turned to Europe, and especially to England, allured by the higher pay ruling there than here. Miners are very scarce in

than the supply-of transportation facilities, of the roads to handle the cars. The yards are fully stocked, and despite the fact that there are over 3,500 idle ovens in the region, the accumulation is increasing.

A SETTLEMENT PROBABLE.

There seems to be a likelihood of operations at the Standard Works being resumed very shortly. A meeting between the company's representatives and the workers for the purpose of seeking a settlement, held will be in New York to-morrow, and will during the week, was not effective in ar-ranging the matter. President John B, timely and calculated to meet the difficulty Rae and Secretary Robert Watchorn are on the ground at the time of writing, and the the Treasury will be the payment in advance reserve there of two such conservative of a year's interest on the \$65,000,000 of leaders, is another way of saying that an adjustment will be effected. There is no sixes. probability of the question reaching the courts, unless, indeed, a compromise on the amount of loss suffered by the company in last coke cannot be made.

Business in window glass during the week is reported as quiet, with many inquiries and lew sales. Jobbers are credited with iding about in the expectation of making better terms further along. In this they may find themselves mistaken. May not a reason for the many inquiries and few sales is inund in a suspicion on the part of the obbors that prices are likely to advance offer the 16th of September, and a desire on the part or the manufacturers to hold their goods for the same reason? Though a gen- of the duty to be made at the end of two rat denial has been given to the reports, sufficient is known of the intentions of the window glass men to indicate what the outcome of the meeting in Chicago will be. In wrief, it may be stated to be the formation of brief, it may be stated to be the formation of a purchasing and selling committee which is the assertion that within a few months will act as a general sales agent between the individual factory owner and his customer. This is not at all in the nature of a combine or a trust, as it has been represented to be, It cannot be since each owner retains his individuality and control of his factory.

BALES BY THE CARLOAD.

It is understood that in future no sales than earload lots, and that orders tor less will be turned over to the jobbers as a sort of pis aller. Also that sheet glass shall not copy and be convinced. be sold to jobbers, owing to the custom of importers of cutting and mixing assorted qualities with foreign glass and selling it to hetter advantage as all imported. Further, the plan has in view a decided hostility to imported glass. The product of the different factories will be carefully inspected, and none but the best qualities will in article comes in competition with the for-These, in short, are the salient points in the plan which the committee having the scheme in hand will report at the meeting on Tuesday. It is said that a large major-ity of the manufacturers have yielded their esion, and that the meeting next week will result in a consummation of the plan. The advantages of this plan are obvious, Suedy manu acturers will no longer be a to sacrifice their stock to some jobber to obtain needy money, but can sell to a committee of their own body at market rutes. The jobber no longer able to undersell his rivals by the advantage thus gained. and create a discordant element in the mar-ket, will have to buy but from the one ket, will have to buy but from the one available source, only obtaining such terms over his rivals as will follow the ext-nt of his business with the agency. The opening of the tall season will inangurate this new of the tall season will inaugurate this new system, and there is scarcely a doubt but that the signature of all the manufacturers will be obtained next Tuesday.

market for a per cents. It is not the fact, as the Treasury is ready to take a consider-able amount of 4s if they are to be had. The inquiry instituted yesterday by the Secretary of the Treasury developed the

there than here. At here are very scarce in this district, and many operators are unable to man their mines. From the coke regions comes the old cry of car shortage. The demand is much larger than the supply—of transportation facilities. and customers at the furthest points are re-transformer to indicate that ported as being embarrassed by the inability anxiety based on this feature of the situahas been largely without foundation. As to further measures of relief in so far as the existing stringency can reasonably be said to be due to the inevitable operation of existing laws governing this collection and disbursement of the Government revenues, the Treasury Department will not hesitate to apply such effective remedies as the law

permits and the situation requires. The Secretary of the Treasury, on his re-turn to Washington from New England, as it exists. It is said one of the minor about to introduce large pipe organs from

# COFFEE MERCHANTS OBJECT.

### Privileges Grante ' to the Proposed Auction Company Raise a Racket.

RIO DE JANEIRO, August 18 .- The coffee merchants met in this city to-day to protest against the grant made by the Government to the organizer of the proposed coffee auctions of the privilege of shipping coffee sold at those auctions without immediate payment of export duties. This grant, which allows the first payment on account years and the other payments gradually thereafter, is called by an evening paper a usurpation and a scandal. One of the grounds on which the Minister

Congress will approve the Constitution, published by the Government, abolishing export duties. This paper asks him whether he thinks the future Congress so servile that he can anticipate its action. It is stated that the person obtaining the grant is a relative of Deodoros. It in our big show windows. P. C. C. C., PITTSBURG COMBINATION

AN INCLINE ACCIDENT.

The Engines on a Southside Road Get Out of Control.

## At about 11 o'clock yesterday the engines

on the Pittsburg and Knoxville Incline of future be sent to points where the native the Southside refused to work properly after a trip had been made and the cars immediately began moving back into their former positions, one going up, the other down. The reverse lever broke and it was impossible for the engineer to control the engines. The trip was a quick one and the cars crashed into either end of the incline. On the lower car was a man and a team of

horses. The wagon was broken to pieces and the driver's arm slightly hurt, but the horses escaped. On the upper car were the conductor and two passengers, but no one was injured. The damage was quite extensive, but will be repaired immediately.

PURESTEROMOST HEALTHRULE

Our great special sale of these Garments, inaugurated September 1, is still in progress, and will continue a short time longer. Hundreds have taken advantage of the unpre-cedented bargains offered in this department, and all were delighted with their purchases. A saving of from 25 to 40 per cent on the dollar means const derable. That's exactly what we will save anyone who buys here while the present sale Jasts. \$27 OO 3-piece Sol Bureau. Other suites varying in price up to \$40. Equal in value,

# FORTUNATE FORESIGHT.

During the sultry summer months we thought of winter's chilly blasts to come, and nvested heavily in Plush Garments. This was before the sharp advance in prices of material and workmanship took place. Consequently we can well afford to sell the good away below what other houses ask for them. In fact, we are selling Seal Garments to-day at less than they could be bought direct from the manufacturer. If you have any-doubts on this point, come and investigate.

# FIGURES DON'T LIE.

The importance of this sale will be more fuyll appreciated by noting carefully the

hair growing in tufus from scats, moles and birthmarks, destroyed forever without pain,

shock, scar or injury by the Electric Needle Operation by Dr. J Van Dyck, Electro Surgeon, Philadelphia Surgeon, Philadelphia and 502 Penn avenue, Pittanner. This superfluous growth of facial har (As) is surprisingly prevalent. We see it in the drawing room, street and wherever fadl s con-gregate. Every hely with hair on her face knows that the use of depliatories, the twees-ers, scissors and razors all make these hairs grow coarser, sliffer, darker and more numer-ons. There is only one method in the world by which this obnoxious growth of hair can be de-stroyed forever and that is by the

ELECTRIC NEEDLE OPERATION
