PHILADELPHIA, October 18 .- The Democrats, under the auspices of the Pattison Association of the Twenty-ninth ward, held an enthusiastic meeting at Oxford Hall here this evening. The crowd was so large that many of the spectators perched themselves on the backs of benches and on the tops of window sills, so anxious were they to hear the speakers.

Ex-Senator Wallace was to have spoken at the meeting, but his weakened physical condition will not permit of his speaking in public for the present at least. In his absence ex-State Chairman W. U. Hensel enthused the audience and when made his appearance on the met with an ovation. stage he One of the most interesting spectators of the evening was State Chairman Kerr. In the course of his speech, referring to the attempted defense of Delamater's misdemeanor in using State moneys while he is Senator, and Treasurer Bover's defense of the Sinking Fund Commissioners' refusal to invest their two and a half million dollars surplus in Government bonds, as the law directs. Hensel said:

To this he responded with the promise that he would publish the opinion of some Philadelphia lawyers to the effect that, although he had, while a State Senator, used and made profit out of the State moneys, he was not ineligible to the office of Governor; and he has, at various times and in divers places, dropped sentences in his speeches indicating that, in his view, he had a right, as the head of a private banking house, to have and use moneys out of the State Treasury, while he was a Senator, without subjecting himself to the negalities of the law forbidding that prac-He has never published the legal opinion that he promised would be forthcoming. The nearest approach to the realization of his prepectus is an "open letter" that has been printed, purporting to have been addressed by C. Stuart Patterson, Esq., to Mr. Henry C. Lea. Its language refers to something else entirely -the using of the State money by "a member of the Gengral Assembly." That is just what the Constitution forbids, and that is exactly what Delamater did. There was no special need of prohibiting the State officials from making interest out of the State moneys, for that had already been provided for with pains and penalties 13 years before by the act of 1860. and penalties 13 years before by the act of 1860. This clause meant just what it said, that State Senators should not borrow money from the State Treasury; and, as I have said before, in the Constitutional Convention that adopted it, "Mr. MacVeagh, late Attorney General of the United States, pointed out, by way of objection to the sweeping provisions of the proposed law, that even stockholders in a national bank com-peting for the custody of State funds would be prohluited from becoming candidates for the rohibited from becoming candidates for the state Legislature. Mr. Patterson does not help his client's case by suggesting that he was not using the State's money, but that it became his own as soon as the State Trensurer let him have it. He says: "When a banker loans or otherwise invests the oneys deposited with him, he is not using his depositors' money, but his own money." The case becomes all the more serious if Delamater rrowed the money, for the law says:

"Except in case of war, invasion or insurred tion, no part of the sinking fund of the State shall be used or applied otherwise than in the extinguishment of the public debt: and the moneys of the sinking fund or any moneys from interest thereon shall never be invested or loaned upon the security of anything except the bonds of the United States, or of this State."

PITTSBURG. SUNDAY.

April Anthony Comstock has been trying to locate what is known as the McNally gang of green-goods men, who have been operating more extensively than any in the country. They have sent their circulars broadcast throughout the United States and Canada. They have sent thousands of circulars in French to the Province of Quebec, and they have robbed many victims who have come either to Albany or New York in response. In carrying on their enormous correspondence they have used no less than 792 aliases, and the addresses in New York which were given were trequently changed.

Some of these methods were new and they even succeeded in swindling the same victim two or three times by making him believe he had been robbed by outsiders on his way home with his packages of green paper. A month ago Postoffice Inspectors Comstock, Jacobs, Morris and Hartshorn arrested Charles Manzocchi and Joseph Bernhard, known as Hungry Joe of bunko tame. Both these men were indicted last Thursday and they are awaiting trial. But it was the main gang that was most wanted and they were located a few days ago.

Philadelphia newspapers the amounts thus re-deemed. The act of February 12, 1876, directed them to buy loans of the Commonwealth with the sur-plus. The act of May 8, 1874, directed all bal-ances in the general fund, over \$500,000, to be thus applied, and that on the first business day of each mouth the commissioners should print in the Harrisburg newspapers a statement of the amount in the sinking fund, and that every three months they should "apply all the moneys in the sinking fund to the redemption of an equivalent amount of the public debt" and "forthwith" give legal notice of the amount they are ready to redeem. The Humes act of 1883 ordered them, when-ever State bonds could not be purchased to ad-vantage, to invest in Government bonds, and permitted them to dispose of bonds thus pur-chased only when the proceeds should be re-quired to pay maturing State debt. By the act of 1885 they got an enlargement of the amount which might be left in the general fund to \$1,000,000; but all over that must go at Comstock has been in correspondence with the leaders for two or three weeks through Winthrop E. Harrison, a banker of Mc-Keesport, Pa., to whom circulars had been sent by the green goods men. He was try-ing to arrange an interview with them when information came to him through Chief. Fifty-ninth street. Investigation proved that this was the very gang. It was decided to make a descent on the place this morn-ing, just after the occupants should have collected the mail. In spite of these positive mandates of the law, we find these Sinking Fund Commissioners suppressing and withholding from the public the information they are bound to publish, as Constock obtained warrants, and with Sergeant O'Toole, and Detectives Nugent, Callahan, Waters and George E. Oram, to the condition of the sinking fund; Loaning the sinking fund money without ob-

#### What Treasury Books Show,

He says in the first place; "It has never been a secret that the funds of the State were de posited with the banking firm of Delamater & Co. They were so deposited for many years before Mr. Delamater became a Senator and he amount of those deposits has been from mouth to month publicly reported by the State Freasurer during all the time that that firm has been a Sinte depositary." It is inconcelvable what the concealment or

openness of the transaction has to do with the case. But, as a matter of fact, the assertion that "the amount of these deposits has been, from month to month, publicly reported by the State Treasurer during all the time that that firm has been a State depositary," is untrue. When I first called attention to the misdemeaner of Senator Delamater a month ago. L mysell, was not aware of the whole extent of his offending. I gave him credit for having ceased to be a depositary of the State funds on July 1, 1889, about the time he began his canvass for Governor. The persons I had sent to the commissioners of the sinking fund, to ascertain its depositaries, were denied the information sought, But on last Wednes day I went to Harrisburg myself and demanded an inspection of the record, which the law says shall be open to every citizen, and although those in charge refused to allow me to make a copy of it, I saw, with my own eyes, that in the very month Delamater's \$50 000 de posit of general funds was taken away from him, he got a loan of \$100,000 from the sinking fund; he has had it ever since and has it now. This fact has not been "publicly reported by State Treasurer," On the other hand, he and his colleagues have ignored the law re-quiring them to publish it, and have tried to onceal and withhold it from the public. This ieposit was not made "years before Delamater became Senator;" but it is a fresh loan, made by him himself since he became Senator, and made to him, at his request, because he was Senator, and in flagrant violation of the Constitution and the law

#### Candidate Delamater's Guilt.

I will not believe until their opinions are published, that ever "Messrs, John G. Johnson, inspham,' Hollingsworth, George Junkin, J. Levering Jones and Carson concurred in advising him that the constitutionel provisions vising our that the constitutional provisions did not forbid the deposits of State funds with Delamater & Co. during his term as Senator." How could they? Who authorized them or Mr. Patterson to rewrite or unwrite the Con-stitution? It says in plain and unmistakable The making of profit out of the public

moneys, or using the same for any purpose not authorized by law, by any officer of the State or member of the General Assembly, shall be a misdemeanor, and shall be punished as may be provided by hw, but part of such punishment shall be disqualification to hold office for a period of not less than five years."

Delamater got this money originally, while he was a Senator. He used it and is making he was a Senator. He used it and is making \$6,000 a year profit out of it. How can be es-cape the constitutional penalty? Mr. Patter-son suggests that this provision was "adopted in order to prevent State officials from making none there, such as the law requires.

As has been intimated before, this misde meanor of Delamater's is only one phase of a system that the present Sinking Fund Commis-sion has practiced, and that has been in vogue eversince Governor Pattison went out of office. It is devised and carried out to cheat the Com nonwealth and enrich the banks and individ uals to whom the fiscal authorities have let out the sinking fund.

