ISPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, October 10 .- A serious hitch has occurred in the efforts of the rival baseball magnates to effect a compromise. The National League members and supporters and those of the American Association desire in the event of a consolidation to insist on any new organization that may be formed being called the American Association. This matter is merely one of sentiment, and good supporters and advocates of peace think that as soon as a solid plan of compromise is formulated this sentimental difficulty will vanish.

DID LITTLE WORK.

The delegates to the National Baseball League Convention went into session again this morning at the Fifth Avenue Hotel to hear the report of the committee which conferred last evening with committees from the Players' League and American Association. There was a full attendance of the National

There was a full attendance of the National League proper.

A. G. Spalding, in conversation to-day, said that there was a disposition on the part of the National League people to look at this matter of a union from a fair business standpoint, and if they can arrive at some solution they are all disposed to sacrifice something for the good of the baseball business. He said they wished to bring baseball business. He said they wished to bring baseball business. He said they wished to bring baseball business. He said they wished to proper to bring the said that the National League people realize that there is a sort of pressure from the public press and baseball-goers to bring this work to a close, and they are going to assist in this good work. They do not favor any temporary arrangement, but want something permanent. At present they have no idea of whas will be done, but suggestions will be made and received between now and the 23d of October, at which time there is to be another conference. another conference

meets that day at noon, with the committees from the other leagues. This was the sub-stance of all they had to report, and the mem-bers attending the conference had little to say on the situation. A. G. Spalding thought that some satisfactory agreement would be easily made within a month's time. In the meantime the ba-eball managers will see what can be done in the various cities.

the baseball managers will see what can be done in the various cities.

There was a good deal of talk indulged in as to what could be accomplished, but no person seemed to have any idea of what would be done. Many think that quite probably two major leagues will be formed, and the proposition made yesterday by Allen W. Thurman, Jr., is quite generally discussed. This proposition is to have two major leagues. In the first would be Boston, Brooklyn, New York, Philadelphia, Chicago, Cleveland, Columbus and Indianapolis; and in the second Boston, Philadelphia, Baltimore, Washington, Cincinati, Pittshurg, Louisville and St. Louis. The Association clubs in Rochester, Toledo and Syracuse could go back into the International League. In the next two weeks many proposieague. In the next two weeks many proposithat some satisfactory arrangement will be made, for there is a disposition on the part of all to take some action that will settle all these troubles which exist at present among the base-

ball players.

George K. Frazer, President and Manager of the Syracuse club, was at the hotel this morring. He, with other Association people, does not think that the American Association will ever join the Brotherhood. He is confident that the national agreement will not be violated. A TALK WITH WARD.

With all due respect to the business qualifications of E. B. Talcott, Wendell Goodwin and Al Johnson, who represented the Players' League at the conference held at the Fifth Avenue Hotel, the general impression seemed Avenue Hotel, the general impression seemed to be among the supporters of that organization that John Ward had a deal to say regarding the movements of those gentlemen while they were confering with the National League magnates, and furthermore nothing will be accomp ished without the Anction of the Brooklyn Players' League club's manager. Ward said to a Dispart to effect a settlement. "It is a metake to think," said he, "that I was anxious to have a conference with the National League magnates. I knew no more National League magnates. I knew no more of the intentions of our men than you did until 1 roceived a dispatch in Pittsburg to the effect that I was wanted in New York. When I got here and was told of the intentions of the men who were behind the Players' League clubs my advice to them when I heard that the National League objected to any of the Players' presence in the conference was to go ahead and do what they thought best. That's my reeling now, and I have the utmost confidence in our representatives that they will do only that which will be for the best interests of the game. I don't want to be understood that the matter is settled by any means. My wish is that it may be, that's all."

Mr. Johnson said he was perfectly willing to sell his club to Messrs. Howe and Robinson in Gaveland and take hold of the Cincinnaticlub, of which he is part owner. He said that he would pay these gentlemen a visit and talk over matters as soon as he returns home. Sational League magnates. PRESCRIPTION TO THE DISPATOR. of the Rochester club, to-night stated that he had wired President Phelps, of the American Association, demanding the expulsion of the of the two games played by them in Philadelplus on Wednesday and Thursday. He also said that he had wired Manager Frazier in the said that he had wired Manager Frazier in the inorning that he would protest the games unless his claim was satisfied. Manager Power was much put out at this treatment and said Measrs. Pennspacker and Whittaker had refused to play the games unless the Rochesters would take their share of what came in. This Manager Power said he did with the understanding that it was to be considered part of payment. He says he will sue for the remainder. The Rochesters, he says, will disband in Baltimore at the close of the season.

