In my opinion Mr. Depew's chances for the next nomination to-day are better than they were before the strike. In the first place, he had nothing personally to do with the act of the corporation, and although he approved of the stand taken by his subordinate, he can in no wise be bald responsible for the result. AN OPEN LETTER TO THE CRAWFORD COUNTY CANDIDATE.

Statement That He Should Meet the Emery Charges or Retire From the Field-A Reference to the Violation of

PRPECIAL TELEGRAM TO THE DISPATCH. PHILADELPHIA, October 5 .- Henry C. Les, one of the most prominent Republican business men of Philadelphia , has sent the

following letter to Candidate Delamater: Hon. George Wallace Delamater: SIR—As candidate before the people of Penn-sylvania for the highest office within their gift,

come a matter of grave concern to the commu-nity. That character was publicly impeached in the most serious manner, so long ago as April 4, by the Hon. Lewis Emery, Jr., who challenged you to vindicate it by an action for libel. To this you submitted in silence at a time when silence could scarce be construed otherwise than as confession. Yet in spite of this you sought and obtained, through the in-fluence of Mr. Quay, the Republican nomina-

this you sought and obtained, through the influence of Mr. Quay, the Republican nomination for the Governorship. When thus brought before the people and soliciting their suffrages you took no steps to clear yourself, save a general denial of the specific charges brought against you—a denial which, of course, costs nothing and proves nothing.

Last Friday a week, in a public address at Bradford, Mr. Emery repeated his charges in greater detail, and produced a portion of the evidence on which they are based. Allow me to invite your attention to one or two passages from his speech:

"Having proved Mr. Delamater a briber by direct and circumstantial evidence, and his oath, of course, being a matter of record, it follows that he is a perjurer."

"If Mr. Delamater will bring me into the courts, I will assume to supply the evidence to thoroughly convict him in the public mind or suffer the consequence. I take this defiant attitude because I know many men of high character whose lips will willingly unseal when brought before the bar of justice who now refrain from public unterance because of a mistaken delicacy."

The first impulse of an honest man thus arraigned before his fellow citizens for crimes unfitting him for association with honest men would be to bring his defamer to justice. Yet you, who aspire to the Governorship of Pennsulvania, have as vet done nothing more than repeat at Bristol, Pottstown, Pottsville and elsewhere your asseverations of innocence. Let me remind you that the plea of not guilty is always expected of a defendant in the dock and carries with it no weight. If you are guilty of the oftenses alleged arainst you no one would be so simple as to expect you to admit it. If you are not guilty your course is plain. The courts are onen to you and there is yet time before the election for you to vindicate yourself. Mr. Emery is amply responsible, and if he should seek to delay the trial of the issue you do not fear to face the evidence in his hands or to trust yourself upon the ticket as the henchman

you both.

Nor is this all, for it seems that by violating the Constitution which you had sworn to uphold you have rendered yourself ineligible for the office to which you aspire. The Constituthe office to which you aspire. The Constitu-tion of Pennsylvania wisely provided that—
"The making of profit out of the public moneys or using the same for any purpose not authorized by law, by any officer of the State or member or officer of the General Assembly, shall be a misdemeanor and shall be punished as provided by law, but part of such punish-ment shall be disqualification to hold office for a period of not less than five years." (Art. IX. Sec. 14.)

sec. 14.)
Your thrifty exertion of influence, in your Your thrifty exertion of influence, in your capacity of a member of the General Assembly, to secure large deposits of the public moneys; in your capacity of a banker, in order that you might make a profit out of them, as is customary with bankers, would seem to bring you unquestionably within the disabling action of this clause of the Constitution. You confessed as much when you sought legal advice to devise some argument that should afford you a colorable excuse for continuing your candidacy. The courts may yet have to decide whether you can fill the Gubernatorial chair in case of your election, but whether they are appealed to or not for a decision the mere spectacle of a candidate for the Governorship of Pennsylvania forced to resort to such subterfuge shows the depths of humiliation to which the Quay domination has brought the great the Quay domination has brought the great Republican party. If you will not by with-trawing, relieve it from the risk of the still receiver depredation of your possible election. drawing, relieve it from the risk of the still greater degradation of your possible election, it is difficult to conjecture the mental processes by which any self-respecting citizen can justify to himself a vote in your favor. Your obedient Bervant. HENBY CHARLES LEA.

Land Broker Arrested Under a Misapprehension and the Suit Withdrawn.

