IRON TRADE REVIEW.

The Finished Products Are in Demand, But Raw Material Dull.

A FEATURE OF ENCOURAGEMENT.

Manufacturers Are Carrying Light Stocks

REPORTS FROM THE LEADING CENTERS

and Must Soon Purchase.

The situation as to iron and steel is practically as it was a week ago. In the lines of finished products there is a good demand for all produced, but raw irons are dull. The situation is still in buyers' favor, as it has been for the past few weeks. The amount of stock in hands of manufacturers is not quite up to what it was a year ago at this time. It is plain that manufacturers of finished products are pursuing the hand to mouth policy, as is natural in view of weak and declining markets. One of our leading brokers had this to say as to situation of markets: "The mills are doing well, but furnace men are not having their share of the active trade."

Raw irons are dull, and the situation is still in favor of the buyer as it has been for weeks past. The encouraging feature of markets is the fact that manufacturers of finished products are carrying light stocks of raw iron, and there ore must of necessity buy heavily in the near inture. There is a good demand for nails, with prices unchanged.

Structural iron is also in active demand. Steel rails are going out as fast as produced, and orders already in insure a demand for the entire output to the close of the year. At the Edgar Thomson Works the daily is close to 1,300 tons of steel rails, and there is no accumulation of stock.

PLENTY OF ORDERS

With Stocks That Are Small and Prices That Are Fair.

SEPECIAL TELEGRAM TO THE DISPATOR. PHILADELPHIA, October 3.-There is very ttle change in the iron market at the present ume, the market being in a condition of anxiety ascribed to an uncertainty as to the workings of the McKinley tariff bill. There has been very little change in the market for the past month. Skelp iron shows an advance of 2, and merchant bars about \$1 per ton. EL, and merchant bars about \$1 per ton. As to the immediate outlook there are plenty or orders with small stocks and fair prices. There is every reason to believe that the present activity will continue until the end of the year. There is some apprehension for the future owing to the large production. The market for pig from continues firm. Prices that have been quoted for the week have been \$17.50@18.25, delivered, for No. 1 foundry; \$16.50@17 for No. 2, and \$15@15.50 for gray forge. The supply is hardly equal to the commond at these prices. Bessemer pig is slow demand at these prices. Bessemer pig is slow at \$18 50 at furnace for standard qualities and \$21 50 for high grade Bessemer. Muck bars are very strong at \$30 at the mil. Customers not feel inclined to pay the price asked.

e demand for bar iron is steadily maintained the mills are overrun with work, Su ock as is being manufactured is being rapidly The usual quotations are 1.85@1.90c at cit ills and 1.75@1.80c at mills in the interior

e mills are crowded with orders for skelns and orders for early delivery are hard to place. The quotations are 205@2.10c, delivered, for grooved, and 2.20@2.25c for sheared. The mills grooved, and 22%2 %c for sheared. The mills are busy that are making plates. The prices continue firm at the following figures: Ship plates, 2.25@2.30c; triak, 2.25@2.30c; bridge plate, 2.305_2.40c; spell_4.46@2.55c; flange, 3.10@3.20c, and firebox, 3.75c. A WHOLESOME EFFECT.

The Result of the New Tariff Law Upon the Iron Market.

CINCINNATI, October &-Rogers, Brown & Co. say: The influences controlling the market are stronger as the week closes. The passage of the tariff bill has had a wholesome effect be cause it is recognized that it settles in satisfacfory form and probably for years the whole on industries of the country. It is believed that so long as prices remain so low, there will he a consumptive demand that will tax the from and steel producing capacity of the country to the atmost for years to come. The demand for the week has been largely for gray force and for mottled grades. Buying of foundry iron also has been liberal.

The car works are getting heavy new orders and require material to cover. General foundry and until business is active and prospects good. The believers in higher prices for this fall and winter are much more numerous than they were two weeks ago. There is no longer any trouble about noney matters and the week. trouble about money matters and the weak lers of warrants and outside lots who were compelled to liquidate during the stringen are now about all shaken out.

SHIPMENTS NOT SO HEAVY.

The Southern Furnaces Are Catching Up With Their Orders.

