IT IS GOD'S PROMISE

Dr. Talmage on the Text, the Crooked Shall be Made Straight.

WEALTH WISELY AND BETTER USED

frayer and Faith as Qualifications for Every-Day Business,

AMONG CHANGES THAT ARE COMING

SPECIAL TELEGRAM TO THE DISPATCE. BROOKLYN, September 21 .- Preliminary to his sermon at the Academy of Music in this city, this forenoon, Rev. Dr. Talmage announced that, until the new Brooklyn Tabernacle was completed, he would preach in the Brooklyn Academy of Music on Sunday mornings. He was glad to add that, by an arrangement made through the Christian Herald, of New York City, he would be enabled to preach in the New York Academy of Music, on Fourteenth street, on Sunday evenings, beginning with the evening of September 28. He also announced that on next Sabbath morning, September 28, he would begin a series of sermons entitled: 'My Recent Journey Through the Holy Land and Neighboring Countries; What I Saw and Learned." The subject of to-day's sermon was: "Crooked Things." Text, aish xi., 4: "The crooked shall be made

sarah xi., 4: "The crooked shall be made straight."

Geometry, from the time it was discovered on the banks of the Nile, which, by its overflow annually obliterated the handmarks, and the restoration of these landmarks made such a science necessary—I say, geometry, ever since then has been busy with lines, straight lines, curved lines, lines in angles and cones and spheres, but never has been able to evolve any beauty from a line that was merely crooked. The circle and the square were always considered admirable. Isalah recognizes the circle and says. "The Lord sits upon the circle and says. "The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The lord sits upon the circle and says. "The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The Lord sits upon the circle and says. "The Lord sits upon the circle and says." The Lord si

THE GOOD WEALTH DOES, Much of the wealth of the world is in the ands of the profligate while many of the best copie are subjected to distressing privation; thing to have things divided equally, me men are able to endure more success an others, and prosperity that might not un-dance you might destroy me. The Declaraon of American Independence deciars that ill men are born equal, but the opposite is the rath for they are born unequal. In no respect this more evident than in their capacity to udure success, financial or social. I have seen nearly the acquisition of \$50,000 made arroant and everbearing, and I have known others

here are those He can trust, Much is said against capitalists, but the would be a very shaky world without Who built the great railroads which, while they give such facilities of travel, em-shile they give such facilities of travel, em-sion the such facilities of travel, em-sion and their families? Capitalists, Who will great ships that stir the rivers and bridge he ocean? Capitalists. Who reared the housands of factories all over the land in which hundreds of thousands of employes earn past daily larged? Capitalists, Who endowed regallery, or a free library, or a steamboat, or railroad in America. Who put the world on years beyond what it would have been in er in God nor man nor woman and they low how to make things worse but never we made and never can make anything

MORE BENEFACTORS.

I tell you how there will come a redistribution of property. Under the divine blessing good people will get more alertness and acuen and assiduity. Many good people are kept in straitened circumstances because they ave been indolent, or lacked courage to take onest advantage of circumstances, and were sturid to get on. With the very same suron stupid to get on. With the very same surcountings others went on to competency. In
the better days to come good mer will have
their faculties wakened, and will in consepience rise to larger share of prosperity. On
the other hand, estates wrongfully accumthated, will dissolve. If not the sons, then the
grandsons will make the money fly, and it will
radiually scatter in their hands, and become
yeart of the general wealth. Then, as to vast
unsperties righteously gathered—and there are
thousands of them—such estates will contricute toward helping the unfortunate, not more
of charities than by helping struggling people,
we are going to have a multiplication of Willam E. Podgres, and Peter Coopers, and James
senexes, and George Peabodys. So will come

