The Princeton players are certain that they will visit Pittsburg again. The local players are now hard at work getting ready for the ourout team, who will be here on Saturday rext. There will be "scrub" matches every on this week at Exposition Park, and bout 15 players will contest against the regu-

But before next season comes I think our association will be a member of some national organization, probably the A. A. U., and then e will be sure of some great contests. There one thing however, that we have discovered, it we cannot bring such teams here as accions. Detroits and Cievelands and only 25 cents admission fee, I fear The straige a cent more than their legitimate (2) peaks. We don't want to make any money, for do we want to lose any. Democrats Lav Claim to the Possession of the Next House

BY A WORKING MAJORITY OF 44.

REPUBLICANS DO NOT CONCEDE IT

IFROM A STAFF CORRESPONDENT. WASHINGTON, November 3.-The very Democrats can always be relied upon to make a blunder when they are in the majority," and blunders by a Democratic majority in the popular body of Congress would be of greater advantage to the Republicans in the Presidental campaign in 1892 than the best of management by a House with a

The work of the present Congress has been a mighty one in the initiation and enactment of far-reaching, vital laws and policies, and will be quoted in future campaigns with keen point against what will necessarily be an inactive House, with a Democratic majority contending against the Republican majority of the Senate. But the Democrats, while many of them acknowledge the force of this proposition, do not generally appear to be averse to try-ing anew the experiment of a Democratic majority in the House, and their most con-servative authorities estimate this majority at upward of 40 members. They claim they will gain 1 member in Alabama, Arkansas 1, California 1, Connecticut 2, Massachusetts Iowa 2, Kansas 2, Kentucky 1, Maryland Michigan 2, Missouri 2, Minnesota 1, New Hampshire 1, New York 2, North Carolina 1, Ohio 7, Pennsylvania 2, South Carolina 1, Tennessee 1, Illinois 1, Virginia 2, Wisconsin 1.

In Arkansas two Democrats were turned out of this Congress on contests, and it might be expected naturally that they would both be returned, making a gain of the stabling is a young man known two from the way the delegation now stands, but it is feared that Mr. Breckinridge is going to be defeated. In Louisiana the Democrats expect to defeat Coleman, but started by Eagan saying that he would they fear also that they are going to lose one man, so no gain is counted there.

Democrats have expected a gain of two in that State, but the illness of Andrew places claim but one as a gain. Ewart, Republican, will probably be elected in North Carolina, and in West Virginia there is liable to be a stand-off. The Democrats in ribbed Republican State that Iowa is have feel morally certain of a gain of two there. The Rhode Island Democrats expect to them a net gain of 34 on these figures. The Republicans gain two members which the Democrats do not lose-one from Idaho and one from Wyoming-making the total membership of the House 332. There are now 154 Democrats in the House. A net gain of 34 would give them 188 in the next House. This would be a majority of 44.

Your charge imputing fraudulent motives to others, rather suggests that as your party thinks an increased popula-tion would inure to its advantage the count of the police (taken, as it has been, since the Police Board of New York has been made partisan), needs the very closest scrutiny and analysis. The charges now being made in New York against the city government by Democrats are not of a kind to relieve any work done by it of the gravest suspicion of reckless partisanship.

reckless partisanship.

Some of the Democratic newspapers in New York and elsewhere made the census enumerator's work very difficult, by exciting the prejudice of ignorance, and it is to be remarked that you, as early as the list of July last, made an address before the Hendricks Club, at Indianapolis, in which you bitterly assailed the Census office and its work, and asserted without any knowledge whatever the same evil purpose you now send to me officially. You then repeated the newspaper criticisms and spoke of the great army of inquisitors sent prying into our houses, asking importanent questions, making false records, etc., and you did not fall to notice the possible effect of all this in raising popular distrust and disinclination to respond to the enumerators. You did not succeed in these efforts to any considerable degree, but you are eckless partisanship. Some of the Democratic newspapers in New efforts to any considerable degree, but you are largely responsible for any inaccuracies that may exist.

The Secretary denies that all the New said: 'I see Baltour is quoted as saying York enumerators were Republicans. IRISH LEADERS' TOUR

Dillon and O'Brien Busily at Work On Their Itinerary.

A DIFFICULT THING TO ARRANGE.

Owing to the Large Demands Made Upon

BALFOUR'S STATEMENTS DENIED.

Them From All Sections.

PRECIAL TELEGRAM TO THE DISPATCH.1 NEW YORK, November 3.-The visiting elegates of the Irish Parliamentary party spent the greater part of to-day in consultation upon their plan of campaign, which opens in Philadelphia on Thursday. They denied themselves to all visitors in their quarters at the Hoffman House until the middle of the afternoon. No changes were made in the general arrangements for their tour of the country, and no new dates were fixed for their appearance in Eastern cities. It has not yet been decided whether they will divide into two or three parties after speaking in the larger towns.

