The Consul says in conclusion:

# The Consul says in conclusion: After perusing this report, the question is naturally asked. How is it that with mines richer than those of Spain, more easily and cheaply reached than our own on Lake Su-perior, no more American capital is invested here? In closing it is well to refer to a question of great moment and importance. The popu-lation of this province, in the number of its working people, inadequate even now to supply the increasing demand for laborers in sugar estates and mines, is unused, and often un-willing, to perform hard labor such as mining. Considering this question a most vital one, the writer had some time since a conversation with Capital General Sala-manca, when that gentleman was here. That authority is fully alive to this critical situation and has already taken steps to encourage emi-gration from Spain, with - xcellent results. Be-side, the soldiers on this isind can be employed as laborers in the minet, and are so employed with the Spacin, Governers, in such as some time since the soldiers on this isind can be employed

### More From Mr. Brunell.

Secretary Brunell, of the Players' League, passed through the city yesterday morning on his way to Cleveland. During a conversation he said the P. L would not play exhibition games with the American Association, and that the respective clubs of the P. L. would try in a Sational League. He added that the P. L. National League. He added that the P. L. schedules would be prepared before that of the National League, and the latter would thus have a chance to avoid conflicting dates. The P. L., he said, will consider any reasonable offer for a national agreement that the N. L. may submit. President McCallin, of the local P. L. club, met Mr. Brunell at the depot.

SEPECIAL TELEGRAM TO THE DISPATCH.1 CANTON, O., September 18 .- The Cleveland Pittsburg (N. L.) teams played a championship game here to-day. Young, the old Canton pitcher, was in the box for Cleveland and would have won with ease had he received ood support. He had a very narrow escape, and the game was not decided until the last man was put out. Zimmer was not himself, and let in four runs on two wild throws. In the fourth maing a hot grounder from Sales' bat struck Delaney in the face and he was obliged to retire.

The feature of the game was the heavy batting on both sides. Zimmer's home run in the seventh inning brought in fourruns, practically winning the game. Berger, an old Canton lad, was presented with a gold watch by his ad-mirrers. In the second inning Sales drove a hall over the feace that looked sure for a home run, but the ball struck the side of a tree and bounded inside, giving him but two bases. The closeness of the contest m do it very in-teresting, and buth sides were wildly ap-planded. The source:

### Two Drivers Ordered Down at the Graud Circuit Races at Philadelphia. PHILADELPHIA, September 18.- The Grand

Slocum racquet from A. G. Pratt a Co., and two prizes offered by the club make up the prize list. The 15 or 20 bes' players of the club will contest, and as the handicaps are very fair, no doubt this, the last tournament of the sea-son, will witness some of the finest tennis seen here this year. The Sewickley tournament was fluished Tues-day by Mr. Christy defaulting to Mr. R. R. Reed for second prize in singles, and Christy and Brooks detaulting to Vail and Ewing for the second prize in doubles. For two weeks these matches were held over on account of the rainy weather, and as Mr. Christy had to leave for Princeton College Tuesday ngit, the play-ers were notified to be on hand ready to finish on Tuesday afternoon. They all appeared, but the court being an inch or two below water and the rain continuing, the matches had to be given up, much to everyone's spirow. In both singles and doubles the entries of the Pitzeburg Tennis Club carried off first and second prize; Mr. Moorhead having previously won first in singles and Moorhead and Reed first indoubles. All the college players have already started for school or will leave in a few days, Prince-tor school or will leave in a few days, Prince-tor creating off first, and see the de-parture of Moorhead, Brooks, Brown and Ewing all bound for Yale. Circuit races were continued to-day. The first race called was the 2:33 trot, which had been carried over from Tuesday, Scrample and Bellman were the favorites in the first beat and the former justified the public's good opinion by showing the way from start to finish. Scramble also took the second heat, but there were those among the spectators who believed that Sadie M, if properly urged, would have won, Driver McCray, who entered the mare, won, Driver McCray, who entered the mare, was then taken out and Petiti was selected to take his place. The third heat also resulted in favor of Scramble, but it was palpable that Sadie M had been pulled and the heat was de-cided "no heat." Bets were declared off and Driver Petiti was fined \$100 and suspended un-til the fine should be paid. That the judges were correct in their judgment was shown in the result of the fourth heat which, although not won by Sadie M, was done in 225%, the first rest. 2010 for the race. STRIKERS WANT WORK. NEW YORK, September 18,-Benjamin

### Franklin Peixotto died this morning atter a Old Ceatral Employee Appealing to be Taken Back.

L.GOLDSMIT & BRO. ALBANY, September 18.-Superintendent Bissell and Assistant Superintendent Harrington have been besieged all day by exstrikers, all of whom are anxious to get Leading Jobbers in Tobacco, their applications for reinstatement on file first. Occasionally a man has been put to work, but Superintendent Bissell says there is no room for any large number of men, especially at this season of the year. 705 Liberty St., Pittsburg, Pa. The volume of freight traffic, however, will begin to materially increase next month, when a majority of the men will be Sole Agents for TICKLER PLUG TO-BACCO. au4-MWF

The young woman had put on a fine night gown, had pinned a spray of heliotrope over her heart and had then lain down on the bed and shot herself. It was said that she was of fairly good family in Bertin; that her mother, who is alive, is a writer, and that her iather, who is dead, a musician. Her lover was a divorced man, and they could have married, but they were both foolish, fond of sensation, and appear to have wished to die merely to make a newspaper story.