Through every line of the legislation creating nd regulating the sinking fund shines, cleat and unmistakable, the purpose that its moneys shall be sacredly held for the sole purpose of the prompt and sure payment of the interest

nd the extinguishment of the principal of the State debt. Years ago it was enacted that all the tax on the capital stock of corporations should thus be set apart, and now it is the law and policy of the State that half of this tax, all and policy of the State that half of this tax, all the income from the sale of the public works and certain other revenues, aggregating about \$2,000,000 a year, on the average, shall be set apart to the sinking fund. To pay the interest on the State fund and the amount of principal constitutionally required to be redeemed, does got require over \$550,000, leaving at least \$1,150,-000 to buy State or Government bonds; besides all the surplus over \$1,000,000 to be transferred from the general fund. Instead of an honest and efficient administra-tion of the haw what do we see? Under Gov-ernor Patison's administration the idle and un-

tion of the law what do we see? Under Gov-ernor Patison's administration the idle and un-invested surplus in the sinking fund had been reduced to \$065,025 14. Two years later it was \$1,918,006 01. There had been purchased as a sale and profitable investment \$4,000,000 of Government bonds. In December, 1887, and January, 1888, the commissioners sold \$1,000,000 of them. There was no warrant for this. The law expressle says the Government bonds held law expressly says the Government bonds held by the State shall be sold only when the money is required for the extinguishment of the State debt. They wanted the money for no such pur-pose. They needed it solely to deposit in the pose. They needed it solely to deposit in the banks of their friends, for them to use and make profit out of it. They never invested it in anything. The balance, which was \$1,489, 023 16 before they sold the bonds, ran up to over \$2,000,000 very soon and now stands at about \$2,400,000. Of the money realized from this profligate and wholly unjustifiable sale of these bonds, Kemble's bank has \$900,000 and Dela-mater has \$100 200.

#### mater has \$100,900. The State Lose \$40,000 Per Annum.

State Treasurer Boyer and his colleagues have not seen fit to explain this remarkable transaction, which is about as near privateering as anything that has ever occurred in the Comnonwealth. It was a clear, clean steal of \$40, 000 a year interest. The money was neither needed nor used for the extinguishment of the State debt: and I charge that the transaction was a corrupt one for the advantage of political dependents.

Treasurer Boyer has again falsified in declaring, as he is reported at a recent meeting, that the Sinking Fund Commissioners cannot safely invest in Government bonds because they are too high and because the accumulated money is eeded in the State Treasury "to redeem alance of the fives of 1892, over \$1,750,000." In the first place the fives of 1892 are not ne the first place the fives of 1892 are not neces-sarily payable in 1892. They were issued in 1877, reimbursable in 1892, but not payable until 1990. There were less than \$4,000,000 of them ounstanding last December 1, and since then at least \$500,000 have been paid off. The sinking fund revenues for the next three years, over and above the interest and constitutional re-serve, will alone pay this off, leaving the Sinking Fund Commissioners entirely free to

and above the interest and constitutional re-serve, will alone pay this off, leaving the Sinking Fund Commissioners entirely free to now invest \$2,500,000 of the State money in Government bonds. Even if 125 had to be paid for them, the \$2,000,000 thus bought would earn from now until 1907 nearly \$1,400,000 ln interest, making a clear gain to the State of \$500,000. Mr, Boyer proposes to deprive the State of \$500,000. Mr, Boyer proposes to deprive the State of this, in order to give Delamater and the other bank-ers the use of the State's money. Nothing more and acions and high-handed has been done or attempted in State finances since the rob-bery of the Treasury for private speculation, of which Boyer's best defense is that even if one faction of his party stole the Treasury bal-ances another faction made good the defalca-tion—as soon as the school warrants had begun to be withheld and the State Superintendent refused to cover the shame and scandal. Flagrant Dereliction Charged.