SPECIAL TELEGRAM TO THE DISPATOR. BIRMINGHAM, ALA., October 3.-The heavy shipments of pig iron reported tast week have llen off, the furnaces having caught up with orders on hand. The volume of business remains practically unchanged. Buyers are takbut there seems to be no disposition to buy shead. Some offers for large lots a little below

ding prices have been declined. Manufacturers are holding firm at present prices.

The two coke furnaces at Anniston shut lown at the end of last week to make some needed repairs. They have considerable stock on hand, and will not blow in until this is religiously in the prices always.

Warehouses in this district, is at work on his annual report, which will be completed some time this month. While the output of the district has been largely increased by the blowing in of new furnaces, the stock of iron in the warehouses is less than one year ago.

Merni Markets. NEW YORK-Pig iron quiet and steady. Cop-

per neglected; lake, nemmal. Lead nominal; domestic, \$5 70. Tin irregular; straits, \$28 80. A GREATER BUYING MOVEMENT

In the Chicago Market Than for Some Time

CHICAGO, October 8.—Rogors, Bowman & Mervin say: The week just closed has shown a greater buying movement in the Chicago market than for considerable time back. Several large blocks of Southern carwheel iron have been placed. There has also been conhave been placed. There has also been con-siderable activity in Northern and Southern coke irons, a number of good-sized orders have coke irons, a number of good-sized orders having been booked. Buyers who have been holding off for the past 90 days are now buying, many of them coming into the market, as their supplies are running short, and it is generally recognized that lower prices than those now ruling are not likely to prevail. There is but little demand at present for Lake Superior charcoals, though inquiries are more active in this department.

Silveries and soft irons continue to be called for in moderate amounts. The heavy consumption is still going on without abatement, but a serious drawback is the extreme scarcity of cars, which is delaying shipments in every direction. We quote for cash f. o. b. Chicago same as last week.

THE MARKET BASKET.

dance of Grapes at Low Rates-Vegetable Crops Better Abroad

In fruit lines grapes have the field, and are at their lowest price for the season. With 10-pound baskets of grapes selling at 25 cents in a jobbing way, it cannot be said that fruit is dear. Apples are also in bountiful supply and markets give signs of weakness. Our fruit supplies are mainly from the West. Throughsupplies are mainly from the West. Throughout the region of which Pittsburg is the center there is practically no fruit this season, and if our country was not very big, embracing all climates, there would be a famine of fruit. Crops in the Western States, and particularly on the Pacific slope, have been very good this season, and from that direction our supply is now coming. The vegetable crop as well as the fruit crop is hight in the vicinity of Pittsburg this season, and prices are much above the average. The cost of potatoes is more than double what it has been for years at this time, and prospects are for still higher prices. In the line of ocean products prices are the same as a week ago. Supply of oysters and Western fish is barely equal to demand. Staple meats rarely change, no matter what the ups and downs of live stock may be, and our quotations in this line stand as they have been for months past.

Following are the latest quotations of market basket materials as furnished by retail dealers:

ST. LOUIS, October 3.—Rogers, Brown & Meacham say: There has been practically no change in our market since last week, consumption, purchases and inquiries continuing on about the same scale at unchanged figures. Available stocks in the South for early shipments are not large, and they would be smaller if the cur supply were better. The same cause is seriously diminishing coke shipments, with no prospects of early improvement. We quote for eash f. o. b. St. Louis:

Chats on Real Estate Which Should

Encourage the Despondent.

Still Down in the Mouth. THE NEWS AND GOSSIP OF THE CITY

Although real estate has been a little uiet on the surface for a few days-quiet in regard to large deals-there is, and has been all along, an active movement in small properties-cheap building lots picked up by working people whereon to build homes. From all sides come complaints of a

scarcity of tenement houses. Building is active, but it falls far short of the demand. To supply this want is a problem for home capitalists to solve, and the sooner they get to work at it the better for the city. It is doubtful if they can find more profitable employment for their money-certain none that is saler. The field is still open to them, but if they hesitate much longer it may be taken up by outsiders, who are already moving in this direction. It is understood that a building company at Columbus, O., has closed a contract for a block of about 100 houses at Charleroi, to be finished in 90 days, The company operates under the Carskadon patent. It will turn its attention to Pittsburg when through at Charleroi. At least that is

the talk. Talking about the outlook for real estate yesterday, Mr. J. E. Glass expressed the opinion that the market is in its infancy—strong on its feet for a stripling, but just beginning to grow. He took the position, which is perfectly sound, that Pittsburg possesses so many manufacturing and commercial advantages that her prosperity is assured for all time. As growth and business increase, people will be forced more and more to build homes in the out-skirts. This will bring improved property into the market. With this prospect in view it is folly to talk about reaction. There is no more reason to apprehend a decline in Pittsburg realty than there is a repudiation of Govern-

