For the First Time in Two Months the Market is Decidedly Strong, With an Upward Tendency-Money is Still Growing Easter.
NEW YORK, October 17.—The stock market to day was moderately active, as usual, but the tone displayed was in marked contrast to that of the past two months, being decidedly strong and at times buoyant, with a conspicuous lack of pressure to sell, and it became evident at the close of the day that liquidation had been changed from the long to the short account.

First Time State of the day that liquidation had been changed from the long to the short account.
First Time State of the day that liquidation had been changed from the long to the short account. to-day was moderately active, as usual, but the tone displayed was in marked contrast to that of the past two months, being decidedly strong and at times buoyant, with a conspicuous lack of pressure to sell, and it became evident at the close of the day that liquidation had been changed from the long to the short account. The buying in most of the active stocks was excellent. Boston took its favorites liberally, and London, which was inclined to sell in the early morning, turned buyer later in the day. The news of the day, especially that from the Northwest, was very favorable in its tenor, and the decrease in the earnings of St. Paul for the second week in October was so slight that it attracted little or no attention. There was a great deal of talk over the revived rumors of the transfer of the control of the Reading to other influential parties, and that stock became again active and strong after a long period of neglect. There appeared to be coniderable marketing of both Lackawanna and siderable marketing of both Lackawanna and Chicaro Gas, aithough the points as distributed to the street were all to buy. Each, however, closed at near to the opening figure. The opening of the market was uniet but strong notwithstanding the lower prices for London and the selling of London favorites; and while there was no excitement of any kind prices moved up steadily during the forenoon, and marerial gains were scored in many of the leading stocks, the general list as usual being quiet to dall with small fluctuations. Later, however, the sudden rush to buy Reading and St. Paul caused quite a marked increase in the activity, and the dealings betrayed more, and especially in R-ading, St. Paul and North American. The bears were on the full run all the afternoon, and the upward movement met activity, and the dealings betrayed more, and especially in R-ading, St. Paul and North American. The bears were on the full run all the alternoon, and the upward movement met with no check from the opening to the close, and the slight concessions made from time to time, and especially in the last hour, were al-most wholly from the realizations of profils by the room trading element. There are some apprehensions about the bank statement to-morrow, but they are principally on the part of those who are micressied in a lower range of values, and the confident buying of to-day in-dicates that those who are in a position to judge have no fear of further closeness of the money market. The most pronounced move-ments were in the specialities and Machatian, with a gain of 4 per cent. Citizens' Gas, of Brookiyn, and some others of a like caliber, scorek gains from 2 to 4 per cent. The close was active and strong at or about the highest prices of the day. The final changes are aimost uniformly advances, and W heeling and Lake Erie preferred roxe 2%. North American 2% Burlington and Louisville and Nashtille 1%c, Northern Pacific preferred 2. St. Paul and Sugar 1%. Northwestern, Pacific Mail and Reading each 1%. Missouri Pacific Mail and St. Louis, and Wheeling and Lake Erie each 1 per cent, and others fractional amounts. Railroad bonds were quiet, but sympathized closely with the movements in stocks and dis-played a firm to strong tone throughout the day, although the sales of all ilsues reached only \$29,000. Almost all the active issues scored material gains, and the close was strong. Government bonds have been dull and firm. State bonds have been dull and barely steady. The *Post* says: Money is steadily growing easier in London, and this morning was down to 4 per cent, for the first time in some weeks. The market, for Americans was consequently stronger there to-day, and the result was higher prices here throughout the forenoon. This market, however, continues narrow, because merchants and capitalists are for the p Sales of local stocks on, before and after call yesterday were 515 shares, contributed by Luster, Philadelphia Gas, Pleasant Valley and Pittsburg Traction. A raid was made on Luster, and it went off slightly, selling down to 19% and closing at 19% slightly, selling down to 19% and closing at 19% bid. Electric opened very weak, but braced up at the last call. Philadelphia Gas closed better than the opening. Switch and Signal showed no improvement. Pleasant Valley sold at a corcession, Pittsburg Traction held its own, and Freehold Bank dropped to 27 bid. A broker temarked: "The market is in a critical condition, and should be tenderly handled. Realizing seems to be the order of the dax. Any general movement here in this direction would certainly cause a shrinkage in values." FIRST SECOND THIRD CALL. B A B A B A ..... 66 74 83 1043<u>6</u> 106 106 67%. 68 125 127 66 75 .... 47% 3835 14% 29% 28% 17 50% 06 28% 284 50% ..... 85 34 35 26% 26% 26% 27 5% 51 51 2614 34 25% 27 employing their money in active trade and new enterprises. This leaves London the most im-portant factor for the present in the demand in the nlready established dividend securities. But the increasing supply of money, both here and in Londou, shows that this demand is likely and in London, shows that this demand is likely to increase, and result in higher prices for securities. It is the great activity of money, rather than the rates, which still makes some speculators timid about loading up with stocks. Unusually large sums are being moved from one bank to another. The following table shows the prices of active stocks on the New York Stock Exchange yester-day. Corrected daily for THE DISPATCH by WHITNEY & STEPHENSON, oldest Phitsburg mem-bers of New York Stock Exchange, of Fourth avenue: 1756

