from New Castle, captured the hearts of her audience by reciting "The Veteran's Daughter," and she was compelled to reply to the encore. Miss Parks, of Allegheny, also gave a recitation.

At the reunion of the One Hundred and First and One Hundred and Third regiments of Pennsylvania Volunteers, Colonel Taylor, of the latter regiment, who now resides in Greeneville, Tenn., made a strong address to his old comrades. The roll of the missing in these regiments was very large and there is a very small remnant of their

ON DRESS PARADE.

The feature of the day was the dress parage. The veterans formed in line and climbed over the rocky hills and marched across the grassy fields, making a splendid appearance. Many a one in the ranks was heard to remark that it was more like the old life over again to be compelled to climb hills and shy around rocks, and they say that street parades don't compare with this for the real spirit of the thing. After reaching the parade grounds the field maneuvers were gone through with in a manner that shows plainly that the former teachings have not been nor never will be forgotten. The "fours abreast; march!" and the "first rank right wheel; march!" were executed with a precision that would make

regulars feel proud. Then the Sons, 200 strong, commanded by Lieutenant Colonel H. M. Rebele, proceeded to show what they could do. They were in strange contrast with their veteran fathers, who had broken ranks and were back watching with pride the coming detenders of the country's flag. The young men made a fine appearance, healthy and strong and dressed in their natty uniform of blue. Their maneuvers showed that the boys are early learning the arts of war, useless in peace, but if their country calls they will be ready to strike out in her defense. This closed a gala day for the Grand Army

men of Western Pennsylvania and Eastern Ohio. It was a day of good cheer, though the parting was often sad, for no one knows who will be among the missing at the next of after which the Presbytery settled down to rollcall one year hence.

HEROES OF THE FORTY-SIXTH. THE FIFTH ANNUAL REUNION HELD IN THIS CITY.

New Officers Elected at the Business Meeting-The Next Gathering at Gettysburg-A Fenst of Viunds, Orntory and Wit in the

The fifth annual reunion and meeting of the members of the Forty-sixth Pennsyl- waving frantically for recognition. Modervania Volunteer Infantry Association was held yesterday in this city, and the next meeting will be held at Gettysburg, July 20, next year.

In the afternoon a business meeting was held by the survivors in Post 3 hall on Fourth avenue. There were members present from Ohio, Indiana, Illinois, Iowa, was called to order by President Joseph Matchett, and Rev. Mr. McGuire, Chaplain of the Tenth Reserves, offered up prayer, after which the old chaplain delivered the address of welcome. He referred to the valor and bravery of the members of the regiment now living and colorized the memory of the fallen dead. President Matchett responsed after which the President Matchett responded, after which the election of officers was held. The following

are the new officers elected:
President, Daniel Davis; Vice Presidents,
Charles Fisher, N. A. Frederick, Cyrus, Shade,
James Baum and Mr. Moorehead; Chaplain,
Rev. William K. Burbeck; Secretary, George
R. Beecher; Treasurer, Captain Benjamin
Morgan; Surgeon, Dr. G. W. Burke.
At 9 o'clock the members assembled at the
Hotel Hamilton, where a banquet was served
in the spacious dining hall. Covers were laid
for 50 persons, and just 48 sat down, It was
not a large crowd but what it lacked in numnot a large crowd, but what it lacked in numbers it made up in good fellowship and enthusiasm. The menu embraced everything in the way of good edibles, and the ld boys lost no time attacking be enemy. It did not take them long to put own the good things, and at the conclusion of the last course chairs were tilted back for the flow of oratory and wit. Cigars were lighted, and as the thick blue smoke carled cellingward the speechmaking was berun. The first address was by Fred Norton, of New York, on "The Education Luftmens of the Norton, or The Schustien Luftmens of the Norton of the N address was by Fred Norton, of New 1 ork, on "The Education Influences of the Army." Captain Morgan responded to "When the Boys Were Young in the Service;" Captain Matchett, "Gur Regimental Association," and Dr. Burke, "Our Regimental Association," and Dr. Burke, "Our Regimental Association," and against the speeches there were

eral good time indulged in until midnight.

the War. The eighteenth annual reunion of the Eighty. fifth Regiment Pennsylvania Volunteers tool

place at Uniontown yesterday. The city was gayly decorated with flag, bunting, etc. Nearly the entire number of the surviving comrades were present. The early part of the day was spent in general greetings among the old soldiers, and as the day was pleasant the streets were crowded

At II A. M., a veteran, once a drummer boy in the Eighty-fifth, took a position near the Opera House and beat the "assembly." Instantly, as the old familiar sound reached the ears of the Eighty-fifth boys who were strolling about the streets, they turned their steps in the direction of the support of the first tenth of the streets. direction of the sounds which they had so often beard and obeyed. All soon assembled in the Opera House where the society was called to order by President G. S. Fulmer, who introduced R. F. Hopwood. Esq., who delivered a short address of welcome. President nimer responded in a few words.

