The new buying came in at this juncture, however, and the upward movement which followed was practically sharp, equaling the downward movement in suddenness, and more than equaling it in its extent. Duliness at times marked the trading, but the business done was generally on a large scale, though few large lots changed hands.

Toward the close a few belated borrowers came in and bid up the rates for money, though it had more the look of a manipulation for effect than anything else, and after ruling at from 4 to 5 per cent throughout the day, the rate on call was run up to per cent, at which figure the last loan was effected. This had its influence on the final dealings, and some reaction from the high figures was made, while

The number of sheep and lambs on the market was 415 head. The range of prices for speep 4/4c to 5/4c per h, and for lambs, 5/4c to

der their keeping the coming winter, owing to high-priced corn. For this or some unknown reason our markets are flooded of late with interior stock. Desirable beeves, suitable for battcher purposes, are fairly up to last week's prices, but all other grades are dull, with markets in lavor of the buyer. There has been intile demand for export cattle at Liberty of late, and hence receipts of this grade have been hight.

It is evident that if there are any choice sheep or lambs in the hands of farmers they are being withheld while common stock is being sent to the front. Prices of last week were fully maintained for all good stock but low grader which all good stock, but low grades, which were largely in the majority, dragged at a shade lower prices. There were 25 loads of hogs on sale this morning, and markets were strong for good corn-fed stock. Top prices ranged from \$4.90 to \$5.00. There were not, however, over five loads of this grade offered. Common to good Yorkers ranged from \$4.30 to \$4.75. On the lower grades markets opened slow and weak.

partially a continuation of the firmness devel oned Saturday, though assisted some by the re-ported export purchases at the seaboard and here. The short interest was rather anxious to cover, and the speculative offerings were only moderate. No doubt the firmness was due largely to local speculative operations.

Corn was active and a little unsettled, though prices on the whole ruled stronger. The ad-

Building Lots Offered at Prices Favorable to Working People.

A WIDE FIELD FOR HOME-SEEKERS.

The Gospel of Law in its Bearings Upon Some Important Interests.

THE NEWS AND GOSSIP OF THE CITY

For a city so prosperous as Pittsburg building lots, except in the best localities, are selling at very reasonable prices. Of course, if the city were flat on its back in a business point of view, lots would be cheaper but in that case they would be harder to pay for. It has been well said that a dollar will go farther in England than in this country, because it has to. If lots were cheaper it would be for the same reason. Cheap lots, well located and essily acces-

sible abound in nearly all the outer wards and in all the districts just beyond the city line; and the supply is kept up by the constant sub-division of acreage. In some cases they are offered as low as \$150. Better lots can be had for \$200, and very choice for \$300. These values are certainly not beyond the ability of any workingman with a steady

job and a regular income.

Nearly every plan of lots new on the market s, or soon will be, accessible by street cars, which are pushing out in all directions, minimizing distance and time. Old citizens remember when Lawrenceville was a distant outskirt. bring about as great a change in all the districts within a circuit of seven or eight miles, reckoning the Court House as the center. Legal Light Turned On.

Since it is important to business men to know how the laws of the different States affecting great and controlling interests are interpreted by the highest courts, several decisions are

culled from a number just received.

The Supreme Court of Rhode Island, annulling a mechanic's lien on a schoolhouse, maintained that mechanics' lien laws do not, in the absence of express provisions, apply to public buildings erected by States, counties and towns, for public uses, and schoolhouses erected for the ase of public schools come within the above exemption. Such buildings are exempt from attachment and from sales upon execution, and for the same reason are exempt from liens

which might result in an adverse sale.

The Supreme Court of Indiana recently held that while the notice required by section 1,692 of the revised statutes of the State of an inention to hold a mechanics' lien need not be in writing, yet that mere personal knowledge of the owner that a particular person is performing labor for or furnishing material to the contractor, conveyed to him in casual conversation with such person, does not supply the statutory notice upon which the person can predicate a mechanics' lien.

In an action for breach of building contract the City Court of Brooklyn held that it is proper in order to aid in arriving at a correct measure of damage, for the complainant to show the cost of removal of defective material, and of replacing the same in accordance with the con tract,

According to the decision of the Supreme Court of Alabama, a bona fide purchaser of certificates of stock upon which a power of attorney authorizing their transfer to any person is indorsed by the person in whose name the certificates were issued, and who was the last registered stockholder, takes them relieved of a trust existing back of the registry, though the transfer to such purchaser is not regis-

New York and Chicago Pointers.

There was a strong effort to rally prices in Wall street yesterday. The ways and means whereof are set forth in the following special to W. W. Vensel, 115 Fourth avenue: helped the downward course of the market was brought into place to-day. London prices came very weak, that market being a seller to the extent of probably 40,000 shares. Money was bid up to 6 per cent, and the demoralization was intense. Some of the larger shorts covered heavily at the decline, but it is probable that as much more was sold by new converts to the bear side as they covered; at any rate, the loan crowd showed a very heavy borrowing demand for stocks, and that in spite of the higher rates for money.

There were many rumors used to scare timid

holders, such as probable failures both in Wall street and in the various manufacturing trades, but they all failed to materialize, and when during the closing hours of the session it was found that in spite of continued heavy sales of long stocks the market seemed to resist stubbornly, traders took courage and bought heavily in the hope of rallying prices.