### ALL PLANTS RUSHED.

## Foundries and Rolling Mills Pressed With Much Business.

STRUAL TELEGRAM TO THE DISPATCH. CINCINNATI, October 17. - Rogers, Brown & Meacham say: A more liberal flow of orders for pig iron during the past few days has followed a short period of dull business during which time there was some disposition to make low prices by speculators and new furnaces anxions to intro-duce iron to the trade. Later information, however, tends to belief in a stronger, as well as a more active market. One of the the strongest influences in favor of a firmer the strongest influences in favor of a firmer market is a decrease of 43,000 tons in the stock of arount the furnaces during the month of September. Another factor already in force, is the advance of 25 cents per ton in prices by the Southern Company based upon large sales which cover the capacity of its various stocks for several months to come. All industrial plants throughout the country are busy and russed. Pure works are melting

are busy and rushed. Pipe works are meltin are ous; and russed. Pipe works are melting iron heavily, stove manufacturers leave large orders, special foundries are months behind in the fulfiliment of contracts and rolling mills are pushed with work, many running over-time to keep pace with orders. There have been improved sales of charcoal, iron and a moderate movement of softeners.

### LARGE BLOCKS SOLD.

Northern and Southern Coke Brands In Lively Demand.

PEPECIAL TELEGRAN TO THE DISPATCH.

CHICAGO, October 17 .- Rogers, Brown & Mervin say: The past week has given active buying in the Chicago pig iron market, North-ern and Southern coke brands being largely in the lead. Lots of 500 to 1,000 tons have been freely booked and the result is that the week's

treely booked and the result is that the werk's state foot up a good sized tonnage. Slivenes and soft irons have also moved in large blocks, one or two of the Ohio furnaces having come into the market and forced siles at from 50 cents to global state of the or the observation. There has been some movement of Tennessee of in this direction.

search for the little Stella McClelland, but no trace of her was found. However, the cabin and pilot house came to the surface and were towed in to shore. The barges under which the little tug disappeared will be moved to-day, and the Captain thinks he will be able to find his lost property. The packet lines had their usual rush of business yesterday, the bright weather bring-ing out many persons for a trip up or down the river.

MISS LOTTIE CRAWFORD.

Who lives at Mariasville, Venango county, Pa., has been a great sufferer from catarri. Among the many symptoms that troubled her were a sore throat, with a stuffed-up feeling, pain in Sofe throat, with a standard precising, pair in the back of her head and more or less pain all over her body. She also had an endless amount of trouble with her stomach. After receiving a successful course of treatment from the ca-tarrh specialists, she gave them permission to publish a history of her case for the benefit of others.

Boats That Have Been Tied Up for Repairs Inspected and Ready for Business Again —The Cabin and Pilot House of the Mec Chuskey Found.
The river trade is beginning to assume its usual activity, and yesterday coal fleets were passing at all hours of the day. Numerous boats that have been laid up for repairs are rapidly nearing the finishing points and will be ready for business ma few days. The Ray-mond Homer has been tied up for a general overhauling for about a month and ber boliers were tested yesterday. Captain Markland hopes to get down to business sgain within the next few days. The Charles Jutte has also been in for repairs since the 28th of last month and her boliers were tested yesterday. She made her first trip last night, going up the river with a big tow of emuty flas. The Jutte looks greatly improved as a result of her over looks

river with a big tow of empty flats. The Jutte looks greatly improved as a result of her over-handing and her decks and cabins look bright and shiny under a fresh coat of paint. Work was resumed yesterday morning in the search for the little Stella McClelland, but no uck." Beaver Falls, Pa.: "I am glad to tell you

that I am feeling so much better than I have for a long time. The hawking and spitting is so much better and the cough, pain in the lungs

so much better and the cough pain in the lungs and shoulders, tickling in the throat, diziness, noises in the cars, fullness, distress and sick feeling after eating, and pain over my eyes do not trouble me at all." From Marion, Ind.: "The dropping in my throat, hawking and spitting, shortness of hreath and pain over the eyes is better. The diziness, noises in the ears, tightness in the chest and tired feeling is all gone." From Victoria, British Columbia: "I can say that I feel about 100 per cent better than I did two months ago, and have gained 10 pounds in weight." Office hours, 10 A. M. to \$P. M., and \$ to \$P. M. Sundaya, 12 to 4 P. M.

Drygoods Market.

Drygoon's Market. New YORK, October 17.—There was rather more doing in the way of general demand for goods a part of current purchases being de-signed for shipment by canal. Eleached shirr-ings continued active, as did all fabrics being made for future delivery. The market for cot-ton goods continued firm and was without ma-terial change.