On the stage stood a life-size oil painting of the gallant commander of the old Eighty-fifth, Colonel Joshua B. Howell. In the parade 150 vectorians were in line. At the Opera House in the evening were addresses by Rev. George Drbin, Captain H. J. Van Kirk, Hon. John Collins and others Collins and others.

THE GALLANT SIXTY-THIRD.

Annual Renaion of the Association at Shields Station.

The annual reunion of the Sixty-third Penn sylvania Volunteer Association was held yesterday at Shields station on the Fr. Wayne road. About 150 of the old boys were present, many of them coming from a distance. Two were on hand from the West who traveled 1,600 miles to get here. Quite a number of the members went to the G. A. R. celebration at el John A. Danks was the head officer

the regiment, and Mr. Morgan was the utenant colonel. The veterans spent a sat delightful day. Addresses were made by Colonel Danks, Colonel Morgan, Collector of the Port John F. Drave and Colonel Gray. An stories and renewing old acqu

AND THEY ALL HAD A GOOD TIME Wilkinsburg Veterans Return Home Please With Their Outing.

Wilkinsburg is the home of a large number of Grand Army men, and the picnic at Rock Point yesterday was the great event of the year to a goodly part of the population of that borough. It seemed as if everyone were going to the picnic yesterday morning. Nearly 300 tickets for Rock Point were sold at the railroad sta-tion of the Pennsylvania Reilroad, and there was more excitement there than has been seen

Last night the returning veterans and their friends declared that the day at Rock Point had been one of perfect enjoyment. There had not been a bitch in the arrangements all day, and the affair had been a perfect success

Postponed Until Sunday.

The reunion of the Arsenal explosion say vivors, which was to take place yesterday, was postponed until Sunday afternoon. Yesterday was the anniversary of the terrible event, but the Grand Army pionic drew the members to Hook Point, which occasioned a postponement.

STORY OF A WATCH.

It Was Intended for a Nebraska Bride but F. It Irto Other Hands.

"Dash" McCoy was arrested last night by Officer Pierce Brennan, while in campany with Charles Shefford, a stranger in the city. latter clasms he gave McCoy his watch which the well known Hardscrabble resident promised to sell for him. "Dash" carried out his conto sell for him. "Dash" carried out his con-tract but tried to get out of paying over the money. As "Johnny" McTirhe says "they were chewing the rag" when the officer came along and arrested them. Shefford lives in Nebraska and says be bought the watch for a young lady to whom he was engaged to marry. The couple had a row and he did not give her the watch. He came East and had no sooner struck the town than the watch got him into trouble.

Blairsville Presbytery Severs His Connection With the Johnstown Congregation.

A HIGHLY EXCITED DISCUSSION.

The Doctor Reviews His Distribution of the Subscription for the Flood Sufferers.

BLDER FULTON INSISTS ON THE LIE.

Synod.

The Matter to be Referred to the Next Meeting of the

The second day's session of the Blairsville Presbytery was much more spirited than on the previous day, from the fact that the members had to dispose of all the important business for which they met to consider in two days, and the finish was very exciting. Bright and early the delegates who were absent at the opening session arrived at Wilkinsburg, and drove out to old Beulah Church, about three miles north of Wilkinsburg, over one of the worst roads in the whole State. The thickness and depth of

the mud was beyond measurement. Promptly at 9 o'clock Moderator Oliver, of Latrobe, called the ministers to order, after which he offered prayer. Routine business of the session was quickly disposed

A mild feeling of excitement prevailed when Dr. Ewing, of Blairsville, arose and requested the Presbytery to dissolve the relations of Dr. G. J. Beale as pastor of the Johnstown church without further investi-

THEY WANTED THE FLOOR, Before he had quite finished his remarks Dr. F. L. Senour, Dr. Wightman, Dr. Beale and several others were upon their feet ator Oliver held that they were all out of order, and requested Dr. Ewing to proceed with his gentlemen became sufficiently calm to allow the

penternen became summeratly caim to anow the speaker to continue.

Dr. Ewing upon regaining the Moderator's attention presented a petition signed by 163 members of Dr. Beale's congregation, requesting the Presbyeery to recall him from his charge.

This concluded Dr. Ewing's speech, and be relinquished the floor to four or five other ministers who stood up and one of the other ministers who are the other ministers where the other ministers where the othe thom, in order to gain the presiding officer's attention, arose before Dr. Ewing had concluded, and the Moderator was compelled to Interrupt the speaker while he requested the delegate to sit down.