Bonaparte rode down the Champs Elysee of Paris, and under the hoofs of his horse a Republic was trampled, as the rider went to take a transpled, and Peter Coopers, and James enroyes, and George Peabodox. So will come distribution, and the crooked will be made straight. The sold book which is worth all other redship to together, makes it plain that God has hardled the together, makes it plain that God has bearded they are the world by gospel inconces, and if He has the power He will do had He says He will, and no one who amounts anything will deny His power. God has said mubilled times "I will." but never once has all cannot." We may wish our tack hamors pound away, trying to mend and improve mistraghten the financial condition of the orid, and be drappointed in the result, bearded and bearded and the hammer we reduce to small, but the most defiant difficulty in latten and disappear when God with a maner made of summer thunderbolts strikes assing. The crooked shall be made straight." In all our lives there are crooked things that need to be made straight, and can hearer or reader will enumerate for himself or herself. With one it is dilapitated physical health, and you are saying: "Why cannot I be in good health when I have such opportunities and such responsibilities?" Alas for the sick head-aches and the lame foot! But you will be well soon. Life at the longest is an abbreviated durance. There is a black doctor that will cure you. Some people call him Death. No disease was ever able to stand before his touch. Use all the means afforded for physical recuperation, but if they fall comes in just often enough to upset s, or with that disappearance of funds a you cannot account for, although you su-pictons you cannot mention, or with bich you cannot account for although you we suspicious you cannot mention, or with all livestment which was made contrary to our judement because there was a determination to push it through, or because you are sing behind mouth by mouth without any respect of extrication. The trouble is putter a wrinkle on your forebead that ought at to appear there for 10 years yet, and you is to appear there for 10 years yet, and you is to appear there for 10 years yet, and you is to appear there for 10 years yet, and you is to appear the for 10 years yet, and you is to appear the for 10 years yet, and you is to appear the for 10 years yet, and you is to appear the for 10 years yet, and you have to be only on ought to be only on ought to be only 0. Stop wortying, there by the dissolution of that firm, or by adjusting matters you will be

the papear there for 10 years yet, and you cought to be only 30. Stop worrying, there he will be 40 years old when you ought to be 50, or 70 when you put your trust in God. When commercial bonese fail the suspension is advertised, but of the tens of thousands of men, who are very day extricated so public mention is made. Lesterday was Saturday and I warrant that at the windows of the banks, and in counting rooms of stures and on every street of every sity. God appeared for the deliverance of good men, as centainly as when with His right foot He trod Lake Galilee, into placidity and grade Daniel as safe among the lions as though foot He trod Lake Galilee, into placidity and grade Daniel as safe among the lions as though foot he trod where the fing.

I never yet asked God to do anything but He fid it, if it were best, and in all the cases where my prayer has not been answered, I have found out afterwardthat it was best toot to have been answered in my way. But none of as have tested the full power of prayer. It is a force very like soine of the forces of nature, hat were in existence but not employed. For yes electricly was thought good for nothing but to burn baras, and kill people with fell aroke. But now electricity lightness some and churches, and cities, and Christendom, and mores raid cars, and he is a rash uan who mentions anything as impossible to his natural energy. So the people with fell trobe. But not employed. For the world rather a firghtful power, if it has not people with fell aroke. But now electricity lightness so the world rather a firsh full power, if it has not people with fell aroke. But now electricity lightness of prayer as to the world rather a firsh ful In things and there will be a Bible in every conting room and supplication will ascend rom every commercial establishment, and then our mess firms are formed the question will asked as to how much this one in that one put in of capital, but the question will be asked "Po you know how to pray" linkter agent than any natural force yet decipted will be this gospel electricity, flashing leavenward for help, flashing earthward with write response. Washington Allston, whose name you recogize as that of a great American painter, was educed to extreme poverty, and one day got

on his kness and asked for a loaf of bread for on his kness and asked for a loaf of bread for himself and his starving family. While he was bowed in that prayer there was a knock at the door and a man came in and said: "How about your painting, the 'Angel' Uriel,' that received the prize at the Royal Academy? Has it been sold?" "Noc!" said Allston. "How much do you want for it?" Allston replied: "I am done fixing a price for I cannot get it." "Will £400 be enough?" asked the stranger. "Why, that is more than I asked," said Allston.

GOD'S ANSWER TO PRAYER. The £400 (82,000), were paid and the pur-chaser introduced himself as Marquis of Stafford, who thereafter was one of the most lib-

chaser introduced himself as Marquis of Statford, who thereafter was one of the most liberal patrons of the rescued artist. "Oh, that all just happened so!" Did it? Tell that to some ignorant man, some benighted woman, who has never read the promise: "Call upon me in the day of trouble, I will deliver thee," or that other promise: "The crooked shall be made straight."