IMPECIAL TELEGRAM TO THE DISPATCH.1 NEW YORK, October 5 .- Ernst Riall, of Omaha, is one of the big land brokers of the West, and has been an agent of the Union Pacific Railroad Company. Detectives Aloncie and Cottrell arrested him on Friday on a telegram signed by the Chief of Police of Chicago, and he has been locked up at police headquarters two nights. This morning Richard J. Straight, of Bradford, Pa., who had instigated the arrest, came to the police court. In the police court he said to Justice O'Reilly that he had caused the arrest of Mr. Biall "under a misapprehension," and that, as the Omaha authorities declined to pay the expense of taking Riall back to Nebraska, the charge

f embezzlement would be dropped.

According to one story Straight went to Omaha to see Mr. Riall about \$60,000 which Riall had invested for him. There he found that Mr. Riall was on his way to Europe. As he was anxious to see him he made a charge of embezzlement and had a telegram ent ordering his arrest. He was alraid Riall would go to Europe before he could get to see him and thought by having him locked up he would be sure of him. There another story in which \$18,000 in money and a lot of notes, signed by Mrs. Riall, ar mixed in a hopeless way. Mr. Riall will postpone his trip and will return to Omaha

POSSIBILITY OF AN EXTRA SESSION. Revival of the Report That Harrison Will Soen Issue Such a Call.

Secretary Tracy is anxious to secure the steel for the new ships in a hurry. To that end he will confer with representatives of the leading concerns of the country. An effort may be made to abolish the exclusive use of the open-hearth product.

IFROM A STAFF CORRESPONDENT.

WASHINGTON, October 5 .- The conference of steel makers and ship builders with the Secretary of the Navy which was to have met at the Navy Department on Wednesday of this week, has been postponed till Thursday, October 16, on account of the contemplated absence of Secretary Tracy from the city. The importance o the conference is appreciated by the steel producers and ship builders and it will be well attended.

Among the steel producing firms that will be represented are the following: Carnegie, Phipps & Co., of Pittsburg; Park Bros. & Co., Pittsburg; Linden Steel Company, Pittsburg; Oliver Iron and Steel Company, Pittsburg; Bethlehem Iron Works, Bethlehem, Pa.; Midvale Steel Company, Philadelphia; Phenix Iron Company, Phenix, Pa.; Stemberg & Sons, Reading, Pa.; Pennsylvania Steel Company, Steelton; Chester Rolling Mill Company, Chester, Pa.; Standard Steel Casting Company, Thurlow, Pa.; Solid Steel Company, Alliance, O.; Pacific Rolling Mills, San Francisco, and the Nashua Steel Company, of Nashua,

SHIPWRIGHTS TO BE THERE.

Among the ship-building firms represented will be the William Cramp & Sons Ship and Engine Building Company, Philadelphia; the Union Iron Works, San Francisco; the Columbian Iron Works, Baltimore; the Quintard Iron Works, New York; the Bath Iron Works, of Bath, Me.; Harrison Loring, Boston; S. L. Moore & Sons, Elizabethport, N. J., and the Virginia Lo-comotive Works, of Richmond.

The object of the department in calling the conference is briefly to expedite the delivery of steel for the new ships, and all suggestions having that end in view will be considered. The department has not outlined any particular plan, but it is likely that the Secretary will urge all steel producers taking naval contracts to undertake to turn out a fixed amount of steel each day on such contracts without regard to whatever private work they may have on hand at the same

It is not likely that the present system of steel inspection will be materially changed, as not much can be done in that direction under the law which fixes the grade of steel to be used and leaves the Secretary no dis cretion whatever as to the severity of the tests to be imposed.

THE BEST STREET WANTED have specified that only open-hearth steel should be used, and it is probable that some of the shipbuilders will introduce into the conference the question of using other steel Harrison Loring, of Boston, the con-tractor for cruiser No. 11, endeavored, when he signed his contract, to induce the department to allow him to use Clapp-Griffith steel, but, by the advice of the Board of Steel Inspection, the Secretary declined to grant his request. The department will consider any arguments that may advanced in favor of steel made by other than the open hearth process, and it professes to be ready to allow the use of any steel that may be shown to be as good or

better than that now used. The steel producers have been anxious to have the severity of the tests moderated, and will probably endeavor to prevail on the Secretary to ask Congress to lower the stan-dard fixed by law. Secretary Tracy will not be likely to agree to this specially in view of the fact that the present standard was maintained throughout the administration of his predecessor, Mr. Whitney, and when the steelmakers had much less experience than at present and when the percentage of rejections was much larger than now. White Switchmen on the Houston and Texa

Line Strike. HOUSTON, October 5 .-- The Houston and Texas Central Railway has employed negro switchmen in its yards for several years. About two weeks ago a demand was made for their removal, the places to be filled with whites. The demand was refused, and the foremen all struck. Grand Master Wilkinson was sent for, and has been in the city two days trying to adjust matters amicanly. but without avail, as the officials of the Central are firm in their opposition, arguing that if the colored men are good enough to sit in the councils of Knights of Labor they should be good enough to work with. Grand Master Witkinson has wired to all embers of the Executive Council of the Railway Federation, which recently met in Terre Haute, to come to Houston at once, and the impression is general that a strike is imminent. iscrimination Against the Countries Out side of the Triple Alliance-A Victory for the Pet Policy of Emperor William-Other European News.