Acreage is being absorbed quite rapidly, out fortunately there is enough of it to give home sites to several millions of people, and there is no danger of a famine nor that prices will get beyond reasonable bounds. A full supply of building lots being assured, public attention should be directed to ways and means for furnishing an adequate supply of houses to accommodate all who want to locate in and enjoy the great prosperity of this community.

Stock and Grain Gossip.

Some interesting features were developed in Wall street and Ch'cago speculative circles yesterday, which are set forth in the following communication to W. W. Vensel, 115 Fourth

We have had a weak market from the open ing to the close to-day, the final prices being the lowest, and the feeling has been more demoralized than we have seen it during the late unsatisfactory market. There is no use fighting against the present condition of affairs; the trading world is bearishly inclined, so we will probably have lower prices. There were no de-velopments which should have hurt prices, St. Paul publishing good earnings, and money, in spite of the heavy payments which will have to be made under the tariff bill by to-morrow's close was in fairly good supply at from 4 to 5 per cent. The bears are in control and seem to be having their way, and under these circumstances we have not the spunk to advise our friends to buy stocks, although we believe them cheap.

At Chicago all speculative articles were ex-ceptionally dull to-day. There seems to be a disposition on the part of some of our best traders to buy whenever the price of wheat drops under \$1 and think they have ac cumulated large lines, and some day or other the shorts will wake up with a large loss staring them in the face. La France, \$1 50 per dozen; Mermets, \$1 25 Cables are firm, and as there is no long wheat per dozen; Brides, \$1 25 per dozen; yellow and for sale it looks as though the attempts to sustain prices are general. We think it dangerous to be short at present prices, for a while at least. Provisions are somewhat inactive. Large stocks at hand and abroad are the weak features, while the high price of corn and oats is the bull card.

News of the Street.

The Citizens' Traction Company will soo have its Sharpsburg line in operation. The river there will be crossed by the old bridge, which will he strengthened. Property near Schenley Park is very firm. An offer of \$60,000 was recently made for a piece that cost \$25,000 less than two years ago.

J. F. Stark yesterday sold 50 shares of Phila-

delphia Gas Company stock at 30. The following is the treasurer's report of the ondition of the Pittsburg Petroleum, Stock and Metal Exchange, September 30, 1889. Assets; Real estate, \$150,000; Germania Savings Bank investment account, \$5,987 70; furniture and fixtures, \$3.443 40; Keystone Bank, \$4,000; Clearing House, \$98; library, \$11,150; Fort Pitt National Bank, treasurer's balance, \$3,807 31; Johnston & Tressel, \$75. Liabilities, \$167,522 91;

eash on hand, about \$15,000. East End and Oakland, along with all other districts in and around Pittsburg, are suffering from a scarcity of houses.

There is big demand for cheap lots by work-

ing people.
Of 48 mortgages received by the Recorder yesterday 19 were for purchase money. The most important was for \$11,466. Fourteen

were for less than \$1,000 each.

Marseal Harrab yesterday sold a farm of 133 acres in Westmoreland county. The property belonged to George Brown, and was sold on a mortgage held by the Mutual Life Insurance Company of New York. The amount against the property was \$4,300, and it was knocked down to the plaintiff for \$111. Word comes from Tucson, Ariz., that Lemuel

Banister and George Westinghouse have bought a silver mine near that city, for which they paid \$75,000.

Mr. A. C. Robinson has formed a life partnership with a young lady. His many friends congratulate him and hope he has made a good

New York October 3.—The stock market to-day presented the old spectacle of intense duliness in the general list, but comparative activity in spots, which were the special object and the special object and the special declines. Dats and Flour Are Still Dull Because of Heavy Receipts.