It is probable that weak holders are for the noment quite sold out and that their stocks have come into stronger hands, who may have only bought for speculation, but will certainly not sell except at a profit; hence, we are inclined to look for a good rally, even though the worst may not be over. As to the future of the market all reason would be at fault when the current is once set strongly in one direction. No one can attempt to guess how far it will run. The liquidation may continue to put prices ower, but we are bound to reach bott day, and when we do it will be for quite as decided a movement in the other direction. Nothing of special interest developed in the

Chicago grain pit. Cables were firm and the leading bulls obstinate. Provisions were firm. News of the Street.

Yesterday's rain made people living on torn up streets feel rather blue. Work on the bridge over,the railroad at Roup will begin this week, according to report.

W. A. Herron & Sons-The demand for good mortgages is brisk, but while money is fairly plenty, persons having it will not let it go under 6 per cent, unles the security is first-class and the amount above \$3,000. The amount of Philadelphia money placed here is small-not so much as some time ago, for while the rate is low generally, those controlling it want a very arge margin of value over and above the load and all the expenses of placing it, which are greater than in the case of home money. Borrowers, as a rule, are ready to pay their mortgages when due.
The power house of the Duquesne Traction

Company, at Ben Venue, will soon be ready for the roof.

The school building at Wilkinsburg, on

site of the one destroyed by fire, is being hustled as fast as possible. The roof is on, and work on the inside will begin at once. The building covers a little more ground, but is not so tall as the old one. J. E. Glass has sold for A. C. Watkins 14 lots in his Alliquippa place plan in the last few

days, showing a good movement in moderatepriced property. A charter was issued at Harrisburg yester day for the Grove Land and Loan Association of Pittsburg, with a capital of \$50,000. The directors are James W. Grove, James B. Grier, John W. Grove, Simon Prulin, Samuel C. Bear and Louis C. Heim, Allegheny City, and John Schuldice and Edward Frank, Pittsburg. The Allegheny City Ten-Cent Premium Building

and Loan Association, with a capital of \$600,000, was also chartered. The Pennsylvania Railroad reports that the quantity of coal and coke originating on and carried over its lines east of Pittsburg and Erie for the week ending September 27 was 343,694 tons, of which 237,438 tons were coal and 106,256 tons coke. HOME MONEY.

The Market in a Comfortable Condition-All Good Borrowers Accommodated.

business was one of the best of the year, the gross exchanges of the banks being \$3.104,288 60
and the balances \$321,596 15. Interest and dividend disbursements contributed to this result, but it was mainly due to activity in all brances of trade.

In the general money market business was fair, but not rushing. There was a good supply of funds and loans were made at 607 per cent, the inside figure being the rule. All borrowers in good standing were accommodated, showing that the purse strings are being loosened. The outlook favors a continued easy market, although from the activity of trade and the starting of new enterprises there is no expectation of large amounts of idle money.

The Post says: Of course the most important question in the stock market is as to whether the liquidation which carried prices down from 1 to 3 per cent last month, and appeared to culminate in a drop of from 1 to 5 per cent more in the last half of last week, has been complete enough to cause a recovery. It is not now so much a question of the value of the stocks, or of their normal prices, as it is of whether the holders of railroad securities are recovering any of their courage. There is no doubt that the increased demand from importers for bank accommodations to enable them to bring in more goods ahead of the operation of the tariff, played a most important part in causing the

Drygoods. NEW YORK, October 7.—Rainy weather was against trade in the drygoods market. Jobbers were doing quite as much business as expected, and the inquiry at first hands was encouraging. Shipments were interrupted.

RIVER INTELLIGENCE.

Local Coal Shippers Keeping an Eye on the Kanawha Region.

Coal operators are watching the movement of the Kanawha river shippers very closely just now. Considerable coal is loaded ready for shipment at the Kanawha mines, and, on the next rise in that stream, it will be sent to the lower markets. A large sized drop in prices is expected to occur, which is a matter of no little consequence to Monongahela river operators. A majority of them have con-tracted to deliver coal at Cincinnati all winter,

tracted to deliver coal at Cincinnati all winter, however, at a stipulated price, and it will not effect them so much as it will the firms who sell at prevailing prices.

The river has fallen below the mark that permits coal shipping, and a rise is not looked for until the latter part of the week. Latest reports are very favorable for high water. At all stations on both rivers the water was either stationary or rising, with excellent prospects for rain. Some coal firms assert that mines are in full operation, and that when the water comes they will have considerable coal in readiness.

Packet business was very lively yesterday. Enough freight was dumped at the wharf to load a dozen boats, but only six were on hand to take care of the freight.

THE Monongahela hugged the six-foot mark all day yeste;day. A NUMBER of empty tows were taken to the upper pool to be loaded yesterday. THE Scotis left on time, carrying a large-sized load of freight and a fair passenger list.

THE Ben Hur arrived from Parkersburg yester

day morning. Her tow was made up mostly of sewer pipe and glassware. The glass came from East Liverpool. East Liverpool.

CAPTAIN JOSEPH TODD, a former steamboat captain of this city, will command the St. Louis and Tennessee river packet City of Sheffield, which will be out in a few weeks. MRS. JOSEPH POURCH has entered suit against

the Quachita River Consolidation Line, asking judgment for \$25,450 for the death of her husband, who was killed by the explosion of the Corona last October on the Mississippi, at Prophet's Island. AT the meeting of steamboatmen no action was At the meeting of steamboatmen no action was taken. Captains J. A. Henderson, Addison Lyste and several others will represent Pittsburg at the convention in New York to-day. They left last night determined that the river interests here would be looked after in the convention.
