### 6, 1890. THE PITTSBURG DISPATCH. THURSDAY, NOVEMBER with some unusual selling of New York Central and Lake Shore. This was undoubledly the selling of long stock, which was due to the understanding that the dividends on New York Central will be reduced in consequence of the cost of the recent strikes. There was, however, reason for believing that there will be no reduc-tion of the regular 1 per cent quarterly dividend, though it is altogether probable that the extra dividend of $\lambda_0$ of 1 per cent will be omitted this January. But there is no reason for a decline in Lake Shore so far as the prospect of dividends is concerned. We have trustworthy informa-tion that the surplus earnings of Lake Shore for 1860 will be at the rate of at least 9 per cent on stock above all charges. BRITISHERS DID IT.

Their Dissatisfaction Causes Pennsylvania Stock to Drop. PHILADELPHIA, November 5 .- There

Increased Transactions All Along the Line-NEW YORK, November 5.-The stock market

o-day was reactionary in its nature, and with

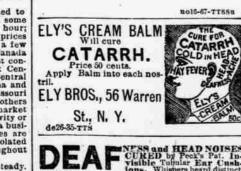

thing traded in, notwithstanding the fact that many stocks in the early dealings reached the highest prices for the past week. London figures were materially higher this morning as mnared with our final prices of Monday, and this market opened with a boom, everything being from 1/61% per cent higher. The bear

being from 1/40% per cent higher. The bears soon got to work in Sugar Refineries and the selling was very heavy and attended by con-siderable excitement, the stock dropping 4 per cent to 57 in the first half hour, great feverish-ness attending the dealings. Feeble rallies took place in the stock from time to time during the day, but late in the day its price touched 64%, a loss of 6% per cent, while at the close it had reached only 5% a net less for the day of 5% per cent. The selling was eager and heavy, stop orders being uncovered at every ½ down. heavy, stop orders being uncovered at every by down. The general list was favored by the strength of the Londou market and the buying for Lon-don account in the early trading, but while the news of the day, especially that which had a bearing upon the Western railroad situation, had a material influence in creating an im-proved feeling on the other side of the ocean, a sudden and pronounced weakness was devel-oped in the Vanderbilts, and the list could not withstand such an influence. The selling was well guarded, and opinions differ to-night as to whether it was long or short stock which was the same in either case, and a decline of 3 per cept in New York Central had the effect of de-moralizing to a certain extent the whole list.
