Telegraphic News of Occurrences Throughout Three States.

PECIAL TRLEGRAM TO THE DISPATCE.1 MESSON SPRINGS, September 11.-The sident's family are enjoying the sensa-Rion of coming to their meals to-day in rubber coats and under umbrellas. The rain began yesterday and has come down in continual showers since. The President is better, and Mrs. Harrison has recovered from the attack which had kept her in the cottage for several days. The Park Cottage is almost hidden with trees, which makes its situation rather damp, To that and the in-

have been laboring.

Mrs. McKee traces her neuralgia to the sunhidden Park Cottage, and accordingly yes-terday the trees were thinned out a little. The trees are in Mrs. Park's thoughts all the day and in her dreams all night, so that how she

and in her dreams all night, so that how she may take the act is not known. Probably, though, the trees will be all right before next summer when Mrs. Park expects to come and live at Cresson.

It is now decided that the G. A. R. posts, at Altoona and Tyrone, will be here on Saturday, and preparations for the gayeties attendant bave begun. To night the President, instead of going directly home after dinner, showed himself for an hour or so in the parlor of the hotel, and thus the excursionists that came in to-night on the Pennsylvania Railroad had an opportunity to shake hands with him.

Little or no official business was done to-day. The President confirmed the appointment of Edmund C. Fowler to fill temporarily the position left vacant by the resignation of Assistant

Edmund C. Fowler to fill temporarily the posi-tion left vacant by the resignation of Assistant Postmaster Clarkson. Judge William Strong, formerly of the United States Supreme Court, arrived at the Mountain House last night. He is accompanied by his daughters, the Misses Strong. Another distinguished arrival is Judge Thomas McCalmont, of Washington D. C. Colonel William A. Stone leaves to-morrow for New York. He is not here on political mat-ters, nor did he call to see the President. The Colonel says as the President and he are both seeking rest at Cresson they are not likely to seek each other's company.

ALMOST A CRISIS.

Matters Assuming an Exciting Aspect in the Irwin Strike.

COLUMN TELEGRAM TO THE DISPATCH. IRWIN, September II .- Matters were nearer a crists to-day than at any time since the strike. As early as 4 o'clock this morning the people began to flock around the coal tipple where the new men are working, and as the hour approached for them to come from their houses, the excitement became intense. When the first man was seen coming, heavily guarded by police, with sledge hammer handles in their hands, matters looked rather squally. The women crowded upon the typple and jostled the police, one of whom had his hat knocked off, and had he ever thempted to have retailated on and had he ever attempted to have retaliated on the woman, he would have fared badly. There was no decided break and there will not likely be anything of the kind.

A strange scene was presented here this evenng, when three women followed one of the men
lowe to Jeannette, they sitting behind him and
earing its pass all the way. The company
as not succeeded in getting their 500 negroes
ere as promised. Italians are now what the
perators are after. It seems uncertain
hether they can secure any more Poles or
assums in New York, and to gather up any
nd of a body of Italians west of Pittsburg
il be a difficult matter, as they are pretty flicult matter, as they are pretty l in the West, and all have good work on public improvements, and three good work on public improvements, and those who are union men are very well aware that there is a serious strike here. Reports are being circulated by parties lavorable to the companies that there was nearly a riot here. This is untrue. Several of the deputy sheriffs wanted to but they had no one who cared to fight them. Vice President Turner says that, as nearly all the new men have left, he will try his best to do away with the crowds, and the

MINERS WIN THE FIGHT.

Their Scale is Adopted, but Larger Operators May Object.

PEPECIAL TELEGRAM TO THE DISPATOR! ALTOONA, September 11 .- The Joint Committee of Operators and Miners, appointed by yesterday's meeting, made their report on a scale of dead work to the convention to-day. clement weather may be traced the little ail-ments under which the distinguished family operators working small veins in producing coal of an average of 5 cents per ton over that now paid, but at the same time a decided advantage will be given to those operating on large coal veins. An addition of 50 cents to what is now paid was made for mining coal out what is now paid was made for mining coal out of ten-feet headings and cross entries. The miners asked \$100 for this work. An addition was given for siate and soft rock. For rock bottom 25 cents for six inches or less, and for every inch above six inches 2 cents per yard additional will be paid. These prices on dead work will not govern a five-foot vein, operators claiming that the scale would work disastrously against those working thin veins. Operators say the matter will yet be satisfactorily adjusted.

The scale adopted will go into effect on October I, 1880. The question of an advance in the price of mining was not taken up, the sentiment being among the operators that it could not be considered until the expiration of their present contracts. It is a question whether the larger operators who were not present, nor convergenced will accent the scale adopted. represented, will accept the scale adop

Where the flats turn off there are branch pipes iaid, which furnish jets of water along the line, so that several places can be watered at the same time. The work is progressing slowly but surely. BARGAINS THAT TALK. We are offering bargains that speak for themselves. The greatest Shoe sale on record has just been inaugurated at these stores, and we are particularly anxious that patrons should avail themselves of this rare opportunity to buy stylish, reliable footwear at lower prices than have ever been quoted before,

OUR GOOD LUCK. A few months ago we invested heavily in Shoes, anticipating an advance in manufacturers' prices. Our judgment proved correct, and, as a consequence, we are to-day in a position to offer bargains which no other house in business can approach. It is almost unnecessary to add that we carry none but reliable makes. Our reputation in that respect is established. We go on the principal that good articles recommend themselves. A

careful scrutiny of the following items is urged upon those who would benefit by this great bargain sale. Come as soon as possible. If prices continue to advance in the East we may run short of some lines. WHAT WE OFFER:
