DELAMATER DEFEATED. COLONEL M'CLURE'S REVIEW OF THE SITUATION.

POLITICS THROUGHOUT THE STATE The Spirit of Independent Revolt Abroad Throughout the State Where the Contest of Next Tuesday Will Be Decided.

"SPECIAL TELEGRAM TO THE DISPATCH. PHILADELPHIA, October 27,-In a leading editorial to-morrow in the Times, Colonel McClure will say:

We believe that Delamater is beaten, hope lessly and largely beaten, in the race for Gov ernor. There is revolution in every county of the State and in every district of every cou while not only the inspiration of clean politics and constitutional government, but also the in-spiration of assured victory, excites and enthuses to active effort the solid Democratic vote of the State. With leading daily Repub lican journals of Pittsburg openly opposing Delamater; with Dalzel, the unanimously renominated candidate for Congress, refusing to urge Delamater's election, and with a Pattison Republican organization extending to every district of the county, Allegheny, the Republican

publican organization extending to every district of the county, Allegheny, the Republican Gibralter of the West, is certain to falter. Quay's immediate Senatorial and Congressional districts are both rent by fends and double candidates, and they give promise of revolution. The Eric and Crawford district is debatable, and Crawford, the home of Delamater, is doubtful for Governor and likely to defeat Andrews for the Senate. Secretary Stone's district, of Venango, Union, McKean and Forrest, will elect him to Congress by 3,000, and it will give a decided majority to Pattison. The Indiana district is debatable.

The northern tier of strong Republican counties will split their majorities in two for Delamater, excepting Susquehanna, and there Pattison is likely to defeat him. Taking the western counties as a whole, although nearly all Republican, Delamater will be beaten in a majority of them and there will be little or no majority for him west of the Alleghenies. In the east he will be cut down to one-half the usual majorities, while the close counties will vote for Pattison and the Democratic counties give him increased majorities. There will be a fearful crusade of fraud in the anthracite regions, but skilled detectives and large rewards will halt the ballot thief and the trader in votes and the whole line of Democratic counties in the coal section and in the Northeast will give as large majorities for Pattison this year as were the Pattison pluralities in 1882. Berks will respond to Lancaster by beating the majorities, excepting Franklin, Fulton and Bedford will all give Pattison large majorities, excepting Franklin, where Delamater has a fair chance for keeping in sight of his party vote.

Philadelphia will be desperately contested, as hearists and the proper of the contested as the party of the contested of the party of the party of the contested of the party of the party of the contested of the party of the party of the contested of the party of the party of the contested of the party of the party of the party

his party vote.

Philadelphia will be desperately contested, as Philadelphia will be desperately contested, as here is the widest field for the pollution of voters and election officers, but never were the friends of an bonest ballot so well organized and equipped, and there will be a fearful in crease in the population of Moyamensing and Cherry Hill if the criminals now in the pay of the Delamater machine shall persist in their work. Every day of the last month has widened and, deepened Republican disaffection. Delamater is beaten and all signs point to a majority against him fully equal to the plurality by which Pattison was elected in 1882.

A date has been definitely fixed for the De-A date has been definitely fixed for the De-out ream, and the Michigan cracks will be ere on November 8. There is considerable valry between the local players and the De-otic kickers. The latter a season or two ago dicated a team of Pittsburgers at Detroit, but is considered that Pittsburgers has a much reager team new than them. Nothing de-otic has been arranged regarding the Cleve-ed team, but it is likely that the Forest City it will be offered the date of November 15. The club directors, at a meeting yesterday, scided to have a match played at Exposition atk on November 22 under Association rules. ark on November 22, under Association rules, he contending teams will be the Eighteenth rard eleven and an eleven of the Allegheny thiletic Club. PRINCETON'S ELEVEN.