#### Fiagrant Dereliction Charged.

There is no escape for the commiss from the responsibility of their official dere liction. A long line of legislation establishing regulating and governing the sinking fund de fines its character and preserves the moneys paid into it exclusively for the purpose of paying the State debt and the interest on it; and protects it from the spollation of the poli-ticians. The act of April 18, 1870, directed the fiscal authorities to apply the surplus "forth-

the candidates were listened to with an attention not at all usual in crowds drawn together from mere curiosity. It is safe to say that at least 40,000 neople listened to Mr. Pattison's very brief ad-dresses between Danville and Shamokin. At the latter place there was a halt of a few

hours with the usual procession, banners, hurrahs and crowds, followed by speeches from Pattison and the other orators. At 2 P. M. the cavalcade resumed its journey, encountering improvised meetings at each station until the arrival at Mahonoy City there the miners, let off for a day, swarmed in noisy masses to see and hear the political

ramblers. After an interval of handshaking, dinner and rest, the business of campaigning was resumed by the formation of a procession, which seemed to embrace all the male in habitants of the town and neighboring county. Here the speaking forces were divided, Pattison, Barelay and Witherow speaking at Mahonoy City, and Maloney and Kerman bolding the audience at Shen andoah until Pattison's arrival. In both of these rather thickly populated districts the crowds were large and enthusiastic. The speeches covered the line of argu-ment thus far set forth. Pattison confined himself more particularly to the tax ques-tion, explaining the injustice of existing laws. This ended the third week of the campaigning tour, and it is the general

testimony of those who have closely watched the meetings that nothing so ex traordinary has ever been witnessed in a political compaign since the war. At midnight Pattison and his party took a special for Philadelphia, where they will arrive at 8:30 Sunday morning.

FORAKER AT ERIE.

He Makes His Only Pennsylvania Speed During This Campaign. SPECIAL TELEGRAM TO THE DISPATCEL1

ERIE, October 18.-Ex-Governor Foraker, of Ohio, addressed a very large Republican mass meeting in Erie to-night. This was the General's only political speech in Pennsylvania during this campaign.

Referring to Senator Delamater, the Republican nominee for Governor of Pennsvlvania, he said he had a personal acquaintance with him, and that Pennsyl ania would honor itself in making him chief executive. In referring to Hon. Matthew Griswold, the nominee for Congress, the Ohio ex-Governor commended him mo

highly. He then devoted the remainder of the evening to the Lodge bill and to the analysis of the McKinley bill.

#### ON THE WATCH FOR FRAUD. Anti-Delamater Forces Searching Philadel

phia for Crooked Work. SPECIAL TELEGRAM TO THE DISPATCH.

PHILADELPHIA, October 18 .- The anti-Delamater forces in this city have deter. mined that there shall be no fraud at the polls on November 4 and already the respective committees of the Democratic City Committee, Lincoln Independents and regular Independents have met and formulated a plan which is calculated to prevent fraud at the polls, or put the violators of the law in jail. The committees having the matter in charge have secured the services of a [Continued on Seventh Page.]

stock sent a man down to the station to meet him in case he should happen to come.

Then a thorough search of the apartment was begun. The rooms were small but well furnished. A full outfit of green goods was found. No sooner had these discoveries been made than one of the detectives ap peared at the door in company with "Mr. Ward," who came in very silent and pale Ward said nothing, and Sergeant Mr O'Toole began to search his pockets. "Why, here is a letter I wrote you last night," ex claimed Comstock, as a sheet of paper was produced.

#### EVIDENCE WAS CONCLUSIVE.

"How long have you been here, Mr. Ward?" Mr. Ward looked tired as he re-plied: "I've nothing to say." There were all varieties of green goods circulars and also two books containing a record of every individual with whom the gang was in correspondence, with correct names and addresses and a summary of the negotiations to date. There were 1,200 addressed envelopes and more than 3,000 circulars of various kinds. The most interesting disclosures of the

raid were the contents of the record books kept by the gang. They contained the names and addresses of several hundred persons who had at least replied to the first letters which were sent out. As soon as the correspondence was opened with a man a cipher signature was assigned to him, and the record books contained the key to all the signatures of letters which were found. One of the most interesting stories outlined was that of the dealings of the gang with "A. C. A.," who is shown by the key to be Mort May, of 105 Lawrence street, New Castle, Pa. It appears by the brief record that May began correspondence early in September. He met one of the gang in Philadelphia on October 5 and he invested several hundred dollars in the goods.

