IRON TRADE REVIEW.

There Has Been a Slight Improvement in the Local Demand,

BUT NO CHANGE IN PRICES YET.

The Structural Supply Hardly Equal to the Needs of Buyers.

REPORTS FROM THE LEADING CENTERS

The iron and steel situation is practically as it was a week ago. Mill iron and Bessemer are in fair demand, but prices are the same as they were. There has been some improvement in demand, and the amount of raw irons placed this week has been larger than for a few weeks past. The stock in the hands of manufacturers of finished products is light, and the time for replenishing cannot be much longer delayed. There is a strong undertone of confidence in the future of mar kets, and lowest prices for the season have evi-dently been touched. Nails are in good demand at old prices. Muck bar is strong, and outside quotations have been obtained the past week.

The demand for structural iron is fully up to supply, and prices are fully maintained. Steel rates are nominally the same as they were a week ago, but the cash customer would no week ago, but the cash customer would no doubt be able to place a large order at a shade below our quotations. The Edgar Thomson works are turning out in round numbers 1,800 tons of rails daily, and there is no doubt that the entire output for the year 1890 will find ready bayers at prices which will be satisfac-tory to the proprietors. While there is little, if and, profit to producers of raw iron, many manufacturers of finished product are as basy as bees, and in a very short time there must come an upward movement of the raw ma-terial.

Pittsburg Capitalists Taking More Interest in House-Building. GOOD RESULTS MAY SOON FOLLOW. One of the English Visitors Falls in Love With the East End Suburbs. THE NEWS AND GOSSIP OF THE CITY Time was, and that not very long ago, when Pittsburg capitalists thought it be-

neath their dignity to engage in house-building. They preferred to invest in something more fashionable and with a more mellifluous name-shares, bonds, mortgages and what not, sometimes to their sorrow, for these were not always what their fancy had painted them. As a profitable and secure investment

house-building bolds first place, and it is gratifying to know that local capitalists are beginning to appreciate this fact. One of them is talking of putting up 100 houses in the Fourteenth ward. Another may do as much in the Nineteenth. Several other pro-jects in the same line, and of equal magnitude, in other parts of the city, are in contempla-

tion. There is no other city in the country where small and medium-sized houses, renting for from \$20 to \$25, are in such urgent demand. This is all the more remarkable when it is considered that an indefinite number of such

houses could be promptly rented to good tenants and that they net 8 to 10 per cent on

As a clincher to the foregoing, a gentleman who occupies a responsible position in the City Assessor's office, said yesterday that there City Assessor's office, said yesterousy that there was not a house or a room to rent in the Twenty-third ward. He added, that if any en-terprising capitalist would undertake the erec-tion of 100 houses in that ward he could rent them before the foundations were laid.

An Englishman Charmed.

One of the English visitors, who is acquaint ed with Mr. Hill Burgwin, visited that gentle-man at his residence at Hazelwood yesterday. Mr. Burgwin, during the afternoon, showed

his friend through some of the outlying dis-tricts, and afterward took him to the charming country seat of Mr. Ira M. Burchfield, which occupies a position commanding a good view of the Monongahela valley and river as far up as Port Perry and as far down as Homestead, and also Wilkinsburg and Swissvale. The visitor said the view was the finest he had had in this country, and equal to anything in Europe. He was greatly impressed with the possibili ties of the entire region, and thought, from its manifest advantages, that it would not be long before it would be full of homes and manu-factories-in all of which Pittsburgers entirely

Business and News Gossip. People who have located along the line of the Valley Railroad are clamoring for more trains. As it is, the service is very unsatisfactory. Several extensive building schemes are being talked up for the lower part of Allegheny as soon as California avenue is opened and the electric cars started. There were 40 mortgages on file yesterday, of

There were 40 mortgages on file yesterday, of which 11 were for purchase money. The larg est was for \$22,000. Fifteen were for less than \$1,000 each. Tenn avenue and Wood street, Wilkinsburg, are being payed with brick. A Fayette county farm was put on the mar-ket yesterday at \$50 an acre. Country people seek the city when it is prosperous and go back when the bottom falls out. This accounts for the present low prices for farm lands around Pittsburg banks hold \$641,861 in excess of the 55 per cent required by law. This is a very good working margin. Condition of Trade at the East Liberty

the fa. State bonds have been entirely neg-lected. The Post says: Erie was one of the few stocks that were at any time in the forenoon lower than they were at the close yesterday. The selling was mainly shorts, and was in con-sequence of the company's refusal to grant the demands of the employes, which, it is argued, will bring on another strike like that on the New York Central. So far as the \$77,000,000 common stock of the Erie is concerned it has no prospects of dividends anyhow, and has no value except for voting purposes. The figures at which it has been held for the last year are merely factitious and arbitrary, and, if once established' at a lower level, would probably stay there without thaving any influence upon the movement of prices in the general stock market. There were no sales at the first two calls. At the third 3 shares Hazelwood Oil brought 50%. 100 Pittsburg Traction 33%, 30 Philadelphia Gas 30,500 La Noria 20c, and 50 Columbia stay there without flaving any influence upon the movement of prices in the general stock market. President King states that the wages paid by Erie are generally in excess of those paid on the principal competing and adjacent lines. Furthermore, to grant the rates and allowances asked would increase the pay rolls of the Erie system to the amount of \$1,034,000 per annum. It would also entail an advance in the wages of employees not connected with train service. The increase of \$1,634,000 would be greater than the average agringes of the commany in excess