"Well," says one, "you don't amply this in every direction." Yes, I do. Take the most uncertain thing on earth—the weather. The Bible distinctly says that prayer controls the weather. James vills: "Elijah was a man subject to like passions as we are and he prayed earnestly that it might not rain, and it rained not on the earth for the space of three years and six months; and he prayed gain and the heavens gave rain." Do you say that was the weather of olden time? There have been instances in modern times just as marvelous.

There's not a Christian ship captain but could give you instances of divine interference with the weather in answer to prayer. It has been my good fortune to know many ship captains. They are in all our services. They leave their vessels on Sunday mornings and join us in worship. I warrant there are enough of them present this morning to take a whole fleet in safety across the Arlantic. Whenever I have heard them testify, it has mightily confirmed me in what I knew before, that God answers prayer concerning the weather. And there have been cyclones that started up from the Carribbean Sea, sweeping down every sail and every smokestack and every mast in their the Carribbean Sea, sweeping down every sail and every smokestack and every mast in their course, which in answer to specific petition have been diverted and made to curve around

gone to their homes there might come refresh-ing showers. Behold,

THE CLOUDS PARTED. as they came near and passed to either side of and there is going to be a redistribution of the crowd and then closed again, leaving the stoperty. If it were possible, it would be a place dry where the audience had assembled, and the next day the postponed showers came upon the ground that had been the day before omitted. Do you say it only happened so? I cannot see what you keep your Bibles for, and the God you worship is not my God. Your God the God you worship is not my God. Told God is an autocrat, and He is so far off and so far up that the world cannot touch Him, and his throne is an eternal iceberg. My God is a father, here and now, and a father will give his child what he asks for, if it is best for him to child what he asks for, if it is best for him to have it. Prav about everything that concerns you, secularities as well as spiritualities. Take to God all your annoyances and perplexities. The crooked shall be made straight. Some people talk as though God controlled things in general, but not in particular; that he started everything under certain laws and then let it take care of itself, as an engineer might start his locomotive on an iron railroad track and then jump off. What would happen to such a locomotive is what would long ago have happened to our world if God had started it and afterward allowed! to look out for itself.

There is no such thing as a general providence. It is a particular providence. God has which hundreds of thousands of employes earn beir daily bread? Capitalists. Who endowed our colleges and opened free libraries and ult asylums for the orphan, the crippled and he insane? Capitalists. But for them there could not be an Academy of Music, or a pictre gallery, or a free library, or a steamboat, or railroad in America. Who put the world on syents beyond what it would have been in afteriorise, in conforts, in educational advanage, in good things without number? Capitalists. The more money a man gets the better it come honestly and is employed righteous.

Nevertheless we all see that there needs to be a redistribution of property. Communism opposes to make that distribution by torch out 2 dagger and dynamite. Throw the midgitt express train off the track and put the compy into conflagration. Disrupt society, largelities. Assassinate. Such people believe in God nor man nor woman and they politics and bad men and Satan could make politics and bad men and Satan could make them. From the top of Maine to the foot of Florida the nation was red with wrath. It was wrangle and fight all the way through, and one of the mildest things that the North and South promised each other was assassination.

ENOUGH OF STRIFE.

During this summer I have traveled through New York, and Ohio, and Illinois, and Indiana, and Minnesota, and Kansas, and Nebraska, and and Minnesota, and Kausas, and Nebraska, and Missouri, and Texas, and Louisiana, and Georgia, and North and South Carolina, and Virginia, and Pennsylvania, and I have shaken hands with tens of thousands of people, and talked with men of all sections and degrees, and I have to tell you it is all peace, and in all the States of the Union you could not now marshal a military company of 100 soldiers to fight against the United States Government, unless you got your men out of the penitentiary. Did the corrupt and gangrened political parties do this work of rectification and pacification? No! It was by Divine Interposition that the crooked has been made straight.

