NEW YORK STOCKS.

A Holiday in London Makes a Dull Market This Side of the Water-Big Losses in

Reading and Sugar Refineries. NEW YORK, November 1 .- The trading in the stock market was like that of yesterday-professional only, with the same activity and prominence in Sugar Refineries and Reading. while the general list was dull and stagnant, or taking what little tone was displayed from the movements in the two leaders. The holiday in London and the approaching one here tended to make things dull, and the amount of busi-ness done in the other stocks was significant in the extreme.

The opening was made at irregular but

Considerable Doing in the Local Stocks, but Values Far From Satisfactory.

A fair business was transacted in local stocks Saturday. Sales were 25 shares of Electric at 28, 130 Philadelphia Gas at 24%, 10 at 25, 15 at 251/4, 10, b. o. 10, at 253/4: 20 Switch and Signal at 13%, 20 Central Traction at 25%, and 16 at 25; total sales, 240 shares: total for the week, 1,588. There was a steady selling movement all week, and nearly everything closed at or near the

Final prices of Saturday, as compared with those of the previous Saturday, show the fol-lowing changes in the leaders: Philadelphia Gas dropped 134; Central Traction, 134; Electric, 14. and Switch and Signal, 14. New York and Cleveland Gas Coal gained 15 and Luster 134. Cleveland Gas Coal gained % and Luster 1%.
Outside of the natural gasser, the weakest features were the tractions, for which there was practically no support. Money is working easier, and the prospect for improvement is better than for a long time.

ON A CASH BASIS.

Year Piling Up.

In business affairs no news is always good news. When there is anything wrong the public soon hears of it. This holds good of the local money market Saturday and during the week. The shrinkage in exchanges is easily accounted for by the political excitement, rough weather, bad roads and natural gas scare, all of which are temporary and will quickly pass away.

While there was a shrinkage in bank clear-

Business a Little Off, but Gains Over Last

While there was a shrinkage in bank clearings, as compared with the previous week, there was a gain of nearly \$2,000,000 over the same period last year. So long as the volume of husiness overtops 1880, which was a year of remarkable activity and development, there can be no just cause found for complaint. Money was easier at the close than at the opening of the week, and all good paper was accepted. Time loans found more tavor, but the bulk of the business was on call. Rates were 667 per cent, with the emphasis on the inside figure.

figure.

The Clearing House report for the day and week, as prepared by Manager John M. Chaplin, when properly analyzed, is a fair and accurate presentment of the state of trade. It follows:

Choking Catarrh.

with all the horrible sensations of an assassin clutching your throat and pressing the lifebreath from your tightened chest? Have you noticed the languor and debility that succeed the effort to clear your throat and head of this catarrhal matter? What a depressing influence it exerts upon the mind, clouding the memory and filling the head with pains and strange noises? How difficult it is to rid the nasal passages, throat and lungs of this poisonous muens all can testify who are afflicted with catarrh. How difficult to protect the system against its further progress towards the lungs, liver and kidneys, all physicians will admit. It is a terrible disease, and cries out for relief and cure. The remarkable curative powers, when all other remedies utterly fail, of Sanford's Rabical Cure, are attested by thousands who gratefully recommend it to fellow sufferers. No statement is made regarding it that cannot be substantiated by the most respectable and reliable references.

Each packet contains one bottle of the Rabical Cure, one box of Catarrhale. Solvent and an Improved Inhaler, with treatise and directions, and is sold by all druggists for \$1. the effort to clear your throat and head of this

A TRIAL WILL CONVINCE

"OH. IF MOTHER WERE ONLY ALIVE !"

All through life she has known a mother's watchful care. She now is a young mother, and gains strength but slowly. She would "give to do everything for her precious baby, but cannot; the doctor is so strict, and does not sympathize with her, "as mother always did."

That baby has unfolded in the young mother's heart, new emotions. She has a living responsibility, and requires strength to enable her to perform a loving duty. At such a time, too much care cannot be taken, and the Vegetable Compound is indispensable. Send stamp for "Guide to Health and Etiquette," a beautiful illustrated book.

THE PITTSBURG DISPATCH, MONDAY, NOVEMBER 3, 1890.

