AVERY GOOD RECORD.

Not a Dry Hole Struck in a Month's Operations in the Mount Morris Field.

TERRITORY NEARLY ALL LEASED.

An Important and Interesting Suit Decided in the Plaintiff's Favor at Butler.

THE EUREKA POOL PETERING OUT.

Notes Taken by The Dispatch Scout in Various Oil Producing Localities.

ISPECIAL TELEGRAM TO THE DISPATCE. Mr. Morris, October 1 .- The month of September has not been distinguished by the advent of any gusners in this field, but presents a good record. There was not a single dry hole among the completed list, although the McCalmont people got a very small well at their No. 12, on the W. P. Core farm, it being the lightest producer they have found in their operations in this field. E. M. Hukill has to his credit three producers, one of which is doing 100 strong, another about 60, and the third will make a 50-barrel pumper. The South Penn have a 190-barrel well on the Sanford Barrickman farm, and the Mountain State Company claim ther No. 2, Wildman, is good for 200 per day. Several wells are in the sand and the coming

The wells that came in during the month are not looked upon as of any importance as de-noting the direction in which the field is extending, as they are all inside the limits. E. M. Hukill's D. E. Cordray No. 1 is the farthest in advance and as she is nearing the interesting point is looked after closely. There is not the attention paid to the cutside developments

ten days will be very interesting to a few of the

attention paid to the cuiside developments there would be if there was any land not leased, but taking a line from Mt. Morris and Mannington there are but two farms not lease, and they are (or one of them at least), not in shape that a valid lease could be given. Some royalties are changing hands, but the farmers are not anxious to sell puless they get about sufficient money to pay for their land and a fair price for their royalty beside.

Shooting wells in this field has not been a success, generally speaking. While some wells have been improved, about four out of every five have either met with some mishap or failed to increase the production. The serious drawback to shooting in this field is the short distance between the bottom of the casing and the pay streak; there is only about 300 feet, and oftentimes less, and if a well is doing any oil at all by the time they get the tubing and rods out after pumping out she will be filled up in the casing. The writer only knows of four wells that have been benefited by shooting, and they were wells that showed very large at the start. He does not know of a small well that has been increased by a shot.

Operations in Botler County. BUTLER-Lockwood & Patterson have unexpectedly struck a good well on the southwest corner of the Barnhart farm in the 100-foot

field. It is now making 75 barrels per day. McJunkin & Co. have abandoned their well on the Rose farm, which failed to show any oil after being pumped for two or three days. Stewart & Co.'s No. 1, on the McKinney farm, east of Petersville, is making 25 barrels per day and is increasing. A. T. Black & Co.'s No. 2 on the Hazlett, was drilled deeper and shot and its output materially increased thereby. Colbert, Eyers & Brackuy's No. 4, on the Brandon, which was drilled deeper into the sand and was bert, Byers & Brackuy's No. 4, on the Brandon, which was drilled deeper into the sand and was shot, is now producing 200 barrels per day. Black & Co.'s No. 1, on the Barnhart, is being drilled in through the sand this week. For four months this well averaged 100 barrels a day. The same company's No. 4 is through the sand and has been shot with 48 quarts of rock giycerine without effect. It is a dry hole. A bit was stuck in the hole of the Stewart & Co. No. 8, on the Barnhart, three weeks ago and the crew is still at work trying to drill it. Haslett, McJunkin & Co.'s No. 5, on the Humphrey farm, is a considerable distance in the sand and showing for a fair well.

Two Oll Sults Ended.

BUTLER-The beavy oil suit betwen M. Shaw and H. L. Taylor & Co., which has been on trial before Judge Hazen since the beginning of the week, was given to the jury this morning, who rendered a verdict in favor of the plaintiff for \$19,019. This was the value of 3,000 barrels of oil represented in certificates of the Pennsylvania Transportation Company, which the plaintiff got in exchange for the same number of certificates of the United Pipe Line. It was proven that the Pennsylvania Transportation Company certificates were obtained by misrepresentation, and were worthless, the plaintiff never having been able to realize on them. The transfer was made in 1876, when oil was worth \$3.60 per barrel. The verdict was for the full amount of the claim.