On the 2d of December, 1851, Louis Napoleon Bonaparte rode down the Champs Elysee of Paris, and under the hoofs of his horse a Republic was trampled, as the rider went to take

THE HOUR OF RELEASE is not far away. There need be no incurables

There is no sorrow that heaven cannot cure. Those who in this world have always been well will not get the best part of heaven. They will not have the advantage of contrast. They were well before they left this world, and why should they be so gratulated at being well in the next world? But to those who on earth were hindered or broken down in health what a contrast

demestic, by saving it will not be long before the crooked shall be made straight.

But to those who were once happily united on earth, but are now separated, the same thought comes, in a good cheer. Not long separated! Tradition says that two bells were molded and sent from Spain for a distant land to chime in a church tower. But while in a storm at sea one of these bells was wrecked and only one reached the shore and was hung in the church tower. And some people thought that, when standing on the land, they heard that bell ringing for worship or in a wedding peal, they could at the same time hear from the sea the lost bell ringing as if in response. Some of our friends and kindred have crossed the stormy sea and are in the tower of God on high. But we are still in the tempest, and sometimes the surges beat over us, but our souls are still in accord with those who are gone, and they ring down to us and we ring up to them and there is a sympathy between us that can never die.

DIVINE HELP WILL COME. "Ob," says some one, "the crook in my lot you have not mentioned, and I sit clear outside of all the consolations you have offered." Well, you have not mentioned, and I sit clear outside of all the consolations you have offered." Well, I will take after you with Gospel comfort and reach you before I close. Do you think your wound is so deep the divine Surgeon cannot treat it? Have you a trouble that overmasters God? Is your annoyance of such a nature that you must suppressit? Ah, that is what is killing you. Trouble must be told or it stings to death the one who carries it. If there is no man or woman that you can trust with the secret, you can trust God. Hie away to Him. Tell Him all about it. Lock your door and tell Him aloud, and if you do not get relief you will be the first soul in the 6,000 years of the world's existence, and the only one of the hundreds of millions of the human race who ever called on God for help and did not get it. In all the universe, in all eternity, there is not an exception. Stop brooding and commence praving. I bless my God that, while there are so meny crooked things in life, there are some things so straight God himself could not make them straighter. Divine help comes straight to those who will have it. The angels of mercy dy straight when they undertake a rescue. The hour of your final deliverance marches straight out of the eternities. And as the carpenter puts down his rule on a piece of timber, and with his ax hews away until the last inequality and irregularity disappears, so when God in the last great day shall put down His unfalling measuring rule beside that event which seemed the most twisted in our lives or in the world, it measuring rule beside that event which seemed the most twisted in our lives or in the world, it will be found out that the last discrepancy has vanished, and the last wrong has been righted, and the last crooked thing has been made

NEW YORK STOCKS.

Quiet and Heavy in Wall Street-Bears Hammer the List all Along the Line -Opening Prices Generally the Highest.

NEW YORK, September 20 .- The stock market to-day was very quiet and heavy to weak from the opening to the close, with the result of leaving almost everything traded in lower than last evening. The strong tone which existed last evening did not last over till this morning, and London especially was not inclined to buy while the arbitrary brokers were sellers at the opening. The bears then went in to take the market away from them, and, meet-ing with practically no resistance, hammered the list all along the line. The downward

the list all along the line. The downward movement met with no check, and the opening prices are generally the highest of the day, while the closing are the lowest.

The industrial stocks received most attention, but even Lackswanna was prominent for its losses, and these were followed by the Grangers. Missouri Pacific, however, was prominent for activity, but was remarkably well held and its final loss is only ½ per cent. The trusts were early a fair mark for the operations of the bears and from the first transactions they yielded, followed by St. Paul. It was not until the last hour that Lackswanna became prominent, but declined rapidly and scored a manner, but declined rapidly and scored a manner.

the last hour that Lackawanna became pronanent, but declined rapidly and scored a maternal loss before the close.