Gas 30, 500 La Noria 200, and 50 Constant Oil \$3. The total sales of stocks at New York vester-day were 295,449 shares, including: Atchison, 14.349; Delaware, Lackawanna and Western, 84.306; Erie, 11.540; Lake Shore, 4.310; Louisville and Nashville, 8.770; Missouri Pacific, 10.825; Northwestern, 3.960; North American, 3.170; Northern Pacific preferred, 5.250; Reading, 15.-300; Richmond and West Point, 6.874; St. Paul, 25.200; Texas Pacific, 3.190; Union Pacific, 13,450; Western Union, 4.800. The increase of \$1,634,600 would be greater than the average earnings of the company in excess of fixed charges for the last five years; hence the company could not grant the increase and maintain the property. The following table shows the prices of active stocks on the New York Stock Exchange yester-day. Clearings were \$2,385,-409 15, against \$2,116,429 20 for the same day last year. The balances were \$245,502,48. San Francisco succeeded in laying Pittsburg out last week. This, as explained by a West-ern financier yesteriay, was due to heavy checking by importers to beat the tariff law, and not to an expansion of regular business. Pittsburg needs no such factitious aids. The following figures, compiled by Robert J. Stoney, Jr., show the changes in the condition of the Pittsburg national banks October 2, 1880, as compared with statements made in response to the previous call, July 18: Reserve, increase, \$355,807; loana, decrease, \$235,565; specie, de-crease, \$107,813; legal tenders, increase, \$220,005; deposite, decrease, \$230,265; specie, de-crease, \$107,813; legal tenders, increase, \$220,005; deposite, decrease, \$369,920; circulation, decrease, \$9,740. Our markets are overstocked with a poo grade of potatoes, which will not yield enough to pay freights. The railroad yards are crowded with potatoes that are not worth the handling. A Liberty street commission merchant reported to-day that 1,200 bushels were consigned to him from New York State which were only fit for the garbage pile, as dry rot was doing its work most effectually. The shipper would be con-tent to get his freight bills out of the stock. Chestnuts are in abundant supply and prices have found a lower level, as quotations below will disclose. CINCINNATI, October 10. - Brown & Co., say: So far as actual orders are concerned, business has been more quiet the past week. At the close, however, there are some heavy stances. Raw materials of all kinds continue extremely low. This is thought to be due, in part, to the process of liquidation that has been

me required. The only sure precaution is to order material several weeks in vance of actual needs.

FAIRLY SATISFACTORY TRADE.

The Condition of the General Iron Market at St. Louis.

STRUCTAL TELEGRAM TO THE DISPATCE. Sr. Louis, October 10 .- Rogers, Brown & Meachain say: Trade during the week has been on a fairly satisfactory basis, order: for carloads and medium lots being quite on average. In Southern irons there is a decidea parents of No. 2 foundry and No. 1 and No. 2 soft, urrespective of prices, and any unexpected emand for these grades would probably cause a sharp advance. Shipments from the South a simily handle open by a serious lack of cars. There is little doing in wheel irons, prices be-ing nominal. In Ohio softeners there is a stendy movement at practically unchanged fig-ures. We quote for cash L.o. b. St. Louis:

CONTINUED ACTIVITY

Has Marked the Chicago Market, But No Change of Prices.

SPECIAL TELEGRAN TO THE DISPATCE.I CHICAGO, October 10. - Rogers, Brown & featham say: Continued activity has marked the Chicago market during the past week and considerable quantity of both Northern and nuthern coke iron has been placed, quite a number of 300 and 1,000 ton sales having been consummated. Lake Superior charcoals are in better demand, but coke irons are the class which is being mainly called for. The market

in a most healthy condition in all respects, leavy consumption is continuing without any drop and indications all point to a continuthis direction. While there has been no advance in prices, ther on Northern or Southern coke irous, yet impress is manifested on the part of most diers, and a marked noder current of strength poticeable. The car works are particularly usy at this time, though this statement is ap-icable to nearly all lines. Stocks are rapidly providing and many of them are now in the school or about to come in for the purpose of release of about to come in for the purpose of mensions. We quote for each f. o. b. Chicago

NEW YORK STOCKS.