The Rain Stopped Them. The ball game between the local N. L. club and the Homestead team was stopped by rain yesterday at the end of the third inning. The restort was 4 to 3 in favor of the Homesteads. To-day the N. L. team will play the McKeesport club. MORE RECORDS LOWERED. Hamlin's Great Team Goes a Mile in 2:15-An Eventful Day on the Terre Haute

TERRE HAUTE, October 10 .- Two more world records are nailed to the mast that flies the Terre Haute Trotting Association flag. An-other day, perfect in its autumnal splendor and in its sport, marked the last day of the great fall meeting, a meeting that in the expressed opinion of such horsemen and breeders as Budd Doble, Orrin Hickok, John Splan, Colonel J. W. Co ely, C. J. Hamilin and others, eclipses all harness events, not only in the sport offered, the interest manifested by large attendance but in its effect interests all. Having driven Bell Hamilin and Globe a half mile Tuesday in 1:06½, Mr. Hamilin concluded that he would go against the record to-day with this team. After one score, the team took the word, going strong, Globe not being able to make the short turns handlily, went to a break and there brought back for another effort, and they got the word. They are taken back at the turns, and are only rushed in the four stretches. The mile was made in 2:16%. in its sport, marked the last day of

made in 2:16%.

It was then announced that within an hour Belle Hamlin, with Justina as mate, would be driven by W. J. Andrews against the world's tion desire in the event of a consolidation of the Players' League and Association that the new organization be named the American Association. To this the P. L. magnates most strongly object and their objections are so strong that no compromise will be effected if the name "Players' League" is not retained. This feature of the business has been the leading topic under discussion in the hotel corridors to-day. Several of the N. L. magnates are at present inclined to insist on any new organization that may record. Promptly the great team was brought

Benefits for the Indian Discussed at the Conference.

MOHONK LAKE, N. Y., October 10 .- At he session of the Indian Conference to-day a letter was read from Miss Kate Field, who has been making an official visit to the Mission Indians of California. Miss Field said the Indians are still the victims of the greed of their white neighbors. Hon. Austin Abbott, of New York, reported for the Law Committee, giving the Indian the right to sue and be sued. The report was discussed by Phillip Garritt, of Philadelphia

and Senator Dawes. The Executive Committee, reporting the platform of Mohonk for 1890, reviews the work done toward the civilization of the Indian, and arges Congress to make such liberal and increasing appropriations as may be necessary to perfect this plan and carry it into full operation; it calls for further ex-tension of education in all the industrial arts essential to preparations for self-sup port; it protests against the removal of capa ble officials for party reasons: it means ble officials for party reasons; it urges the churches to larger gifts and greater zeal in their distinctive Christian work among the Indians. The Conference unanimously adopted a resolu-tion, offered by General Whittlesey, urging that money derived from the sale of a sur-plus reservation be held as a fund to aid the Indians on allotments in learning how to support themselves.

SPECIAL WEATHER BULLETIN.

All Over the Country.

(PREPARED FOR THE DISPATCH.)

There was a slight barometric depression in

the lake region, causing light rains around all

the lower lakes and Canada, light showers in

South Dakota and Kansas, and snow in

Montana. Elsewhere the weather was

fair. There was no general storm in

sight and all along the coast the winds were

light to fresh and mostly offshore. The area of

high pressure covered the Northwest States

and the upper Mississippi Valley with colder

weather, while the high pressure in the South

Atlantic States sent warmer southerly breezes

Why Royal Baking Powder is the Best.

"The Royal Baking Powder is absolutely pure, for I have so found it in many tests made both for that company and the United States Government. I will go still further and state that, because of the facilities that company

have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the same, and the method of its preparation, the Royal Baking Powder is undoubtedly the Purest

> and most reliable baking powder offered to the public. "HENRY A. MOTT, Ph. D." Late United States Government Chemist.

At the request of many members of the Jr. O. U. A. M., State Councilor Stephen Collins has arranged with J. H. Johnson, manager of the Exposition, to have a Jr. O. U. A. M. day. Next Wednesday, October 15, is the day set. The arrangements have been placed in charge of the Western Penn-aylvania Past Councilors' Association. A fine musical programme of American music will be rendered afternoon and evening.