The market finally closed fairly active and
weak at the lowest figures, Chicago Gas being
down 134. Sugar Refineries 134. Lackawanna
136. and Burlington 1 per cent. Railroad
bonds were quite active, the sales being \$485,000,
but out of this amount Texas Pacific incomes
furnished \$106.000. There was very little movement in the market and all the final changes ment in the market and all the final changes are insignificant except a gain of 1½ in Kansas and Texas general 6s to 82. Government bonds dull and steady. State bonds have been and texas general os to 22. Government bonds dull and steady. State bonds have been neglected.

The following table shows the prices of active stocks on the New York Stock Exchange yester-day. Corrected daily for THE Disparch by WHITNEY & STEPHENSON, old Pittsburg mem-

HIDES STILL LOWER.

Pittsburg and Allegheny Tanners Adopt Lower Scale

ON LIGHT HIDES AND CALFSKINS.

Heavy Steer Hides Manage to Hold Their Own and No More.

OFFICE OF PITTSBURG DISPATCH, SATURDAY, September 20, 1890.

Hides and Calfakins Off, Light hides and caliekins have declined ic in the week past, making a decline of 136c from the highest point reached in August. Markets are very slow at the decline. One of our leading dealers reported on Saturday that Eastern buyers refused to take light hides at the decline. Hence, it looks as though the end was not yet reached in the downward movement. Heavy steer bides are weak, but unchanged. The tanners of Pittsburg and Allegheny recognizing the situation have adopted the following scale of prices to go into effect Monday, September 22.

Green steer hides, trimmed, 75 pounds and up, cents per pound. tireen steer hides, trimmed, 60 to 75 pounds, 8

It will be seen by reference to domestic market column, that receipts of grain and hay were 72 loads less this week than last, and 68 loads less than the corresponding week of last year. The decline in receipts has no doubt been due in part to blockades on Western railroads, and correspondingly heavy supplies are looked for next week. The cereal situation has varied very little since last Saturday as to prices. Oats are a shade stronger. Flour jobbers report that lay down price of hour is such that at ruling rates there is little if any margin of profit left. The volume of trade is larger than usual at this season of the year, which some attribute to short crop and high price of notatoes. One large flour jobber reported that at Northwestern sources of supply prices had weakened slightly since the beginning of the week, so that markets here are not likely to change materially from present outlook. terially from present outlook

In Produce Lines.

The feature of the week in dairy product has been another drop in creamery butter. making the decline about 3c per pound from the highest point reached a few weeks ago. There are two reasons for this: First, the improved condition of passures and the advent of oleo brought about by high butter. At the reduced price movement has been more active and volume of trade shows an increase over last week. The cool weather and near prospect of frosts will, it is thought, send dairy products up to the price they declined from in a few days. In the past day or two there has been an improved tone to markets for apples The quality of recent supplies in these lines

The quality of recent supplies in these lines shows improvement and prices are better than at the beginning of the week. The bulk of potatoes handled by our commission men comes from New Jersey where the yield is reported large and fine. Missouri is the main source of supply for apples. Eastern fruit and Western vegetables have in a great measure failed this season, while in this section there is scarcity in both lines. Grapes alone in fruit lines appear to have held up this year and prices are as low as in the average season. Concord grapes were wholesaled to-day at 35 to 40c per ten pound basket. In the department of wholesale groceries the same activity is reported by merchants as for several weeks past, while staples have undergone no change in prices. There was a general expectation at the beginning of the week that sugar and coffee would be advanced. But the advance comes not, though prices are very firm. prices are very firm.

MARKETS BY WIRE.

Light Trading in the Wheat Market-Fair Activity to Corn-Decidedly Firmer Feeling in Onts-Fair Trade Reported in Pork.

CHICAGO-Wheat-Light trading in the market to-day. Very few outside orders re-ceived, and local operators doing very little. Prices averaged 10@12c, and ruled The opening was 4@1/c lower than yesterday's closing, advanced 1/2/c, fluctuated between \$100% and \$101% for December, and \$105%@106 for May, and closed about K@Ke lower than yesterday.

Corn was fairly active, a moderate but TRADE PEATURES OF THE PAST WEEK

Corn was fairly active, a moderate business being transacted within 160% crange. Feeling prevailing was easier early, but later a better tone was manifested. First trades were at 160% decline, after which the market sold up reacted 160, advanced 160, and closed at outside figures.

