Come, dear old friend, let's you and I Sit down and talk of days gone by; Let us talk of earth, it's ills and joys, How things have changed since we were boys.

The changes in business transactions for the past thirty years are truly miraculous. We remember well that during the dark days of the panic of '57 it was a rare thing for a customer to offer cash in exchange for Furniture, Carpets, etc. Orders—potatoes and truck—were then the medium of exchange. Money was as scarce as hens' teeth. Note the remarkable change. Progress, advancement and prosperity is to-day the watchword. Everybody seems to be blest with an abundance of money. No occasion now to decorate your parlors with Kitchen Chairs or Rag Carpets. The most humble mechanic or laboring man can now enjoy the most exquisite styles of furniture as well as the most superb carpets, especially when they patronize responsible and reliable dealers. Much ado is being made over the fact that Carpets have advanced 15 or 20 per cent. We are still selling at our former unapproachable prices. It is of the utmost importance for you to know that we are to-day selling Carpets, Furniture and Housefurnishing Goods of every conceivable description cheaper by a large majority than any house in Pittsburg. It behooves you, therefore, to pay our monster establishment a visit before making any purchases in our line. Come see our wonderful exhibition of Ladies' Cloaks, Sacks, Jackets, Newmarkets, as well as our extensive line of Lace Curtains, Comforts, Blankets; in fact everything pertaining to household articles. We guarantee our goods to be equal in quality and our prices always the lowest. All must go for

FRENCH ARE AFRAID.

The Sentiment of the Lyonese Against Retaliation.

ANTI-PORK LEGISLATION UNWISE

The Petit Journal and the Temps Think

Retaliation Would Hurt France. SPICY GOSSIP ABOUT CONSUL KING

PARIS, October 18 .- There has been great excitement during the week at Lyons over the new United States tariff law, and M. Bordeau, the License Deputy, has given notice that he will, in the Chamber, demand retaliation for the increased duties on French goods. He will especially propose that a retaliatory duty be placed on petroleum, and will suggest that boards of inspection be established for the examination of all imports from the United States. On the other hand, the committee for the defense of the silk market held a great meeting at Lyons, at which the speakers took the ground that a policy of retaliation was likely to do more harm than good. The meeting was attended by silk merchants, spinners and silk workers gen-erally from St. Etienne, St. Chamond and the entire adjoining region.

COMMERCIAL PEOPLE AFRAID. Most of the Senators and Deputies from and a majority of the members of the city and a majority of the members of the Cham-ber of Commerce, were present. The Presi-dent of the Chamber of Commerce called attention to the fact that the adoption of the retaliatory policy against Italy has already cost the license market 7,500,000 francs worth of business, and has given Germany an industrial supremacy in Italy. The Americans, he said, wish to export without importing. They would see that this was impossible, but he would leave them to reap the inevitable fruits of their own bad policy. It would be much better not to interfere with these results by any angry steps on the part of France. Besides, the injustice committed by France and other countries toward America in the matter of pork had led to the conferring of extraordinary powers upon the President of the United States by the Edmunds retaliatory bill, and might entail dangers to the great French staple articles of export, particularly wines and silks. The President was followed by a Senator and two

PRESS OPINIONS. The Petit Journal thinks that the bill affects England and Germany more than it does France, which ought not to be drawn into making common reprisals against the United States. "On what," it demands, "could we make these reprisals? On raw We already tax it 5 francs per 100 kilos, and our economists declare that the imposition of even that tax is a crime. American petro-leum is already heavily taxed, 25 francs per 100 kilos. Is anyone going to increase that duty, and so deprive the poor man of his light? To make this proposed economical war it is necessary to have munitions of war, and we are without them."

members of the Chamber of Deputies to the

The Temps holds that if the new American tariff is injurious to French interests, France cannot complain, as it has for over nine years persisted in enforcing an unwise act that has been injurious to America.

THE AMERICAN HOG.

