PEPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, October 21.-The players of the Players' League are to get all they asked for. They have always asserted that they would have enough capitalists with them for the purpose of asserting their rights, and it is stated that they went into the meeting to-day with the votes of Boston, Philadelphia, Pittsburg and Cleveland. These four, with the votes of the eight players, placed them in the majority of 12 to 4. The players began operations this morning at the St. James Hotel. Some were in favor of conferring with the capitalists before doing anything regarding a conference committee; others wanted a committee of two appointed right away to act in the conterence. A majority, however, were of a conservalive turn of mind, and all hands finally passed

"In view of the many rumors current the members of the Brotherhood of Baseball Play ers feel it due to both you and themselves to extend to you the assurance of their entire confidence in your ability to safely conduct the affairs of the Players' League."

THEIR INTERESTS PROTECTED

It was confidently expected that an address would have been issued to the Board of Directors of the Players' League asking for a representation on the conference committee, But the request, it is said, was auticipated, and the players informed that their interests were fully protected. At any rate, the resolution was all the business that was transacted at

The special meeting of the Central Board of Directors of the Players' League was held in the Fifth Avenue. The following delegates apered to their names: New York, Edward B. Talcott, William H. Ewing: Brooklyn, Edward F. Linton and John M. Ward; Buffalo, James L. White: Chicago, John Addison, N. F. Pieffer; Cleveland, Al Johnson (John M. Ward, proxy): Boston, Oharles A. Prince, Ar-

The delegates were in session just one hour and a haif when a recess was ordered for an hour. The typewritten copies of the proceedings were distributed around among 14 or 15 reporters. The report began by recting the communication from the Brotherhood. Then it gave the following response, Signed by E. A. McAlpin as president and F. H. Bruneil as secretary of the Players' League: "Your valued favor of this morning expressing your confidence in this body is received. We desire to express to you in return our appreciation of dence in this body is received. We desire to express to you in return our appreciation of the compliment contained therein, and beg you to accept our thanks for its preference at the present time. Without the support that you have given us during the past season the suc-cess of the Players' League would have been impossible. Your action now stimulates us to a still stronger effort for your interests in the future."

AL JOHNSON'S REPORT.

Al Johnson, Chairman of the Committee on Conference, presented his report of the meeting with the National League officials. It stated that a common name could be agreed on, namely, the "United League." The adjourned to meet in Cincinnati on November 1) when an election of officers for year will be held, if necessary. Colonel McAlpin, in talking with a DISPATCH

The Association Champiors Score Their First Victory Against the Brooklyns. LOUISVILLE, October 21.-The Louisville defeated Brooklyn to-day in the best contested

game of the series. "Red" Ehret was in the box for Louisville, and he was invincible. After the fourth inning the heavy bitting brooklyns could not touch him. The Louisvilles bunched their hits on Lovett with men on bases. The features of the game were the ielding of Smith at short for Brooklyn, and the catching and second base playing of Ryan and Shinnick for the Louisville. To-day's game was the last to be played in Louisville. Both clubs leave for Brooklyn to-night. At-

SOME GOOD SHOOTING

Local Gun Experts Have Some Fine Sport at Live Pigeons.

There was some excellent shooting at Brunot's Island yesterday by the local experts of the gun. There were only two events, but they were sufficiently big to keep the shooters busy all day. Nothing but live birds were used, and 880 were trapped. There was a deviation from the ordinary conditions the boundary line being only 60 yards away, instead of 80. Despite ing only 60 yards away, instead of 80. Despite the fact the g n was exceedingly successful. Mr. Denny killing no less than 19 out of 20. The number of birds that fell "outside" was remarkable and the majority of them were almost riddled with shot, showing that the pigeons were of excellent quality.

The first contest was at 20 live pigeons, \$10 entrance. For this there were 12 entries. J. O.H. Denny was first with 19; J. G. Hoffman, second, with 18; C. A. Brown, third, with 15, and J. A. Bur, ood, fourth, with 14.