Outs were fairly active with a decidedly firmer feeling, especially for the near futures, which were offered sparingly and wanted very freely by shorts, who bid prices up 160% c. May was traded in fairly, but prices only advanced 160, and the market closed steady at about outside figures.

about outside figures.

Pork—A fair trade was reported. Opening sales were made at 2½@5c decine, and a further reduction of 10c was submitted to.

Lard—Rather more doing. Prices declined 2½@5c and the market closed steady. Snort Ribs—A moderate trade was reported. Prices ruled 21/25c lower.

DOMESTIC MARKETS.

Cool Weather Helpful to Trade in Country Produce Lines.

APPLES AND POTATOES FIRMER.

Cereal Markets Steady, but no New Features Developed.

GENERAL GROCERIES UNCHANGED

OFFICE OF PITTSBURG DISPATCH, P SATURDAY, September 20, 1890.

Country Produce-Jobbing Prices. The change to cooler weather has had a stimulating effect on trade. Butter and eggs are firmer since our last report. Potatoes and apples are also in better demand, and choice took readily brings outside quotations. More than 20 carloads of apples have been sold in our market this week, mostly from Missouri, Cranberries and quinces begin to show up, Sweet potatoes are dull and weak. Cabbage is poor stock, There is an over-supply of bananas and prices are only nominal for ripe stock. Watermelons are close to the end of their career for this season. Demand is light since the advent of cool weather. Tomatoes are higher and firm, APPLES—\$3 00@4 00 a barrel; fancy, \$4 50@

5 00.
BUTTER—Creamery, Elgin, 25@28c; Ohlo do, 23@24c; fresh dairy packed, 18@19c; fancy country rolls, 18@19c; choice, 17@18c.
BERRIES—Huckleberries, \$1 50 a pail; grapes, Concords, 5@6c, Delawares, 7@8c a pound; cranberries, \$3 00@3 50 a box; plums, \$5 00@6 60 per bushel; quinces, \$8 00@10 00 a barrel.
BERNS—New crop beans, \$2 40@2 50; marrowfat, \$2 75@2 80; Lima beans, 65@65/c.
BERSWAX—25@30c \$1 b for choice; low grade, 23@25c. grade, 23@25c. CANTALOUPS—\$3@5 a barrel; watermelous,

CANTALOUPS—\$3@5 a barrel; watermelons, \$100/20 a hundred.

CIDER—Sand refined, \$9 00@10 00; common, \$5 50@6 00; crab cider, \$10 50@11 00 \$\pi\$ barrel; cider vinegar, 12@13@\$\pi\$ gailon.

CHEESE—Ohio cheese, 10; crab cider, \$10; New York cheese, 10; crab cider, 122@133/c; domestic Sweitzer, 13/@15c; Wisconsin brick Sweitzer, 13@13/c; imported Sweitzer, 23/cc. EGGS—11@12c \$\pi\$ dozen for strictly fresh.

Frathers—Extra live zeese, 50@60c; No. 1 do, 40@45c; mixed lots, 30@35c \$\pi\$ h.

MAPLE SYRUP—75@65c a can; maple sugar, 9@10c \$\pi\$ h.

HONEY—15C \$\pi\$ h.

POULTRY—Spring chickens, 35@65c a pair; old, 65@75c a pair; dressed, 11@12c a pound;

POUTTRY—Spring emokens, source a pair; old, 65@75c a pair; dressed, 11@12c a pound; pucks, 60@70c,
TALLOW—Country, 5%c; city rendered, 4c,
SEEDS—Recleaned Western clover, \$5 00@
5 25; country n.edium clover, \$4 25@4 50; timothy, \$1 00@1 65; blue grass, \$2 85@3 00; orchard grass, \$1 50; millet, 70@75c.

othy, \$1 60@1 65; blue grass, \$2 85@3 00; orchard grass, \$1 50; millet, 70@75c.

