

The Peusion Agency matter continued to be the principal topic among old soldiers last week. As stated in the Grand Army column last Sunday, the contest seemed to have narrowed down to two comrades, both well known and popular, Comrade Chill W. Hazzard, of Post 60, Monongahela City, and Comrade H. H. Bengough, of Post 157, this city. The appointment of either of these would please the comrades.

Much conflicting matter on the question has been published in the newspapers during the past week, but indications of the real outcome begin to appear. The opinion of those who have been closely following the matter, and messages from Washington support the opinion, is that in a few days Comrade Bengough will receive the appointment.

Important to Pensioners.

J. H. Stevenson & Co., of this city, have received the following decision from Washington. It is of the greatest importance to all soldiers who have applied under the act of June 27, 1890:

"That all claimants under the act of June 27, 1890, showing a mental or physical disability, or disabilities of a permanent nature, not the result of their own victous habits, and which incapacitates them from the performance of manual labor, rendering them unable to earn a support in such a de gree as would be rated under former laws at er above \$6 and less than \$12, shall be rated or above so and less than \$2.2, shall be rated the same as like disabilities of service origin; and that all cases showing a pensionable disability which, if of service origin, would be rated at or above \$12 per month, shall be rated at \$12 per month."

This is considered a very liberal ruling in favor of the new applicants for pension, and will be looked upon as good news by them.

There is to be a monument erected in Washington, D. C., to the memory of the men who

fought for the Union and were captured and ied in rebel prisons. The undertaking is a big one and will require a good deal of hard work on the part of the

a good deal of hard work on the part of the veterans to make it successful, but it is believed that it will be finally accomplished.

The project is the result of agitation by members of the Army of the Potomac Association, which appointed a committee at its meeting in 1889. This committee, after spending some time upon the proposition, decided to make the movement a national one, so as to include the dead heroes that lie buried in the robel prison pens of the South from every Northern army in the honors to be paid through the memorial. The headquarters of the Union Prisoners of War National Memorial Association have been established at room 121, Times building, New York.

INITIATORY steps were taken at Post 41's meeting Wednesday evening toward the forma-tion of a Detroit club. At next Wednesday's meeting a committee will be appointed to de-vise ways and means to take the post to the National Encampment next year.

THE Detroit Club of 151 is booming, and the indications now are that they will compare fa-vorably in numbers with any of the other posts of Allegheny county. Several comrades added their names on last Tuesday evening, and oth-ers have signified their intention to do so.

THE reunion of the Seventy-eighth Pennsyltanning Thursday, was an interesting event, One hundred and eighty-four members were present, and this was a large number. The old officers were re-elected. Next year the re-union will be held at Butler.

THE reception and hop of Posts 157's Detroit Excursion Association at Turner Hall Friday night was a most pleasant affair. It was well attended and successful beyond the highest expectations of the managers. In a short time a like entertainment will be given by the association at the same place. The date will be anomazed later.

THE open meeting of Post 41 Wednesday evening was a success notwithstanding the abominable weather. There was a large attendance of comrades and their families and friends and a happy evening was spent by all. Department Commander Denniston and a num-ber of prominent comrades from other posts were present and spoke briefly.

CHAPMAN CIRCLE No. 60, ladies of the G. A. R., will give a basket social and musical en-tertainment at McGinn's Hall, No. 80 Federal street, Allegheny, on next Tuesday evening.
One of the features of the evening's entertainment will be the walking match for several handsome cakes which have been donated for that purpose. From present indications a pleasant time is anticipated.

Post 162 is arranging for the production of a new military play entitled "The Little Recruit." The cast is being selected and will be the best that can be secured among the local talent The new piece has been read before the post and is pronounced a good one. It will be presented in Allegheny first, and if successful, will also be given in Pittsburg. The time of the presentation will be during the holidays, it will be given at Masonic Hall.

