[FROM A STAFF CORRESPONDENT.] WASHINGTON, November 1.—Judge Cox to-day heard in the cases of G. S. PROTECTING OUR TRADE MARKS.

WASHINGTON, November 1.—The Treasury Department has issued regulations for the enforcement of the provisions of the new tariff bill relating to trade marks, which prescribe that applications for the recording of names or trade marks in the department shall mention the name and residence of the domestic manufacturer and furnish a description of the mark and the names of the ports to which the trade-samples should be sent. No such name or trade mark will, however, be received unless accompanied by the proper proof of ownership.

CANADIAN NICKEL.

Secretary Tracy is After the Facts and Prices for Armor Plates. MONTREAL, November 1.—The Dominion Mineral Company has been approached by Secretary Tracy, of the United States, for prices of nickel to be used in the manufacture of steel armor plates. This company, which is formed of Montreal and New York men, informed the Secretary that it had nickel matter. To satisfy himself of the fact Secretary Tracy sent Commander Folger, Inspector of Ordnance at the Washington Navy Yard, and an engineer to examine the properties at Sudbury, and he is now in possession of all the facts and as a result has asked prices from the mine controlled and worked by Canadians which may lead to the purchase of Canadian matte, as it is sold on the nickel basis, the by-product not being charged for.
