Wheat Takes a Downward Course, Due to Heavy Selling and Large Visible Supply--Corn and Oats Let Go

in Sympathy. CHICAGO-Wheat-There was moderate tradng to-day and the feeling was weaker. Prices averaged considerably lower. Selling orders predominated, and some of the prominent local traders were also on the selling side. New York reported a better demand there for December wheat. The market opened at about 3/c decline, further declined 3/c and recovered some, prices advancing 3/c, fluctuated some and closed about 3/2 3/c lower than Saturday.

and closed about \$26% clower than Saturday. The decline was influenced by a desire on the part of longs to realize. Cables were not any too firm, though not particularly lower. This, together with big receipts and large increase in the visible, helped to turn the market on its downward course.

Corn—There was a fair amount of business transacted, most of which was local, as also the influences on the market. The principal feature was the selling early by a prominent operator which depressed the market, but later turned buyer and prices reacted some. First trades were at a slight decline, which, after selling off \$26, rallied some, ruled steady and closed with \$260 closs. Cash corn was in fair request. The inquiry was not urgent and prices ruled \$260 close with only moderate offerings.

Onto were traded in fairly and a wasker feel-

offerings.
Oats were traded in fairly and a weaker feel-

the reduction. Short Rib Sides-There was a fair trade and Short rive Sides—There was a fair trade and the feeling was very steady. Prices ruled 23/36 5c lower on the whole rauge, and the market closed steady at outside figures. The leading futures ranged as follows, as corrected by John M. THE NEWS AND GOSSIP OF THE CITY

In regard to the urgent demand for houses a member of the firm of W. A. Herhouse from Boston, two large shoe dealers, one from Boston and one from New York, and a hardware firm from Rochester, N. Y., would locate here if we could get suitable quarters for them,

"We are doing our best, but have noth-Oats were traded in fairly and a weaker feeling prevailed and prices ranged lower, railed fairly, but closed at a net decline of \(\frac{1}{2} \frac{1}{2} \).

The depression was due to receipts exceeding the estimates owing to Sunday's inspection on the Galena and St. Paul roads.

Pork—A fairly active trade was reported, but the feeling was somewhat unsettled and prices irregular within a small range. At the opening the feeling was somewhat unsettled and prices irregular within a small range. At the opening the feeling was rather easy with sales at 12\(\frac{1}{2} \) covered decline. Later, however, the market ruled stronger and prices rallied 10\(\frac{1}{2} \) 2\(\frac{1}{2} \) cand closed quiet.

Lard—Only a moderate trade was reported and the feeling was caster in a general way. Prices on the whole range ruled easy and declined 2\(\frac{1}{2} \) \(\frac{1}{2} \) and the market closed quiet at the reduction.

Sugar Refineries and Illinois Central the Only Losing Shares—Decline of South American Credit the Cause of Late Drops in Stocks.

NEW YORK, November 3.-The stock market to-day was divided into two parts, Sugar Refiner ies and the rest of the listed and unlisted stocks. In the first division there was decided weakness, but the other showed a most gratifying strength on a dull business, and at the close the losses are few in number, while the great higher, with one or two material advances as

the result of the day's operations. The buying of securities still comes principally from parties who are paying for their stocks, and in this manner the floating supply of securities is diminishing, as indicated by the last; two bank statements. There was some weakness still in Illinois Central, but out tate to Samuel Zalkin the three-story brick side of that stock and Sugar Refineries the market showed a strong undertone, and more resistance to the bearish attacks is developed from day to day. Mr. Gould's bullish utter-

ances were instrumental in imparting considerable strength to Union Pacific. The market to-day was almost all Sugar, at any rate, and the feeling this morning was that

The market to-day was almost all Sugar, at any rate, and the feeling this morning was that a receiver was probable, and weakness appeared with the first sales, the stock dropping from 65½ Saturday, to 62 in the first half hour. Great feverishness was shown, however, and nearly a full recovery occurred when the news that the decision had been handed down, and that the appointment of at least two receivers was deemed necessary, sent the stock off in the early portion of the afternoon to 55½. Its recuperative power was less after that time, and while it reached 62 during the atternoon, it gradually settled back to 60, and finally closed at 60½—a net loss of 6½ per cent for the day.

The general market refused to sympathize with this heavy drop in Sugar, and notwithstanding some selling in London by the early trading, steady advanced from opening to close, although the progress made was extremely slow and the final gains small. Louisville and Nashville, St. Paul and Reading were most active, but neither showed any feature of interest, and the only stocks in which there were marked gains were Southern Pacific, which is up 1 per cent, and Jersey Central, which rose 2% on light transactions toward the close. The market closed fairly active and firm at about the best figures.

Railroad bonds were very dull, although the sales were distributed among an unusually large number of issues. The marked movements were very scarce, and with sales of \$781,000 no special feature was shown. Government bonds have been dull and steady. State bonds have been dull and steady state bonds have been dull and steady be accomplicated the refrom the collapse of credit in South America and the decline in all the South America and the decline in all the South America fovernm and on this point the bank statement of Saturday indicated that money has really begun to concentrate in New York from the interior, and that consequently a reasonably easy money market may be looked for during the remainder of this year.
