Kniperz, two vacant lots, 50x138 feet each, on Pennsylvania avenue, Emsworth, Pittsburg, Fort Wayne and Chicago Haliroad, for \$750 cash.

MONETARY MOVEMENTS.

### Clearing House Figures Show Business is More Than Holding Its Own.

That business is holding its own. That business is holding its own and more is shown by the Clearing House report of yester-day, the figures being among the best of the yesr. Exchanges were \$1,088,411 \$2 and balances \$318,075 74. All the banks came in heavy, show-ing a good distribution of trade. If a few had done the built of the business it would have

done the bulk of the business it would have shown that special checking had piled up the big totals. But the reverse being true, furnishes clear proof that the heavy, checking grow of the requirements of the numerous activities of the city. Money was easy and in fair demand, with rates steady on the basis of 667 per cent on call and time loans respectively. Depositing was again a feature. It exceeded withdrawals, leaving the basks stronger at the close than at the opening of business. Much of this is due to activity in the retail/lines. The demand for small notes is increasing

to-day was somewhat of a surprise, on account of the ease with which prices were lifted on the light purchases. The great liquidation in

Wall street has driven stocks from the broker's offices and into the hands of strong parties, making a scarcity of long stocks in the street. This is now particularly noticeable upon any attempt to buy, either by the bulls or bears, and the raids of the latter no longer bring out long stockt, and the small depressions caused by the raids are soon recovered. The market

good buying orders in the market from many outside points, Chicago, Boston and even Lon-

don taking their favorites to a limited extent. The large traders, also, who have been so bear-ish during the past two months, were working for a rise, and the offerings being taken with such ease, the traders in general took the long side for a turn. Lackawanna and North American were lead-Lackawanna and North American were lead-ers in the early advance, but their places were afterward taken by the Granger, Villarda, Louisville and specialites. Sugar Refineries was specially weak throughout the day, and the strength in the general hat was not sufficient to hold it up, the passing of the dividend being made a special point by those who were work-ing for lower prices, and different versions of the reasons 4. The action was circulated with roinfluence for good upon the stock. It was orominent in all the reactions, and its influ-erce was most prominent in the last hour.

Cool Fall Weather. Nothing is more palatable these cool evenings than a good, big dish of oysters, provided, of course, you have good erackers to go with them. People who use Marvin's hand-made or shell-oyster crackers are always happily supplied in this respect. If you have never tried them, do so, and be convinced. TTS Now is the Time.