IBY DUNLAP'S CABLE COMPANY, BERLIN, October 5 .- It is reported on good authority that Germany, Austria and Italy contemplate improving their commercial relations by abolishing many of the vexatious tariff restrictions in force on their respective customs frontiers, thereby affording each other advantages to the detriment of those countries which are opposed politically or commercially to the triple alliance. For instance, Italy is to be favored in regard to the exportation of her wines as opposed to those of France and Austria-Hungary will be equally favored in her cattle trade in competition with Russia.

By concluding conventions of this sort the German Emperor will not only follow out his protectionist views and peaceful intentions, but will at the same time help to lighten Crispi's physical burdens and promote a prolongation of the triple alliance. This alliance will terminate in 1892, and every effort will now be made to insure the success of the negotiations which must shortly be initiated to secure its removal.

NEW YORK, October 5 .- Two young men n large slouched hats, came into the New York Central waiting room, in the Grand Central depot, about midnight on Saturday night. They were rather bright looking men, but evidently not New Yorkers. One of them carried a small valise. They inquired of the ticket agent about the time

that the next train would leave for the West. Detective McMahon happened to be in the waiting room. The two walked up to the ticket-seller's window and the older man pulled out a big wad of greenbacks, at the same time calling for tickets and sleeping berths to Cleveland. The ticket man was raiting on them, when a man came into the doorway and looked at the men. He recognized McMahon, walked up to him and said: "I wish you'd arrest those two men over there. Altogether there was about \$30 in good money in the last three bundles. The stuffing was green tinted paper cut exactly the size of the bill. The other three bundles were ones, fives and tens all the way through. They came to \$1,700. The Sergeant took their pedigrees. They were,

THEY WERE WELL HEELED. When they were searched the police opened their eyes again. Each had two pis-tol pockets of unusual depth, and from each pocket was drawn an enormous navy revolver. They were self-acting guns of 38-caliber and were loaded. The police whistled softly and carried them tenderly to a safe

place in the captain's private closet. The prisoners seemed to be more con-cerned about the loss of their guns than their money. They had some more money in their pockets and this, too, was taken care of for them. The detective managed to gain their confidence to some extent and to work out this version of their green goods game which he afterward related to Jus-

Sometime ago-at least a year-they had come to New York in answer to the regular green goods' circular to buy counterfeit They met the green goods men at the depot as they came into the city and had the usual experience with them. They went to a room where some nice fresh greenbacks, which they were told were counterfeits, were shown to them, and they bought, as they supposed, some \$5,000 worth for

ANXIOUS FOR VENGEANCE.

Their experience not only made them wiser, but decided them upon an effort to btain revenge. They retermined upon a bold game, and when recently another circular came along they at once opened correspondence with the green goods men and rranged for them to come on to New York and crook the rooks. They hid abou their persons the guns already described and assumed demeanors of lamb-like innocence. The green goods men came to han apon their arrival and escorted the Alabamans down town. Hafley and George agreed to take \$10,000 worth of the goods. "Well," said the green goods man, "let's go to some more secluded place, where we can't be overheard and we'll finish the job."

"All right," replied George, thinking of the possibilities, "we want a place where we can't be caught at this, too.' Then they went by devious and intricate ways to another building, in a corner room of which the green goods man produced with great secrecy, three bundles of allege counterfeit money, which he offered to th Alabamans, at the same time saving, with s lacid smile, "Now, gentlemen, the job is one-\$1,500, please."

Then the Alabamians put both hands int their hip pockets, and the next moment four big guns were pointed at his head and George's voice was ringing out in crue

A STERN COMMAND.

"Shell out all that genuine boodle, you
, or we'll blow daylight through you."
The green goods man thought it wise not to delay in complying with their demands and the green paper and the \$1,700 in cash all went into George's satchel. After warning the victim to pocket his loss with squealing, George and Haffey withdrew. The prisoners created a sensation in the court room when they came in with their big slouch hats in their hands and their revolvers were exposed on the Judge's bench. They sat down in their revolvers Judge's bench.