JOHN W. McKEE, register clerk in the Bureau of Health, has been made an honorary member of Post 236, and hereafter will be known as "Comrade John." This is on account of valuable services rendered the post in different ways. He went with the post to Columbus, Milwaukee and Boston, and is a member of the post's Detroit Club. their late comrades.
The fair of Post 155 opened last night to a large attendance and everything points to a successful run. The Zoological Garden atsuccessful run. The Zoological Garden attracted the attention of everyone, and fears are expressed by fond parents that, on Monday right, when Professor Cargo brings his school children, chaperoned by good looking teachers, some of them will want to run wild. A grand race for a handsome purse will take place on Wednesday ovening between the two base runners of the Post, Comrade Ben Dawes and Tom Smith, betting odds on Smith.

FRIENDS and relatives of soldiers buried in any of the Southside cemeteries whose graves are unmarked by a headstone furnished by the Government are requested to forward the same, rank, company, regiment and date of death of such soldier to Comrade D. A. Jones, Adjutant of Post No. 151, at the head-quarters of the post, No. 1923 Carson street, or No. 1821 Sidney street. It is important that this matter be attended at once, as the post desires to send the list to the Quartermaster General at Washington as soon as possible.

An open meeting, beanbake and campfire was held under the auspices of Post S, of Etna, on Thursday evening. The nice postroom was crowded and a very pleasant evening was spent by those in attendance. Department was spent by those in attendance. Department Commander Denniston was present and made some happy remarks. Others spoke, including Comrade Thomas G. Sample, of Post 128; A. J. Reed, of Post 41; Commander J. B. Ross, of Post 41, and Comrade Lafayette, of Post 206. A number of old soldiers outside of the Grand Army were present, and the affair did a great deal of good. The post is an energetic one, and is in a flourishing condition.

Cold Facts Showing That Real Estate is a Lively Interest.

GOOD DEMAND AND LARGE SALES Kuhn Property Offered and Again Withdrawn on Insufficient Bids.

THE NEWS AND GOSSIP OF THE CITY

Those who think that the real estate business is flat on its back are mistaken. Cold facts are against them. It is true that rainy weather and muddy roads have curtailed transactions to some extent, but as nearly every other branch of trade is suffering from the same cause, it would be foolish to contend that the slight falling off in sales is evidence of a surfeited demand. Bad roads prevent farmers from hauling their products to the city markets. It would be as reasonable to argue from this that they do not want to come as to declare that the refusal of people to plow through muddy roads to look at property is proof that they have dropped out of the market.

As stated the other day, there is something of a lull, due to causes above set forth, but it is a long remove from stagnation. Indeed, as compared with the same period last year, the market is decidedly active. That there is a good, healthy movement is shown by the sales good, healthy movement is shown by the sales published in this column from day to day. During the past week five transactions were consummated aggregating \$39,000. One firm reported the sale of 28 building lots in less than two weeks. Another marketed over 50 in about the same time. Still another reported sales of 40 lots in ten days. Sales of single lots during the week amounted to 100 or more. Private sales, of which no report is made, were considerable.

siderable.

These are facts of record and cannot be set aside. They completely refute the claim set up in some quarters that real estate is stagnant, by establishing the very opposite. Indeed, they go farther. They lead to serious doubts whether there is even a lull. An interest must be deeply rooted in public necessity to maintain advanced ground under adverse conditions. Real estate is all right.

Still on the String.

The Kuhn property on Diamond street was again put up at auction yesterday by Black & Baird, and withdrawn on insufficient bids, to be offered again next Friday at 2 P. M. The opinion of those best posted is that better prices could be realized at private than public sale, but the legal condition is such that the latter course is the only one to pursue. Consequently the property will be knocked down to the highest bidder when next brought under the haumer.

