Chief of Department of Public Works.
PITTSBUBG, September 23, 1889 se-324

hereafter obtain, by an ordinance duly passed and approved, the consent of the Councils of this city to enter upon, over or under, or use or occupy any of the streets, lanes, alleys or highways, or parts thereof, within the city for any purpose shall, upon the passage and approval of such ordinance, and upon the acceptance of this general ordinance as hereinafter provided but not otherwise, have and be declared to possess the right, under this general ordinance, to enter upon, over or under, and to occupy and use the same under and subject to the following regulations:

under this general ordinance, to enter upon, over or under, and to occupy and use the same under and subject to the following regulations:

First—Every such company before entering upon the streets, lanes, alleys or highways of this city for the purpose of constructing thereon or thereunder any apparatus, device or means for the supply of light, heat and power or any of them, by means of electricity, shall file in the office of the Department of Public Works a plan showing the location and size of such proposed apparatus, device or means and the nature and character thereof.

In case such company proposes to use wires, cables or any other means in whole or in part over and above the surface of the streets and highways, such plans shall show the size, nature and character, height, with reference to the grade line and means of insulation of such proposed wires, cables or other means, and also the size, character and location, with respect to the roadway or curb line of the posts, poles or other means proposed to be used for the support of such overhead system, and in case such company proposes to use under the surface of the streets any wires, cable, conduit, tube, subway or underground system, such plan shall show the location, manner of construction and means of insulation of such proposed wire, cable, conduit, tube, subway or underground system, and the size and depth thereof, with reference to the surface of the street, and all such plans shall be subject to the approval of the Chief of the Department of Public Works or of the Committee on Public Works.

Second—All wires, cables or other means used by any such companies over the surface of any of the streets or highways shall be created at a height of not less than 20 feet above the grade line, and no such wires, cables or other overhead system shall be constructed by any such company over and across any street or highway such company over and across any street or highway such company over and across any street or highway such company over and across any stre

cable, wire or other overhead system across such street or highway shall erect the same over and above all cables and wires used for the supply of motive power upon such street or highway, and shall place underneath its cables, wires or other overhead system such other and additional guard wires or other means as may be necessary to at all times prevent its cables, wires or other overhead system from falling upon or coming in contact with any wires or cables used for the supply of motive power upon such street or highway.

Third—all wires, cables, conduits, tubes, subways or other underground system constructed by such company under the surface of any street or highway shall be placed not less than two feet beneath the surface of the roadway of such street or highway, and as near the curb line thereof as may be practicable. In so event shall mote than two squares of any street or highway be opposed at any one time for the construction or repair of any underground system, and every such company which shall remove or disturb the pavement on any street or highway shall promptly replace or renew the same in good order and condition under the supervision and direction of the Department of Public Works.

Fourth—The entire system used and all the devices, means, appliances and apparatus of every such company in so far as the same or any part thereof may relate to or in any way affect or endanger the safety of the public, shall at all times be subject to the inspection of and under the supervision of the Department of Public Safety.

Fifth—When and as often as may be required by the Department of Public Safety.

Fifth—When and as often as may be required by the Department of Public Safety.

Fifth—When and as often as may be required by the Department of Public Safety.

Fifth—When and as often as may be required by the Department of Public Safety.

Sixth—If at any time any of the wir s or devices of any of the said companies shall in any
