Imposed Upon. SPECIAL TELEGRAM TO THE DISPATCH.

IRWIN, September 18 .- A consignment of 66 men arrived here to-day on the Pacific express from New York, to take the place of the strikers at the works of the Penn Coal Com-pany. They were composed of Polish Jews and Huns. The company's employes at once took them to the shaft, but upon their arrival there the new men refused to go down into the ing that they were not hired to dig coal. They left the works and started for the railroad, where they were met by a committee of the strikers who at once took them in charge. Three of the men started back to the shaft to see their remaining companions and they were at once placed under arrest for tres-

they were at once placed under arrest for trespassing. They were not placed in the lockup, but were hurried off to the company's office. In an interview with one of them, who looked quite intelligent and spoke good English, the writer learned the following:

"We were told," said the man, "that we were to work at a new ceal works, and I was to get a position as a clerk at a salary of \$3.50 per day, and the other men were to do outside work, for which they were to get from \$2.50 to \$3.00 per day. Now they want us to dig coal at 60 cents per ton. Why none of the men have ever dug a pound of coal in their lives. We would not make \$0 cents per day.

The lay delegates met this evening after the adjournment of the conference to consider the increase in pastors' salaries. Rev. J. B. Resler, now of Westerville, O., and one of the pioneers of the Allegheny conference, was present and was elected an advising member of the conference. The growth of the Allegheny Conference has been something marvelous. The country forming the Conference now embraces the countries of thing marvelous. The country forming the Conference now embraces the counties of Southwestern Pennsylvania from Clearfield on the north and Huntingdon on the east. It is one of the oldest conferences of the church, and has grown from a mere handful to a membership of 115. During the half century of its existence magnificent church edifices have displaced rickety school buildings.

IF the Grand Army men can succeed in having their day celebrated at McKeesport next year, the members of Post 50, G. A. R., promise they will have the \$5,000 soldiers' monument erected and ready for unveiling at that time. THE splice bar for which letters patent have been issued to Messrs. # A CITY OF DERRICKS

Likely to Spring Up Around Wildwood Shortly, Because of

THE SUCCESS OF THE NEW STRIKE

The Present Production of the Chief Southwestern Pools.

OIL NEWS FROM VARIOUS CENTERS

ISPECIAL TELEGRAM TO THE DISPATOR, 1 WILDWOOD, September 18 .- Wildwood resented a busy scene to-day. Many oil men visited the Menke farm surprise, but were disappointed, as the well was in the same condition as reported yesterday. It was expected that drilling would have been resumed by noon to-day, but it required more time to move out the boiler and make steam connection than was counted on. There is no material change in the production from yesterday, which was 75 barrels a SOUTHSIDERS will find interesting day. Everything is in readmess to-night to drill the well in, but it is most likely tha this will not be done until morning. The new strike has stimulated a big batch o new work, and within a period of two weeks a city of derricks will loom up in this quar-

ter of the field. Kiskadden & Co. have a derrick about finished on the McCaslin farm, located between the Bear Creek Refining Oil Company's well on the McClay farm and the Menke well. Unknown parties, who have become infected with excitement, are building a rig on the Jones farm, three-quarters of a mile rig on the Jones farm, three-quarters of a mile east and in advance of the Menke well. The Bear Creek Refining Company's well, on the McClay farm, looks much better than it did before the Menke well came in. One of the owners said to THE DISPATCH reporter to-day: "A week ago we would not have given a continental for our chances of getting oil, but since the Menke is looking so favorable we feel greatly encouraged." This well is down 1,200 feet. Garrett & Co.'s well, on the Hancock farm, is drilling at 1,000 feet. Gailey & Co.'s No. 1, Blyle, is 65 feet in the sand to-night with no improvement.

Griffith & Co.'s Grubb farm well is reported in and dry. It is located about 2% miles in ad vance of development in the west end of the field. Most likely the venture will be drilled deeper in the hope of hitting something better below. Burke & McBride, on the Doc Moon

deeper in the hope of hitting something better below. Burke & McBride, on the Doc Moon farm, are still pegging away, but as yet they have met with little encouragement. The exact depth the sand has been penetrated has not been publicly proclaimed and to a number of practical operators the venture looks dusty. Mr. McBride, one of the owners, said to-day in answer to a question of a prominent pipe line official about his well, that it was dry. The Philip Dunn & Co. well, on the Smith farm, is rated at 130 barrels a day.