Homewood Driving Park. Concerning the report that the Homewood race track is to be sold and cut up into building lots, Mr. James W. Drape said yesterday: "So far as I knew and believe, there is no warrant for the statement. It is true that Mr. Lockhart owns the controlling interest in the concern, but he has no plans perfected and does not know what will be done with it. It is just as likely to be retained for its present use as not. A number of people have called on me to ascor-tain, if possible, what plans were being ar-ranged for the future of the property, but my response to one and all was simply that I was not in a position to give information on the subject. The property will not be sold for some time, if at all. This much is certain,"

No Lack of Confidence. There seems to be no lack of confidence i Pittsburg real estate. A gentleman voiced the aimost universal sentiment yesterday when he said: "When the city stops growing and a fence is built around it, when the wheels of industry stop turning, when the storekeepers have no customers, when to let' is seen everywhere, and the voice of the Shoriff is heard in the land, then real estate will be dead stock, but not before. Conditions the very opposite of these prevail. Business is phenomenally active. There is scarcely an empty house of any kind. People are coming in faster than they can find shelter. To argue from these facts that real estate is risky as an investment betrays a total misapprehension of the law of cause and effect. Show me a man who has invested in land in the city or suburby in the law. vested in land in the city or suburbs in the last two or three years and lost money by it, unless he purchased a swamp or a barren hilltop. The city cannot grow without houses, and houses cannot be hung up in the air. Land is indis-pensable. This will keep real estate in the very forefront of the great interests of the city. There is no danger of the market turning back-ward."

The Building Record.

During the past week 34 permits were issued, representing 41 buildings—14 brick, 26 frame and 1 ironclad—the total cost of all being \$58. 505. The Twenty-fifth ward led with seven, fol owed by the Thirteenth, with six. The number of permits issued the previous week was 59, representing 70 buildings, the estimated cost being \$108.487. The total number of mated cost being \$108,487. The total number of permits issued this year to date is 1,529, repre-senting 2,607 buildings. Yesterday's list follows: William Stevenson, brick two-story and attic dwelling, \$25.28 feet, on Lang avenue and Thomas street, Twenty-first ward. Cost, \$7,500. George A. Charles, frame one-story store, 163.84 feet, on Ward street, Fourteenth ward. Cost, \$500.

Business News and Gossip. Five downtown properties have changed own-ership within the past two or three weeks, and none of them reported lest it would interfere with other deals. Realty is very strong below

There is considerable guessing as to the price that will be obtained for the Exchange build-ing. The extremes are \$150,000 and \$200,000. Careful calculators split the difference. The value of building improvements this year is estimated at from \$4,000,000 to \$5,000,000. This is estimated at from \$4,000,000 to \$5,000,000. This is about the same as in 1888, but more than \$1,000,000 below 1889. The falling off this year is due to almost constant rain.

NEW YORK STOCKS.

A Holiday in London Makes a Dull Market This Side of the Water-Big Losses in Reading and Sugar Refineries.

NEW YORK, November 1 .- The trading in the stock market was like that of yesterday-professional only, with the same activity and prominence in Sugar Refineries and Reading, while the general list was dull and stagnant, or taking what little tone was displayed from the movements in the two leaders. The holiday in London and the approaching one here tended to make things dull, and the amount of business done in the other stocks was significant in

The opening was made at irregular but slight changes from last night's prices, and in the early dealings some firmness was shown in the Grangers and Chicago Gas, but this soon gave way to a drooping tendency, owing entirely to the weakness in the two leaders. The

tirely to the weakness in the two leaders. The reservation of the decision in the Sugar case was interpreted as unfavorable to the interests of the cortificate holders, and the traders and professionals sold the stock down from 67% last evening to 64%. The same sort of pressure was exerted against Reading, though there was a pretense that long selling had been detacted and from 35% it settled down to 33%.

The bank statement was issued unusually early, however, and it showed an unexpected increase in the surplus reserve, by which it is again lifted above the requirements of the 25 per centrule, and the traders then went in to coversome of their short contracts put out earlier in the morning, with the result of causing a partial rally all along the line, and Sugar rose about 1 per cent and Reading 4, while the losses in the remainder of the list were nearly wiped out.

The close was dull but firm at the improvement. The tinal changes are generally in the direction of lower figures, but Sugar and Reading are the only ones showing any loss of importance, the former being down 2% and the latter 1 per cent.

Railroad bonds were fairly active during the portance, the former being dewa latter 1 per cent.