GROCERIES STILL MOVING FREELY

FRIDAY, October 3, 1890. Country Produce-Jobbing Prices. Friday is usually the big day of the week in this line. This Friday has developed nothing unusual and volume of trade has been below late average. Grapes have the lead in fruit lines. Prices are at their lowest for this season. Markets are over-stocked with a low grade of potatoes and prices are nominal. Choice grades are active and firm at outside quotations. Apples are in good supply and de-mand is light. Until the grape crop is worked off all other fruits will be forced into the background. There already is an improved demand for California fruits and prices will, no doubt,

ally important, but special reduction in rates in the West was canceled, and Southwestern stocks, while quite weak, were not prominent in dealing. The industrials were quiet, but the prospects of cotton seed oil being a little brighter, there was a disposition to buy it, but the movements in none of the trusts were worthy of mention. The drop in Reading was made remarkable by the offerings of seller, 60 options at 1 per cent below the market, when it showed a disposition to rally, but when all these offerings were quickly taken they were quickly withdrawn. North American became the feature in the last hour, but Northern Pacific preferred, Union Pacific, Atchison and New England were also conspicuous in the late declines and there is little doubt that some long stock was forced out by the raid.

The story on the board which received most attention was that the pool in Reading has been unloading, and the story was used for all it is worth to frighten out holders, not only in that stock but in all the active specialties. The market, while displaying a tendency to rally in the late rally, was met with more vigor and the close was fairly active and weak at the lowest prices of the day. The whole list is lower tonight, and Reading is off 2%; North American, 13%; New England and Union Pacific, each 1½; St. Paul and Big Four, each 1½; Missouri Pacific, Burlington, and Wheeling and Lake Erie, each 1½; Northern Pacific preferred and Atchison, each 1 per cent, and others fractional amounts.

Railroad bonds were dull, the total transactions reaching only \$764.00, and while the market was held fairly well in the forenoon, weakness appeared later in the day and most final changes are in the direction of lower prices with few marked losses. The Texas Pacific issues and the Atchison issues were the only ones attracting any special attention and they were comparatively dull, and losing ground toward the close. Government bonds have been dull and steady. State bonds have been selling of these, based upon the presumption of the shortage of the crops west of the Missouri, undoubtedly helps to depress all other railroad securities, and as long as the market continues demoralized with the continual raiding of the bears investors hold off. MARKETS BY WIRE.

Day of Comparative Stagnation in the Chicago Grain Pit-Few Fluctuations and no Material Changes in Prices-Pork Quiet.

CHICAGO-Wheat-This was the dullest day witnessed for many days. Orders were few, and even local operators found but little of in-terest in the market. Fluctuations were within narrow limits. The opening was a shade lower, about 1/401/4c below yesterday; advanced 3/40 1/4c, eased off slightly and closed 1/401/4c higher

than yesterday.

Corn—There was moderate trading within range of 3/65/4c, with no special change to values, the market ruling comparatively firm. Price changes were due mainly to the operations of local traders and the fluctuations of tions of local traders and the fluctuations of wheat, nothing new of consequence being received from the outside.

Outs were quiet and steady and without new features of importance, October developed a little more strength owing to small offerings and a fair demand.

Mess pork—An unusually light business was transacted. Prices averaged a trifle higher and closed quiet at medium figures.

Lard—Only a moderate trade was reported. The tone of the market was rather easy and

Lard—Only a moderate trade was reported. The tone of the market was rather easy and prices ruled about 23/4@5c lower, and the market closed steady.

Short ribs were confined to narrow limits. Prices averaged about 23/c lower and the market closed quiet at outside prices.

RIVER INTELLIGENCE.

Bigher Water Makes Things Rather Lively Along the Levee.

The calculations of the Weather Bureau for high water were verified yesterday. Most of it came from the headwaters of the Mononga-hela, where the rainfall has been heavy during the past few days, but the Allegheny contrib-

the past few days, but the Allegheny contributed considerable, which helped to swell the Ohio. Coal operators were expecting the high water, and had everything in shipshape when it arrived. Quite a run of coal to Southern markets will be made while the water remains. The Monongahela raised five feet in 24 hours, and rivermen think that 24 feet will be here before the freshet runs out.

