A Unanimous Report.

The committee deliberated upon its work for nearly two hours, after which a resolution to the Republican County Committee wasadopted, stating that it had unanimously found that a majority of the votes cast by delegates bearing uncontested credentials were for Mr. Neeb, and the committee recommends that he be declared the regular nominee of the party for Senatorial candidate in the Forty-second district.

A portion of the committee was disposed to suppress the correspondence of Messrs. Entan and Neeb in regard to the contest, but it was at last decided to give the letters to the public. This conclusion was not reached, however, uutil Mr. Neeb was asked about the matter, and he promptly replied that in justice to himself he intended to make his letter to the committee public, no matter what the action of the committee might be. For this reason both letters were made public. Mr. Rutan's letter was addressed to the committee, who referred it to Mr. Neeb, and his reply followed.

Weighing the E-vidence. The committee held a long session and every point of the contest was discussed at good citizens of that borough.) gave me an great length. They weighed carefully all the arguments made on e ither side, and at the close were unanimous in their decision that Mr. Neeb had every I mest right to the nomination.

Neither Mr. Neeb nor Mr. Rutan was present at the meeting, but the former was in easy call and met the Endividual members of the committee imm ediately after the close of the conference. He seemed pleased at the outcome of the meeting, though he said he didn't see how the decision could have been otherwise. Mr. Neeb said last evening that he did not tlaink Mr. Rutan would endeavor to carry the matter any further, and therefore the con test is ended.

Mr. Neeb was found at the Young Men's Tariff Club last night, but preferred not to make a statement. However, he said, in answer to questions:

Leels He is Vindicated.

"There is no necessity for me to make a statement, as everything is explained in my letter to the committee. There can be no doubt of my nomination now if there could doubt of my nomination now if there could have been before. I was honestly nominated at the convention, and Mr. Rutan so ac-knowledges. He refused even to appear be-fore the committee. I had no need of a vindication, but if there was such a need, it has come now." Mr. Rutan was not before the committee to make a statement, nor could he be found last night; though his door bell was pulled, with great diligence about 10:30. The report of the sub-committee on the contested nomination will be submitted to the next regular meeting of the County Re-

Some time after this they came to Mr. Stumpf, and demanded the return of the credentials, claiming that a mistake had been made and that Mr. McGeary was elected. Mr. Stumpf naturally suspected something wrong, and re-fused to give up his credentials, for the elec-tion officers ware no novices but old hands at serving on election boards, who would not make such a vital mistake, which I don't believe even a board composed of gentlemen who had never conducted an elec-tion officer wors of air as to give each of the gen-tlemen half of the votes of the division of the system. For the sake of harmony, Mr. Hunter declared that, although he was right and had conscientionsly decided in the Jackson case, he would withdraw the decision if the Ratan people would come back. Mr. Armstrong submitted this message to the "Rump" moeting, where he was received with derisive remarks. When he came back with that report the regularly elected dele-gates proceeded with the work of the convention, and as the result I hereby submit the rolls kept by the scerearies, Messra, Charles H. serious Alarm of a Revolution in the Swiss Republic.

By Associated Press.] BERNE, September 12 .- Swiss insurgents hold Luna, Mendrano Chiasso and Locarno. Federal troops are being seut to the scene of the rebellion in the Canton of Ticino. The revolutionists have formed a provisional covernment and convoked a popular assembly, declaring the existing Government and the Grand Council dissolved and ordering general elections for next Sunday. The insurrection, caused by a difference of opinion regarding the revision of th constitution, is assuming a serious aspect. The Liberals occupy the town stations on the St. Gothard Railway, and a counter re-volt is feared. The populace support the insurgents, and the Civic Guard occupies the telegraph offices, thus preventing the supporters of the Cantonal Government from communicating by telegraph with each

other and with the National Government. representative. A later dispatch says: The revolt has collapsed. The troops have been well re-ceived by the revolutionists. While passing the corner of St. Constant pecial committee of the House appointed and Laganchetierre streets the trio was accosted by a number of ruffians who asked for money. Before they had time to comply with the request-which was their intention-the Prince and his friends were attached Inst how it happened is not known, but in a moment the Prince and his friends were engaged in a rough-and-tumble fight with six

of their assailants. The Montreal nabob was soon laid low, and for a few moments things looked bad for the Prince and the officer, for six to two were big odds. Then the Prince and the Lieutenant got back to back, and, handling their fists with true British pugilistic science, astonished the roughs. Three of these fell before the scientific hitting of royalty alone, while the other officer laid two low and the sixth took to flight. Had matters ended here everything would have been lovely. But they did not. For along came two of Montreal's most stupid French "pobbles. who, seeing six men lying on the sidewalk

and two others bending over them, arrested and took them all to the station in spite of the protests of the Prince. They were all of course considerably battered and tough looking from the result of the fray, so no protests or requests could ob-tain release, and they locked up the royal prisoner. Finally, the Sergeant of Police consented to telephone for Colonel Hughes, the Chief of Police, who came to the station in great haste, recognized the prisoner and immediately released him. Then there was a trembling lot of police expecting prompt dismissal, and somebody would have gone had it not been for the request of the Prince that no such harsh measure be taken. Humble apologies followed, however, and a hack was called for the Prince and his friend, who, accompanied by an escort, were driven back to the hotel. The affair has been a well-kept secret.