Greenlee & Forst's Ice Pond well is holding up well. The well has been drilled through the sand. They are building north of this well on the same tract, and have located two-more wells on the Keefer farm on a line between the Ice Pond and the Menke well. Bowmar & Co., on the Whitesell, are in the pay and shut down moving the boiler. It is a big gasser. One of the owners of the gas well informed THE DISPATCH reporter to-day that the company would first put in a new joint of casing in place of the one that is split, give the well at thorough test, and, if it paid, would utilize the gas, and if not, they would drill the well deeper in hopes of finding a paying oil well. Griffith, Forest & Co. No. 2, Smith farm, got the sand to-day at 10:30 o'clock, but will not find the pay until about Friday night. They put the small casing in No 1 Smith yesterday.

OTHER OPERATIONS. The same company's No. 3, Whitesell, is drunng at 1,890 feet; No. 4 is down 1,800 feet; General of the World's Fair. He does not think the General will secure the place, as an Eastern director is against him.

—Colonel E. Jay Allen, of the Board of Viewers, returned yesterday from a month's vacation at the headwaters of the Cheat river. The old Colonel has a number of new trout stories and from all accounts was right "in it" on the fishing.

—T. B. H. Brownley, a prominent attorney from Washington, Pa., accompanied by his wife and sister, Miss Mary L. Brownley, were in the city yesterday.

—J. B. McJunkin and Levi McQuiston, up for a producer. Gibson & Giles finished drilling the sand in their Scott farm well today. It will make a 25-barrel well. The Smith Farm Oil Company, on the Schith farm, go: started to drilling to-day at 10 o'clock, but only drilled an hour owing to the great force of the gas which flowed the oil out of the tank as fast as produced. Another tank is being put up, and by to-morrow the trouble will be remedied and drilling resumed. They also tapped the pay this morning in No. 2 Smith, and shut down to move out the boiler. at the Hickman No. 2 near Bridgeville. No. 1 is pumping 12 barrels per day. The Nathan Tannebill well is down 800 feet. A well has been located on the Donaldson farm near Bridgeville.

A number of persons interested in the Wright leases near Thompsonville, are on the ground to-day locating Wright No. 3. No. 1 is being cleaned out, It has produced about 400 barrels of oil which is stored in a tank, there being no pipe line. Vandegrift & Co. have located a well on the Fife farm.

Notes of Various Operations. A well is being drilled on the old Graham stead, on Sawmill run, half a mile above the Thirty-sixth ward line. Spudding was

begun on Wednesday.

The wildcat well drilled in Westmoreland ounty, near Delmont, is not being mystified, but is a duster of the first water. Reports have been circulated that the well is closely gnarded, and that a good showing of oil had been found. Mr. Bray, a practical oil man, paid a visit to the well a day or so ago, and says the above reports are fulse. ports are false.

# Dyspepsia

Intense Suffering for 8 Years. Few people have suffered more severely from syspepsia than Mr. E. A. McMahon, a well-known grocer of Staunton, Va. He says: "Before 1878 I was in excellent health, weighing over 200 pounds. In that year an allment developed into acute dyspepsia, and soon I was reduced to 162 pounds, suffering burning sensations in the tomach, palpitation of the heart,

Nausea and Indigestion could not sleep, lost all heart in my work, had fits of melancholia and for days at a time I would have welcomed death. I became morose, sullen and irritable, and for eight years life was a burden. I tried many physicians and many remedies. One day a workman employed by me suggested that I take Hood's Sarsaparilla,

as it had cured his wife of dyspepsia. I did so, and before taking whole bottle I Felt Like a New Man. The terrible pains to which I had been sub-jected, ceased, the palpitation of the heart sub-sided, my stomach became easier, nausca dis-appeared, and my entire system began to tone up. With returning strength came activity of mind and body. Before the fifth bottle was taken I had regained my former weight and condition. I am to-day well and I ascribe it to aking Hood's Sarsaparilla."