MARKETS BY WIRE. Wheat Slightly Off on New York and St. Louis Selling - Corn Stronger and Oats Steady-Pork Holds Its

Own - Lard Higher. CHICAGO-Wheat-A rather quiet feeling prevaded the market to-day. Outside business was moderate, chiefly on New York and St. Louis account. The feeling was steady but firm, but each advance was met with moderate selling, chiefly credited to St. Louis parties, who it is still claimed are quite largely short. The opening was about \(\frac{1}{2} \) c ingher than yesterday's closing, eased off \(\frac{1}{2} \) c, rallied \(\frac{1}{2} \) c, and closed about \(\frac{1}{2} \) clower for December and \(\frac{1}{2} \) clower for May than yesterday. Cable advices were again indicative of strength.

Corn—Fair trading was reported within a moderate rauge, with the feeling firm. Operations were mainly local, with the strength due to the buving of a large trader. First trades were at \(\frac{1}{2} \) c advance, declined slightly and then advanced \(\frac{1}{2} \) c, fluctuated some within a narrow range, and closed with a \(\frac{1}{2} \) c gain.

Oats were quiet and steadier. Fires for May advanced \(\frac{1}{2} \) c, but yielded slightly and closed steady.

New Poets Trading was moderate Prices firm, but each advance was met with moderate

closed steady.

Mess Pork—Trading was moderate. Prices ruled 73/69/10c higher, and closed steady at medium figures.

Lard—Trading was moderate. Prices ruled 25/600c higher, and closed steady at about outside figures.

Short Rib Sides—A fairly active trade was reported. Prices ruled 23/60c higher, and the market closed s rong.

S. W. HILL, Pittsburg Meat Supply Company, corner of Church avenue, Auderson street and P., Ft. W & C. R. W., Allegheny, Pa., sold for Messrs. Nelson, Morris & Co., of Chicago, Ill., for the week ending November 1, 1890, 134 carcasses of beef, average weight, 625 pounds, average price, \$5 65 per hundred pounds.

Corn, Oats and Mill Feed Are Scarce and Tending Upward. GENERAL GROCERIES UNCHANGED

SATURDAY, November 1, 1890. Country Produce—Jobbing Prices. Trade is quiet, and markets are generally favorable to the buyer. There is a good demand for all choice products offered. Country butter, which has been neglected of late, is coming into good request, and fancy stock is in good demand at outside quotations. Supply of potatoes is better than for some weeks past, but markets are firm for all choice stock. Fancy apples are in good request at outside quotations. Grapes are still plenty and slow, and nutil the crop is worked plenty and slow, and until the crop is worked off other fruits will find hard roads to travel. In tropical fruit lines lemons are scarce and firm, and bananas dull and slow. Malaga grapes are on the advance. Tokay grapes are close to their end for this season. Quotations on fancy country roll butter are in accord with what peddlers charge the retail grocer. Commission merchants are ready to sell the best country rolls at 20c per nound.

APPLES—\$3 00g 100 a barrel.

BUTTER—Creamery, Elgin, 28@30c; Ohio do, 27@28; fresh dairy packed, 21@23c; fancy country rolls, 23@25c.

THE WONDERS OF OLD Dr. Talmage Devotes His Sermon

Largely to a Description of PAST GLORIES OF PALESTINE.

Was Superior to Our Own. Lord's birth," and we had our wish. I am the THE LESSON TO BE DRAWN PROM THIS

Many Things in Which Ancient Wisdom

BEOOKLYN, November 2.—Dr. Talmage preached the sixth sermon on his tour in Palestine to-day. After a pastorate of 22 years in this city it is astonishing to see the crowds of people who throng the Aendemy of Music every Sunday morning to listen to his discourses. No less remarkable are the audiences that New York City furnishes at the services every Sunday night. To-day's sermon was on the gardens and public works of Israel's magnificent King, and the text, Ecclesiastes ii.4-6: "I made me great works, I builded me houses, I planted me vineyards, I made me gardens and orchards, and planted trees in them of all kinds of furnis; I made me pools of water to water therewith the wood that bringeth forth trees." Dr. Talmage said:

A spiring morning and before breakfast at Jerusalemi. A king with robes snowy white in estartiol decked with gold, drawn by eight loarses, high-methed, and housings as brilliant as if scortinged out of that very sourise, and like the winds for sneed followed by a regi-

horses, high-mettled, and housings as brilliant as if scalinged out of that very sunrise, and like the winds for speed, followed by a regiarchers on horseback with hands on gittled bow, and arrows with steel points flashgeneral bow, and arrows with steel points hash-ing in the sun, dad from head to foot in Tyrian partie, and black hair sprink ed with gold dust, all dashing down the road, the horses at full run, the reins loose on their necks, and the crack of while, and the kalloo of the reckless cavalence putting the miles at definere. Who is it, and went is it? King Solomon taking an outline before hereklast, tenn Jetusalem, to ag before breakfast, from Jerusalem, to gardens, and parks, and orchards, and oronts as miles down the road toward from. What a contrast between that and that very road one morning last De noter geing aloos, for our plain vehicle rines buck for photographic apparatus for-tion, we on the way to find what is called on's pools, the ancient water works of lem, and the gardens of a King nearly arts ago. We cross the aqueduct agaly and and here we are at the three great agrain and here we are at the three great errors, not trues of reservoirs, but the errors themselves, that Solomon built be indicating as an appropriate the mountain streams and passing them to exist to still the mountain streams and passing them to exist to still the threst of the city, and of our gate the most gloraous range of gather and with all redolence, for Solomon was greatest bottomid with all redolence, for Solomon was greatest bottomid the treatest or inthologist, the greatest bottomid errors of the still the resease control of the second still the second sec he greatest emithologist, the greatest cap-tains the greatest scientist of his century.

THREE GREAT RESERVOIRS. Come over the piles of gray rock, and here we ce at the first of the three reservoirs, which are on three creat levels, the base of the top one of the second reservoir higher than the out of the third, so arranged that the waters athered from several sources above shall deand from basin to basin, the sediment of the water deposited in each of the three, so that by the time it gets down to the aqueduct which is to take it to Jerusalem it has had three filternes, and is as pure as when the clouds rained ings, and is as pure as when the clotus rained it. Wonderful specimens of masonry are these three reservoirs. The white cement fascening the blocks of stone together is now just as when the trowels [180] years ago smoothed the layers. The highest reservoir is \$25,229 beet the second, \$25,100 and the lowest reservoir \$20,100 and deep enough and wide enough and implify chough to if at an occan steamer. On that becember morning we saw the waters rolling down from reservoir to reservoir and cell understand how in this neighborhood aperial gardens were one great blossom, he orchard one great lasket of fruit, and solonom in his palace, writing the song of and Ecclesiasses, may have been draw-ustrations from what he had seen that seeming in the royal gardens when he also melons, and mandrakes, and aprions, rapes, and pomegranates, and figs and sural, and chumamon, and calamus, and ire, and "apple trees among the trees of and the almond tree as flourishing, and yril and frankinceuse, and represer stas gone down into His gardens, leds of spices to feed in the gardens, ther likes, and to "eyes like fish-pot think it was when Solomon was ing the Queen of Sheba through these is that the Bible says of her: "laure re-of no more spirit an her." She gave it up, all this splendor did not make Solomon . One day, after getting back from his lang ride and before the horses had yet cooled off and rabbed down by the royal ry, Solomon write the memorable words,

ROCKS CHANGING TO SAND.

Recent travelers in the Hoty Land speak of he rocky and stony surface of nearly all Palestine as an immassable barrier to the future united minutely the rocks and stones of the oly Land, they would find that they are being seletonized and are being melted into the soil. ing for that land what the American and doing for that land what the American and glish farmer does when at great expense fairly ac, he draws his wagon load of and scatters it on the fields for curveliment. The storms, the wing the great mid-summer heats of estine, be crumbling up and dissolving the ks are gradually preparing Palestine and its to visid a product like unto the luxurier county farms of New York, and Lander county farms of Pennsylvania, and Somoos was only a suggestion will make all that and from Pan to Beershebn as fertile and aro-nate and resplendent as on the morning when he King rode out to his pleasure grounds in harrot so swift, and followed by mounted

