SECOND HEARING IN THE LIBEL CASE.

More of the Ascensed Bound Over to Court for Trial, Which Both of the Perties Profess to be Eagerly Awaiting.

PRESE BOODLE TALK IN THE BEAVER DISTRICT

FROM A STAFF CORRESPONDENT, 1 PHILADELPHIA, October 29,-"What is Allegheny county going to do?" That is the burden of all inquiry in political circles

THE DISPATCH detailed me to come to I'hiladelphia to catch a glimpse of the situation in the State at large from the windows of all the political headquarters located here. It was also thought that the progress of the Gubernatorial struggle in Philadelphia would prove instructive to Pittsburgers.

But the result of one day's loitering among politicians proves that after all Allegheny county is the battle ground upon which the eyes of all Pennsylvanians are turned in the closing days of the bitterest campaign that this State has seen for years.

Two Views of the Situation This morning one paper here gives a long interview with "James F. Grimes," whom it says is a prominent business man about Pittsburg. It heads the interview, "Allegheny Skies Bright," and so they are from Mr. Grimes' Delamater standpoint.

And to-morrow morning another Philadelphia paper will publish a story about affairs being in such an extremity for Delamater in Allegheny county that the machine has sought the aid of the Junior Order of the American Mechanics in a circular water ways that every vote for Pattison is a vote Warwick.

Warwick.

Well, then, as the defendant waives a "Well, then, as the defendant waives a "Well, then are \$1,500 bail to the American Mechanics in a circular which terest taken by Philadelphia people in Allegheny county.

Busy Scenes Around Headquarters. The last week of the campaign opened with very busy scenes at the various State headquarters in this city. In the suite of rooms at the Continental Hotel occupied by the Republican State Committee, State this city and surround Chairman Andrews has a clerical force of at

least 40 persons at work. Clerk Morrison, of Pittsburg, has the bulk of the office management on hands, as to issue instructions that Frank Willing Leach is kept largely on | der their employ were t the outside or in consultation with the Governor Pattison. When leaders. Leach is identified with the Vaux Congressional struggle as representative of the Republican Committee. The State headquarters are adorned with handsome portraits, first of Quay and then Delamater. The walls of the general reception room are canopied with two buge flags and papered

with campaign posters. Chairman Andrews has quietly commenced his final canvass of the State, but no figures will be given out until just before the election, General Hastings and State Treasurer Boyer will address a great Republican meeting here to-morrow night at the Academy of Music.

Wallace and Pattison in Conference

Governor Pattison and Hon, William A. Wallace were both at State Democratic headquarters to-day. Immediately after the hearing in his libel suits Mr. Pattison went to State Chairman Kerr's rooms to arrange some details about his last speaking tour of rural counties. Senator Wallace was jovial and appeared sanguine of success.

The Democratic headquarters are manned, besides Mr. Kerr, by the Secretary, Ben M. Nead, William F. Realer, of Bellefonte; F. E. Bible, and a large corps of clerks. The headquarters take up the whole of a four-The most thorough system of State canvassing has been carried out.

been found to lack complete utility for this

A Thorough Organization Secured. This has resulted in most perfect organization for the November elections. The committee has even reached down into school districts, and through those into precipet: Their aims is to get out a fair percentage of the whole Democratic vote in the State, which with the Independent Republican

vote they believe will elect their candidate. The books now in the headquarters show that in the last Presidental election fully 100,000 Democratic votes in the State of Pennsylvania were not cast. The books show where this stay-at-home vote was and upon it extraordinary persuasion will be used this fall. At both Republican and Democratic headquarters it is predicted that a remarkably heavy vote will be polled. It is not improbable that it will exceed 950,000.

There has not been a Gubernatorial campaign for years when the active interest of the people all over the State has been so much aroused as it is in the one now drawing to a close, and there will be comparatively little trouble on Tuesday next in turning out the full vote.

Independents Want an Honest Ballot, The State headquarters of the Independent Republicans are on Chestaut street, near Tenth street. They are in charge of George E. Mapes, the Chairman. An enormous amount of campaign litera- | as it is at present,

ture has been sent out from these rooms, and the work is now closing up along the line.

The final days will be devoted to securing an honest ballot in doubtful districts throughout the State. For this work of vigilance in the city of Philadelphia the Lincoln Independent Republican Club has co-operated with Mr. Mapes. General charges that money is being used freely already are openly made.