A motion was made to hear the committee

A motion was made to hear the committee appointed by the congregation, but to this Dr. Beale and his friends strongly objected. Their objections were not sustained and the committee was heard. The first speaker was Eider Fulton, one of the prime movers against Dr. Beale. He said: "It is in defense of the Board of Elders that I attend the session, and not to create more dissatisfaction. The Board of Elders accepted Dr. Beale's proposition, which was that the board and Dr. Beale would resign. He did not resign until last Sabbath, when he called a meeting without consulting the board and tendered his resignation. Of course, it was not accepted by his friends. There is no use in us having lengthy speeches on this matter. Dr. Beale must go in order that peace may be restored."

SOMETHING LIKE CONGRESS.

Dr. Beale then presented a number of netitions, which begged for his retention. He was asked who the signers were, and he replied, "Well, some are members of any congregation "Well, some are members of any congregation while others do not attend my church." Objection was made to this, but not sustained.

Dr. Milliker stated that he had heard Dr. Beale make arrangements with the board to resign.

said, "I deny that such an arrangement was made by me."

Dr. Milliker retorted, "I do not take you into consideration. I am talking to the Presbytery."
After Dr. Milliker's speech, the minister

Dr. Beale was upon his feet in an instant and

under charge took the floor in his own behalf, and reviewed at length his work at Johnstown. In his remarks he stated that he had distributed every cent of the money sent him for the flood sufferers to those it was intended for

regardless of denomination.

After Dr. Beale concluded a vote was taken on Dr. Ewing's motion, which passed with an on Dr. Ewing a motion, which passed with an overwhelming majority, and it was thereupou declared that Dr. Beale was no longer pastor of the Johnstown Church. Dr. Beale protested against the action of the Presbytery, and said he would take the matter before the General Synod at their meeting this fall.

WOULDN'T TAKE IT BACK. The Board of Elders presented their resigna tions, but the Presbytery would not act upor them, and referred it to the congregation for

further consideration.

During his remarks Dr. Beale denied that Elder Fuiton had called him a liar, but Fuiton jumped up and said he did call Dr. Beale a liar at which the latter replied, sarcastically, "I did not know that the gentleman had condescended to bonor me so much."

Loud rapping of the gavel followed this and the presbytery was declared adjourned, amid great confusion.

After the storm passed over, every one met and discussed the action in an apparently amicable manner. Dr. Beal appeared in good humor and consoled himself with the reflection that he would find recourse in the Synod.

ONE OF THE REFUGEES

Becomes a Sick Man and is Invited to the Hospital ty of the Central Station.

Officer Moessner, of No. 2 police station Eleventh ward, discovered a very sick man on the hillside near Herron avenue last evening. His face was covered with sores, and the officer deemed it best to send bim to the station. Thence he was taken to the pesthouse, but the attendants there would not receive him, as he was not a smallpox patient. Then he was returned to the station house, and Dr. Mayer caused in, and said that the man had when the sun beats down on the street it is almost impossible to stand the odor. Dr. Mayer catted in, and said that the man had not smallpox.

It developed later that the man's name was Myasky, that he was a Russian refugee, and had been in this country but about two weeks, and had left a wife and two children at home. In all probability he will take a ride to the

TO CHEAPEN PRICES. OBJECT OF THE UNITED STATES

BAKING COMPANY. The Wages of Managers Fixed Yesterday-25 Factories in the Organization-How the New York Bakers Were Deceived

by a Syndicate. The United States Baking Company held another meeting yesterday at the Anderson Hotel. The main object was to fix the salaries of some of the managers. Nothing was done with prices, and they won't be advanced unless flour should go up again.

was done with prices, and they won't be advanced unless flour should go up again. The members have always been loth to talk about the company, but last evening the secretary consented to speak.

It is a regular joint stock company that has purchased 25 factories in the middle district of the United States. No factories east of Buffalo are in the Association. The object is not to keep up prices, but to make bread and crackers cheaper. The bakers were forced to combine by the New York Biscuit Company, which is controlled by moneyed men who don't knew anything about the business, but who have the men from whom they bought in their employ. Their factories were purchased by an alleged English syndicate, and each one supposed that he was dealing for himself, when one bright morning the bakers woke up and found themselves in the same pot. Some, when they saw what a foolish thing they had done, bought stock in the new company at an advance in price; that s, repurchased their own concerns. It was to avoid the repetition of such a trick, so the secretary claims, that the United States Baking Company was organized, and it aims to protect the weakest as well as the strongest. Having worked hard to build up a trade, the members propose to reap the profits themselves. The only drawback the secretary could see to such an organization was that the price of the products would finally become so cheap as to make it impossible for small men in the business to continue. It is not the object to crush them, but it is a natural consequence. The company hopes to reduce prices by practicing rigid economy and avoiding waste.