wrapped himself in the borrowed coat. The plain man who loaned the coat to the soldier soon after was dying, and in his dream saw Christ, and said to Him: "You have got my coat on." "Yes," said Christ, "this is the one you lent on that cold night by the fortress. I was naked, and ye clothed me." Something for Christ! By the memories of Bethlehem I adjure you! ders so brilliant that it was for speed like a tricane followed by a exclone, As I book upon this great aqueduct of Pales-tine, a wondrous specimen of amount masonry, aboutseven feet high, two feet wide, sometimes tonneing the solid rock and then rollings waters through stoneward pipes, an aque and doing its work ten times before it gets to inci doing its work ten times before it gets to those three reservoirs, and then gathering their wealth of refreshment and pouring it on to the inighty city of Jerusalem and filling the prayen sea of her temple, and the bath rooms of her palaces, and the great pools of Siloam, and Hersekiah, and Berhesda, I find that our century has no monopely of the world's wonders, and that the conceited age in which we tay had be ter take in some of the sails of its price when it remembers that it is hard work in later ares to get masoury that will last 50 years, to say nothing of the 3,000, and no modern machinery could lift blocks of stone like those standing high up in the walls of Baalbec.

NOT AS GOOD AS THE OLD. In the old cathedrals of England, modern painters in the repair of windows are trying to nake something as good as the window painting of 400 years ago, and always failing by the manimous verdict of all who examine and compare. The color of modern painting fades in 50 years, while the color of the old masters a as well preserved after 500 years as after one was as well preserved after 500 years as after one year. I saw last winter on the walls of exhaused Pomned paintings with color as fresh as though made the day before, though they were ouried 1800 years are. The making of Tyrian partie is an impossibility now. In our modern patteries we are trying hard to make cups and atchers and lowly as exquisite as those exhaused from Herculaneum, and our artificers are attempting to make jewelry for ear and neck and finger equal to plant organizity up from the mausoleums of two thouses. for ear and neck and finger equal to that promite up from the mausoleums of two thousand years before Christ. We have in our time glass in all somes and all colors, but Pliny, more than 1,800 years ago, described a mallenble glass which, if thrown upon the ground and cented could be pounded straight again by the hammer or could be twisted around the wrists, and that confounds all the glass manufacturers of our own time. I tred in Damascus, Syria, to buy a Damascus blade, one of those swords that could be bent double or tied into a knot without breaking. I could not get one. Why? The nineteenth century cannot make a Damascus blade. If we go on enlarging our cities we may after a he to return to his gloomy, toilsome life, and she to wait wearily until her husband obon enlarging our cities we may after a get a city as large as Babylon, which was imes the size of London, see aqueducts of Solomon that I visit to-inding them in good condition 3,000 years construction, make me think that the

If there is one more characteristic difference than another between man and woman,

North American Review.]

it lies, as has often been noted, in the manner in which any adverse criticism directed against either sex is regarded by the members of the particular sex supposed to be aspersed. If it happens to be the feminine sex upon which the remarks have been made, our sisters arise as one woman to de-fend themselves. And why? Simply because each woman feels that she is individually attacked, that she is at fault, that the writer or speaker is aiming directly at her.
On the other hand, if it is the masculine sex which is criticised, man as a rule pays little or no attention to the matter. Generalities, he has found by experience, hurt no one in particular. No man's individual vanity is wounded by what may be said in disparagement of his sex as a whole.

ROMANCE OF A RUSSIAN BRIDE

Married in Prison and Separated From Her

Husband for Ten Years. One of the saddest marriages on record, says the London Tit-Bits, is that entered into by a former Russian officer, condemned to ten years' hard labor in the mines and a lifelong banishment, and a young and beautiful girl, possessing an ample fortune in her own right, who had taithfully and wearily followed the footsteps of her lover. The bridegroom was brought to the altar of the prison chapel in the soiled gray clothes of a miner, his ankle bound by chains clinched in the iron waistband. The marriage ceremony over, husband and wife bade each other a sad but hopeful farewell

FOR NERVOUSNESS Use Horsford's Acid Phosphate.

after construction, make me think that the world may have torgotten more than it knows. The great honor of our age is not machinery, for the ancients had some styles of it more monderful; nor art, for the ancients had more exquisite and durable; nor architecture, for Roman Coliseum and Grecian Acropelis surpass all modern architecture; nor cities, for Dr. W. C. Hanscome, Minneapolis, Minn., says: "I used it in a case of acute rheumatism, during convalescence: the particular symptoms I wished to relieve were sleeplessness and nervousness, and the results were all I desired."

HIDES AND LEATHER.