The Republican City Committee is also coming down the homestretch with hard work. On Monday it nurchased at the postoffice one lot of 50,000 2-cent postage stamps. Every ward is being gone through. The cry of false registration in the Fourth ward has been raised. But that is only a drop of the bitter stuff that will be spilled out of the political caldron between now and Tuesday. L. E. STOFIEL.

THE SECOND HEARING IN THE LIBEL SUITS BROUGHT BY EX-GOV-ERNOR PATTISON.

More of the Accused Bound Over to Court-Both Sides Profess to be Only Too Anxious for a Speedy Trial-Scenes and Incidents.

INFECTAL TELEGRAM TO THE DISPATCH. PHILADELPHIA, October 29 .- At 3 o'clock this afternoon Magistrate O'Brien's office was crowded by politicians and others to witness the proceedings in the criminal libel suit instituted by ex-Governor Pattison against Clayton McMichael, the editor and publisher of the North American, and James S. Elverson, publisher of the Philadelphia Inquirer, for the publication of the article on the South Penn. There were present beside Governor Pattison, Judge Gordon and William S. Stenger, ex-Secretary of the Commonwealth, and Mayer Sulzberger and Richard P. White, attorneys

for the prosecutior.

It was evident there was to be more than a mere binding over, for the parties were present with a file or a newspaper and sundry letters. The crowd in attendance im-patiently awaited the arrival of the defen ants, and at last at 3:05 City Solicitor Charles F. Warwick accompanied by Clayton M Michael, of the Norta American, en-tered the office. Mr. Elserson was not present, but he was represented by James H. Shak peare and James H. Heverin.

"We stand here ready to meet the charge," said Mr. Warwick, "before a tribunal where both sides can be heard.' Then there was a little commotion when

some onesung out "the magistrate wants the light turned on." [Laughter.]
"We are ready to go on at any time. We want a speedy trial, and it can't come too quickly," broke in Mr. Warwick. "That being the case," answered Mr. Sulzberger, "I will not insist upon a repetition of the testimony given at the previous hearing. In order to put Mr. McMichael exactly right, if he does not object, we will have in-cluded in the complaint the libel of yesterday and to-day. We regard the editorials in the North American of the past two days a reiteration of the libel."

Then Mr. Sulzberger whispered to ex-Governor Pattison, and in a minute or two "Governor Pattison instructs me to say that he has no objection to the hearing being speedily disposed of by admitting the defendant to bail. He does not insist upon the repetition of the testimony adduced Monday if the defendant considers he is fully acquainted with the charges. If the defendant complains that he had no opportunity for cross-examination or, the calling of witnesses we are ready for thot."

"We desire to have a speedy trial," re-marked Mr. Sulzberger, "and as soon as a day can be fixed we are ready "The sooner the better," replied Mr.

answer at court," said the magistrate. ATTEMPTED INTIMIDATION.

POWDERLY FOR PATTISON.

MASTER WORKMAN MAKES A SQUARE DECLARATION.

He is Not Satisfied With Delamater's Stand on Ballot Reform, and Plants His Hopes for Pennsylvania on the Democrati Ca didnte-Platforms of the Parties. (SPECIAL TELEGRAM TO THE DISPATCH.)

SCRANTON, October 29 .- General Master Workman Powderly prints in this evening's Truth a two-column letter unequivocally indorsing Pattison's candidacy in the interests of ballot reform. Mr. Powderly says the Republican convention which nominated Mr. Delamater did not seem to know whether it was necessary to have a constitutional convention or not, and the Democratic Convention passed the question with-

out comment. However, when addressing mass meetings of citizens of the State, Mr. Pattison made a declaration that the only method to bring about ballot reform was a constitutional convention, and that he favored it, while Mr. Delamater has contented himself with a half-hearted declaration, Concluding, Mr. Powderly says:

Mr. Powderly says:

Basing all of my hopes for the future of Pennsylvania on a secret, pure and official ballot, believing that that cannot be secured without a constitutional convention, I shall vote for that man and candidate who favors both so openly, so unequivocally and so boldly that his fellow citizens may hear the words from the forum. Mr. Pattison has stated fully and frankly where he stands on a constitutional convention. Mr. Delamater has not done so, and has contented himself with repeating what was adopted by the convention that nominated him. He has not stated his position on the question of a constitutional convention and I shall vote for Mr. Pattison.

