

A LIFE OF ROMANCE.

Death of a Former Greensburg Man of Checkered History.

HIS CAREER IN SANDWICH ISLANDS

Trainmen Make Many Demands on the Lake Erie and Western.

FOREIGNERS FOR THE MIXES AT IRWIN

SPECIAL TELEGRAM TO THE DISPATCH.

GREENSBURG, October 13.—The old school fellows of Charles Neale Arnold were pained to hear of the sudden death of the gentleman in the Hawaiian Islands September 24.

The father of Charles was a contractor, who built the Court House, and Charles came here at that time. He then went to Pittsburgh, and when the war broke out he led a varied life, serving first as drummer, then as messenger, orderly, scout and spy, leading an adventurous life for several years and occupying with but slight wounds.

He then went on the Ohio and Mississippi rivers, nominally as a deck hand, but really as a boxer, he having a slight trick of his own that landed him a winner, until he struck St. Louis and the wrong man.

After his recovery he figured as a scout in the Maudslowi and San Francisco, and finally to the Hawaiian Islands, where, after a series of adventures, he finally became a subject of King Kamehameha, married a dusky daughter of the kingdom and settled down.

Neale was a perfect man physically, quick, light of weight and grifter in the extreme, being at the same time a manly fellow, generous-hearted and impulsive.

Fourteen years ago he married Cecilia, the favorite waiting woman of Queen Emma, and they have had six children. Mr. Arnold was some time head man of the Mokee Sugar Company, Kanai. He was road supervisor in chief of Hawaii for a term of years, up to the time of the abolition of that office three years ago.

MANY LABOR GRIEVANCES.

Trainmen on the Lake Erie and Western Make Demands Which Are Denied.

SPECIAL TELEGRAM TO THE DISPATCH.

MEADVILLE, October 13.—The Joint Grievance Committee of the engineers, conductors, firemen and trainmen of the New York, Lake Erie and Western Railroad ask for a list of changes, including a higher classification of wages.

Their demands have been printed in pamphlet form, and distributed among the employees, who are in sympathy with the union. It is expected that the men will go on strike if their demands are not met.

NO ALIENS NEED APPLY.

Foreigners Employed by One Mining Company to Replace Irwin Strikers.

SPECIAL TELEGRAM TO THE DISPATCH.

PUNAMTAWNEY, October 13.—There are some important changes taking place at Reschler, owing to the fact that the Best, Lewis & Yates Company has directly assumed control of the Buffalo, Rochester and Pittsburgh Coal Works.

One of the most radical departures was the shutting of mine No. 2, which limits to a large extent the output of coal. This mine has been worked for some time by men who were dismissed by foreigners, and as a rule single men. The English speaking men have been retained as far as possible, as it is their policy to retain men of that language whenever possible.

Notes from Various Fields.

BELMONT.—The Brown well, on the Ohio side of the river, came in Saturday, and at three inches in the sand the well filled up 300 feet of water.

GREENSBURG.—The Avondale Lead and Improvement Company is putting down a test well in Washington and Bell townships.

WEST VIRGINIA.—On the West Virginia side of the Kanawha river, a well is being drilled by the West Virginia Lead and Improvement Company.

WELLSVILLE.—On the West Virginia side of the Kanawha river, a well is being drilled by the West Virginia Lead and Improvement Company.

Somers, they were met at the depot by only one man—the mail carrier.

JURMAN MOULDER, on the Ashland forger case, has become violently insane, and says his wife has offered him. He was arrested and the forger case continued.

FRANCIS WEDGER, at Zanesville, has begun suit against the Zanesville, Mt. Vernon and Marion, and the Painesville, Wooster and Ohio Railway Companies to foreclose a mortgage for \$15,000.

The humane agent at McKeesport yesterday found a sick woman, wife of the Hebrew bigamist Zeev, in the workhouse, and three children lying in a shanty boat, who had nothing to eat for four days.

CHARLESVILLE, W. Va., was nearly wiped out by flood. Twenty houses are swept away, and farms were flooded all along the water's course. Many bridges in the State were destroyed, including two in Wheeling.

THERE is trouble in the American Protestant Association of Pennsylvania over the change of the name at the Wilkesbarre convention to "The Royal Knights of America." Eastern members will form a new organization.

Two men quarreled on a train yesterday, and by appointment stopped off at Butler and fought it out. After inflicting perhaps fatal injuries on the smaller, the larger of the two boarded a train for Butler. His arrest is looked for.

ANOTHER GOOD WELL.

REPORTED STRIKE OF A GUSHER ON THE WHIESELL FARM.

Its Production Said to be From 1,000 to 1,500 Barrels Per Day—Other Wild-wood Ventures—Coraopolis Territory in Demand.

DEMAND FOR THE DISPATCH.

WILLOWOOD, October 13.—It is reported to-night that Griffith and the Forest Oil Company found a second pay this afternoon in Whiesell No. 4, and the well was doing anywhere from 1,000 to 1,500 barrels a day.