TROPICAL FRUITS—Lemons, choice, \$5 50 @7 00; fancy, \$7 60@7 50; Jamaica oranges, new crop, \$6 00@7 00 a barrel; bananas, \$1 25@1 50 firsts, \$1 00 good seconds \$7 bunch; California peaches, \$2 00@2 50 \$7 box; California apricota, \$1 75@2 25; California plums, \$2 00 @2 25 \$7 box; California pears, \$4 00@4 50 \$7 box.

VEGETABIES—Potatoes, \$2 50@3 00 \$7 barrel; Southern sweets, \$2 25@2 50 \$7 barrel; Southern sweets, \$2 25@2 50 \$7 barrel; cabbage, \$3 00@5 00 \$7 bundred; onions, \$3 75@4 00 a barrel; green onions, \$1 25 a bushel; Egyptian onions, \$4 50 for 180 \$7 basket; green beans, 65@75c \$7 basket; cucumbers, \$1 00 \$7 bushel; home-grown tomatoes, \$1 50 \$7 bushel; celery, 30@35c a dozen bunches.

The trade in this department presents no new features. Goods are moving freely and all staples are steady. Package coffee should advance a few notches to correspond with prices of the green article. Teas are steadily moving upward, Sugars are strong but unchanged. Markets are steady all along. Grocery jobbers are generally nonplased over the failure of package coffee to advance, a thing looked for

ON A LOWER LEVEL

Local Stocks Lose Ground, but a Reaction Among the Probabilities. As a result of tight money and general de

moralization of the speculative markets, busi-ness in local stocks during the week was of small proportions and almost without excep-tion at a lower range of prices. Sales yesterday were the largest of any day of the week, aggregating 329 shares. For the week there were 1,190, against less than 1,000 the previous week. But while there was a gain in business the number of interests handled was smaller. Closing prices, as compared with those of the previous Saturday, show concessions all along the line, but as, in nearly all cases, they were for fractions, the declines signify nothing to for fractions, the declines signify nothing to
the detriment of the properties. A few holders
concluded to realize, and they found customers
for their stuff. That was all there was of it.
There was no scare, and no fears of a panic,
indeed, such a thing is almost impossible with
such securities as Pittsburg offers to the public.
Although prices closed at about the lowest
point of the week, there was a better feeling
than for some time, and the hope was again
cherished that the worst was over and the
dawn of better times near at hand. This was
based upon easier money and returning confidence in the East, All that is needed to secure
the fruition of this hope is liberality on the
part of bankers to the brokers, when they offer
collateral "as good as wheat." collateral "as good as wheat."
Sales were 109 shares of Pittsburg, Virginia and Charleston Railroad at 46%, 10 Luster at 24, 50 at 23, 40 at 23, 10 at 22, and 120 Philadelphia

ANTI-PANIC FIGURES.

Money and Business Present a Strong Front

in Busy Pitisburg. There was a better feeling among local bankers Saturday over the prospect of a speedy res-toration of the normal condition of the money market. Loanable funds were in good supply and demand. Good borrowers were freely ac-commodated at the regular rates, 6@7 per cent. No one feared any further trouble. Judging from the Clearing House report

which represents actual business, not guesses,

things were lively in trade circles du week. Bank exchanges were \$15,810,282 06, against \$12,243,180 % the same week last year showing a gain of \$3,567,101 13. The gain this year to date over 1889 is \$110,000,000.

The proof of the pudding is eating it. Croakers should study these figures and change their tune, or hang themselves. Such large gains over a year remarkable for activity compels the conclusion that Pittsburg is not only prosper-ous beyond precedent, but is expanding her activities at a rate which will soon place her

beyond rivalry or competition.

RIVER INTELLIGENCE.

Prospects for a Rise Not Very Pleasing-All Quiet on the Wharf.

A further fall in both rivers occurred yesterday, and the prospects for a rise shortly are not very pleasing. Coal shippers are not now much concerned about the water, as it will be fully one week before the tows will be ready. Six feet two inches was on the mark at 6 o'clock last evening, and falling.

No business was transacted on the levee, the Sunday being generally observed. Packet boats laid up, and the only ones moving were the regular boats between the wigarf and Char.