In making this statement I violate no law of the K. of L., for the constitution of that order advises us to vote for that man who gives a guarantee of doing the most for labor. While I do no ask anyone to vote as I do, I believe that the best interests of the State will be served in the election of Robert E. Pattison as Governor.

AN OVERDOSE OF EMPLOYES.

Congressman Wilson Makes Vigorous Charges Against Commissioner Mason.

(FROM A STAFF CORRESPONDENT.) WASHINGTON, October 29 .- Hon. M L. Wilson, the brilliant Democratic Congressman from the Second West Virginia district, made a flying visit to the Capital today and talked freely of the political situation. He admitted the closeness of the contest in all the districts of his State. In regard to his own case, he said:

"If the vote is got out there is no doubt of the Democrats having a majority. But my district is overrun with Government employes, who are doing all the political work they can. I do not see where Commissioner of Internal Revenue Mason could put a man n the district that he has not done it. Wherever one of the revenue agents is needed for campaign work he is ordered, and gets his \$2 a day while working on the campaign. He had one man stationed to watch a single barrels of whisky for 100 days at \$2 a day, so he could be where he could do campaign work." In this connection Mr. Wilson showed a

letter add essed to Mr. J. E. Hail by Commissioner Mason. The Mr. Hall to whom it was addressed is a friend of Mr. Wilson, and presumably the letter was intended for Mr. M. F. Hali, the postmaster at Phillippi, and editor of the Republican newspaper. is marked personal, and suggests that the editor attack Mr. Wilson for dodging the vote on the last pension bill. Commenting

on this letter, Mr. Wilson said:
"Mason's confidential letter is false, as he perfectly well knew. The conference report was sprung on the House without notice and rushed through under previous question. I was absent in Missouri, and the Congress sional Record shows that I was paired with General Grosvenor, who was absent in Ohio. More than 50 Republicans were likewise absent and paired, and Mason would neve accuse those of dodging this vote."

AMONG THE QUAKERS.

Pattison Makes Two More Speech s Declar ing Again for Ballot Reform

PEPECIAL TELEGIA A TO THE DISPATORA! PHILADELPHIA, October 20.-Robert E. Pattison, the Democrati. candidate for Governor, when he entered Federal Hall tonight to address a gathering of his fellow citizens, was given an enthusiastic reception and during his remarks he was frequently and loudly applauded. He called the attention of his audience to the fact of his hav ing, while Governor, vetoed only those measures which he believed would work in-

jury to the masses of the people.

Mr. Pattison reiterated his declaration in favor of the Austrialian ballot system and declared himself ready to assist in securing the passage of such a law, in the event of

Later in the evening the ex-Governor adair with cheers whenever he referred to the live issues of the contest. Bands of music played, and the large crowd loudly cheered the next Governer of Pennsylvania, Robert E. Pattison,

DELAMATER SURE OF IT.

He Talks About What Will Happen When

He Becomes Governor. SPECIAL TELEGRAM TO THE DISPATCH. DANVILLE, PA., October 29 .- Senator Delamater reached here this evening and was accorded a most enthusiastic reception. He addressed a large meeting and eloquently presented the issues of the campaign, prelicting a great Republican victory at the

polls on Tuesday next. The Gubernatorial candidate arrived here from Milton where he had also been warmly received, and where he made a brief speech. He referred to Pattison as a demagogue and charged him with deceiving the people on the taxation question. He defended corpora-tions saying that they are a necessity. He emphasized the fact that if he was defeated this fall the result would be heralded from Maine to California as a rebuke to the Mc Kinley tariff bill.

The Senator made frequent use of the words "when I am Governor," and said he didn't want the suffrage of the people be cause he was a Republican only, but be cause he was an honest, upright, manly

ment.

A FATAL FIRE ON GRANT STREET.

Brave Firemen Rescue the Imperiled Family From the Roof.