Railroad bends were fairly active during the session, the most attention being paid to the Kansas and Texas issue, which displayed some atrength, but the general list was rather heavy, and the important final changes are generally and the important final changes are generally

Kansas and Texas issue, which displayed some strength, but the general list was rather heavy, and the important final changes are generally declines. The sales reached \$569,000. Reading second incomes lost \$29, at 429. Government bonds have been entirely neglected.

The export of specie from the port of New York during the week amounted to \$243,167, of which \$60,417 was in gold and \$182,752 in silver. The imports of specie for the week amounted to \$187,508, of which \$30,743 was in gold and \$147,765 silver.

The Post says: To-day was a holiday in London, consequently there was no trading there to have any influence in this market. But so far as concerns the financial situation there and the disposition to deal in American stocks, there is reason to believe there has been improvement in the past week. A private dispatch from there this morning, which is a fair reflection of the views of the majority of financial people in the London market says: "Condition of affairs much better; weak accounts, we think, seem closed out of stocks; investors coming in at the decline. We look for higher prices," To some extent this view was corroborated by moderate buying for London account yesterday afternoon, It was the indications of this improving confidence in London which helped to sustain this market yesterday, not withstanding the high rates for money, the break in Reading and the unsatisfactory character of the Sugar Trust statement. Considering all that happened yesterday the market exhibited more strength than at any time for some months past.

Wall Street Finances and Railway Combine tions, Matters of Importance to Invest-ors, Were Touched Up in the Following Correspondence to John M. Oakley & Co.

The statements this week and last were en-tirely out of harmony with the facts. The pre-sumption is that trust companies have been re-

turning cash to the associated banks for the past fortnight. This suggests to some bankers

past fortnight. This suggests to some bankers that a complete and satisfactory statement of the finances of Wall street can only be arrived at by means of a supplementary statement of the conditions of the trust companies.

The stock market to-day has been inactive, except in Sunar and Reading, both of which went down.

The times are rapidly ripening for great movements upon the railway cheesboard which will far overshadow the West Shore purchase which electrified the stock markets in 1884. We give this as we desire our clients to know what is talked of regarding effective combinations to raise rates, but we have no faith in any results which can materially effect the markets for several months to come. The public are skeptical as to the value of railway compacts. The experience of the past, in the presence of the largest crops ever harvested and the greatest commercial movement ever recorded in this country, shows conclusively that railway agreements are harder to keep than the Ten Commandments.

We believe it to be possible for an improve-

ments are harder to keep than the Ten Commandments.

We believe it to be possible for an improvement to be made, and have no doubt that in the end it will be brought about, but until actual net results have been laid before stockholders and the public, no confidence will be placed in prophesies concerning railway companies or in the permanence of them when once established. A rally in the market would, of course, follow any important news on this subject, but there are too many bulls anxious to get out on the first advance in prices to give any reason for supposing that prices would hold.

Wheat Slightly Off on New York and St Louis Selling - Corn Stronger and Oats Steady-Pork Holds Its

Own - Lard Higher, CHICAGO-Wheat-A rather quiet fee provaded the market to-day. Outside business was moderate, chiefly on New York and St. Louis account. The feeling was steady but firm, but each advance was met with moderate selling, chiefly credited to St. Louis parties, who it is still claimed are quite largely short.

who it is still claimed are quite largely short. The opening was about ½c higher than yesterday's closing, eased off ½c, rallied ½c, and closed about ½c lower for December and ½c lower for May than yesterday. Cable advices were again indicative of strength.

Corn—Fair trading was reported within a moderate range, with the feeling firm. Operations were mainly local, with the strength due to the buying of a large trader. First trades were at ½6%c advance, declined slightly and then advanced ½c, fluctuated some within a narrow range, and closed with a ½6%g gain.

Oats were quiet and steadier. Prices for May advanced ½c, but yielded slightly and closed steady.

Mess Pork—Trading was moderate. Prices ruled 7%@10c higher, and closed steady at medium figures.

Lard—Trading was moderate. Prices ruled 2½@5c higher, and closed steady at about outside figures.