The conditions of the second contest were first miss out and \$1 entrance. There were 18 entries. J. O.H. Denny and Jim Crow each killed five straight and divided first money.

It is not likely that there will be any more club shoots until Thanksgiving Day. Mr. Denny left last evening for Kankakee to take part in the duck shooting there.

Will Have a Cinder Path.

When the present ba-eball trouble is fully settled, the directors of the local P. L. Club intend to build a first-class quarter-mile cinder path in Exposition Park. This intention is no pain to Exposition Park. This intention is no idle talk, as the directors are confident that it will be a good speculation to do so. There is plenty of room for a track such as named, and a leveler or better located piece of ground can-not be found in the two cities than Exposition Park.

The Local Checker Match. The checker match between T. Raynolds and John H. Jones was continued last evening at 107, Seventh avenue. Four games were played, resulting in three viotories for Jones and a draw game. The score now stands: Jones, 7 won; Reynolds, 2 won; drawn, 3. There are 16 more games to play. J. B. Frothingham Will Not be Able to Play the Football Team. CAMBRIDGE, October 21.-Cumnock's leg does not improve so rapidly as he and the rest

to use a crutch, and it is very uncertain when he will resume practice. All the other men who have been laid up have resumed play—all, with the exception of Frothingham, who has been so seriously injured that he will be unable to play again this fall. It was for half back to play again this fall. It was for half back that Frothingham was trying, and it is the choosing of half backs which is proving the hardest problem for Cumnock to solve.

There are five good men at half back for Cumnock to choose from—Lake, with his strength and vim: Corbett, with his actility and skill; Jim Lee, than whom there is not a better runner in college; Sherwin, a freshman who is showing up remarkably well, a good dodger and an excellent runner, and Richmond Fearing, who uses his head more than any of the other half backs. To choose most wisely two men from these five is at present the problem Cumnock is engaged in solving. Cumnock and the footbal' management are at pre-ent congratulating themselves at their good fortune in securing as regular trainer Dr. Conant, who played end rush in the 'Varsity eleven in '79. Dr. Conant has had much experience in treating injuries received on the football field, and will be on the field every afternoon to have entire charge of the training of the application for the eleven and getting the

The recent matches played by the Allegheny Athletic eleven have aroused other players to action, and as a result an eleven made up of Pittsburg players have challenged the Allegheny team to a match on Saturday next. Among the Pittsburgers are many well known and tried kickers, and the match is sure to be of unusual interest. The match as usual will be played at Exposition

his knee badly wrenched. Poe tackled Davis, who was running with the ball, and in the fall the accident occurred. After lying for some time, apparently suffering great pain, he was taken off the field in the arms of Jesse Riggs, Galleway and Lewis. Dr. McDonald was called into the club house, and there attended to Poe's injury. The doctor said that Poe may be well in two weeks. The wrench to-day is the result of a similar accident received while playing lacrosse last fall, and it is seriously feared that Poe will be of little use on the field this year. The Princeton freshmen downed the Princeton "preps" to-day in a game of football. The latter, after their great victory over the Rutgers freshmen, expected to win to-day's game. But the freshmen's line and backs were two powerful. The score was, 2 touch downs to 0.

It is said that Captain Cooke, of Boston, who was selected to name the battle ground, will choose a place somewhere in Connecticut. THE football umpire in England is fast reaching that standard of notoriety to which the haseball umpire has ascended here. Now and again there is a danger in England of the teams using the unfortunate umpire instead of a ball.

THE Buffalo Courier says: "The blame of Buffalo's demise from the Players' League can be traced to no other cause than the apathy and unsusiness-like methods of the local stockholders. If they had come to the from paid dollar for dollar and asserted their rights in the Player's organization, Buffalo would not have been dropped." THE probabilities are that the All-American team of cricketers for England next year will be composed altogether of native-born Americans. The opposition to including any one else on the team is very strong in Philadelphia, and, as the team will be selected by the committee there, there is no doubt that the crack English residents will be left out.