The preparation of a detailed itinerary t found to be a matter of a good deal of difficulty. So many demands have been made upon them, and the territory to be covered s so vast, that it is almost impossible, with the time at their disposal, to gratify the wishes of more than a fraction of the people who are anxious to see and hear them. They feel that they must finish their tour of the United States early in January, and they will endeavor to cover as much ground as possible within that time. A large proportion of the time will, of course, be spent in Atlantic coast States, but some members of the deputation will probably go to the Pacific coast, for urgent appeals to visit them have come from the people of San Francisco and other California and Washington towns. Mr. O'Brien said to-day that it had not been positively decided to visit Canada, but probably the entire delegation would go there after finishing the United States tour. BALFOUR'S STATEMENTS DENIED.

Commenting upon a recently published nterview with Mr. Ballour, Mr. O'Brien was no intention on his part to prevent our going away and that he had in fact no power to do so. That is utterly false, as everybody knows on the other side and as the facts show clearly. Even when we proposed to go to the council of our party to be held at Dublin shortly before we came away, we learned that warrants had been issued for our arrest if we should do so, and the Government kept a special train in readiness at Limerick all day, presumably for our pursuit in case we had carried out our plan. Then, too, it is well known that Government officers searched the steamers at Southampton and Queenstown for days after our departure, and if it was not for the purpose of arresting us if found, what was

NO DANGER TO THE BONDSMEN. Messrs. Dillon and O'Brien have received telegrams from their bondsmen in England saying that they will be very glad, if necessary, to pay their proportion of the forfeited bail bond. Their bondsmen are Canon Cahill, parish priest of Tipperary; John Burke, an evicted tenant; William Hurley and Tobias English, a corn merchant of New Tipperary. Mr. Dillon says there is no danger of the bondsmen being obliged to pay anything on account of the disap-pearance of the desendants. They were arrested on one charge and bailed. Then the complaint was revised and remodeled until it constituted, so say their attorneys, a new charge, to which the bail which they gave under the first complaint does not apply. Such at least will be the contention of the bondsmen if the Government attempts to

POPULAR INTEREST IN NEW YORK CENTERS ON THE FIGHT FOR MAYOR.

The Struggle is Tammany Against the Field --- Democrats Trying to Capture the Legislature to Elect a Senator---Contests fo Congress.

NEW YORK, November 3 .- The election in New York State to-morrow is for a Judge of the Court of Appeals, two Justices of the Supreme Court, 34 members of Congress and members of the Assembly. The interest centers in the vote for Congressmen and members of the Assembly, as the next Legislature will select a successor to Senator Evarts. The New York delegation in the Fifty-first

Congress consists of 19 Republicans and 13 Democrats. The Democrats are hopeful of making some gains, but the Republicans are equally confident that they will hold their own, if not increase their number. The State Senate holds over. In this the Republicans have 19, and the Democrats To secure a majority on joint ballot the Democrats must elect 68 Assemblymen, while the Republicans require only 62. In the last Assembly the Republicans had 71 and the Democrats 57. While the Democrats have been making strenuous efforts to secure votes enough to elect a Senator, there is little probability that they will succeed.

Much more popular interest attaches to the vote for municipal officers in New York City than to the State election. The con-test is between the Tammany ticket, headed by Mayor Grant, and the People's Muni-cipal League ticket, headed by Francis M. Scott, a county Democrat, and containing both Republican and Democratic names The latter ticket has been indorsed by the County Democracy, and has had the active support of all the Republican and Mag-

SOUTHERN DEMOCRATIC REVOLTS. Possibility That the Regular Nominee May

be Defeated. COLUMBIA, S. C., November 2 .- The election in South Carolina is to be for a full State ticket and Congressmen, and the interest arises from the split in the Democratic ranks caused by Tillman's nomination. Neither labor nor liquor questions enter into the present contest.

The State election hinges mainly on the opposition by the small faction of the Democratic party calling themselves "straight-outs." to what they term the disreputable character of Tillman, the regular Democratic nominee for Governor, based on his charges of corruption and fraud in the administration of af-fairs since 1876, and from the fact that the Alliance was largely instrumental in secur-ing Tillman's nomination. The great body of the white people will vote for Tillman. It is possible, however, that with the undivided support of the Republicans, the Haskell

Probable Republican Gains. INDIANAPOLIS, November 3 .- In Indiana the Farmers' Mutual Benefit Association is a factor new to the politics of that State, and its uncertain strength makes it impossible to predict with any degree of certainty the result of Tuesday's election. It is generally conceded, however, that the coming Legislature will be Democratic by a small majority, and this will insure the re-election of Senator Voorhees as his own successor in the United States Senate, Both parties claim the State ticket.

