could learn from p rominent mer-chants with whom I talked, business throughout the country is in excellent condition. Orders from the interior are liberal, and collections easy. No better proof of prosperity than this can be found. When people are doing little or nothing they are slow about paying. Now that the tariff, the railroad strike and the silver question are practically out of the way, I look or a heavy movement in all lines of trade. Pittsburg stands high in the East as a field for safe and profitable investment."

Changes in prices were signs—sellers.

Short Rib Sides—Very little business was transacted. Prices exhibited very little change.

Better Feeling Among Stock Traders-

Raid on Luster. Sales of local stocks on call yesterday were 280 shares, furnished by Luster, Pipeage and Electric. Brokers displayed more animation than usual. Some thought the market was on the eve of a revival. Luster was the center of interest. It opened at 26%, dropped to 25, rallied at the last call and closed at 26. The only reason assigned for the depression was manipulation. It found support in time of need.

A cashier said: "With money sufficient to keep all business moving it is useless to speculate and theorize about what has been or what may be. Pittsburg is all right, and is likely to may be. Pittsburg is all right, and is likely to remain so." Exchanges were \$2,414,168 04 and balances \$342,572 70.

A New York financier remarked: "It is a mistake to suppose that the high rates which prevailed yesterday (Tuesday) were due to manipulation. The fact is that borrowers held off early in the day, expecting to fill their wants at 6 per cent or lower. So many did this that the scramble after delivery hour was natural. NEW YORK STOCKS.

Dullness and Singantion-Government and State Bonds Henvy-No Life in the Street-Four Per Cent Bonds Pre-

sented at the Sub-Treasury. NEW YORK, September 10.-The duliness in the stock market has been most marked to-day, though in most stocks which have been prominent through the attention paid them by the bears in their efforts to get prices off were comparatively active and showed considerable movement, while in the general list stagnation was the order of the day. The rally of yesterday was still in progress at the opening of busi-ness, and materially higher figures were reached in some cases, but the confidence in the future, which has of late received such se vere setbacks was not sufficient to continue

the buying until prices had been put upon a materially higher plane.
Rates for money were still abnormally high and served to check the propensity to invest upon the long side, but the news that large amounts of the 4 per cents were being presented for payment of the interest and stamp-

sented for payment of the interest and stamping put a damper upon the aggressiveness of the bears as the afternoon wore along.

There was no news of a character to have any material influence upon the course of prices, and, after the first demand had been satisfied, prices settled back again and duliness and stagnation soon overspread the whole market, even the leading stocks becoming quiet and motionless with the rest of the list. Chicago dispatches stated that Chicago Gas had compromised its differences with the city, but had had to reduce the price of gas from \$1.25 to \$1 per 1,600. This was of such a neutral character that it took all the life out of the stock, and from the leading active specialty it subsided into the most profound duliness, with no movement in either direction. The St. Paul carnings for the first week in September were well received, and the effect was similar to that in Chicago Gas, but the pressure was still

well received, and the effect was similar to that in Chicago Gas, but the pressure was still kept up on Burlington and Quinoy, and in the afternoon that stock was hammered down to something below its opening figures.

The industrials were almost neglected. The general list developed no feature of interest throughout the day, and the close was dull and heavy at the close to the lowest prices of the day, the declines being for fractional amounts only, and % per cent limit. The earnings continue to make an excellent showing, and reports in to-day for the first week of September show the following percentages of increase over those of last year:

RIVER INTELLIGENCE.

High Water Enables Boats to Come Iu-Considerable Coal Shipped During the Considerable coal was sent out yesterday to Cincinnati and Louisville, and shipments will be continued to-day. Most of it was taken by the big boats, and the smaller ones will be held in reserve to leave to-day, if the river shows any inclination to go higher. Heavy rains from points above were reported yesterday, and it is thought the next few days will see much higher water. The marks registered 7.9 at 4 P. M. yesterday and rising slowly. The Ship Canal Commission took up the question of low bridges at their meeting, and it is probable some action will be taken in regard to having bridges on the Allegheny raised in the event of the French creek route being decided upon by

The fleet with empties from below arrived during the day. Much difficulty was experienced securing deck hands, as usual. The crews were paid off, and they all started out to have a good time. The consequence was that half of those that came up and received their money wound up in the lockup, and the others were "out of sight." Those who are able to go out demand exhorbitant salaries, and the shippers granted their demands rather than hold the boats back. A prominent way operator said that the shipment which will amount to about 3,500,000 bushels, will not affect the market at Cincinnati very much. Seven and one-half cents is the price asked, and it is paid willingly, despite the fact that a great amount of coal is coming out of the Kanawha.

THE Iron Age, with empty rail boats, passed Evansville en route from St. Louis. ALL the Pittsburg and Cincinnati packet boat will likely be on the go next week.

THE Coal City arrived with empties and left last

night for Ciuciunati with 13 barges.

THE Tom Lysle came up with empties, and will go out to-day if hands can be secured. NINE feet was in the Ohio at Davis Island at 6 o'clock last night, with every indication of highe REPAIRS are being made to the Iron Duke at her landing. She will enter the winter trade greatly remodeled. THE south shore from the Point to the railroad bridge is lined with emptics, which will be sent above to be reloaded.

that the Joseph Nixon will be sold by him some time this week, but thus far the sale has not been advertised as the law required. The opinion prevails that the boat is not worth as much now as one week ago, when she sank. Her hold has filled with mud, and it will cost considerable money to to raise her.

The Post says: Up to 2:30 o'clock over \$12.750,000 of the registered 4 per cent bonds had been presented at the United States sub-Treasury in New York for the prepayment of the three-fourths of the interest due respectively on January 1, April 1 and July 1, 1891, thus calling for \$382,500, which would otherwise have been held in the Treasury until the dates mentioned. The payment of the quarter's interest, due October 1, had already been provided for by checks payable September 22, and so makes the payment of the nearest quarter's interest come after that of the other three, but judging from the disbursements at the New York sub-treasury to-day, the total amount of interest now coming out of the Treasury is approximately \$1,000,000 per day, and there is reason to expect that something like this rate will be continued until the whole of the annual interest on the \$500,886,300 of the registered 4 percents, amounting to over \$20,000,000, has been paid.

The following table shows the prices of active stocks on the New York Stock Exchange yesterday. Corrected daily for The Dispatch by Whitney & Stephenson, eld Pittaburg memheavy. The Post says: Up to 2:30 o'clock over \$12.750,-