At first the drivers and drummers were fearful that they would be no longer needed, but the new company has use for all of them, and the secretary states, sever had any intention of discharging them.

A TRAIN CALLER MISSING.

The Mysterious Actions and Disappearan of James F. Garrison.

Inspector McAleese was yesterday informed of the mysterious disappearance on August 11 of James F. Garrison, who formerly lived on Lafayette street, Twenty-third ward. Garrison was employed as a train caller at the Lake Erie depot. He did not return home on the evening of August 11, but stopped at his mother-in-law's house and told her he was looking for a man who had caused him some trouble, which he could not explain until he

trouble, which he could not explain until he returned. The next heard of him he was in Hamilton, Canada, and telegraphed his wife that he would send her some money soon. He also sent a postal card in which he said he would return in 25 days.

On August 21 Mrs. Gamson received an envelope postmarked Lockport, N. Y., containing a lot of old papers known to have been the property of her husband and a note which read: "Good-bye my darling wife and children. God bless you all and take care of you all. Minnle, forgive the fool if you can, for I am nothing else. From Jim." On the other side of the note was: "If any person linds this for God's sake send it to the people addressed so that they may know I am dead." It is not known who sent the package.

AN ARGUMENT AGAINST GOOD ROADS It Would Make Hay 50 Cents a Ton Cheape in Allegheny.

Talking of country roads, said a man who ives in the country: "Why bless you, we farmers don't want good roads. If we had them hay would be permanently cheaper, by at least 50 cents a ton, than it is now. It is true we could haul as much more at It is true we could haul as much more at a load, which would be equal to an advance of \$2.50 per ton, so that were the roads good the result could be, practically, that we could get \$2.50 ton more than we do now, but we Western Pennsylvania farmers are not generally given to ratiocination as those of Ohio. We can only understand that good roads would make hay permanently cheaper in Pittsburg, and that is all Allegheny county farmers have to sell unless they raise fruit or garden stuff, and we can further understand that it would increase our taxes somewhat if we were to make better roads. Why it is not a great many years since a wealthy

NO MORE HELP FROM RAILROADS.

How the Companies Made and Fostered Business in the Past.

A NEW ROUTE INTO THE COKE FIELDS

When C. S. Wight, General Western Freight Agent of the Baltimore and Ohio road, is not busy, he is always willing to talk, and he seldom opens his mouth without saying something. In a general conversation yesterday about the railroad business "As for the volume of business being car

ried by our road at the present, I notice by reference to the report for the first week in September that it is up to what we did last year. We have all we can do to handle the traffic and cars continue to be very scarce. The general tendency of railroad rates these days is downward. This is the result of competition from other roads and from territory. I can explain what I mean by the latter expression by citing an example. To-day the Central Traffic Association is asked to reduce the rates on coal from Detroit to Chicago by the Detroit people. They state that formerly their competitors in manufacturing were in Central New York, but the New York people have gone into Chicago and farther west.

FORCED TO GO WEST.

"The Detroit people now claim that they can't compete, and unless the rate on coal is reduced they must either move to Chicago or go West. In the same way the Mahoning Valley pig iron has been shut out of the Southern markets by the growth of the industry in that section. We are not carrying much pig iron any more from this valley to Southern

points.

"Before the days of the inter-State law the radiroads would tell a business man in Illinois to make trade in New York, and manufacturers in the latter State to go to Illinois, and then by a system of through low rates to take care of the business after it was created, and the rates for intermediate points could be maintained. the business after it was created, and the rates for intermediare points could be maintained. But you can't do that now under the law. The rates all along the road must be changed.

"The business men of this country are learning that, as the West is growing and becoming able to take care of itself, they must depend on the local markets to keep up their trades. It is impossible for the railroads to help them much longer by reducing the rates. They are down to hard pan now. The great railroad problem is how to reduce expenses. It is true the gross earnings of roads are large, but on account of strikes, the higher price of labor and other causes the operating expenses are larger.

RAILBOADS MAKE CONCESSIONS. "If the Government controlled the railroads now. Uncle Sam would be worse off than they are now. Uncle Sam would probably fix a minimum rate below which it would be impossible to go, while the railway managers at present are willing to strain a point, if it can be done. usiness men would be worse off than they are

expenses are larger.

be done,
"By the way, on this question of wages, for it
enters into the problem, a gentleman from
Europe remarked to me the other day that we
Americaus had no idea how well off we were.
Our workmen are well fed in comparison to the
laborers in the Old World: in fact the average laborers in the Old World: in fact the average American mechanic fares as well as the wealthy people of Europe, and the rich of this country live away ahead of the kings and princes. In America a man can marry whoever he pleases, but few stop to think how the liberty of the titled classes are curtailed in the Old World. They are bound down by social rules and questions of political policy to such an extent that their wills are not their own. Only the other day I was amused at a ridiculous thing. The Prince of Wales intended to visit a wealthy Hebrew in Austria, because he liked the man. When the Austrian nobility heard of it they wrote to Wales that he was not permitted by the court of etiquette to do it, and he didn't. No such social laws would be tolerated in America. After all we would be tolerated in America. After all we ought to be happy."