MUCH interest is then in the coming battle between Johnny Murphy and George Dixon, the cotored champion feather-weight, which takes place in the Gladstone Club at Providence on Thursday night, and considerable money has been wagered on the result. At several uptown resorts where the sporting men gather, a number of bels were made yesterday. The betting is alightly in favor of the colored lad, being \$0.050 on him. One bet of \$100 to \$50 was made last night, a prominent turfite taking the favorite, while Jack Flaherty, a well-known "penciler," took the Murphy end. There will be a large delegation of sports from this city at the ring side. It will probably be a close battle. —N. L. Sus.

AN ADDRESS BY PRESIDENT GOMPERS

SPECIAL TELEGRAM TO THE DISPATCH. HARBISBURG, October 21 .- The Pennsylrania Federation of Labor to-day adopted a onstitution for its government, the preamble of which sets forth the necessity of union for mutual protection and benefit, and declares in lavor of the formation of a thorough federation, embracing every trade and labor organization in Pennsylvania, organized under the trade union system of organization.

The object of the federation is to further legislation in the interests of the wage workers and to influence public opinion by peaceful and legal methods in tayor of organized labor. The convention of the Fedration is to be held on the third Monday of August annually at a place to be fixed by the delegates at the preceding convention. The basis of representation in the conven-tion is as follows: Central bodies of cities, one delegate; trades and labor unions having a membership of 100 or less, one delegate; from '100 to 200 members, two delegates; from 300 to 600, three delegates; and one additional delegate for over 600 mem-

UNION OF ORGANIZATIONS. The Executive Council, consisting of the president, vice president, secretary and treasurer, are directed to use all possible neans to organize new national and international trades unions and local trades unions. One of its duties is to secure the unification of all labor organizations. Local unions are required to turnish the necessary revenue for the fund by imposing a per capita tax of one-fourth cent per month for each member in good standing. Each central body is to pay \$6 per annum in monthly payments. Local unions attached to a national body shall pay one-fourth cent per capita monthly. Onesterly reports are per capita monthly. Quarterly reports are to be made to the president of the Federa-tion, and that official shall receive \$3 a day when traveling in the interest of the organization. The treasurer is required to bank the unds monthly, and to give a bond of \$500. The constitution will go into effect

on the 1st of next January.

Resolutions were adopted as follows:
Calling on labor organizations to petition
Congress to enact eight-hour laws; pledging the Federation to assist in the organization of marble cutters and other trade organizations; asking the Legislature to pass a law prohibiting employers from compelling employes to sign any obligation to withdraw from any lawful labor organization under a penalty of \$100 in each case.

LEGISLATORS CENSURED.

Resolutions were also passed censuring embers of the last Legislature who failed to support labor measures; recommending building trades to establish councils in their respective localities; recommending the use of a standard label on hats; favoring a constitutional amendment abolishing the State printing contract system and establishing a State printing office; demanding the enforcement of the fire escape law; appointing a committee of five to co-operate with Philadelphia Typographical Union to unionize the Press; demanding the repeal of that portion of the conspiracy law which bear injuriously on labor organizations; demanding the abolition of the Pinkerton and other private detective systems; demanding the passage of an amendment to the semimonthly pay law and the actory inspection law providing penalties; recommending the passage of a law changing the present method of taxation by compelling all to contribute to the public revenue in proportion to the natural opportunities and the benefits

President Gompers, of the American Federation, addressed the convention this after-noon, and this evening made a speech at a mass meeting. The Federation will adjourn to-morrow.

GROWING STILL GREATER.

The Demand for Small Houses Continues Increase Daily. Alderman C. E. Succop, whose real estate business, in connection with his official duties,

is of pretty large dimensions, has become in-terested in the agitation inaugurated by THE DISPATCH for more small houses for working people. He said last night:

"I suppose I have had more application within the last two or three weeks for three or four-roomed houses than I ever had before. There seems to be a general demand for them. I cannot begin to serve all who want small houses. Some people think relief will soon come, because Mr. McKee has moved his glass works away, and one or two others say they intend doing so soon. But I don't believe the people who went to Jeannette made any difference in the population. I think their places have been filled long ago, and if two or three more glass factories were to move, tak-ing their whole forces with them, it would not be long until matters would be as bad as ever.