Drift of Markets on Light Hides

Toward a Lower Level.

some of the ancient cities were larger than ours in the sweep of their pomp. But our at-tempts must be in moral achievement and Gos-pel victory. In that we have already surpassed

pel victory. In that we have already surpassed them, and in that direction let the ages push on. Let us brag less off worldly achievement and thank God for moral opportunity. More good men and good women is what the world wants. Toward moral elevation and spiritual attainment let the chief struggle be. The source of all that, I will show you before sundown of this day, on which we have visited the pools of Solomon and the gardens of the King.

BETHLEHEM IN DECEMBER.

I said to the tourist companies planning our

Oriental journey: "Put us in Bethlehem in December, the place and the month of our

how Bethlehem looked at the season Jesus was born. Tourists and writers are there in Feb-

which Jesus was born. Fifteen lamps burning day and night and from century to century, light our way to the spot which all authorities, Christian and Jew and Mohammedan, agree upon as being the place of our Savior's hirth, and covered by a marble slab, marked by a silver star sent from Vienna, and the words: "Here Jesus Christ was born of the Virgin Mary."

CHANGES OF THE CENTURIES. But standing there, I thought, though this is

roundings of the wintry night in which Jesus came! At that time it was a Khan or a cattle-pen. I visited one of these Khans now stand-

mounted. We found the building of stone and

The neighboring Bedouins here find market for their hay, straw and meats. Off from the cen-

ter there are twelve rooms for human habita-tion. The only light is from the door. I went

winter month on these bleak beights shall cou-

THE LESSON TO BE LEARNED. Dishonor not the cradle, though it may, like the one my sermon celebrates, have been a

cradle in a barn, for I think it was a Christian

cradle. That was a great cradle in which Martin Luther lay, for from it came forth the reformation of the sixteenth century. That was a great cradle in which Daniel O'Connell lay, for from it came forth an eloquence that will be inspiring while men have eyes to read,

or ears to hear. That was a great craule in which Washington lay, for from it came forth

the happy deliverance of a nation. That was a great cradie in which John Howard lay, for

from it came forth a mercy that will not cease until the last dungeon cets the Bible, and light, and fresh air. Great cradles in which the John

been no close.

A plain man passing a fortress saw a Russian soldier on guard in a terribly cold night, and took off his coat and gave it to the soldier, say-

ing, "I will soon be home and warm, and you will be out here all night." So the soldier wrapped himself in the borrowed coat. The

Harness and Sole Leather Weak in Sympathy With Hides.

HEAVY HIDES AND CALFSKINS DULL

COUNTRY BUTTER GROWS FIRMER

OFFICE OF THE PITTSBURG DISPATCH, SATURDAY, November 1, 1890. Light hides are still moving downward and prices are 3/c per pound lower than they were a week ago. Heavy steer hides and ealtskins are nominally the same as they were last Saturday, but markets are weak and the cash buyer would, no doubt, find holders willing to concede on lost week's prices. In the early months of the year light hides advanced about 31/2c per pound. About 234c of this advance has already been lost, and unless the downward movement is soon arrested the advance will be lost in a few days and prices will be back to where they started last spring. The quality of hides is on the decline, a fact which will account for the weakness of markets. Buff hides are now selling at 6½ per pound, and at this figure are weak. Harness leather-tanners report a quiet market and look for no change the balance of the year. There is a slight accumulation of stock. The heavy fall trade absorbed all resolutes to the second day. cumulation of stock. The heavy fall trade absorbed all products up to a recent date. Now tanners are getting a little ahead of orders, but as Pittsburg harness leather always commands a premium in the world's markets, there is little fear in the minds of tanners but that surplus stock will soon be worked off. Sole leather, which has been the strong factor of markets for a few weeks past, gave signs of weakness the past week and while markets are nominally unchanged, the situation is favorable to the buyer. Firebrick Booming.

front door looked when this heavenly stranges entered it.