The Football Team That Will Likely Tackle Yale on Thanksgiving. PRINCETON, October 27 .- The candidates for the Princeton eleven have now been training nearly five weeks, and it is probable that the cam which will meet Yale on Thanksgiving ren: right tackle, Gallwey: right guard, Lewis or Thomas; center, Riggs: left guard, Jones; eft tackie. Black: left end Hayden or Furness: -back, Poe; right half-back, King or balton; left half-back, Spicer; full-back, Homans. Warren has been troubled a great leal this senson with a sprained knee, but is

ceatins season with a sprained knee, but is expected soon to be out on the field again. Gallwey is a new man, but though light, plays a remarkably steady and sandy game. Siega, who played right guard last year, has been filling the position of center rush for the last few games, and as he understands the game and has the necessary weight it is very probable that he will keep this place. Jones is expected to play left guard with Black, last year's half-back, next him attackle. Black is playing a strong game, and materially a strong game, and materially us the rush line. Right end lier beween Hayden and Furness, both of whom are tery good men, Hayden being a sure tackle ed steady player, but Furness excelling in his fallity to get down the field on kicks. Poe is andity to get down the field on kicks. Poe is stability to get down the field on kicks. Poe is starting his old game at quarter-back, and the half-backs, though new men, are doing very well. Homans, the full-back, is not playing up to his mark, as his kicking is especially weak. Homans, the old trainer, returned to Princeton last Monday, and will be with the team until the end of the season.

There is nothing in this South Penn story but the venom of political desperadoes. It is a last card, played in the hope to accomplish by villification what could not be done by honest opposition. SOME INTERESTING STATEMENTS.

Colonel McClure Very Certain That Delamater Will be Beaten.

SPECIAL TELEGRAN TO THE DISPATCE. POTTSVILLE, October 27 .- Ex-Senator Lewis Emery, Jr., to-night made the following personal statement over his own signature: The Philadelphia Press October 22, pub.

lished a story concerning myself, garbled from the court records of McKean county, which I desire to refute. When one Lenhart examined the records he was warned by the Recorder, as well as Mayor Loyal Ward, not to confound two cases, in one of which I was the defendaut and the other the prosecutor. This the Press correspondent did not heed, but deliberately, and I believe maliciously, falsified and distorted the facts, so as to make it appear that I had been implicated in a plot to blow up an oil rig with powder. It is only fair to me "I only became identified with the South that this should be set aright.

It was a common thing in the lower oil country for operators to get into quarrels over leaseholds, and the taking of property, or rather

leaseholds, by forcible entry was frequently resorted to. In the case in which I was convicted

of so entering upon a leasehold with four oth-

ers and fined \$1,250 I was fighting for my own

property, and after years of litigation over this same property, being twice in the Supreme Court, I recovered \$15,000 in 1888, thus establishing my original right to forcibly enter upon the property. JUST TURNED AROUND. In the other case, wherein gunpowder was used I was the prosecutor, and the powder was used or to be used against my property. This was clearly stated to the correspondent before he wrote his letter to the Press. The following letters and documents, from honorable men concerned in both cases, and some of whom were wilrully misquoted, will show clearly the unreliability of the printed correspondence. When Judge Loyal Ward, now Mayor of the city of Bradford, saw his statements in the Philadelphia papers he wrote a denial and correction to the Philadelphia Inquirer, but that paper would not publish it. On October 24 he wrote to me the following statement: he wrote his letter to the Press. The follow-

On October 24 he wrote to me the following statement:
I will state further that in the case where the powder and the attempt to blow up the rig was had. Mr. Emery was the prosecutor against the other parties, and that Mr. Emery was not concerned in, nor accused of, attempting to blow up a rig as the Inquirer or Press correspondent stated October 22. I was acting magistrate at that lime. I further stated to the correspondent that I did not consider it a very serious case, and so stated to the attorneys at the time, but that I would let the court smoke it out.

Copy of transcript: Commonwealth vs Lyman Cross, Peter J. STATEMENT FROM ATTORNEYS. We, the undersigned attorneys at law, of Bradford, McKean county, Pa., certify that we have examined the records of the courts of McKean county, and that these records show that the action brought by the Common wealth. No. 27, September sessions, 1878, against Lewis Emery, 37, 1ra Hanks, Jared Mattison and L. A. Goodwell for forcible entry and detainer, was for entering upon 31 acres of land, part of 10 No. 24, in Kingsbury survey, Bradford townsaip, McKean county, Pa. That the said records show an ejectment brought by Lewis Emery, 37, against John Defolier and others for the same 31 acres of land or said lot 341, in said Bradford township. That while there was a conviction of defendants in said forcible entry and detailer case, yet the plaintiff. Lewis Emery, 37, received in settlement of the ejectment case brought for the same land from the defendants in said ejectment case, the sum of \$15,000 for his title to the said land.