Another important oil suit was tried simultaneously before Judge McMichael. It was between Hoch Brothers and A. E. Barnhart and Lockwood, Patterson & Co. The question at insue was concerning the title to a 30-acre oil lease on the larm of Charles Young, in the 100-foot field. After a fruitless search through town for the missing defendants, the plaintiffs took a voluntary non-suit. The property in dispute including the oil where the plaintiffs took a voluntary non-suit. week, was given to the jury this morning, who

took a voluntary non-suit. The property in dispute, including the oil which has been pro-duced from it curing the pendancy of the lease case, is worth between \$75,000 and \$100,000.

Its Polmy Days Past.

EUREKA-That Eureka has seen its best days is fully attested by the caliber of the new wells that have recently come in. The well just completed by Barnsdall & Moore on the Russ Hammatt farm is only making 100 bar-rels a day and in 30 days, taking the other wells here as a pointer, will not be doing more than 40 barrels. There are four or five strings of tools running in the field, the Stewart well, which was shot last Friday, making 400 barrels SISTERSVILLE, W. VA. -The well at Sisters

SISTERSVILLE, W. VA.—The well at Sistersville is still drilling in the salt sand with the
hole tuil of salt water. It is said, upon good
authority, that the owners are becoming discusted with their venture and will soon throw
in the sponge.

FRIENDLYVILLE, W. VA.—Johnson & Story
have plugged their well on Friendly Island at
600 feet and are moving the rig and will drill
another hole.

General Field Views. CHARTIERS-There is nothing of special moment in the Chartiers pool to-day. The Steiumiller well is reported as doing 140 barrels a day. It is the opinion of some practical

reis a day. It is the opinion of some practical operators that when it is drilled deeper it will make a better well. The most interest is now centered on the Advance wells, drilling toward Chartiers, one or two of which should come in in a few days.

Bakenstown—The Butcher's No. 1. Clentenning, is holding up much better than was denning, is holding up much better than was expected. A personal gauge of one hour this afternoon showed the well was making 60 barrels an hour. The same company have a well in the sand on the Richards farm, located half

in the sand on the Richards farm, located half a mile nearly due south from their big well, which is shut down. In a few days drilling will be resumed, when more will be known about the territory in this locality.

ZELEINOPLE—The Gibson well, on the island, is in the sand with the tools in the hole. Consulerable interest is manifested in the result.

Considerable interest is manifested in the result.

Thorn Run—The Mellon, on the Cassidy farm, is holding up at 200 barrels a day, while the Finegan & Downing venture, on the Cooper, is flowing 25 barrels in 24 hours.

Crafton—Reports are conflicting to-night in regard to the true status of the Patterson & Jones well, on the McCurdy farm. A scout who visited the well yesterday was of the opinion it would not amount to much, while another report says it is good for 400 barrels a day.

MONTOUR—The Lashell well, owned by Pisher & Co., one mite southwest from the Riewart well, came in last night, and is a duster Newport, O.—The Brown well No. 2 will get the sand Wednesday. This is an important well. Wheeling parties on the Forshey farm, Dennis run, 1½ miles in advance of the Brown well, have cased, and will be the next well due on the Ohio side. Ackerly & Sammet's Hendershot well will also find the sand before long; it is located five miles ahead and northeast from the Brown, on a 22 line. Mandenville & Co., on the J. G. Davis farm, are drilling on top the sait sand.

Wavellt—The Pool well, at Waverly, on

top the sait sand.

WAVERLY—The Pool well, at Waverly, on Bell run, seven miles down the river from Belmont, struck the sand Monday and filled up 300 or 400 feet with sait water, on which there was a small show of oil. The well is not deep enough in the sand to tell just what it will be good for.

Operations in West Virginia.

CHARLESTON, W. VA .- It is now almost certain that oil has been streek on Indian creek, a few miles up Elli creek from here. The parties who were drilling saddenly suspended all work, plugged the hole, guarded the well, and began exilling a few miles further up stream. Parties o in the vicinity at the time the streak

was imped say about 9 o'clock at night there was a great hissing noise, as if of escaping gas. Oil has been found bubbling up in the vicinity, and it is thought it has been struck at last. The company now doing the crilling is said to be representing the Standard Oil Company. The Littleton Oil Company, organized principally of business men of this town, have leased 2,000 acres of land in Weizel county and will begin crilling at once. The company drilling at Winfield is very hopeful of striking oil and have sent on a new man to hurry up the work. It has been dragging along slowly for a long time.