MERGING TWO ROADS. MEASURE TO SAVE MUCH TIME AND SOME DISTANCE.

The State Line and Fairment, Morgantown and Pittabu .; Unite Under a Common Name-Both Roads to be Extended in the

The directors of the State Line Railroad met yesterday at the Baltimore and Ohio office, and agreed to merge the line with the Fairmount, Morgantown and Pittsburg. At the same time the directors of the latter line met at Fairmont and signed the agreement. The name of the new company will be the Pittsburg, Fairmont and Morgantown road. General Manager Patton, of the Pittsburg and Western, was President of the State present. Line, and Thomas M. King acted in that capacity for the other road. The merger means that instead of each company extending its own line until the two met that one company

own line until the two met that one company will do the work for both.

The State Line road was projected to run from Uniontown to the West Virginia line. About three miles have been built. The other road was mapped out to run from Fairmont, on the main line of the Baltimore and Ohio road, to Morgantown. Of this road 26 miles of track have been laid, and this much of it is being operated. It is the intention in the near future to extend both lines and connect them. Rights of way are being secured now along the State Line south, but no contracts for work have been let. When the extensions are made the new branch will cut off considerable distance for the Balti-more and Ohio to Southwest points from the lake regions, at the same time relieving local yards of this traffic. It is needless to remark that they are always badly crowded. The distance from Fairmont to Grafton is 22 miles. The route from Uniontown to Fairmont is almost a straight line, and all the coke for the Southwest going over the Baltimore and Ohio Southwest going over the Baltimore and Ohio can be taken that way. A reference to a map of the Baltimore and Ohio road will show at a glance how much is saved in time and distance.

The territory through which the new road will run is rich in coal fields and farming products. When it is built it will be one of the valuable branches of the Baltimore and Ohio

system. BUSINESS FOR AUGUST.

The Penus Ivania Company Shows an Increase in Net Earnings. Secretary Liggett, of the Pennsylvania Com any, yesterday issued his statement of the s done by the road in August as compared with the same month of last year. For the Chicago, St. Louis & Pittsburg road there the Chicago, St. Louis & Pittsburg road there was an increase in gross earnings of \$63,561.61; net earnings, \$32,960.81; a gain in net earnings of \$30,600.77. For the eight months of 1880 as compared with the same time in 1889 there is fin increase in net earnings of \$308,231.03.

On the Pittsburg, Cincinnati & St. Louis road there was a decrease in August of \$4,076.80 in net earnings as compared with the same month of last year. For the eight months of this year in comparison with last year there was an increase in net earnings of \$156,698.68.

A Guide for the People. The "Railway Guide" for Pittsburg and Allegheny is out for September. Division Passenger Agent Smith, of the Baltimore and Ohio road, who is one of its authors, states a lot will be left at the Exposition for the accom-modation of country people and other visitors.

A PLEA FOR LOCAL WORK. MR. KILMAN OF THE GRANITE CUTTERS

ON IMPORTED WORK. What an English Technical Journal Says of Pittsburg-Tatter and Hogg Will be Enabled to Fili Their Orders-A Wildent

Miner's Stilke Story. Mr. F. Kilman, of the Granite Cutters National Union has submitted a periodical report to the President. He observes with pleasure that another firm, namely Kunkle & Jordan, of Hazelwood, have gone into the business of granite cutting. Beggs & Son, of Allegheny, still continue to employ foreign labor at lower wages than the trade calls for. Mr. Kilman continues.

calls for. Mr. Kilman continues.

I wish to call the attention of our members to the fact that the contract for the erection of the new Carnegie Library in Pittaburg will soon be let. Thousands of dollars have been lost in the past to the granite cutters of Pittsburg and Allegheny through the unfounded and senseless preference, which some Pittburg people have displayed for work done by Eastern firms. I have said before, and I still maintain, that the Hussey building, the Fidelity Title and Trust building, the Germania Bank building now rapidly approaching completion, and a number of others, all erected by Pittsburg firms, will be found on examination to be superior in workmanship and general finish to the Carnegie Library building of Allegheny, erected by an Eastern contractor. We hope that the preference, which too many people show for work done away from home, no matter how it may compare with the product of home industry and skill, will not stand in the way of some of our well-known firms obtaining this contract. Such a method of doing business may be fashionable, or "English, you know," but it is not calculated to benefit the granite trade in this vicinity, nor to help our business they lose in the quality of to help our business men, for what they gain in fashionableness they lose in the quality of workmanship and cost of construction, while at the same time they assist in swelling the

AN ENGLISH VIEW OF PITTSBURG.