FRANTIC ANGUISH OF THE MOTHER

The notes of the midnight bell ushered in fire by which Anton Guatelli, employed as a teazer in William McCully & Co.'s Sixteenth street factory, lost his life, and his six-year-old daughter Mary was so badly burned that she may not live. The rest of the family, including the mother, two boys and another little girl had a very narrow escape from destruction. The fire occurred at Dyer's stables on Grant street. About 30 horses sheltered therein were got

Five minutes after the call had been sent n, the vicinity of the fire presented a stirring appearance. Scores of willing hands assisted in getting out the horses and wagons, while through the thick, black clouds of smoke now pouring from the two-story structure the firemen raised ladders to rescue the human lives on the second floor above. It was known that these were occupied by Guatelli and his family. The blinding smoke almost stifled the workers, as it had rendered the occupants of the room nearly senseless, but by a great effort Mrs. Guatelli and three children were safely rescued through the windows and onto the adjoining roof.

RESCUED FROM THE FLAMES.

One little girl was nearly overlooked, out was discovered in time to prevent her being swallowed up in the flames. As she was brought down the ladder her cries were piteous. She was carefully carried to Mrs. Daly's house, and a doctor sent for. The child was Mary Guatelli, and but 6 years of age, and she showed very plainly the narrow escape she had had. With but an apology for a garment covering her body, she had been very badly burned about the body and head. Mr. Daly and the neighbors who came in to render assistance, tried to quiet the child, but without avail. She was evidently in great pain. The doctor not arriving, Officer Kenny tenderly carried the little girl to the patrol wagon and she was conveyed to the Homeopathic Hospital. At an early hour this morning the child was re-ported as not likely to surviv. Mrs. Guatelli was assisted to the house of Mrs. Schock, on Strawberry alley. She had not escaped harmless and Dr. Jacob, of Webster avenue, was soon busy in allaying the fever in her burned arms and hands. The children were safely conveyed to Arnold's Hotel where they were cared for.

CRYING FOR HER LOST ONES. "Oh! where is my husband and my little Mary?" were the piteous eries that the sorely afflicted woman gave vent to in the intervals of her intense bodily suffering. She was assured that they were all right

and that Mary was in the hospital. But it was, unfortunately, not quite so. The family were in bed when the flames so suddenly burst on them, and had time to barely don a garment when driven out. It was not until the heavy smoke had died away that the fate of the head of that family was discovered. His charred body was found in the havloft adjoining his apartments. A ent position, he had rushed to it, as he thought, but failing in reaching it at the attempt, the stifling smoke had suffo-

The fire is supposed to have had its origin in the hay at the back of the stables, but from what cause is not known. Only by the villing assistance of many hands were the horses rescued. Very curiously for such animals they did not betray the nervousness usual with them when fire arises. They were mostly stalled in Burns' establishment

for the night. LOSSES BY THE FIRE.

Mr. B. F. Dyer, who is the United States mail contractor, is the largest loser in ma-terial goods. The stable building is owned by Sylvester Delt, and is on land owned by Later in the evening the ex-Governor ad-dressed a meeting of citizens at German-ably worth \$4,000, and as the walls are yet town avenue and Berks streets, and the in pretty good condition the loss will not be crowd, which numbered thousands, rent the great. It was insured, but to what amount was not learned. The value of the property owned by Mr. Dyer would reach to \$20,000. There were 27 horses and as many wagons. Eighteen wagons on the upper floor were partially destroyed. These wagons cost \$400 each. Summing up the loss it would amount to the hay in the stable, a but of oats, probably 900 bushels, and harness. Mr. Dyer did not care to estimate his loss, but \$2,500 would probably be high. He was insured for about one-half the value of his property in the Northern Fire Insurance Company.

OTHER FINANCIAL SUFFERERS. To the east of the stables are two low brick buildings. The first is occupied by T. W. Murray as a second-hand bookstore and residence, with his wife and little baby. The building is owned by 'Squire Riley. The second is occupied by P. L. Seely & Sons, bottlers, and is also owned by 'Squire Riley. To the west are two frame buildings. The first is owned by Jacob Lienimger, and occupied by him as a barber shop and residence. The second is occupied as an intelligence office and tenement house. Mrs. Thompson and Mrs. O'Brien have rooms as a dressmaking establishment, and Miss Rhoda Wilkins works for them. Mrs. O'Leary also had rooms in the building.

The goods in the above houses were more or less damaged by water, but the fire did not reach them. The roof of Lienimger's place was slightly burned. He is insured for \$1,500 on the house and \$500 on his goods. There is no insurance on any of the Autonio Gautelli was 40 years of age and

has been a resident of the city for many years and a respected member of the Italian colony. His wife is an American, her mother residing on Strawberry alle The children ranged in age from 2 month to 9 years, the two eldest being boys 8 and 9 years of age, respectively. Mary, the child so badly burned, was the third child. Mrs. Gautelli was so unnerved by the scenes she passed through that by Dr. Jacob's order she will not be acquainted with her husband's fatal end until to-day.