AN ANSWER TO ANDREWS FROM THE CHAIRMAN OF THE LINCOLN

INDEPENDENTS. The Republican Manager's Address to the Voters Severely Criticised---How to Prove the Statements Either True or False---MacVeagh May Talk.

"SPECIAL TELEGRAM TO THE DISPATCH. PHILADELPHIA, October 21.-Justus C. Strawbridge, Chairman of the Lincoln Independent Republican Committee, on behalf of the organization, has addressed an open letter to William H. Andrews, Chairman of the Republican State Committee, in which he says: SIR-In your address to the citizens of Penn

sylvania, which appeared October 17, you state in relation to Mr. Quay, "Every charge against him is false and no man living will rise and say that he has personal knowledge of their truth."
It is possible that by the use of the word will It is possible that by the use of the word will instead of can, the language is not that "no man living can rise and say," but that "no man living will rise and say that he has personal knowledge of their truth," you simply meant to confine your statement to an expression of confidence that no one having personal knowledge would volunteer a statement upon the subject. In view of the manner in which these charges were originally made public, and have since heen repeated by responsible newspapers throughout the country, it is to be regretted that no one has felt authorized till this late day to denounce them as false; but as it has never been suggested that you were yourself present upon any of the occasions described, it must be olivious to you that your unsupported word is not enough.

been suggested that you were yourself present upon any of the occasions described, it must be obvious to you that your unsupported word is not enough.

What is needed is a contradiction from those who were present and did have what you properly term "personal" knowled:e. Bestide Mr. Quay, it is said thet Senator Cameron, Wavne MacVeagh, ex-Attorney General; Christopher L. Magee, of Pitrsburg, and two others were together when Senator Cameron helped to make good the alleged deficit.

Senator Cameron owed it to the State which he represents, as well as to his colleague, to rise in his place in the Senate chamber and to denounce the story as false, but he has never obened his lips. It was equally the duty of Mr. MacVeagh to speak out and vindicate a fellow citizen if unjustly assailed, but neither has done so. Why they should keep silent if the charges were true it is easy to understand. Mr. MacVeagh to year was, according to the published report, present as the counsel of Senator Cameron. What he learned was under the only relation of privilege which the law recognizes as inviolable. Though not technically, according to the report, the attorney of Mr. Quay, the occasion was one of professional confidence, and no one knowing his fastidious sense of propriety would expect Mr. MacVeagh to publish to the world what took place in the course of a settlement made by or with his client in his presence. You were doubless quite safe, therefore, in saying that "no man living will rise and say that he has personal knowledge of their truth," unless circumstances so alter as to compel disclosure or make it a plain duty to speak. This can be easily accomplished, for we are advised that the privilege which prevents an attorney from speaking is not the privilege of the counsel but of the client; and if the client gives his consent the attorney may be compelled to speak ont like any other man. Let Mr. Quay write a letter calling upon the gentlemen who were present to safe what they know. Whether others will tell all that they hear

AN OPEN LETTER TO DEWEY

In Answer to the Circular Sent Out by the Labor Leader. SPECIAL TELEGRAM TO THE DISPATCH. HOMESTEAD, October 21.-Charles M.

Mansfield has written a letter to A. M. Dewey, in which he says: SIR-I received recently from you a circular letter, a copy of which I understand, has been malled to every Knight of Labor Master Workmailed to every Knight of Labor Master Work-man and Secretary in the State, headed "Re-form Legislation; Where the Candidates for Governor Stand on the Demands of Our Order." I have a thorough knowledge of where one of the candidates stands in regard to a demand that the Knights of Labor have been making ever since the organiza ion was establi-hed. I refer to the position taken by Senator George Wallace Delamater on the attempt to repeal the obnoxious conspiracy laws.