The Entire Field. Following is a summary and comparison of the wells completed, wells drilling and rig in September for the entire oil fields:

LIFE IN THE BALANCE

Richard Herndon on Trial Before Judge White for Murder.

THE VICTIM WAS DANIEL SULLIVAN

Frank Grade Was Found Guilty of Murder in the First Degree.

BRIEF NEWS IN THE COURTS YESTERDAY

Richard Herndon was put on trial before Judge Whitz yesterday charged with the murder of Daniel Sullivan on the morning of Sunday, August 10, Herndon is a col-ored man, and was a watchman at the Carbon Iron Works next adjoining a board yard on Thirty-first street, where Sullivan, in company with some dozen boys and young men, went about 1 o'clock to drink beer. Herndon went with seven police officers to arrest them, and during the raid several pistol shots were fired. Sullivan was found in a dying con-

were fired. Sullivan was found in a dying condition some three hours later two blocks away, and it is alleged that Herndon fired the shot that resulted in his death.

Drs. Evans and McCandless testified to the examination of the boy's injury, which was a wound in his left lung. His age was 18 years.

William Lane, a watchman, was the owner of the revolver used by Herndon. The latter borrowed it from him before the raid and returned it in an hour with three chambers empty. Officer Hendrick testified to hearing four or five shots and to getting the revolver from Lane after the death of the boy became known. All the officers testified to about the same. Officer Bagby, however, had heard the report of three shots and saw the flash later of three more coming from where Herndon stood with one of the boys, which proved later to be Edward Murphy. He approached and asked who fired and Murphy said Herndon did.

Murphy was put on the stand. His companions, he said, were Daniel Sullivan, the murdered boy; another Sullivan, James Cronin and a boy named McCutcheon. Herndon had caught him and stood with him as Sullivan ran past, when Herndon fired.

John Durler, night watchman at Carnegie's office on Thirty-third street, testified to finding Sullivan about 4 o'clock lying on the sidewalk under the window, and to carrying him into the office and sending for doctors.

At this point the case closed for the day. The prosecution will close with one more witness this morning.

IN THE FIRST DEGREE.

The Jury's Verdict in the Frank Grade Marder Care. The jury in the case of Frank Grade, tried

for the murder of his 9-year-old stepdaughter, returned a verdict yesterday morning at 11 o'clock, finding Grade guilty of murder in the first degree. Grade was noticed to turn pale and tremble when the verdict was announced making almost the only display of emotion since the trial commenced. He was remanded to jail for sentence.

The case was a hard fought one with the attorneys, and many thought that the plea of in-sanity would prevail. District Attorney John-

ston, however, made an address, applying the law to the evidence in a thorough manner, that was pronounced one of the most able speeches ever made in the Criminal Court, and sealed ever made in the Criminal Court, and sealed the doom of Grade.

This verdict makes two juries that have passed on the sanity of Grade, and both have found him sane. An inquisition was held in July, and the jury declared him to be sane at that time. The jury trying him for his crime passed also on the question of his sanity at the time of the commission of the crime, and by their verdict declared him to have been sane,

CASES IN COURT TO-DAY.

THE GRAND JURY'S ACTION.

John Baer Indicted for Murder-The Numer ous Ignored Bills.

The grand jury vesterday returned a true bill against John Baer for murder, Daniel Hines was also indicted for assault and battery. The following bills were ignored: Wm. Sexton, Anna Walker, selling liquor without license; Anna Walker, selling liquor on Sunday; R. B. Ford, conspiracy; John Houghberg, forcible entry and detainer; J. J. O'Brien, aggravated assault and battery; Adam Toussaint, assault and battery; W. H. Porter, extortion; Lewis Rose, larceny by bailee; R. M. Shanley, false pretenses.