This case was tried by us as attorneys for Mr. To Whom It May Concern: IRON CITY, Pilsner and layer beers made

ment case, the sum of power and like the said land.

This case was tried by us as attorners for Mr. Emery and the full terms of the settlement made are filed in the records of said case at No. 34. December term, 1858.

These statements can be readily verified by any fair-minded person who is willing to take the trouble to examine the records and files at the Court House in Smethport.

ELLIOTT, JACK & ROBERTS, Per Roberts.

ANOTHER UTTERANCE. COUDERSPORT, PA., October 23, 1890, Lewis Emery, Jr.: DEAR SIR-I have your letter and article in the Inquirer. I was not concerned in the trial of the forcible entry case. Messrs. Berry and Sherman tried it for you. I listened, however, to the trial. The effort to blow up the rig was in another case, and made by those with whom you were litigating, and not by you. I hardly think Judge Wilson contemplated sentencing you to the penitentiary, as he was quite too good a Judge to impose an lilegal sentence. It is quite likely some conversation occurred between myself and Wilson upon the subject of the sentence, in which I way have advised that a fine and an order for restitution was sufficient punishment for the misdemeanor of which you were convicted. Of this conversation, I am sure, you knew nothing, and I am equally sure that no person interested in the prosecution took any part in it. The officuse of which you were convicted was a misdemeanor growing out of a scramble for the possession of an oil leasehold unit, as I recollect, the subsequent trial of the ejectment resulted in your favor. The report of the case in the laquirer is quite unjust and unfair to you, as I recollect the case.

Yours very truly,

A. G. OLMSTED. and made by those with whom you were litigat-

AN ERROR CORRECTED. BRADFORD, PA., October 22, 1890. My attention having been called to an article, purporting to give Hon. S. F. Wilson's account of the conviction and sentence of Mr. Emery for forcible entry and detainer, in the Quarter Ses-sions of McKean county, I deem it due to Mr. sons of McKean county, I deem it due to Mr. Emery to correct what is an error either of the Judge, or more likely the reporter. In 1876, during the summer of that year, Mr. Emery having a controversy with the American Oil Company over a lease of John DeGolier, a farm in McKean county, acting under the advice of Roger Sherman and myself, took possession of the property, was afterward arrested and the conviction followed. This was at the September sessions, 1876, and I was astonished after the conviction to learn that Judge Wilson was going to impose a fall sentence on the defendants. I went to see him at his room and he gave as his his reason that he wanted the oil men to learn to settle their disputes in court and thus prevent lighting and possible loss of life, and he would make an example of Emery because he was well known and the example would be all the more telling. I urged Emery's ill health, the condition of his business affairs, the fact that he was acting in good faith under the advice of counsel, and that this was or common occurrence in the lower oil field, and nothing more than a fine was ever imposed, and finally the Judge promised to impose ouly a fine. There was and could have been no reference to the powder episode, for that did not occur until several months later. In January, 1877, Mr. Emery had several parties arrested for attempting to blow up a rig, and this case was tried in February, 1877, before Judge L. D. Wetmore, of Warren, Judge Wilson not presiding.

MR. EMERY WAS JUSTIFIED in acting under our advice would seem to be inin acting under our acrice would seem to be indicated by the fact that he afterward received from the other claimants to this, \$15,000 in payment for his title to this same land. The statement as it appeared in the Era, copied from the Press and Inquirer, was not only untrue, but must have been so wilfuily. as the records of McKean county show the facts to be as stated, and the writer had noticed that Mr. Emery was in no way connected with the attempt to blow up the ris, except as a prosecutor, to preserve his own property. I desire to add voluntarily that for ten years, covering the period from 18-5 to 188. I was Mr. Emery's counsel and may. I think, add personal adviser, and, while we have sometimes differed politically, I have yet to find anything in his business relations or dealines with others that should in any way reflect on him, or render him liable to censure, and in the cases in which he was convicted, if the same state of things existed to-day and I was Mr. Emery's counsel, I would advise him to do the same as was done in the John LeGolier case, as the necessities of the case would require this kind of prompt action. Yours very truly,

Attorney at Law. ficated by the fact that he afterward re-