Business at the wharf boats was exceedingly lively during the day. A great amount of freight had accumvlated, on account of the boats running irregularly. At the Chemnati wharf boat freight was received subject to delay. The line is badly handleapped, two boats being out of the service, but the management succeeds in satisfying shippers, and the patrons are content to bear with some delay, until the other boats resume.

Nearly 800,000 bushels of coal will be sent out on this rise to Cincinnati, Louisville and other markets.

THE reported consolidation of Forsyth, Black burn & Co., and Lysie & Co., was corroborated by Mr. Blackburn yesterday. The firms will con-tinue under the name of Forsyth & Blackburn.

with a load of poultry. She left with manu-tured iron, loaded to the water's edge. The M. T. Allan will be here, to leave in the same trade, to-day, followed by the Courier and Ben Hur to-morrow. THE D. T. Watson will make her maiden trip in

the Kanawha trade, from Parkersburg, to-day. She is owned by Captain D. S. Pope, who purchased her from Captain Posey recently. She has been remodeled and will be used in the Kanawha coal towing trade.

THE Ironsides has passed Cincinnati, en route to this port. It was reported a few days ago that the Riverton Boat and Barge Line Company would take charge of her at Cincinnati, but this disproves the many statements that have been made that Gray's Iron Line steamers were to be

CURED, COMPLETE AND PERMANENT.

"My trouble began about six years ago, when I was engaged in the flour and feed business," said Mr. F. W. Withers a well-known Alleghenian, who lives at 128 Main street; "I was taken with frequent nose-bleed, and some days it would bleed several times. Soon my nose

Mr. F. W. Withers. came so stopped up that I could scarcely breathe through it. I had pain about my eyes, dizziness and noises in my head. In the morning there seemed to be a shadow over my eyes. Then the catarrhal secretion began to drop into my throat, causing me to hawk and spit. "Finally, after suffering for about three years, I took typhoid pneumonia, and from that time I rapidly greew worse. My lungs became very weak and I felt a tight, oppressive feeling in my chest; my breath became short and a cough set in. My appetite failed, I had a full, uncomfortable feeling after eating, and my stomach felt very sore and tender. I could not sleep well and I had a weary, tired teeling. Every change of weather would cause me to take cold, night sweats weakened me and I lost fiesh.

made by the catarrh specialists at 323 Penn avenue, I decided to take a course of their treatment. I had used local treatment from a doctor, but got no better. I am now glad to testify to my complete and permanent cure by these specialists. F. W. WITHERS." They are permanently located at 323 Penn

They are permanently located at 323 Penn arenue, near Fourth street, and will continue to treat their specialty, catarrh and dyspepsia, as heretofore.

farm of the late Dr. James Prestley, situate near Parnassus, about 210 acres, at \$10,500: also sold a house and two lots on the Southside at \$1,750 cash; also a tract of land of about 150 acres on the Pittsburg. Fort Wayne and Chicago of bear attacks, and, while material declines were forced in those few stocks, comparative firmness ruled where quotations were wont to take care of themselves. The interest excited by the decreased earnings of the Grangers for the month of August seems to have entirely subsided, and it is believed that the short interest which expected to cover in the publica-tion of the news, has liquidated with the usual consequence of dullness and comparative stag-nation.

The forces of depression were turned to-day

C. McDowell, for \$1,775 cash. Baxter, Thompson & Co. sold for E. E. Beddoe to W. E. McMurray lot No. 48 in McClintock Place plan, at Point Breeze, fronting 24 feet on Elysian avenue by 109 feet, for \$1,000. The forces of depression were turned to-day upon the coal stocks and in defiance of the improved condition of the coal roads and the brighter prospects for the coming winter, severe drives were made, with Reading the principal target, and in that stock a marked decline was brought about. The other stocks which suffered were St. Paul and Union Pacific, while Lackawanna, Delaware & Hudson and Jersey Central were comparatively well held. The news of the day was not specially important, but special reduction in rates in the West was canceled, and Southwestern stocks, while quite weak, were not prominent part of lot No. 2508, Larkin's alley, to Mrs. Mar-