#### THE NEW CASTLE VICTIM.

This is what he wrote the gang when got home the next day and it shows the clever new trick which they played upon him:

I have arrived home all right, but I am very sorry you did not allow me to carry the satchel instead of Charlie. I got to Pittsburg Sunday morning, but the satchel I did not get till even-ing and as the big one was not locked, the ittle one was taken out, so I am worse off now than ever. Will you advise me what to do as I do not like to consult a lawyer until I beer sult a lawyer until I hea from you. You will know what is best to do in this case. The record of the gang says laconically

regarding the reply sent to this letter: "October 7. Wrote to him to come on

and buy more goods." In response to this advice Mr. May wrote on the 10th that he might come on with \$1,500. He was encouraged in this and

PLENTY OF VICTIMS.

The record books are full of information about would-be buyers of counterfeit money. There were 50 requests for more information from Quebec from J. M. Heading, of Wal nut, Juniata county, Pa., C. M. Manning, Lenox, Pa., and a host of others. The record regarding John McDonnell, of Throop, Pa., is: "May 7. Wrote will not sell less than \$350. May 12, told him sell his hone. Wants are to be a first on the sell

his house; wants me to come on. June 11, wrote would trust him for 34-100." Here are other sample memoranda from the record:

the record: Letter from A. W. Booth, Lanesborough, Pa: "Thank you very much for the favor. I am confident I can get money very soon. I as-sufe you you will not regret it if I once get a start." Cyrus Engle, of Schaefforstown, Pa., wrote: "Fil be ready to meet you by the Ilst inst., but will write you day before I start." Send instructions to go to Dooner's Hotel, Philadelphia, 16th, 250. Eric Hunter Bilson, Menomonie, Pa. Meet him in Philadelphia next week. E. W. O. Bertrifter, 113 State street, Erie, Pa., July II came on, but missed him: August 1 came on but had no money. # A WOMAN'S REVENCE.

She Shoots Down a Prominent Young Society Man.

QUINCY, ILL., October 18 .- One of the most sensational shooting affrays that ever occurred in this city took place on one of the principal business streets early this

afternoon. Dan G. Price, of Salina, Kan., was fatally wounded by Miss Lizzie Booth. of Camp Point, and the young lady was shot by Price.

Accompanied by his brother, Price was walking down Sixth street soon after dinner. when Miss Booth crossed the street, and placing the muzzle of a large revolver against his back, fired. Price's brother grappled the young woman, the wounded

man running into a store, but he immediately returned to the sidewalk and shot her down. Price died soon after the shooting, but Miss Booth's wound is not necessarily fatal. The Price and Booth families are among

the most prominent in this county. Price had been acquitted of a sensational suit brought by the woman.

#### SUICIDE OF A RICH MAN.

Desertion of His Wife and Elopement of His Daughter Lead to the Act.

NEW YORK, October 18 .- After five at tempts at suicide, Nicholas Schubert, a wealthy real estate owner of Norfolk street,

Newark, succeeded in ending his life by jumping from the second-story window o the city hospital early this morning. Three years ago, when his wife de-serted him and his daughter eloped to a distant land, Schubert, although the owne of five houses and estimated to be worth \$100,000, twice attempted his life. Upo being sent to the hospital after a third at empt, he was caught in the act of spring ing from his window when he recovered

consciousness. He would have been dis missed from the hospital in a few days had he not availed himself of the opportunity early this morning to end his days

No Fire Department Available to Fight the

Destructive Flames. VIRDIN, Ill., October 18 .- Half the busi ness portion of this town was burned at an early hour this morning. Twelve stores were destroyed.

The town has no fire department and the ringing of church bells brought half of the populace out to fight the flames. The loss, which cannot be ascertained, was not covered by insurance.

The of the authoritie however, and their evident purpose to prose-cute this matter, has prevented any mole riolence thus far. The Mayor has been waited on by a number of leading citizen during the last two days, who offered finan cial assistance if needed.

The City Council met in extra session to day on the special call of the Mayor to consider the assassination of Chief Hennessy and the best mode of dealing with the Mafia. The Mayor submitted a special message to the Council, in which he declared that it was war between the Mafia and the city of New Orleans, and the authorities must at once take steps to suppress the murder societies, and offered the citizens the protec-

tion to which they are entitled. A SICILIAN VENGEANCE.