It is said now that the Pardon Board, of which Mr. Pattison was not a member, refused to pardon 24 miners convicted in Washington county under the law, and sentenced to the workhouse of Allegheny county. Mr. Delamater had it in his power to have torn up by the roots and forever abolished the obnoxious conroots and forever abolished the obnoxious conspiracy laws.

When I think of Duquesne, of Park Bros, and of Brace Bros., where this blot upon our statute books was used to crush defenseless girls, and when I think of the many other outrages commit ed under its cover, and with which every honest workingman in this section is familiar, I am amazed at your audacity in trying to influence the labor vote in the interest of Delamater. Every man who agrees with a fellow workman to strike and dares to maintain his right, does it with the jail doors staring him in the face, and this because of the vote of Senator George Wallace Delamater. Having a knowledge of these facts, I cannot comply with your request.

The request for advanced pay on the part of the trainmen is not confined to the Michigan Central. A similar demand has been made by the Lake Shore men and by those on nearly all other trunk lines, and it is possible that the managers of the systems off-cted may have a conference before

the final settlement. Although the request for more pay is made simultaneously on all lines it has none of the features of a strike. The men argue well for the advance, but make no threats and fix no special day on which their request must be granted. The men are well organ-ized and are thoroughly versed in the workings of the roads, so that it is by no means an easy matter to deal with them. A deensive alliance among the roads is talked of.

AMERICANS IN MEXICO.

Reports of Their Ill-Treatment by the Au-

thorities Greatly Exaggerated. DENVER, COL., October 21 .- Colonel A. Sampson, who for the past two years has been United States Consul at Paso del Norte, is in Denver on business matters. Colonel Sampson was asked regarding the numerous complaints which have been sent out relative to the alleged ill-treatment of Ameri-cans arrested in Paso de! Norte, and said: "I have this to say-arrests have been wildly exaggerated. It an American disobeys the law in Mexico he is arrested, just the same as a Mexican would be in the United States. Mexican laws differ from those of our country. If an American cannot abide by their laws he should not reman there. The officers are supposed to uphold the law, and

so far as I can see, they do so. Americans are given as speedy a trial as possible, in fact, I think there is some dis-

IRON AND COPPER MINES Foreign Metallurgists See an American Sav

Mill for the First Time. MARQUETTE, MICH., October 21 .- The Northern division of the socities of British and German ironworkers arrived at Marquette early this afternoon, having com-pleted the tour of the Michigan iron and copper mines. They had a surfeit of mine inspection, and were glad to change the pro-

gramme here.

The big ore docks were first visited, and the remainder of the day was devoted to carriage rides about the city and envirous, stopping en route to view the saw mill of the Cleveland Lumber Company. Most of the party had never seen an American saw mill, and were greatly interested. To-night a re-ception was tendered the visitors. A special Marie.

Harvey Bollman's Funeral. The funeral of Harvey Bollman, who died at his old home in Woods' Run Monday, took his old home in Woods' Run Monday, took place yesterday from his late residence, and followed by sorrowing friends the remains were laid to rest in Uniondale Cemetery. Appropriate services were held at the house by Rev. Robert Meech, pastor of Christ Episcopal Church, Allegheny, who referred in a touching and tender manner to the life of the deceased. The following were the pallbearers: Hon. Morrison Foster, G. F. Muller, John Patsley, Joseph F. Irwin, N. B. Hogg and Mr. Henry.

The Davis-Chambers Lead Works Are Very Badly Damaged.

MISTAKE IN GIVING THE ALARM.

Two Men Meet With Severe Injuries During the Confusion.

THE LOSS IS ESTIMATED AT \$20,000

Just before midnight a fire broke out in the works of the Davis-Chambers Lead Company, corner of Forty-fifth and Railroad streets, which resulted in almost the total destruction of the entire establishment. The fire originated in the dry-house, a small trame building adjoining the works proper. In a short time the entire building was in flames. The watchman turned in an alarm from box 75, and by so doing 15 minutes' time was lost. Box274 is within a square of the fire and box 75 is nearly four squares away.

ANOTHER DISTRICT CALLED. ANOTHER DISTRICT CALLED.