CHANCES TO RISE

Are Not Frequent Enough in the Army, According to General Miles. WASHINGTON, October 29 .- Major General Nelson A. Miles, commanding the Division of the Pacific, in his report to the Adjutant General, made to-day, advocates legislative enactment to provide more reasonable advancement in the profession He believes officers who have served 15

years should be advanced one grade. He advocates the battalion organization, thinks the recent measures to prevent desertion tend in the right direction, and dwells at length on the necessity of better coast deBEREFT OF POWER.

His mother and stepfather, Dr. and Mrs. St. John-Roosa, of New York, were sent for, and arrived here last night, Mr. Howe is suffering from inflammatory rheumatism and pneumonia. His illness has been very much aggravated by distress of mind and disappointment because of his inability to keep his wedding engagement tomorrow, and when Miss Butterworth learned this fact she proposed that all formalities be convoked until to-day. dispensed with, and the wedding ceremony take place at once in Mr. Howe's sick room. The physicians in attendance held a con-

sultation and came to the unanimous de-cision that a wedding would be the best possible remedy for their patient. The lat-ter received the suggestion with a sigh of relief. Accordingly, at 3 o'clock this after-noon an anxious party assembled in the chamber of Mr. Howe, and the marriage peremony was performed by Rev. Dr. Bart-lett, of the New York Avenue Presbyterian Church. Those who witnessed the cere-mony were Mr. and Mrs. Butterworth, Dr. and Mrs. St. John Reesa, Dr. A. F. Magruder, of the navy; W. E. Curtis, the THE KING WOULDN'T DIE. Chicago, and the daughter of Attorney General Miller.

FOR AN EXTRA SESSION.

All the Departments Rushing Their Forces

to Get Up the Estimates. SPECIAL TELEGRAM TO THE DISPATOR. WASHINGTON, October 29 .- Though the xtra session idea has become generally discredited during the last week or two, there were certain signs, observable in the departments to-day, which serve to indicate that the idea is not altogether dead yet. There was a sudden scurrying about of the chiefs of the various divisions this morning and a great show of activity in every branch where the estimates are usually prepared.

In the Pestoffice Department Mr. Wanamaker sent word to the chiefs of every division that he wanted the estimates for the appropriation for the coming fiscal year by o'cloca this evening, but it was a physical impossibility to get the figures together at that hour, and the consequence is that the department is lighted up to-night and

ting the estimates ready to submit to the Treasury Department. The Interior Department also shows signs of greater activity than usual, and the various chiefs of bureaus in the Treasuary are all at their posts to night working upon their figures. # It is the evident intention of the Secretary of the Trersury to have these estimates ready by the end of next week and many take this as indicating that the President intends to call Congress together before its usual time

nearly half the force of clerks are busy get-

of meeting.

SHE WEDS A REAL COUNT. Wiss Lily Wilson Marries in Style Into Noble House of Sweden.

dents in her port side.

He Had Many Enemies and is Found Riddled With Bullets. ADAIRVILLE, KY., October 29 .- George

W. Crim, a wealthy farmer and prominent citizen of the Schochoh neighborhood, about six miles northeast of here, was found dead near his residence yesterday afternoon, his body riddled with bullets. Crim was a very positive and aggressive man and had many enemies among his neighbors. No clue to the murderer has as yet been discovered.

A DIPHTHERIA EPIDEMIC.

Over a Dozen Deaths and Schools Closed

Wharton, Ohio. PRECIAL TELEGRAM TO THE DISPATCH.; COLUMBUS, October 29 .- There is an epidemic of diphtheria reported at Wharton, a small village in Wyandotte county. Over a dozen deaths of school children have occurred, and the school was necessarily closed. The State Board of Health has been Burns, of Lisconner, was evicted six years ago. No arrests have been made.

officially notified of the facts. Railroad Lease Ratified.

SANDUSKY, October 29 .- At a stockholders' meeting of the Cincinnati, Sandusky and Cleveland Railroad held here to-day, the recent lease of the road to the Big Four was ratified this evening.

