

NO SIGN OF A BREAK

In Either Direction in the American Pig Iron Market.

POPULAR MAKES WELL SOLD UP. With One Exception Transactions in Steel Rails are Trifling.

THE SITUATION ACROSS THE OCEAN

SPECIAL TELEGRAM TO THE DISPATCH.

New York, October 2.—The Iron Age quotes the American market as follows: American Pig—The general situation is practically the same as outlined last week. Consumers do not appear to be buying with freedom, at all events, nor are there any signs of increased pressure to sell, and apart from iron that cuts an unimportant figure in this market, there are no signs of anything bordering upon weakness.

GOOD DEMAND FOR COKE.

The Scarcity of Coke will be the Only Serious Drawback to Prosperous Trade—Shipments Show a Slight Increase.

SPECIAL TELEGRAM TO THE DISPATCH.

SCOTTSDALE, September 2.—The car famine which has been seriously disturbing the coke trade for some weeks past remains unremedied, and a prediction is not ventured as when trade will assume its natural condition. A repetition of experience as to the scarcity of coke, as last week, the deficiency was of larger proportion than has been previously reported, and the cars furnished met about half the demands, and the assistance of individual cars again drew attention to the fact that the demand for coke is of enormous proportions, and the productive capacity of the coke industry is amply able to meet it.

TAKEN ON THE WING.

Chat About Real Estate While Going Forty Miles an Hour.

SOME BIG THINGS ON THE STRING. Effective Protest Against a Stock Company Refusing Information.

THE NEWS AND GOSSIP OF THE CITY

Gossip conversation between two well-known business men was overheard yesterday morning.

First Speaker—Hear that Mr. Westinghouse has been offered \$100,000 for a tract of land on the north side of the city, near the University City? Do you know anything about it? Second Speaker—I suppose you mean the property where the bridge crosses the railroad. It is not for sale. I heard it was. Perhaps Mr. Westinghouse bought it on speculation. I think he had better go slow over that. If business of the signal works continues to grow, considerable ground will be required for new buildings and additional railroad tracks. I think he will use for all the land he can get. I heard that he had the sale of any part of it would be a mistake. But I suppose he knows what he is doing.

MOVEMENTS IN REAL ESTATE.

W. A. Herron & Sons sold for Mr. M. D. W. Loomis, owner of the Linden Steel Company, near Detroit, a complete and modern brick house of nine rooms, lot 47x100 feet, for \$10,000.

The Home Land and Improvement Company had a special opening sale of building lots yesterday at Elwyn station, Castle Square, near the Linden Steel Company. In spite of the fact that the weather was not ideal, the property was disposed of to Mr. Lester, of Philadelphia, who is engaged in the building business at that place, and proposes to improve the same by erecting a large hotel building. The property is situated on the corner of the Elwyn station, and is bounded by the Elwyn station, the Elwyn station, and the Elwyn station.

ATTACK UPON THE BANKING TRUSTS.

Both Sides Waiting for Developments—Bears Attack Unemployment and Treasury.

NEW YORK, October 2.—The stock market today has been duller and more stagnant than on any day since before the monetary stringency of the Federal Reserve Bank. The market has been characterized by a general feeling of uncertainty and a lack of confidence in the future of the country. The market has been characterized by a general feeling of uncertainty and a lack of confidence in the future of the country. The market has been characterized by a general feeling of uncertainty and a lack of confidence in the future of the country.