A second district had to be called out in order to get the fire under control. The building was a three-story brick filled with white lead, and as one floor after the other became enveloped in the flames the latter leaped forth mingled with dense vol-umes of smoke that filled the air high about the burning buildings. In an nour there was nothing left of the building but the first floor and the walls. The loss, as near as could be estimated by Chief Coates, will be from \$15,000 to \$20,

000. None of the members of the firm were shout, but the watchman said he was con about, but the watchman said he was confident the place was fully insured.

There were two men injured during the fire. James Ellis, driver of engine No. 6, jumped from a ladder and was severely bruised and cut about the head. He was up as high as the third floor when the root was town.

Someone cried out that the walls were falling, too, and be jumped to save himself. Joseph Valian, a watchman, was helping to run a line up through the building when a piece of timber fell down from one of the upper stories, striking him on the head. Both men were removed to the Seventeenth ward station house.

In regard to the origin of the fire the watchman said he thought the fire had been

allowed to burn too high under the boilers in the dryhouse and they swept to the ad-joining building, which was filled with burnt lead and other inflammable material, pefore the three watchmen could do anything with it. Chief Coates said this makes the third time the same building has been burned.

GOOD BOATING WATER. Coal Market Still Depressed, but Better Times Anticipated. There was a good boating stage of water yes-

There was a good boating stage of water yesterday, the depth having gone up from 10 feet the day before to 10% feet. The coal men, however, had nothing to send out. The water has been so good all fall that the coal has been shipped as fast as mined. The markers are still depressed, but Captain O'Neil auticinates a colder winter and a better season. His big boat, the W. W. O'Neil, has been sold, and he said yesterday that he thought he had worked long enough, and would gradually get out of taking an active part in his business.

The Scotia left yesterday afternoon with a good load of freight. Captain Henderson says the traffic is heavy, and the railroads in the Southwest are willing to handle his freight. The Adam Jasobs was the regular up river packet yesterday. The Adam Jacobs was the regular up river packet yesterday.

The recent heavy rains are having their effect, and higher water is looked for. The increase is coming from both the Allegheny and Monongahela rivers.

AUTUMNAL ADVICE Keep your feet warm and dry. Wear waterproof boots in preferen arctics or rubbers. Keep your eye on your umbrells, you need it yourself.

Stop a cough or a cold at once. Pneumoni

and consumption may be started by either.

If you wear rubbers take them off whenever you have the chance, even if only for a few minutes.

If you feel a cough or a cold coming on take a drink of pure whiskey at once. It will keep the blood in circulation and is the best preventive against the discuses of the seaso Remember that only pure whiskey should be taken. Duffy's Pure Malt Whiskey has the strongest recommendations from the leading scientists and medical men in the country, and

s the only standard medicinal whiskey known. Insist on having it. GRAND DISPLAY

VIRGINIA: SLIGHTLY

WARMER, FAIR WEATH-ER, FOLLOWED BY RAIN WEDNESDAY NIGHT, NORTHWESTERLY WINDS. PITTSBURG, October 21, 1890. The United States Signal Service officer in this city furnishes the following:

SPECIAL WEATHER BULLETIN. Frosts Occurred From the Alleghenies the Upper Lakes.

The storm had entirely disappeared from the New England coast yesterday, and the winds were greatly diminished in force. They were off shore from Nova Scotta to Florida, with velocities not higher than 18 miles an hour. The storm from Kansas has moved southeast to the lower Mississippi valley, it has increased in force and was causing high winds on the west gulf coast and heavy rains in Texas and Louisiana. The rain belt extended as far north as Springfield, Dl., and was moving slowly eastward into Alabama, Georgia and Tennessee. The storm is followed by an area of high pressure, and the lowest temperatures of the season are reported from Wyoming, Colorado, New Mexico and Northern Texas. It was from 6 to 8 below freezing in all these States on the border of the Recky Sountains. It was also colder in the lake regions. Frosts occurred from the Alleghenies to the upper lakes and are expected this morning in New York and in New England.