The Dying King of the Netherlands

ments Had Been Made.

THE HAGUE, October 29 .- The situation in Holland is singular beyond parallel. King William is dying, has practically been moribund for the past few days, and it is now more than a week since his signature has been procured to any document. Notwithstanding this condition of affairs and the fact that State business is at an absolute standstill, the Dutch Parliament was not

It met at 2 o'clock and after a debate on the subject passed a resolution by 100 votes to 5 declaring the King to be incapable of any longer carrying on the Government of the country. The Council of State has been invested temporarily with regal power. The illness of the King has developed the fact that for some time past the royal assent has been expressed by King William's signa-ture to bills which his mind could not grasp, and his name was appended to the docu-ments or!" by the Queen holding her hus-band' I and thus helping him to write. filthy a Reviolation of the Color of the Col

The cause of the situation which has prevailed till now is also singular, and arose from the ministers being afraid of becoming a laughing stock. Some months ago the King seemed to be dying. The doctors in attendance were positive and unanimous in their opinion that the death of the sovereign was a matter of only a few days. A council of regency was therefore appointed, as the heiress presumptive, the Princess Wilhelmina, is a child only 10 years of age, Now, the Grand Duchy of Luxembourg reverts, on the death of King William III. to Nassau, and the Grand Duke of Nassau came over and took upon himself the government of the Grand Duchy. Then the King, to the surprise of everybody, recovered his health, sent the Duke of Nassau home again across the Rhine, and resented the appointment of the council of the Regency. Thus it is that the Ministers, hav-

ing been once bitten, are twice shy. BAD FAMILY RECORD. Those who know the history of the royal family of the Netherlands are not surprise at the news that King William is mortally deranged as the life he led in his younger days was a good deal more than mere rakish ness or eccentricity. The same may be said of his oldest son, William, Prince of Orange, the frequenter of the Paris boulevards to whom the Prince of Wales gave the nick-name "Citron." Prince Alexander, the King's second son, was an invalid from his infancy and was well read in the science of ornithology, but he gave manifest signs of insanity before his death. The mother of these two princes was Sophia of Wurtem-burg, who was the granddaughter of George III., King of England, and she died

King William himself, on his mother's side, is the grandson of the notorious Paul L., of Russia, whose madness was never questioned and a first cousin of the Grand Duke Nicholas, whose insanity was recently reported. Paul's father, or his reputed father, the husband of the great Catherine II., was also more or less insane and thus the fatal taint has been

handed down from generation to generation STORING AWAY HIS CASH.

onial Duncan in Trouble for No Paying Miss Knowles Promptly. THY DUNLAP'S CABLE COMPANY, 1 LONDON, October 29 .- A singular disclosure was made in the case of Leslie Fraser Duncan, of the Matrimonial News. During his examination in the Bankruptcy Court he stated that the proceeds of the sale of his property amounted to £6,000, and this sale had been concluded since the verdict given in favor of Miss Evelyn Knowles, who sued him for breach of promise and got £10,000 damages. This sum of £6,000 he declared had been paid to Miss Gordon, another lady who had claims on him. The official receiver ordered a criminal prosecu-

tion for fraud under which Duncan stands remanded. On Monday, however, he disclosed the £6,000, which he had placed in the National Safe Deposit Company, and under the warrant of the Bankruptev Court a search was made when a safe marked "Mary Gordon" was found in which the sum of £4,000 in notes and £2,000 in gold was found. At the Bow Street Police Court to-day Duncan was brought up on a charge of felony under the Debtors Act, and evidence having been given of his deposit of the £6,000 he was committed for trial, but admitted to bail in

the sum of £1,000. COMING SHIPPING STRIKE

Points at the Same Time. THY DUNLAP'S CABLE COMPANY, 1 LONDON, October 29 .- An important meeting of the Bristol Channel Committee of the Shipping Federation was held to-day at Cardiff. Peter Rowe was President. There was a very large attendance of the principal ship owners in Great Britain. G. A. Laws, the general manager of the Federtion, said that his object in coming to Cardiff was to assist in perfecting arrangements in view of a possible strike or a lockout. It was unanimously resolved that upon an understood signal being given all the ships in the Bristol Channel should be laid up

course be discharged.

