Run of Cattle at East Liberty Fifty Loads Below Last Week.

DESIRABLE GRADES ADVANCED.

Common and Inferior Beeves Unloaded Only at a Decline.

SHEEP AND SWINE TENDING UPWARD

OFFICE OF THE PHYSBURG DISPATCH, WEDNESDAY, September 17, 1890. There were 110 londs of cattle on the mar-

ket at East Liberty yards this week, against 160 loads last week. The offerings consisted mostly of common and low grades. There were 30 loads from Chicago, and nothing in the lot anywhere near prime. The balance were mostly from Indiana. The Chicago cattle were for the most part common, light butcher stock and heilers. Markets opened Monday morning strong 10 to 15 cents higher than last week on all desirable grades and steady on all grades. But later in the day something dropped, and inferior grades became a drug, with the seller at the mercy of the buyer. Said one of the leading commis-

The wind-up of the market on common and Though it looked early on Monday morning that we were going to get last week's prices on all common beeves, we discovered later in the lay that we must come down in order to unday that we must come down an order to unload. Good beeves were good stock at the advance, but common proved very slow at a sharp decline. Coarse half-fatted cattle weighing from 1,000 to 1,100 pounds sold at a range of \$2.50 to \$2.85. Some four or five loads of this gade were bought for a Lancaster county farmer at these rates. The highest price paid was \$4.60 for good shipping Indiana beeves weighing from 1,300 to 1,400 bounds. Almost all the good stock offered was from Indiana. Fresh cows were in fight supply and strong demand at a range of \$20 to \$40 a head. Good fresh cows were particularly scarce and outside price was easily obtained. Ohio calves were standy at 6: \$20 to \$40 a head. Good fresh cows were articiparty scarce and outside price was salve obtained. Ohio calves were stoody at 6: 65c, the latter being paid for some few exas, and Western calves sold at 4c to 5c per h.

Sheep, Lambs and Swine. The run of sheep and lambs was unusually ight, and markets have been firm all the week an advance of 25c per cwt, over last week. a Monday there were but five loads on the rket, and the total for the week has not owed some improvement on late

e to 6c. The top price of hogs on was oc per h. There were then 23 hogs on sale, of which not more than alf dezen loads were prime cornfed stock. arrivals on Tuesday were still poorer in counds. There were about eight leads in the narket this morning, and prices were firm.

### MARKETS BY WIRE.

Wheat Declines on Rumor of a Boston Fail ure, but Subsequently R liles-Corn Scores a Gair, Due to Damage by Frost-Outs Stronger.

CHICAGO-Wheat-The market presented more healthy condition early to-day, and a higher range of prices was established. While the feeling was considerably unsettled and nervous, the undertone was stronger, and the situation apparently more encouraging to holders. On the whole, however, operators were disposed to watch the market and conduct

their operations cautiously.

The opening was rather stronger and prices 1464c higher, influenced by stronger foreign market acrices, but a sudden weakness occur-red, and prices dropped off quickly 1801%c The reason for this decline was difficult to as certain, though it was credited to the rumored failure in Boston. From that decline a steady raily followed, prices advancing 2½c, then turned weaker, and closed ½c lower for September, and ½c higher for December and May-Corn was fairly active, a good volume of business being tradsacted within 161½c range. The feeling developed was somewhat firmer, and gains were noted on all futures. The better tone was due in a measure to the receipt of advices from the frost-bitten district saying that the damage by last week's cold snap was more than at first supposed, and to the advance in wheat. First trades were about the same as yesterday's close, and under a good demand, gradually advanced 161½c, reacted ½c, a prominent local trader selling freely, ruled steady and closed with ½6½c gain.

Oats were stronger with fair trading and prices advanced 360c, reacted ½6½c, and closed easy at intermediate figures.

Everybody knows what Pittsburg is in the good year of grace, 1890, but there are can vacant ground, 51 feet front, on Adelaide few who remember what she was in 1839- street, Thirteenth ward, for \$2,100. 51 years ago. To bring the Pittsburg of that day before the readers of THE DIS- 50x200 teet, for \$900. PATCH, the following article is excerpted from Harris' Intelligencer, a leading local publication half a century back. The article is entitled "Pittsburg and Its Environs," and appears in the issue for January 1, 1839. It follows:

"In our remarks on the population, business and prospects of Pittsburg, we will in- | self. clude our very flourishing neighbor-the peautiful town of Allegheny, separated from us by the river, over which we have two bridges, an squeduct and another James McCall, a vacant lot on California avebridge in the course of construction. We will also include the 12 or 13 towns and Valley electric road, in size 50x110 feet, for villages which are clustered around Pitts- \$2,600. burg, and embraced within a compass of five miles. The vote given in this space at the general election, in October last, was street plan, Thirteenth ward, for \$625; also sold about 5,700. Calculating, as is usually done, ten souls for every voter. The popula tion would be 56,000; we presume, however, that 55,000 would be a fair estimate. Allegheny town has a population of near 10,000, and is

apidly increasing.
"The annual business of Pittsburg has been fairly estimated at \$31,590,750, which may be divided as follows: Pittsburg manufactures, \$11,606,350; mercantile sales, \$13,100,000; commission business, \$5,875,000; coal trade, \$1,000,000. that view has been taken because of the comparatively high rates commanded by money, rather than because the business of the country has been actually retarded thereby.

"All prices of goods and produce are higher than a year ago. The cost of doing business may have been increased thereby and the profits, of course, lessen, but this is merely an incident of trade in years of comparative stringency, and under the ruling conditions as regards Treasury purchases of bonds."

Quotations Clabbed Off by the Big Boston Failure-Buying More Enger fin Wall St-eet-Hopeful Farling Induced

by Prospective Bond Purchases. NEW YORK, September 17 .- The general impression on the street last night that the Secreary of the Treasury would obtain the requisite amount of bonds to-day, which would ensure ease in money at least for the remainder of this month, induced a more hopeful feeling among commission dealers and there was displayed this morning an increased disposition to buy. The more sanguine buils pointed to the fact that the late decline baying continued for a week. argued that the reaction under the favor-able circumstances must last at least for that time, and were disposed to take the long side for a good turn. The bears, however, while acknowledging that there would be a material rally, were not inclined to give as long a life and maintained that the short interest is only moderate and liquidation of long accounts would be started by any marked improvement

in values.

The buying to-day was more eager than for some time, and especially so after it became known that the full amount of 4 per cents had been obtained at even a lower figure than it had been expected the Secretary would have to pay for them. The traders were almost all working on the long side, and there was a most welcome absence of bear pressure in any portion of the list, although some sluggishness was shown here and there. A correction of the general impression that the Secretary said that general impression that the Secretary said that he could do nothing more for the money marhe could do nothing more for the money mar-ket after the acceptance of his pending offers, and the assertion that he said that the expres-sion referred only to the f per cents, did some-thing to restore a better feeling for the fu-ure, as the bears were inclined to make all capital thing to restore a better feeling for the future, as the bears were inclined to make all capital possible out of the impression referred to.

The London figures were higher this morning, and, while there was not a very urgent demand here, first prices were generally slightly higher than last nignt's final figures. The market soon developed strength, however, and prices rose steadily until after the bond offerings became known. By that time the whole active list was up from 1 to 1½ per cent, with Lackawanna, Big Four, Chicago Gas and the Villards most prominent for the gains scored. The bears then attacked the list on the theory that the result of the bond offerings had been discounted and in their efforts to break values were aided by considerable realizations among the traders on the advances of the past two days. A large failure in Boston was also used as a club with which to knock off quotations and before the close almost all the early gains had been wiped out and in a few instances material losses incurred. The close was quiet but weak, generally at small fractions below the opening figures. Rock Island is down 1 per cent and Burlington and St. Paul each ½c, while Pacific Mail is up 1 per cent.

Railroad bonds were more active than usual of late and displayed a more pronounced firm tone, resulting in a few material advances in the list. The sales reached \$900,000, out of which Rock Island 5's furnished \$101,000. Hocking Valley 5's rose to \$4. Fort Worth and Denver firsts 1 to 104, Houston and Texas general receipts 2 to 74, and Milwankee, Lake Shore and Western firsts 1½ to 122. Government bonds have been duil and lower. State bonds neglected.