The town of Bethlebem, to my surprise, is in the shape of a horseshoe, the houses extending clear onto the prongs of the horseshoe; the whole scene more rough and rude than can be imagined. Verilty, Christ did not choose a soft, genial place in which to be born. The gate through which our Lord entered this world was a gate of rock, a hard, cold gate, and the gate through which He departed was a swinggate of sharpened spears. We enter a gloomy church built by Constantine over the place in which Jesus was born. Fifteen lamps burning day and night and from century to century. Dealers in this line report a great scarcity of stock. From cheapest mill brick to finest steel there has been a shortage for the past few weeks and dealers are unable to fill orders. few weeks and dealers are unable to fill orders. One of our leading firms reports that they are three months behind orders in the line of high-grade firebrick. The demand for paving firebrick is also above supply. The trade in all lines has very much increased the past year. A leading dealer said yesterday that the consumption of firebrick had fully doubled in this city the past year. The wane of natual gas and necessary substitution of coal and coke in the fron mills, will make extra demands on the firebrick output, so that prospects for the comthe place of the nativity, how different the surthe iron mills, will make extra demands on the firebrick output, so that prospects for the coming year's trade are immensely heightened by recent developments as to natural gas.

Said one of our leading dealers in firebrick to-day: "Our trade is in an unusually healthy condition. There is no excitement, but a steady demand for all our goods. Our principal difficulty now is to satisfy regular customers. Newcomers are forced to wait until their orders can be filled. I have never known the time when the firebrick industry rested on a more solid basis than it does to-day." ing and looking just as in Christ's time. We rode in under the arched entrance and dismounted. We found the building of stone and around an open square without roof. The building is more than 2,600 years old. It is two stories high. In the center are camels, botses and mules. Caravans halt here for the night or during a long storm. The open square is large enough to accommodate a whole herd of cattle, a flock of sheep, or caravan of camels. The neighboring Bedonins here find market for

tion. The only light is from the door. I went into one of these rooms and found a woman cooking the evening meal. There were six cows in the same room. On a little elevation there was some straw where the people sat and slept when they wished to sleep. It was in a room similar to that our Lord was born.

This was the cradle of a King and yet what cradle ever held so much? Civilization! Liberty? Redemption! Your peaven and mine! Your peace and mine! Your peace and mine! Cradle of a God! The gardens of Solomon we visited this morning were only a type of what all the world will be when this illustrious Personage now born shall have completed His mission. The horses of finest limb, and gayest champ of bit, and sublimest arch of neck that ever brought Solomon down to these adjoining gardens, was but a imest limb, and gayest champ of bit, and sublimest arch of neck that ever brought Solomon
down to these adjoining gardens, was but a
poor type of the horse upon which this Conqueror, born in the barn, shall ride when, according to apocalyptic vision, all the "armies
of heaven shall follow Elim on white horses."
The waters that rush down these hills into
yonder liftee great reservoirs of rock, and then
pour into marvelous aqueduct into Jerusalem
till the brazen sea is full, and the baths are full
and Siloam is full, are only an imperfect type
of the rivers of delight which, as the result of
this great One's coming, shall roll on for the
slaking of the thirst of all nations. The Palace
of Lebanon cedar from which the imperial
cavadcade passed out in the early morning and
to which it returned with glowing cheek, and
jungling harness, and lathered sides, is feeble
of architecture compared with the House of
Many Mansions into which this One born this
winter month on these bleak heights shall con-

duct us when our sins are all pardoned, our battles all fought, our tears all wept, our work

and fresh air. Great cradles in which the John Wesleys, the John Knoxes, and the John Masons lay, for from them came forth an all-conquering evangelization. But the greatest crasile in which child ever slept, or woke, laughed, or cried, was the cradle over which Mary bent, and to which the wise men brought frankineense, and upon which the heavens dropped song. Had there been no manger, there had been no cross. Had there been no Bethlehem, there had been no Golgotha. Had there been no Incarnation, there had been no Ascension. Had there been no start, there had been no close.

S1. Drygoods. New York. November 1.—Business in dry-goods at first hands was moderate. There was more doing in fabrics that have been recently more or less quiet. Wide sheetings were in good request, and there was increasing inquiry for staple cottons generally. The tone of the market continued strong, with woolen fabrics especially looking upward. especially looking upward.

Wool Markets.

St. Louis—Wool—Receipts, 54,000 pounds; market steady and unchanged, although pos-sibly there is a weak feeling for grades corre-sponding to Australian and South American. (SPECIAL TELEGRAN TO THE DISPATCH.) NEW YORK, November 1.—Barsilver, London 48%d. New York, \$1 05%@1 06.

When baby was sick, we gave her Castoria, When she was a Child, she cried for Castoria, When she became Miss, she clung to Castoria, When she had Children she gave their Castori