The two metermained in the pen some time while the detectives waited for Eaton to appear. He did not come, however, and they concluded that he was associated with the green goods that he was associated with the green goods men, and was afraid to appear for fear that he would get himself into trouble. After hearing the detectives' story Judge McMahon remanded the prisoners until to-morrow to give the the prisoners until to-morrow to give the detectives an opportunity to hunt up Eaton. The police made search and tried to find the locality of the transactions. The charge of larceny is not likely to be pressed, and they will probably get off with a fine for carrying the pistols.

GENUINE CASE OF RABIES. DEATH OF A BOY MONTHS AFTER BEING BITTEN.

The Symptoms Leave No Doubt That | Was Hydrophobia-The Dog in Question Lacerated Some Other Persons Who Are Now Very Uneasy.

SPECIAL TELEGRAM TO THE DISPATCH COLUMBUS, O., October 5 .- A genuine case of rabies terminated fatally yesterday, the victim being Louis, the 12-year-old son of Charles Fisher, a machinist. Last June Louis was the recipient of a pup from some one in the neighborhood, which developed a vicious disposition and bit the boy, as it did also Mrs. Fisher and several children. Owing to this the pup was returned to the original owner, who promptly killed the animal. The circumstance, with the lapse of time, passed out of the mind of the family

until Thursday last, when symptoms of hy-

drophobia appeared.

The disease developed rapidly after that, reaching the paroxysmal stage last night. The patient upon attempting to drink clutched the glass frantically, but respiration became arrested and his whole body quivered with intense agitation, and terror and distress were depicted upon his coun tenance, and the water was forcibly ejected from his mouth and nostrils. It required : person constantly at his bedside to keep him from throwing himself out. There was no attempt made by the patient to bite any of his attendants, as thought to be usual in such cases. Between intervals of paroxysms he manifested the greatest affection and tenderness toward his father and mother and neighbors. His death was occasioned from utter exhaustion. The paroxysms continued until Saturday, when they ceased the patient expiring a few minutes later.

Mrs. Fisher was bitten through the clothing, a fact that will save her from a fate similar to that of her child. However, as an extreme precaution, she will be sent to the Pasteur institute in Chicago for treatment. There is much anxiety among the families of the children who are reported to have been bitten by the pup, as there is no telling how many other cases may develop.

STYLE OF THE VISITORS

The Engineers and Their Ludies Attrac the Attention of the Quakers.

PERCIAL TELEGRAM TO THE DISPATCH. PHILADELPHIA, October 5 .- In almost all quarters of the city to-day strange faces were seen, some of the true British type, others Teutonic. Many went to church, and the irreproach able style of the gowns and millinery of many an English girl, that style which only life in London's "swim" can give, caused many a head to turn in St. Mark's and St. Stephens and Holy Trinity. Some of the German visitors, not so piously inclined, enjoyed a Bohemian day with friends of the maennerchor and other places where they were invited. In the afternoon hansoms and carriages were in demand, and probably nearly one-halt the visitors went to the park and especially to the Zoo. Sir James Kitson, who seemed rested after a tiresome experi ence (for the position of Chairman on a trip like this is no sinecure), went out driving with one of his daughters and Sir Lowthian Bell. Quite a number of the visitors were invited out to dinner.

Michael Bieber's Wife Willing to Relinquish Her Claims on Him for \$25. SPECIAL TELEGRAN TO THE DISPATCH.

NEW YORK, October 5 .- Michael Bieber ppeared for examination before Justice Me-Mahon to-day on the charge of abandoning his wife. Barbara. The latter came to court. too. She looked old and faded, but evidently had plenty of resolution. Michael looked younger and very meek. He is a little man and rather stout, while Barbara is tall and thin. Barbara thought he had intentions toward another. 'It makes me noddings out," she said, "If he pays me \$30 be can marry her."

Justice McMahon looked surprised, but Michael did not, "Too much," he said,

olemnly. "I will take \$25," suggested Barbara. interposed the Justice "Here, here," interposed the Justice, this won't do. I can't have any such dickering to break the law. If you marry another woman, Michael, I'll see that you go to State prison for bigamy. Michael was astonished to learn that his wife could not sell her title to him. He was ordered to pay her \$2 a week, and was disharged upon his promise to do so.

Corporation d to Pay Heavily for Privileges

The ex-Sergeant at Arms of the Cincinnati Board of Aldermen tells a very interesting story of the practices of the boodlers in certain departments of the city government. He states that he is willing to make outh to his startling allegations.