Less Activity in the Street -- Much More Steadiness -- Railroad Bonds Reach Moderate Sales--A Slight Attack on Erie.

NEW YORK, October 10,-The stock market to-day was somewhat less active than yester-day, which was almost entirely due to the absence of the pressure of short sales which has been the great feature of the dealings of late,

Kelly & Rogers sold for Mrs. B. Doyle to C. Carroll a house and lot on Mayflower street, Twenty-first ward, for \$2,500: also three lots for Charles King, on Hullman street, for \$2,725. Brown & Saint sold to L. J. and J. B. Bowen and, in consequence, there was much more steadiness, helped by the excellent buying of investment houses. Drygoods Market.

NEW YORK, October 10.—There was a moder-ate business in drygoods for current wants at the hands of agents, but inquiry for goods in-dicated a near movement in staple cottons. The principal feature was the request for spring dress cottons, shirtings, damasks, lace curtains, etc., many of which are already sold up.

RIVER INTELLIGENCE.

Business a Bit Slow, but Promising to Pick Up Soon.

Business on the wharf was a trifle slow yesterday on account of the boats being behind time. The river had a perceptible decline. In 24 hours it dropped one foot and a half, and was still falling below the 6.6 mark late yesterday afternoon. The weather is very favorable for high water in a day or so. The fall of rain was

very steady yesterday afternoon and it looked like a stayer. Driftwood. THE Crescent left Cincinnati yesterday for this

THE Slackwater Navigation Company's dredgeboat was down in the harbor yesterday and re turned to pool No. I later in the day. CAPTAIN JOHN A. WOOD was appointed to the

Committee on Bridges at the convention, and Captain Henderson will serve on the Committee n Legislation. CAPTAIN JUTTE received a telegram yesterday

from the Diamond, stating that she had arrived safely at New Orleans and would start on the re-turn trip during the uight. THE Ironsides left light for Middleport vester-

day morning. She has five barges half loaded. The tow will be left there and taken on down when there is sufficient water. CAPTAIN B. D. WOOD, of New Orleans, accom-

panied Captain Henderson and Secretary Lysie home from New York. Captain Wood continued South on the Panhandle to New Orleans yester-day. THE Andes passed East Liverpool six hours

late yesterday afternoon. She was due in at 9 o'clock last night. Considerable freight awaited her, cotton ties and manufactured iron being the principal articles of her cargo. She had a light load of cotton, which was discharged here.

Mr. Thomas Kemp, Millvale Bo ough

Mr. Thomas Kemp, Milleale Bo ough. "When I called at Dr. Byers' office," says Mr. Kemp, "it was my last hope, as I had tried so many dectors with no avail and my sickness and enforced idleness had consumed all my money. I borrowed \$5 from a friend, as I hadn't a cent to my name. The trouble seemed all in my stomach. As soon as I ate anything I became sick and threw it right up. My stom-ach would swell up like a drum and I would rift up wind constantly. There was always a dull, heavy feeling in my head and I would get frequent dizze spells. I also had severe pains in the small of my back. I lost 25 or 30 pounds and got so weak I had to give up my work, which is that of an engineer on the railroad. "When Dr. Byers examined me he said my trouble was catarrh of the stomach, an exten-sion downward of catarrh of the some and throat, and although he could give me but lit-tie encouragement, he would do the best he could for me. I put myselt under his treatment and in three weeks he had me at work again.

could for me. I put invert under his treatment and in three weeks he had me at work again. At the end of this time he told me that he besi-tated quite awhile whether or not to take my case, as I tooked so bad, and he hated to take the money I had borrowed without being posi-tive he could cure me; but I assure you it was the best \$5 investment I ever made, as I am well, happy and strong again, and able to stand up to my work all day."

EXTRACTS FROM LETTERS IN PRAISE OF HOME TREATMENT.

Beaver Falls: "I have observed instructions in regard to treatment faithfully as possible and must say I have roceived benefit beyond my most sanguine expectations. The noises that troubled me solong have almost entirely ceased through the day only while eating or drinking, but they are still bad at night, but have so diminished to at they are not so worry-ing. I have hopes that your treatment, if per-sistently followed, will have the desired effect." Howard, O.: "I am feeling much better, my head has not pained me for over two weeks, and the terrible pain I had in my back is gone." New Comberland, W. Va.: "Since you started to treat me my appetite is very good, my back does not pain me near so much, and, in fact, I am beginning to feel like a new man. The dizzy spells do not come half so often as they did. I am very much pleased to find so much relief in so short a time." Beaver Falls; "I have observed instructions

and. I am very match present of that so match relief in so short a time." Scott Haven, Pa.: "Please send me some more powders. Those last powders you sent me improved the bowels a great deal and I don't like to run out of them. I feel a great improvement of the catarth in my head." TREATMENT \$5 A MONTH, MEDICINE INCLUDED