THE DISPATCH scout was unable to verify the rumor, but it is generally conceded to be true. There is no particular significance attached to the strike, as it is located near the other big Whiesell farm of No. 1, McClary farm, in drilling the sand, and by tomorrow night there is any other, it should begin to show up.

The Enterprise Oil Company on the Hancock, are making good time, and if nothing happens to retard drilling, will find the sand some time this week. The Hartley well is reported to-night as drilling in the boulder with a slight show of oil, and will find the place where the pay should be by Wednesday night or Thursday morning.

The Reporter well continues to be the center of attraction owing to its great importance as a test well on the southeast line. The interest has been augmented by the many different reports as to the depth of the well, and no one has yet been able to give the personal knowledge of its depth.

One of the drillers on the well told a friend of his that the well was 12 1/2 feet in the sand and that the sand is of inferior quality and without a smell of oil.

A prominent operator said to-night that the Enterprise well is controlled by Griffith and McClary, and that they are still watching for the hole, but it is expected the hole will be struck by the Enterprise well.

Griffith & McClary are about ready to start drilling a well at Glenwood, on the Shawheers' farm, near the Pennsylvania State station. It is a wildcat, pure and simple. The Smith Farm Oil Company will case No. 4 to-morrow.

The Butcher's Company's Wells.

BAKERSTOWN.—The Butcher's Oil Company had the good luck yesterday to get the hole out of the big well on the Glendenning farm, which is doing 30 barrels an hour to-night.

SNAG, Chalfant & Co. are about ready to start the drill in Faton No. 3, located 150 rods from the Butcher's well.

The Butcher's Oil Company's No. 4, Richards, is making 20 barrels a day. The well is 15 feet in the sand, and the owners are looking for a second, which they hope will like the Glendenning, but from the present indications they are not hopeful.

The same company will commence building two rigs this week, one located 500 feet southwest and the other 500 feet northeast from their Glendenning gusher.

At the Butcher's well, the rig is being put in their small casing. The venture is located 3,000 feet south from the Butcher's well, and the well is being drilled in the 100 feet.

Another Cut in Lima Oil.

LIMA.—The Buckeye Pipe Line Company today reduced the price of Lima crude to 32 1/2 cents per barrel. The decline is credited to overproduction and the bearish condition of the Buckeye certificate quotations.

The daily production reaches nearly 60,000 barrels.

Notes from Various Fields.

BELMONT.—The Brown well, on the Ohio side of the river, came in Saturday, and at three inches in the sand the well filled up 300 feet of water.

GREENSBURG.—The Avondale Lead and Improvement Company is putting down a test well in Washington and Bell townships.

BOLD CARBUCK SMUGGLERS.

Reports That They Have Formed a Syndicate to Evade Revenue.

SPECIAL TELEGRAM TO THE DISPATCH.

OTTAWA, October 13.—Representation has been made here that a syndicate of smugglers is operating in Cape Breton, thoroughly organized for the work. It is stated that an extensive system of smuggling has been going on in the vicinity of Sydney, Cape Breton, for years without any apparent effort to put it down.

Mr. Musgrave, who has drawn the Government's attention to the matter, reflects seriously upon the honesty of the customs officials of that port, whom it might be inferred from his report, are implicated in the swindle upon the revenue. He says that it would be necessary to have a landing water, sufficiently independent not to be afraid of the Collector of Customs or the Collector of Inland Revenue, to attend to the duties of that position to avert the evil in any measure.

If any person is interested in this smuggling enterprise of the present Dominion Government," he says, "they cannot be expected to be ousted until a change of Government. But doesn't this seem strange, that the six schooners seized in and about Sydney last fall were seized by officers from outside the county, and in all apparent ignorance of the customs officials here as to the matter? If I were to relate details of how I have seen carts with unfiled wheels at head of night turning carting of smuggled goods from wharves and boats to certain premises in Sydney, I might make some persons more than angry."

THE old man is happy; he priced his rheumatism with Salivation Oil. Price only 25c.

FUR CAPES.—All the popular furs from lowest to the finest grades. A choice collection of exclusive and fashionable shapes. TSSU HUGUS & HACKE.

Old Prices. 50 Dozen Fringed Huck towels at \$1.50 per dozen; 12 1/2c each; special value at this price. HORNE & WARD, 41 Fifth avenue.

O. McClintock & Co.'s

"LAST CALL"

LACE CURTAINS

UNDER THE OLD TARIFF.

The McKinley Tariff Bill raised the duties on all Lace Curtains to 60 per cent on October 6. Anticipating this event, we laid in during the summer an unusually large stock of Brussels, French Guipure, Swiss, Irish Point, Gannez, Nottingham, etc.

Having in store the goods to do it with, we propose having the largest Curtain Sale ever held in Pittsburgh. We will, from

Saturday, October 11, For One Week,

Offer, to our retail trade only, our entire stock at the old low prices—the lowest yet given in Pittsburgh. We give a few examples:

100 pairs Nottingham at 50 cents, Ought to be 85 cents.

75 pairs at \$1.25, Should be \$1.75.