PERCIAL TELEGRAM TO THE DISPATCH. CINCINNATI, October 5.-The recent exposure of the rottenness in the City Coun-

eil, though the suit of Andy Moonert to recover his part of bribe money which he claimed W. N. Forbis, President of Conncil, withheld, is supplemented by another exposure made by Len Stone ex-Sergeant at Arms of the Board of Aldermen. In view of Governor Campbell's decision to call an extra session of the Legislature to wipe out the city government, the exposure

is of special interest. Mr. Stone, who is now employed at St. Louis, says: "If the Board of Revision desires to know how the boodle was handled in the board I'll go on and tell under oath, if they

will pay my expenses and time. "When I was elected Sergeant at Arms of the Council, it cost me \$250, and Bill Forbis my father-in-law, handled the money. I do not know how much it cost George Williams to get there, but I know it cost him a considerable sum.

REQUIRED TO PUT UP MONEY. "I tell you these fellows gouge you if they get a chance. When Jakey Marklein was in the board, the time I ran, I had to give him \$75. Marklein is a slick one. When he was on the Public Building Committee he took me with him to purchase supplies. We went to a German's place on Findlay street. He left me in the buggy and sold me that he was going in and see if he could get a 'divvy' by buying from this man. He came out a few moments later and with a sour face said the fellow would not put up because he be-longed to the Tweltth Ward Republican Club, and he wouldn't do anything like that. This scared Jakey, and he bought the goods, but never got anything at this

place afterward.

"I used to give brooms, dusters, mops and chamois away by the dozen to Councilmen. "John Strubbe at one time wanted Forbis to put up \$300 for my election, he saying that he had a man who would put up that much. We did not give it to him, and he has not got through hollering yet. "Now, there was poor Miss Farrell, who had a job of scrubbing the floors. She had to put un \$100 to be divided between Moonert and Morgan. After she got the job they kept her guessing whether she could keep

HOW THE BOODLE WAS SECURED. "There was a man named George Zaph who got the job as engineer in the buildings. He put up \$75 to hold it six months. I handled the money, and every pay day got \$12 50 from Zaph which I turned over to Councilman

Morgan, until the \$75 was paid. "Moonert was a boodler. He worked most all the boodle schemes. I stood in or a little scheme and know how they worked it to gouge a corporation. Say that a railroad company wanted a right of way and said nothing about boodle. The matter would be referred at once to a committee or sub-committee. Moonert would then take charge. He would prevent meetings of this committee until the company saw him and nut up the stuff. He would have me stand at the head of the steps on a meeting day, and if there was no stuff I would tell the members that there was no meeting. They understood what that meant. That was the way the Cincinnati Hamilton and Dayton Railroad was squealed when they got permission for double tracks at the Freeman street crossing in 1889. Moonert told me long before he squeezed that Forbis got \$20,000 for the electric

SHARING IN A DEAL. "When Pat McGurney, of Ward 8, was in Council he was done up for \$500 by Charley Winkler for his vote for giving the gas works an extension on their contract. Pat got mad and swore he'd squeal. This scared Winkler, who proposed to Pat that he would deduct enough from the other members' shares to make Pat's share good. Votes for that ordinance were worth

light deal.

\$250 to \$500, and that was what members "The gapg was so crazy after boodle that Andy Moonert one day called at the office of the Consolidated Company and demanded some money for passing some favorable measure. Well he didn't get it, but he did get kicked down the steps."

FOUND DEAD IN A GROUP. A Mother, Daughter and Son Perish in the

Flames at Dubuque. DUBUQUE, October 5 .- One of the most terrible accidents ever known in Dubuque occurred this morning at 4 o'clock. The residence of ex-Policeman John McBee was discovered on fire. A neighbor ran across and tried to arouse the family. While knocking at the door the window in the upper story crashed and McBee fell to the ound. For a few moments he was sense-s. When he recovered he began crying that his family were upstairs. were quickly extinguished, and the firemen entered at the top of the landing. The mother and three children were found and quickly removed. Mrs. McBee and the oldest daughter, Rose, aged 18, were dead. The youngest daughter, Bertha, aged 16, and Charley, 5 years old, were still alive. The boy died this afternoon. The girl is

still alive, but cannot recover. McBee is too dazed to give a connected account. It is gathered that he awoke nearly suffocated and roused his wife. They groped in the smoke and darkness until McBee struck the window through which he leaped or fell. The mother was with him, but remembering her children went back to save them. When found the family were in a group with their arms about each other's necks. The building is a small twostory frame. The bodies were very slightly burned.