Short Rib Sides—A fairly active trade was reported. Prices ruled 2½@5c higher, and the market closed strong.

GOSSIP OF THE SCHOOLS.

PROF. SPEER, of the High School, will give s lecture on "Electric Lighting" at Carnego Hall in December. THE "Teachers' Directory," a valuable little

book giving much information about teachers, will be ready for distribution this week. THE Board of Supervisors of the Teachers' Academy at a meeting yesterday made preliminary arrangements for a course of attractions for the Academy meetings. A specialist in science, art and literature will be invited to deliver a lecture. Music and elocution will be additional features of the meetings. POLITICS was the burden of conversation at

the Central Board rooms yesterday. Visitors were asked for their opinions on the result of the Gubernatorial contest, and while the greater number gave Delamater a majority of from 5,000 to 50,000, others held that Pattison would carry the State by from 1,000 to 10,000 majority. majority.

THE notice in this week's DISPATCH from Denver chronicling the arrest of County Re-corder Strutt as a fraudulent land agent was of

particular interest to several teachers in Pittsburg. A number of them, in response to circulars, had sent him \$2.50 for a deed to a lot six miles from Denver. They are now on the anxious seat as to what has become of their money or property. They thought they had a clear deed to the lots, and the bright visions of wealth that they had have faded very much. 613, 512, 447 00

MISS CLINA COLEMAN, of the Wickersham school, was married last Thursday evening to Dr. Greenfield, of Edinbero, Pa. Miss Cole-Dr. Greenfield, of Edinbere, Pa. Miss Coleman has no near relatives in Pittsburg but has three brothers and a sister in Southern California. One of these brothers was present at the ceremony Thursday night, though Miss Coleman did not expect him. He had received notice of the wedding and saw if he took the first train east he would be in time for the ceremony. Hastily making a few arrangements he took the train and speeded East, arriving just before the Rev. Mr. Ballantine pronounced the word that made Miss Coleman Mrs. Greenfield. Miss Coleman is noted for being witty and elever.

A SUBURBAN INCIDENT

A Lady From Swissvale Makes a Personal Statement on an Interesting Subject.

OUT OF TOWN NOTES.

Mrs. A. Downey, of Swissvale, a suburb about ten miles out of Pittsburg, whose husband is a molder in the Westinghouse mills at Swissvale, in a recent interview with the writer, had the following to say

as to her successful treatment with Drs.
Copeland and Blair:
"I will begin at the first," says Mrs.
Downey. "About five years ago I contracted a severe cold which developed into an aggravated form of catarrh. My head and nose would stop un-first one side then the other. Constant headaches over and around the eyes. There was a continual

Mrs. A. Downey, Swissvale, Allegheny County, Pa.

"I could feel the matter dropping back into my throat, which kept me hawking and raising to clear it. My throat was raw and sore. As my trouble grew worse sharp pains like the stab of a knife would take me in the cheat and around my heart. My appetite failed. The little I would eat caused me a sensation of distress and nausea at my stomach, accompanied with a belching of gas and terribic lacerating pains, so severe at times as to almost drive me frantic. I slept well, but my sleep did me no good. I would arise in the morning all worn out, more tired than the night before.

"I was in this condition, miserable in every way, when I called on Dra Copeland & Blair, and finding their charges so very reasonable, even lower than the cost of patent medicines, of which I had used a quantity, I decided to give them a trial.

"It was the best resolution I ever made," concludes Mrs. Downey, "for they have done wonders for me. All my symptoms have passed away. I feel like a different woman, and shall be glad to verify this to anyone.

Additional Evidence by Mail. One year ago last April Mr. Thomas C. Harper, of Braddock, Pa., took one menth's treatment for his catarrhal trouble, by mail, with Drs. Copeland and Blair, and was pronounced cured. A short time since Mr. Harper called on these eminent specialists, and said: "Doctor, I just came in to tell you that I have not had the slightest return of any of my former trouble—in short, that your cure over one year ago was a permanent cure, and to thank you again."