Bing's Cash Recovered. Samuel Bing yesterday received a verdict for \$200 in his suit against C. L. Willey. At the last session of the License Court Bing was an applicant for a liquor license. He desired Willey, it was stated, to procure a bondsman for him and gave him \$200 to do so. Willey procured the bondsman, but the court refused Bing a liceuse. Bing demanded the return of his \$200, but Willey refused it.

Court News in Brief. EIGHTY men were naturalized in Commor Pleas Court No. 1 yesterday and 20 in Common Pleas No. 2

THE suit of the Braddock Union Planing Mill Company against J. A. McMinn & Co. to recover a bill for lumber is on trial. In the suit of J. M. Graham against J. K. Shanahan, an action on an account, a verdict for \$271 25 for the plaintiff was taken by con-

THE suit of I. W. Black & Co. against C. K. Gardner and wife to recover a commission for the sale of property is on trial before Judge

THE suit of Davis Bros, and Co. against Lawrence Hufnagle for damages for injury to prop-perty caused by the drainage from the adjoin-ing property is on trial before Judge Ewing. In the suit of William B. Anderson against the Pittsburg and Lake Erie Railroad Company, a verdict was given yesterday for \$800 for the plaintiff. Anderson was the owner of property at Bhousetown, which was destroyed by fire caused by sparks from a locomotive. In the suit of John Meyer against the Birmingham and Brownsville Turopike Company, to recover damages for injury to property caused by water running over Afeyer's property as a result of the Turnpike Company stopping up a drain, a verdict of \$650 was given plaintiff yesterday.

BILLS in equity were filed yesterday by James Campbell and Samuel Wallace against C. D. Robbins, James A. Chambers, A. C. Dravo and William H. Singer. Defendants, it is claimed, leased oil land from plaintiff in 1884, and work was to have commenced in six months. As this was violated, plaintiffs ask that the contract be declared void.

To Stop Street Improvements. It is reported that the validity of the act under which it is proposed to widen Cecil alley is to be tested, and the case may be taken to the Supreme Court. The issue is to be raised on a recent decision of a Philadelphia court. If this is done, the work of improving narrow down-town streets may be stopped.

"I use 'Thepure' Baking Powder in my Kitchen, it is so sweet." -Mrs. Attorney General Miller.

NEW ADVERTISEMENTS CURED, COMPLETE AND

"My trouble began about six years ago, when I was engaged in the flour and feed business," said Mr. F. W. Withers, a well-known Alleghenian, who lives at 128 Main street; "I was taken with frequent nose-bleed, and some days it would bleed several times. Soon my nose became raw and sore—on both sides—and it be-

came so stopped up that I could scarcely breathe through it. I had pain about my eyes, dizziness and noises in my head. In the morning there seemed to be a shadow over my eyes. Then the catarrhal secretion began to drop into my throat, causing me to hawk and spit. "Finally, after suffering for about three years, I took typhoid pneumonia, and from that time I rapidly grew worse. My lungs became very weak and I felt a tight, oppressive feeling in my chest; my breath became short and a cough set in. My appetite failed, I had a full, uncomfortable feeling after eating, and my stomach felt very sore and tender. I could not sleep well and I had a weary, tired feeling. Every change of weather would cause me to take cold, night sweats weakened me and I lost fiesh.

take cold, night sweats weakened me and I lost flesh.

"Having seen several testimonials of cures made by the catarrh specialists at 323 Penn avenue, I decided to take a course of their treatment. I had used local treatment from a doctor, but got no better. I am now glad to testify to my complete and permanent cure by these specialists.

F. W. WITHERS."

NEW ADVERTISEMENTS.

Because They're the Best, Strongest, Most Comfort-

able and Cheapest Juvenile Shoes Under the Sun. This is a rather sweeping claim, but it's warranted by the facts. Other dealers may keep children's shoes as good as ours—not better, because there are no better. And when it comes to prices, where is there another house that sells shoes at such close margins? No wonder half (or more) of the parents of these two cities buy their children's shoes

READ THESE PRICES.

THEY TALK LOUDER THAN WORDS. CHILD'S bright Dongola Shoes, spring heel, plain toe or patent eather tipped, sizes 6 to 8, at only 75c.