earnings of the Union Pacific whole system for July and for the seven months to July 31 show again, as the earlier reports have shown, that the Union Facific, Denver and Guif is the only prosperous part of the Union Pacific system and the only one that saves the Union Pacific from making a very bad showing. For the seven months to July 31 the Union Pacific, seven months to July 31 the Union Pacific, Denver and Gulf net earnings show an increase of \$482,477, or 112 per cent over last year, while the whole Union Pacific system shows an increase of \$528,725, or about 3 per cent. This, however, is due mainly to the Oregon Navigation which shows a decrease of \$445,022, or 73 per cent of its net earnings as compared with the same time last year. The total fixed charges of the Union Pacific, Denver and Gulf for 1890 are about \$100,000 a month, and its net earnings so about \$100,000 a month, and its net earnings so far have been at the rate of \$137,000 per month, or at the rate of about 135 per cent per annum on the \$31,000,000 of outstanding stock. OFFICE OF PITTSBURG DISPATCH. | WEDNESDAY, September 17, 1890. Country Produce-Jobbing Prices. Trade in this line is slow, with few change prices. We are now between seasons, it being too early to lay in winter supplies, and supply of perishable stuff exceeds demand. Marts are overstocked with low grade and damaged potatoes. Common and inferior stock has only a nominal price, while choice stock is steady at quotations. Dairy products are dull, and tendency of butter is toward lower figures. However, volume of trade in creamery is larger this week than last, while sales of cheese are less. Choice nearby eggs are firm at a shade higher prices than reported before. Bananas are still very slow, and prices of ripe stock are nominal. California fruits are in abundant supply and show weakness. Cool weather lessens demand for melons and prices are weak. Lemons and oranges are steady at quotations. Timothy and clover seed are firm at prices

Coffee options advanced 15 points in New York yesterday, but the long looked-for advance in packages fails so far to materialize In the view of jobbers the rise cannot much longer be delayed. Sugar, too, is firm enough to go higher at an early day. The upward movement of teas loses nothing of its force Prices are up from 3 to 8c per pound in the past month, and the end is not yet. #### RIVER INTELLIGENCE.

Business Brisk, but Packets Are Delayed by Henry Fogs-De to of a Well-Known River Man-Great Scarcity of Coal Miners.

The day's business of yesterday was equal to the previous day, the bulk of it being transacted on the Southern boat landings. One foot and nine inches was added to the river by rain at the headwaters, putting it up to 129 feet. All the available coal has been shipped and the harbor is clear of coal barges. Another shipment will be made in about two weeks. The shippers will not likely have enough coal to

shippers will not likely have enough coal to send out, as miners are very scare and work for an additional 1,000 men can be had in the Second and Fifth pools.

Packet boats experienced heavy fogs, which delayed the arrival of some.

Flags were displayed at half-mast in honor of Engineer William McClinton, of the lower river boat H. M. Hoxie, who died Tuesday near St. Louis. He was well known here, having run the Tom Dodsworth for a number of years, and worked on several other of the boats. Mr. McClinton was about 48 years of age and was highly respected by his fellow rivermen. He has a brother, John McClinton, engineer on the Dick Fulton. His remains will probably be sent here for burial, as his home is in this city. THE H. K. Bedford arrived and departed for Vheeling.

SPENCER SANDFORD and Tony Meldahl are the THE Courier will be here from the Kanawha aturday, and the Ben Hur on Sunday. A LOADED coal barge sank yesterday at Salt Run, about 100 yards above the big tree. THE Mat Allen will carry freight and passeners to Wheeling and Parkersburg to-day. THE Iron age is still out, but is expected here sometime this morning. She was delayed by the

route to this port. She will work back down to Cincinnati. THE Louise departed for Charleston yesterday norning with a good load. She was delayed by a broken cylinder.

PROSPECTS for the Batchellor leaving to-day are not very bright. The Scotia will likely be TWELVE and one-half feet was reported at Davis Island yesterday. The indications point to more rain and higher water. THE James G. Blaine laid up yesterday. She will likely be with fram from the upper river packet trade during the winter.

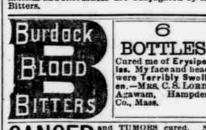

The elegant packet steamer Hudson arrived seven hours behind time, having been detained by dense logs. She is in charge of her old crew, with Captain J. F. Ellison Master and Daniel M. Lacy in the office. She took a large consignment of glass to Cincinnati for New Orleans. LOOKING FOR THE BOWERY.

an Old Man Surprised That There Was No Such Place in Pittsburg. He was a little saw-off old man with trousers six inches longer than his limbs that were beiraggled with mud. On his head was an oldfashioned, dinged-in derby hat, that added to the oddness of his appearance. "Say, young fellow," he said, stopping a re-

"Say, young fellow, he said, stopping a re-porter on Sixth avenue, "where is the Bow-ery?"
"There is no Bowery in Pittsburg."
"No, no," he answered with an upward in-flection of the voice. "No Bowery in Pitts-burg? This must be a model city," and then he proceeded in the direction of Wylie avenue on his weary fourney. his weary journey.