The Seamen's Union hopes to be able to fight the shipowners, and is making great preparations to do so, with some chance of success, and their project is to fight in sec-tions, that is, confine the struggle to the point where it may take place, which, as indications are now, will likely be Cardiff. But this plan will probably be foiled by the Executive Federation, for they say when the signal is given to lay up the ships they will be laid up everywhere.

SHOT AS SHE SLEPT. How Pat Flanagan's Daughter Was Killed

in the Moonlight Outrage. IBY DUNLAP'S CABLE COMPANY. DUBLIN, October 29 .- Information just

received corroborates the crime known as the "moonlight outrage," which occurred at Ardaera Cliffs, County Clare. At 2 o'clock in the morning the house of Pat Flan, gan was fired into by some unknown miscreants. The inmates, consisting of Flanagan and his three daughters, were sleeping in one room. Three shots were fired and a bullet pierced the left breast of Anne Flanagan, killing her instantly.

The reason for the outrage was that Flan agan is living on the farm from which Miss

ne said, "giving greater stringency of protection within its borders, though damag-

France and Germany threatened retaliation. England should not be led into such suicidal

folly. [Cheers.] A favorite idea of many peo-ple in England was a zollverein of the whole

British empire, including the colonies and dependencies, against all foreign countries.

He doubted much whether the whole Em-

pire would consent. There were a host of

bjections to it. It would be hard upon

countries pursuing free and open trade with England to punish them because some par-

ticular country had adopted a restricted sys-

spite of protection, commerce between America and Great Britain had rapidly in-

reased. The experience of the past ought

to dispel alarms that the Mckinley law

would effect material injury. The word

"protection" was a misnomer. It ought to be "oppression." America was the country

that could best afford to try this strange and

STANLEY'S REPLY TO TROUP.

LONDON-In an interview published in

the Telegraph, Mr. Stanley was asked as to Troup's charges. In reply, Mr.

Stanley asked whether, if they were true, his own return would

have cause enthusiasm and revived hopes in

the rear column as it did. He accused

Troup of jealousy and ambition, and says the

failure of the officers to protest against

Barttelot's action, in order to justify them-

selves, compelled him to include all four in

the same condemnation. Mr. Stanley adds: "They wanted all the blame to fall on

Mr. Stanley says he possesses letters of

16 pages from Troup, containing matter which it is impossible to publish, and that

Troup refuses to modify it. In reply to the

charge that he sought fame and riches, Mr.

Stanle; says that he spent £12,000

pounds on the expedition before the start was made and distributed £3,000 among the members of the ex-

pedition on their return for the admirable

services they rendered during the African

trip. After describing in a graphic manner the death of Major Barttelot he concluded

by emphatically declaring that he knew nothing of the alleged immorality in the

rear column and that the trouble was some-

NO MORE WASTE ALLOWED.

Natural Fuel Companies Have Discovered That There is Much

Boiling of Iron.

MORE MONEY IN HOUSE HEATING.

Some Mills Making Preparations to Return to the Use of Coal.

THE INCREASING DEMAND FOR GAS The whole cause of the present shortage of gas, and the consequent cutting off of the supply from the puddling furnaces, can be stated, shortly, to be due to the fact that the pressure at the wells has decreased and the consumption has immensely increased. In

ficient to meet the increased consumption. In this condition of affairs the supplying companies had only two courses open to them, namely, to cut off the more wasteful consumers and give the others what gas there was going, or to distribute the supply indiscriminately all around, in a sort of 'catch-as-catch-can" struggle. They have chosen the first-stated course for the reason that they find more profit in selling to domestic users than to iron makers. It has been a matter of business with the gas companies as with other concerns to get the most money for their goods, and when they found the demand exceeding the supply they very naturally directed their business to the bes market-the private consumer. This is the sentiment expressed by the managers of the companies and those people who were any

other words, the supply of gas is not suf-

way acquainted with the situation. TOO MUCH OF A DEMAND.

If evidence is wanted of a great falling off in the pressure of gas caused by the in creased demands upon the mains it is found in the fact that so many puddling furnaces are enforcedly idle. Those wills reported idle are not so in pursuance of the Philadelphia Company's notice to them to shut off the gas from their puddling furnaces, because the order has not gone into effect as yet. They are idle because they cannot get gas in sufficient volume to boil their iron.