The moment has come, it says, to repair this mistake, and the circumstances are favorable. The Council of the Department of Bouches du Khone has already called for the annullment of the decree against American pork, the hygenic authorities having unanimously declared that its admission

Some of the newspapers contain exagger ated and grotesque accounts of a disagre-ment between United States Consul General King and his landlord which led to his throwing up the lease of his private apart-ments. They describe it as a clandestine emoval at daybreak, and think they can give a fine point to the narration by report-ing that Mr. King has engaged a furniture van in which to establish hereafter his headquarters. The matter of fact is, Mr. King's landlord was an American, and whatever differences there may have been between them do not concern the French.

of His Reported Recall.

SPECIAL TELEGRAM TO THE DISPATCH. WASHINGTON, October 18 .- Don Emilie De Murvaga, the Spanish Minister to this country, was somewhat surprised yesterday when questioned as to the truth of the story

that he had been recalled by his Government. "Many changes his Government. "Many changes are impending in the personne! of the diplomatic corps in Spain," he replied, "but I have not yet received a letter of recall, though I would not be at all surprised to receive such a summons. During my stay in Washington, I have been treated very kindly by all the officials with whom I have been brought in contact, and I am rather roud of the modus vivendi which I negotiproud of the modus vivendi which I negotiated with Mr. Bayard under the last administration. Secretary Blaine is following in the footsteps of his predecessor regarding the benefits of reciprocity, and this is very acceptable to my Government. PHILADELPHIA, October 18 .- A confernce meeting of prominent business and ional men of this city, who are friends of the Brooks license law and favor keeping the power of granting liquor licenses in the hands of the Judges and not an Excise Board or Commission, was held in the lecture room of the Young Men's Christian Association, Fifteenth and Chestnut streets, yesterday. There were barely 50 persons present at the meeting, but they were, with hardly an exception, leading

were, with hardly an exception, leading citizens of this city.

Bishop Whitaker presided. Rev. Dr. Joseph May, in opening the discussion, said that no law passed in recent years bad been so beneficial or esteemed so highly by the people as the Brooks license law. In reviewing the bill the speaker said that the granting of licenses should be intrusted to no other body of persons than the Judges. The Judges in the discharge of their onerous duties had evoked the esteem and the approbation of the masses.

Resolutions were then proposed to the effect that the Brooks license law was necessary to the welfare of the community; that the power of granting licenses could only be practicably vested in the hands of the Judges of the court, and that a committee be appointed whe shall arrange for a mass

HAIR ON THE FACE, NECK, ARMS OR ANY PART OF THE PERSON

AND THE GROWTH FOREVER DESTAURT WITHOUT THE SLIGHTERT INJURY OR DISCOLORATION OF THE MOST DELICATE SKIN.—DISCOVERED BY ACCIDENT.

IN COMPOUNDING, an incomplete mixture was accidentally spilled on the back of the hand, and on washing afterward it was discovered that the hair was completely removed. We purchased the new discovery and named it MODENE. It is perfectly pure, free from all injurious substances, and so simple any one can use it. It acts midly but surely, and you will be surprised and delighted with the results. Apply for a few minutes and the hair disappears as if by magic. It has no resemblance whatever to any other preparation ever used for a like purpose, and no scientific discovery ever attained such wonderful results. IT CANNOT FAIL. If the growth be light, one application will remove it permanently; the heavy growth be light, one application will remove it permanently; the heavy growth such as the beard or hair on moles may require two or more application, and without the slightest injury or unpleasant feeling when applied or ever afterward. —Modence surgested the same and the principle of the hair, thereby rendering its future growth an unter impossibility, and is guaranteed to be as harmless as water to the skin. Young persons who find an embarrassing growth of hair coming, should use Modence to destroy its growth. Modene sent by mail, in safety mailing cases, postage paid, (securally sealed from observation) on receipt of price, \$1.00 per bottle. Send money by letter, with your full address written plainly.
