e as valuable as has been reported. Santa Fe is the only county in the northern part of the Territory where mines, other than coal, have been worked to any considerable extent. Santa Fe county ranks third in the production of metals in New Mexico, Grant county being first and Sierra county second. The production of these three counties is more than three-fourths of the entire production of the Territory.

### **Rich Find in California**

SAN FRANCISCO-A copper vein 150 feet in width has been discovered in the mountains back tof Mineral King by Marcus Lavelle. Assays have shown that the prodnet assays 18 to 15 per cent pure copper and \$107 in silver per ton. It is estimated that the find is as rich as any of the Lake Superior mines. Experts in Frisco say the Superior mines. Experior of the highest quality. A number of San Francisco capitalists will go to the mines in a few days and make a thorough investigation of the discovery. J. S. John-son, of this city, is interested in the mine. Tucson, in Southern Arizona, is experiencing a revival, healthy and progressive, of the mining industry. Numerous sales have been made during the last six months. Over \$350,000 has been dumped into the lap of ortunate owners during this time, the money having been actually paid through the Santa Cruz Valley Bank, of this city.

For some weeks Mr. Lemnel Banniste o' Pittsbug, has been here, in company with Dr. Peters, the metallurgist. On Thursday it became known that they had purchased for the Westinghouse Company, of Pitts-hurg, the speculation group of wires in the Olive camp, 25 miles south of here for \$75,

## Pittsburgers Invest.

It is the intention of the company to at once begin developing the property. Max Warner, the late owner, has had quite an experience with his mine. In 1879 he was a moldier here, drawing his \$13 per month. When he was discharged he went to Los Angeles and opened a saloon, but soon found that he couldn't make it pay, and so came back to Arizona to try his fortune delving for the precious metal.

After prospecting throughout the various districts in the South he and his partner struck the "Speculation," and for some years have been working it with varied success. One year ago his partner got disgusted and sold out to Werner for \$100. He, with two Mexicans, kept steadily at work and soon rau into a good body of rich ore, which, attracted the attention of capitalists, with the above result. Mr. Werner and two Mexicans have taken out \$15,000 during the last eight months, and Mr. Bannister estimates that there are \$200,000 in sight now. The machinery of the Desomesni Company, now at Washington Camp, will at once be moved to the new purchase. The ore is free in the lake. milling and easily handled.

### No Cars, No Shipments.

DENVER-The scarcity of cars last week caused a falling off in the ore shipments from Aspen. The shipments this week will be cut down, owing to the closing down of the Aspen mine. This property was pro-ducing more ore when the car famine came on than ever before in its history, the output being 200 tons per day. This car famine is the result of the present switchmen's strike here in Denver on the Uuion Pacific system. The most important strike of the week has been made in the J. C. Johnson mine, where a large body of ore has been opened. It is from 12 to 15 feet thick and is mainly a heavy lead one. The

lead runs well in silver, but there are streaks of spar through it that assay over 1,000 nunces in silver. This new discovery shows that the greatest values are not at the great-est depths. The discovery made in the middie section of the Edison proves to be a body of ore three feet in thickness and running about 60 ounces per ton. Judge Zuher, of Pittsburg, has purchased the Little Pitts-burg mine at Magnolia, which has pro-

No Luck in Wildcatting.

## NEW CASTLE-The oil company composed of

New Castle men has not yet met with any decided success. The hole they drilled on Camp run proved to be a duster, and the members have decided to quit wildcatting, and move their derricks and tools to near Zelienople, where they will put down a hole. As this field has been showing up well lately, they hope to retrieve their ill luck. H. MCCLINTOCK.

# MYSTERIOUS DOUBLE TRAGEDY.

## Bodies of an Actor and a Woman Found i Lake Michigan.

CHICAGO, October 12 .- Saturday even ing the body of a woman was found in the lake at the foot of Peck Court. Sunday morning two fishermen found the body of a man floating near the same place and towed it to the shore. Both bodies indicated that they had been at least a week in the water. The body of the woman was found to be that of Annie V. Dallas, while the man was

structive influence. The poison it distributes throughout the system attacks every vital force, and breaks up the most robust of constitutions. Ignored, because but little understood, by most physicians, impotently assailed by quacks and charlatans, those sufforing from it have little hope to be relieved of it this side of the grave. It is time, then, that the popular treatment of this terrible disease by remedies within the reach of all passed into hands at once compe-tent and trustworthy. The new and hitherto untred method adopted by Dr. Sanford is the preparation of his RADICAL CHEE has won the hearty approval of thousands. It is instan-taneous in affording relief in all head colds, sneezing, sonfling, and obstructed breathing, and rapidly removes the most oppressive symp-toms, clearing the head, sweetening the breath restoring the senses of smell, tasts and hear-ing, and neutralizing the constitutional tend-mers of the disease results there in the identified as Lawrence McBeth. The man's real name is said to be Heath, and his son was in Sarnis. He had been an actor, at one time being with Frank Mayo's "Davy Crockett" and afterwards with the "Silver King" combination. A week ago they had their last spat and left the house at 527 South Clark street together about ency of the disease towards the lungs, liver, and kidneys. BANFORD'S RADICAL CURE consists of one bettle of the RADICAL CURE, one box CA-TANERHAL SOLVENT and one IMPROVED IN-UALER: DETAR midnight. Nothing more was heard or seen of them until their bodies were found