The number of mills suffering from this cause vesterday was not so large as reported in some quarters. Many of them had made provision for a return to the use of coal in different forms. Among the latter are Moorhead Bros. & Co., Philip Nimick & Co., Clinton Iron and Steel Company, which has returned to the use of coal, and the Sligo. Of the others supplied by the Philadelphia Company the upper and lower Union Mills only made two heats between them yesterday. Jones & Laughlin, who were only acommodated by the company, having a line of their own, had to close down at 10:30 A DUNDEE, October 29 .- Mr. Gladstone M. after making but four heats in the pudwas given the freedom of the city to-day. In dling department. The firm made a propo

and said that no foreign tariff could interfere seriously with the trade of Great Brit-WORKMEN WANT A GUARANTEE. The employes appointed a committee to low America to find out for herself the notify the firm that they would agree to this if the firm would guarantee a full heat. This the company refused to do, and said if the men did not agree to the change of ing us within its own market, gives us a freer and broader field in other markets. hours the ens fixtures would be nulled out of the puddling furnaces and the men com-

pelled to use coal. Not much work was done at Moorhead-McCleane's, Darlington's, Lloyd, Son & Co,'s, Lockhart's, Saw Mill Run mill of Oliver Iron and Steel Company, and Chess, Cook & Co. On the other hand Howe, Brown & Co. reported as having all the gas they wanted.

Of the mills supplied by the Equitable

Company, Brown & Co., of Duquesne way,

declared they were getting all the gas they needed, and Shoenberger's were well supplied. Other Penn avenue mills, all of which except those mentioned as being supplied by the Philadelphia Company, are served by the Equitable, and are running as usual. Inquiry for any additional information on the subject that might be forthcoming was

made at the offices of various gas companies. At the Philadelphia Company's headquarters an official said: Well, there is no use disguising the fact that well, there is no use disguising the lact that the pressure has decreased very considerably. It is not half as strong as it was formerly. But then it must be remembered that the area of consumption with the amount has enormously increased. Since we closed out our old con-tracts some time last year we have put in 13,000 tracts some time last year we have put in 13,000 meters. The houses being run up in the outskirts of the city are demanding service, and in the new streets where before we supplied but a few houses we now have hundreds in addition. We believe, however, that the present stoppage is only temperary. Regarding any increase in price, I only know that the board has taken no action on the matter. I think that exisiting rates will be continued for some time to come. In addition to its new customers the

at Wilmerding. CUTTING OFF THE MILLS. A gentleman who is quite well posted as to the methods of the Philadelphia Company said yesterday: I am satisfied that the company is anxious to

Philadelphia Company has some 700 or 800

drive all the mills on the Southside, and, for that matter, all over the city where they are in-terested, back to coal. This is owing to the that matter, all over the day where they are interested, back to coal. This is owing to the
fact that it is more profitable to sell gas for domestic uses at .present and prospective prices
than to sell it to the first-named class of consumers. The mills have wasted enormous
quantities of gas in the past. This is shown by
the fact that of late the Philadelphia and
other companies have been taking extra precautions to stop it. All standpines have been
ordered down, and other similar steps taken.

I have seen the workings of the Philadelphia
Company in supplying mills and know something about it. I have seen a pressure of 15 pounds
in a certain mill suddenly and mysteriously
dwindle down to one pound and knock the
mill out, when I had positive knowledge that
there was plenty of gas in the mains. By looking at a chart of the Philadelphia Company's
different territories, you will find that gates are
located at nearly every street. Now, it is the
easiest thing in the world to open one gate and asiest thing in the world to open one gate and easiest thing in the world to open one gate and close another, and I know of my own personal knowledge that this has been done many times. The Philadelphia Company has plenty of gas in its mains at the present time, and the hill residents of the Southside are the only real sufferers, owing to the lack of supply over

GAS SUPPLY PALLING OFF. Joseph N. Pew, President of the People's Company, admits that the supply of gas is becoming shorter. He said:

becoming shorter. He said:

There is no disguising the fact any longer that the gas supply is declining. I say this because when I talk to reporters at all I believe in telling the truth. I can also say that we have had some complaints about the shortage from consumers. Of course, I believe that a large amount of the difficulty is due to the defects in the heating appliances being shown up as soon as cold weather sets in, and as soon as the people get their stoves and grates in good shape and learn to economize, they get along better.

The great difficulty is that more than half the retained to defend Slavin and McAuliffe on