English Manufacturers Will Sigh for The Conl Bills When They bee the Gas. Referring to the approaching visit of the British Iron and Steel Institute of Pittsburg the London (Eng.) Engineering says:
"Four days will be spent at Pittsburg, and from a technical point of view, will probably be the most interest of the entire period. This is

the focus of the American steel and iron trade, and is endowed with very great natural advantages. It is located in the middle of a rich mineral region, which not only teems with coal and iron, but spouts forth oil and gas and salt in a way which renders it one of the wonders of the world. Pittsburg is in the Mississippi in a way which renders it one of the wonders of the world. Pittsburg is in the Mississippi watershed, and at certain times of the year can be reached from the gulf by vessels drawing 20 feet of water. It has access to the Atlantic by the lake system, 150 miles distant, and in addition has most ample railway facilities. The city is in the center of the Appalachian coal field, which has an area of 15,000 square miles and does an enormous coal trade. Throughout the counties embraced in the coal region are found extensive beds of iron ore, and there are equally large deposits in the counties east of and lying along the bases of the Allegheny Mountains. The irons of the celebrated Juniata region are close to Pittsburg, while to the west are those of castern Ohio. But the crowning glory of Pittsburg is its natural gas. Other lands have coal and iron and railways, but none other has such an abundant, cheap and easily utilized fuel. Many an English manufacturer will sigh as he thinks of his coal bill when standing among the gas wells and noting their immense output."

THREE FAMILIES OF PUDDLERS Who Supply No Less Than Nineteen Union

Workers Between Them. Puddling proclivities seem to run in families. There is one instance where three families supply no less than 19 puddlers. John Walker, Sr., of Sharpsburg, a powerfully built man, of 54 years of age, has nine sons who give the iron trade the preference for a livelihood. They are: John Walker, Jr., Jacob, Courad, Peter, Adam, William, Chris. Edward and Harry, who, though yet at school, will become an iron

wan, though yet at school, will become an iron worker.

There is another family of six brothers, namely, Michael, Mathew, Mathias, John, Paul and George Eckhammer, who also follow the same trade, and four other brothers, named respectively Charles, Jacob, Lewis and Frank Debold, also follow the same occupation. In addition to the latter, the family numbers two addition to the latter the family numbers two others, also puddlers, now living in Iowa. The father, Mr. Joseph Debold, who is nearly 70 years old, began puddling in Pittsburg 45 years ago, when there were less than 100 furnaces in this district. It is remarkable that two of his consequent working at the same furnaces of the property of the same furnaces of the property of the pr sons are at present working at the same fur-nace their father labored at 30 years ago. Thir-teen of these men are working in the Vesuvius teen of these men are working in the Ve mill, and six in the Millvale iron works.

A WILDCAT STORY. Senantional Rumor of Miners in Illinois Striking Bas the Bottom Let Out of It. Someone, apparently on the outlook for some thing sensational, started a wildcat story last night of 40,000 miners in Illinois going on strike. There are not 40,000 miners in any district in Illinois, and neither is there any probability of an extended strike occurring either there, or for that matter, here or elsewhere among the miners, just at the present juncture. As more than once pointed ont in these columns President Rae and the national officers have other than a striking policy in view at

THE BEAVER FALLS STRIKE.

Asse tion That Me: Against Whom the Injunction Held Were Out of Town. The striking sawmakers at Beaver Falis held meeting on Tuesday night and repudiated the assertions that they were connected with the disturbances. It is said that many of the men whose names are on the preliminary injunction list, have been away from the town since the

strike began.

Some of the men talk about suing the firm for defamatory libel. The labor organizations of the valley have proffered help to the strikers.

FURTHER SIGNERS TO THE SCALE. The Zanesville, O., Mill for the First Time Accepts the Amalgamated Rate. . The Stony Creek Iron Company, of Morris own. Pa., has signed the Amalgamated scale The Zanesville, O., mill has also signed the scale. This is regarded as a decided victory by the officials here, as up to the present this mill, which is an old established one, has steadily refused to accept the Amalgamated scale.

CAN FILL THEIR ORDERS.

Potten & Hogg's Loss Will be About \$15,000, but Work Will Continue. The loss to the firm through the fire at Totten & Hogg's foundry, yesterday morning, will reach between \$15,000 and \$18,000.

The accident will not in any way interfere with orders on hand, which will be filled in due order.

An Opinion on the Tariff. Secretary William Martin says in the organ of the Amalgamated Association: "Let the tariff bill pass with the tinplate clause as it left the House, and we predict that inside of left the House, and we predict that inside of two years the price of tinplate will be below that now paid for the imported and often in-ferior article.