Drift wood. THE Ben Hur is scheduled to leave for Parkers burg at noon. THE Charles Brown arrived with empty coal

barges from Louisville. THE Andes, with a number of visitors to the Exposition, is en route from Cincinnati. THE Keystone State's arrival will be several hours later than usual owing to heavy fog. SEVEN feet and seven inches was reported at Davis Island at 5 P. M., yesterday and failing. THE Lizzie Bay is scheduled from Clucinnati some time to-morrow. She replaces the Louise in the Charleston trade.

THE Courier will leave this evening for Wheeling. She will remain in the Wheeling and Park-ersburg trade until next Sunday. MATTERS have reached such a crisis that a person is doing remarkably well if he can tell within one day what time a boat is due these forgy days. It is expected that the wharfboat will be up this evening some time. The Cincinnati packet boats have been greatly inconvenienced during her stay on the ways.

OFFICIAL-PITTSBURG.

A N ORDINANCE—AUTHORIZING THE construction of a sewer on Cato and Juliet streets, from McKee Place to Wilmot street

A construction of a sewer on Cato and Juliet streets, from McKee Piace to Wilmot street sewer.

Section 1—Be it ordained and enacted by the city of Pittsburg, in Select and Common Councils assembled, and it is hereby ordained and enacted by the authority of the same. That the Chief of the Department of Public Works be and is hereby authorized and directed to advertise in accordance with the acts of Assembly of the Commonwealth of Pennsylvania and the ordinances of the said city of Pittsburg relating thereto and regulating the same, for proposals for the construction of a pipe sewer 15 inches in diameter on Cato and Juliet streets, commencing on Cato street at McKee Place, commencing on Cato street to Juliet street, commencing on Cato street to Juliet street, hence along Cato street to Juliet street, hence northwardly along Juliet street to a connection with sewer on Wilmot street, to be let in the manner directed by the said acts of Assembly and ordinances. The cost and expense of the same to be assessed and collected in accordance with the provisions of an act of Assembly of the Commonwealth of Pennsylvania, entitled "An act relating to streets and sewers in cities of the second class," approved the 16th day of May, A. D. 1889.

Section 2—That any ordinance or part of ordinance conflicting with the provisions of this ordinance be and the same is hereby repealed so far as the same affects this ordinance.

Ordained and enacted into a law in Councils

"I am a blacksmith and my trouble began by my working in a draft," said Mr. E. H. Price, a well-known resident of Lawrenceville, who lives or. Forty-six-and-a-Haif street, and is in the employ of the Sheffler Bridge Company, "I caught a severe cold and from that time my catarrhal symptoms manifested themselves. My head and nose would be so filed with mu-cus that I was compelled to breathe through my mouth and my nose would often get sore. I had pain over my eyes, dizziness and noises in my ears. The mucus that dropped into my throat

caused me to be almost continually spitting. The disease finally reached my lungs, I felt a weight in my chest as if my lungs were stopped up. My breath became short and finally a violent cough set in, which increased until I coughed day and night. I had eructations of gas from my stomach, and I had a tired feel ing, but more so on getting up in the morning As I read in the papers statements from patients who had been cured by the catarrh specialists at 323 Penn avenue of conditions similar to mine I took a course of their treatment and became completely cured. It is now some time since I took heir medicine and my cure has remained permanent. I shall be glad to further describe my case to any one who suffers as I have done.

E. H. PRICE."

THE PRESCRIBING

And treatment of all patients at the Catarrh and Dyspepsia Institute is, and always has been, under the direct charge of skilled specialists, who are regular graduates and registered at the Prothonotary's office, as anyone will find by inquiring. They are permanently located at 323 Penn avenue, near Fourth street, and will continue to treat their specialty, catarrh and dyspepsia, as heretofore.

While they charge a reasonable price for treatment, they refuse no one treatment or medicine because he is poor.

Office hours, 10 A. M. to 4 P. M., and 6 to 8 P. M. Sundaya, 12 to 4 P. M.

Consultation free to all. Patientstreated successfully at home by correspondence. Send two 2-cent stamps for question blank and address all letters to the Catarrh and Dyspepsia Institute, 323 Penn avenue, Pittsburg.