In the Congressional fight the Republi-cans have derived decided advantage in several districts by fortunate combinations with the Farmers' Alliance and they will prob-A vigorous fight is being made by the Republicans against Congressman Cooper, of the Fifth district, on account of his charges

Will be Reduced. DETROIT, November 3.-In Michigan full State ticket, 11 Congressmen and a Legislature are to be chosen to-morrow. Michigan is a State of fusion tickets, but this year there has been a departure from the usual tactics, and no less than full State tickets are in four the field-the Republican, the Democratic, the Industrial and Pohibition. The Democrats here made an aggressive fight against Turner, and will probably reduce considerably the usual Republican plurality on the

head of the ticket. The Industrial party is a combination of what would be in other States the Union Labor and Farmers' Alliance; but its independent course in nominating a full State ticket prevents it from doing other than reducing the votes of the two predominant

parties.

CLOSE IN CALIFORNIA. Both Parties Are Claiming the Golden State

With Seeming Confidence. SAN FRANCISCO, November 3. - The election to be held in California to-morrow will be for Governor, Lieutenant Governor, Chief Justice and three Associate Justices of the Supreme Court, Controller, Treasurer, and a number of other State officers, as well as six members of Congress. Members of Legislature are also to be elected and more than the ordinary degree of interest is taken in this latter con test as a United States Senator is to be elected at the next session of the Legislature succeed Leland Stanford, Republican, IN TEMPERATURE, SOUTH- besides the regular Republican and Deme eratic tickets. Both parties express great confidence in

victory to-morrow, but not many definite estimates as to majorities are indulged in by either side, and it is generally believed the election will be a close one.

MUCH INTEREST IN IOWA. The Principal Features of To-Day's Contes

in the Hawkeye State.

DES MOINES, November, 3 .- The peculiar political complications which enabled the Democrats to elect a Governor in Iowa last fall makes this State the object of particular interest. The State officers to be elected are Secretary of State, Treasurer, Auditor, Judge of the Supreme Court and Railroad Commissioner. The Republicans have the greatest confidence in their ability to elect their State ticket, when there are so many candidates, State and Congressional, in the field that a full vote may be expected. The Democrats, however appear by no means without hope of repeat ing the victory of last fall. The Farmers' Alliance is not particularly strong in Iowa.

"If the Allegheny Athletics were better in field work they would rank very high as players. There are some really good men smong them and all that is needed is tor them to get a knowledge of the new method of team work and to out that knowledge into operation. I confess that I did not expect ton. When we received the first letter from the Athletics asking us to play here, everybody

about 15 players will contest against the regular eleven. Mr. O. D. Thompson will in
future play on the rush line, and H.
Guver will likely be full back.
Mr. Thompson's strength and experience, it is thought, will make han a very useful man as a rusher. During a conversation
yesterday afternoon Mr. Thompson said:

Derivat count. The latter, like ourselves, are
out playing modelail regularly, and I anticipate
that we will muse a very close and stubborn
light. Our great object this season is to get
the man thoroughly established here, and I
think we are succeeding in that wonderfully.

FIGURES ON CONGRESS

A Net Gain of 34 Members Expected From Twenty-Two Different States.

latest information from the Congressional districts of the country leave room for very little, if any, doubt that the Fifty-second Congress will have a decisive Democratic majority in the House of Representatives. The men at the headquarters of the Republican Congressional committee do not concede this, but they have no figures that are reliable to show otherwise, while the Demoerats have a very convincing arithmetical exhibit as a ground work for the faith that is in them. The fact is, that while the campaign management on the part of the Republican Congressional Committee has been admirable and enthusiastic, it has not been met with corresponding enthusiasm in the Congressional districts by members of the party. A very general conviction has been evident that it would be pretty good politics to let the Democrats have a majority in the next House as, to quote an old saw, "The

Sunday passed rapidly to the banks of Newfoundland, where it was central yesterday, high winds prevailing in the Lake Regions and the North Atlantic Coast. The storm was some distance north of the steamship path. Snow fell in Northern New York and around the border of Lakes Ontario and Erie. Elsewhere the weather was fair. A general bigh pressure, with colder weather, covered all the Central and Southwest States. The coldest weather of the season was reported from Kansas. At Dodge City the temperature dropped to 18°. There was a "norther" in Texas. The temperature was down to freezing over the northern half of the State. Owing to slight barometric depression in the Northwest, it was from 100 to 15° warmer there. There is no storm in sight, and to-day promises to be fair in all the States,