"If the tariff bill passes the conference com-mittee with steel rails at \$11 20 per ton, and the bill becomes law, you can look out for squalls in certain directions.

The Matter St Il Pending. River operators do not anticipate any general strike by miners for observance of the dead work scale, which was supposed to go into operation yesterday. There does not seem to be a unanimity of opinion among the trade as to the propriety of doing so.

Break-Down in the Hammer Department.

Seven out of eight hammers in the Lower Union Mill broke down in some unaccountable manner on Tuesday night, and about 80 men will be, in consequence, idle for a couple of Brother Against Brother. It is again rumored that the Brotherhoo some exquisite, exclusive designs, shown

ers will open warfare on their brethren of

the Knights, and that the carpenters will side

DUPED THE DOCTOR

Another Specialist Jailed for Practicing Without a Diploma.

DETECTIVES AFTER DR. SHAFFER

Names of Some of the Patrons and Big Fees Paid for Advice.

HOW THE PHYSICIAN WAS CAUGHT

Dr. Milvin Dewey, who has been doing ousiness at No. 323 Penn avenue as "The Institute for the Cure of Catarrh and Dyspepsia," was arrested last night and locked up in Central station, charged with practicing without a diploma and getting money by fraud. The doctor has two partners, known as Doctors Shaffer and Penrose, and the former will be arrested as soon as the police department can locate him. He was in the toils about six months ago for the same offense, but was discharged at the time by Inspector McAleese, who took pity on the man and allowed him to go. Dr. Penrose is practicing in Allegheny, and has an office on Perrysville avenue.

Several days ago Inspector McAleese was notified of the operations of the institute. A half dozen complaints were lodged against the doctor by people who claimed to have been victimized by the physician. The case was placed in the hands of Detectives Fitzgerald and Robinson, and the first thing they found out was that the "doctor" was not registered in the Prothonotary's office. Yesterday atternoon they visited the institute at different times and consulted with the "doctor."

TWO VERY BAD CASES. Fitzgerald had a bad case of catarrh, saying he could not sleep at night and had all the symptoms of the dreaded malady. Robinson had the dyspepsia about as bad as a bloated millionaire could possibly get it. They paid \$5 each and received bottles of villainous-looking medicine. Robinson had another complaint which he supposed was in-

curable, but the doctor agreed to remedy the difficulty for \$15. Fitzgerald's interview was held first, and he hastily secured a warrant for the arrest of the "doctor." He went back into the house and found the physician just about to go out. He asked for a minute's private conversation, and the doctor led the way into his rear office, with visions of another feature in his mind and an itchy money-feeling in his hand. The dean itchy money-feeling in his hand. The detective read his warrant and told the doctor to come along. The latter trembled and tried to get out of the difficulty, but had to go along. At the Central station a number of papers were found in a book, giving the names and addresses of his patrons. When he was locked up the doctor's wife, who had accompanied him, pleaded hard to be locked up with her husband, and begged to be allowed to share his cell. As this is against the rules the request was refused, and the woman persuaded to go home. She cried bitterly, and said she would get bail for her husband, but up until midnight had not secured it. The names of some of the "doctor's" patrons are as follows:

SOME VERY NICE FEES.

SOME VERY NICE FEES. Mrs. Emma McClinton, No. 84 Sarah street who paid \$12 for herself and daughter; Miss M. J. Patton, No. 49 Sturgeon street, Allegheny, who paid \$50; Walter Lenhartz, No. 113 Sheffield street, Allegheny, who paid \$10; Chris field street, Allegheny, who paid \$10; Chris Brown, 1110 Penn avenue, \$10; John Miller, head of Evaline street, Nineteenth ward, \$10; Matt Kilcullen, No. 2609 Jane street, Southside, \$50; J. A. Mortimer, Karns City, Butler county, \$15; Mrs. S. B. Agnew, Washington, Pa., \$12 50: Mrs. Laura Werner, 562 Fifth avenue, \$10; Joseph Mencel, No. 9 Ann street, \$10, and F. J. Kost, 1206 Penn avenue, \$10.

A letter was also found from John Kerst, No 68 Main street, Salem, Ohio, who says he took the doctor's medicine two days and it made him worse. It gave him palpitation of the heart, and he complained of the doctor's treatment.

Dr. Shaffer, who is a partner of Dr. Dewey's. Superintendent O'Mara stated last night that the medical society should have a man to investigate such cases, and thereby protect the public. At present the police department has to take charge of them, and it is a class of work that should be given to a police specialist.

A SUPERINTENDENT RESIGNS. THE SOUTHSIDE HOSPITAL LOSES ITS The Roar of the Escaping Fact Heard Three

MANAGER. More Funds Needed by the Institution-State Aid to be Invoked Next Year-

Liquor Men to be Asked for Assistance-The First Report. The following communication to the 118 acres in the piece, and put down the well as Board of Trustees of the Southside Hospital

explains itself: PITTSBURG. S. S., PA., September 15, 1890. to the Board of Trustees of the Southside Hospi-

tal of Pittsburg. GENTLEMEN-I herewith tender my resignstion as Superintendent of the Southside Hos-pital of Pittsburg, to take effect October I, pital of Pittsburg to take effect October I, 1890. I have contemplated this action for some time on account of the condition of my health. I have hesitated, hoping I would recuperate. My physician now, however, demands my withdrawal from the ardinous duties connected with the position. With kind wishes for the success of the hospital and good will to the Board and staff, I am yours truly,

L AARON COLE.

The resignation of Superintendent Cole is a surprise to most people, but it was accepted by the board at a meeting held on Monday evening. Mr. Cole's ill health is given as the sole reason for his action. A call was made at the hospital last evening, but Mr. Cole was not in the institution. His mother, who resides at the in-titution, did not know what her son's intentions were for the future. Dr. Thomas said last night that the hospital is badly in need of funds and supplies. The committee that collected a fund by popular subscription has about completed its work. The liquor men will be called upon this week. When this money is exhausted the hospital will be put to extreme inconvenience. "We want to get along until next April," said Dr. Thomas. "Then we will ask the Legislature for an appropriation, and I think we will get if if we can show how much value our institution has been to the people on this side of the river."

The first annual report of the hospital shows The resignation of Superintendent Cole is

tion has been to the people on this side of the river."

The first annual report of the hospital shows that the institution started off with a good record. There were 248 patients admitted during the year. The receipts were \$6.387.83 and expenditures \$5.185.50, making the average cost of each patient 48 cents a day. There were 20 deaths during the year, but seven of these occurred within six hours after admission to the hospital, and two others were from poison taken by the patients before being admitted. The management is anxious to have donations of anything useful to the hospital, and donors may leave their gifts at any drug store.

THREE HOUSES RAIDED.

Police Officials Cutting a Wide Swath on Liberty Street. The police department started out to do business with a number of bad places in the city last night, and cut a wide swath on Liberty street. Lieutenant Denniston, with a squad of officers, visited three houses at the foot of the officers, visited three houses at the foot of the street, and made an even dozen of arrests. At No. 12 they found Jennie Williams, Bobert Williams, Maud Robinson, Lizzie Riley and Lizzie Duffy. At No. 8 they arrested Mary Hoover, Stella Lloyd and Emma Miller. In No. 14 was Kitty Cassidy, James Cassidy, Stella Brown and Tessie Thompson. The first named woman of each house is the proprietress, and they will be sent to court. There have been numerous complaints lately about the houses, and an information was made against them. No. 14 is the house where the two Pittaburg Traction Company conductors were found. pany conductors were found.

James Cassidy, the alleged husband of the proprietes of No. 14, had upon him two gold watches, two diamond rings and a diamond

Miles Away.

ANOTHER BIG GAS WELL.

What is said to be the largest gas well ever struck in this neighborhood came in yesterday afternoon on the Thompson farm, three miles from Keating's, in the Perrysville district. The well is owned by Dr. M. J. E. Moore, James B. a wildcat to test it. Operations were begun last June and continued with the usual diffilast June and continued with the usual diffi-culties throughout the summer, and yesterday when the gas was reached they had gone to a depth of 2,065 feet. About 2 o'clock the bit went into the gas rock, and the pressure blow the sand and stone far above the derrick and carried away the crown pulley.

The tools were drawn and the pressure gauged, when she showed 700 pounds to the square inch, about 200 more than any well in this vicinity has yet shown. It is impossible to shut her in, and the roar and noise of the escaping gas can be distinctly heard at Keat-ing's, three miles away.

TO TUNNEL A RAILROAD.

The Duquesne Electric Road Asking for a Way Is to Wilkinsburg.

This evening the borough Council of Wilkins-burg will hold a special meeting to consider the matter of tunneling the tracks of the Pennsylvania Railroad at Penn avenue to allow the Duquesne Electric Street Railway to get into the upper portion of the berough. The matter has hung fire for several months. The last action taken in connection with it was to appoint a committee to confer with representatives of the linquesine company as to the relative amount of expense to be borne by each. It is very important to the railway company to get along Penn avenue, and there seems to be no way of doing this save by tunneling the tracks of the railroads. The tunnel is to be high enough to take a big load of hay—19 feet clear. It is expected that the details will be arranged at to-night's meeting, and that work will be commenced upon the tunnel forthwith. The last action taken in connection with it was
