PHILADELPHIA, November 6,-Mrs. isarbara Lamprect, the mother of seven children, bus become insane on the subject of religion. After her husband had gone to work this morning, she seized a large butcher knife and ran from one room to another, declaring that she wanted to go to heaven. Catching her 6-year-old daughter Mary up in her arms, she forced the child's head back, and then deliberately drew the knife across her throat.

Then she dropped the little one to the floor and made her way to the room occupied by herself and bushand, and in which her 6-months-old babe was lying asleep in the hed. She drew the knife across the infant's throat, and then called to the neighbors for assistance. When it arrived the babe was dead and the mother lay beside it with a gaping wound in her throat. Schofield Says the Regular Army Should be Prepared for Any Call. Washington, November 6.—Major General Schofield, commanding the United States Army, submitted to the Secretary of War his annual report of the work done by the line of

condition. After paying a tribute to the memory	4
of the late General Crook, General Schoffeld	1
speaks of the services rendered by the army in	4
past years in subduing hostile Indians and pro-	ł
trast years in subduing notifie Indians and pro-	1
tecting emigration. He says that work appears	1
now to have been nearly accomplished, and it	ł
remains only to adequately guard the adjacent	ı
settlements from possible injury by the Indian	ł
tribes, heretofore hostile and now but partially	1
civilized. He says the time has now come when	ł
the small regular army should be so stationed	4
that it may be prepared at the shortest notice	ł
to respond to any call which may be made on	ł
the service, and at the same time to assist	1
in all practicable ways in preparing the	ł
much larger body of the militia of the several	ı
States, or national guards, for active service	ı
to time of need. It is believed to be so mani-	ı
fest to all who will consider the subject, that	ł
demonstration is unnecessary, that the im-	ł
portant seaboard cities of the United States	ı
should be so fortified as to be capable of self-	ı
defense against the attack of any foreign fleet.	1
In conclusion General Schofield says that the	ı
several measures enacted by the present Con-	Į
gress will prove of great and lasting benefit to	ł
the military service and the zeal and fidelity	ı
with which the duties of the army have been	ı
performed merit his commendation.	ı

MANY IMPROVEMENTS ON THE RAIL.

Bonded Roads Favored, According to the Commissioner's Report.

WASHINGTON, November 6.-The report of the Commissioner of Railroads in regard to the ondition of the several railroad compancoming under the jurisdiction of his office. for the fiscal year ended June 30, 1890, says: am able to report that many improvements have recently been and are continually being made. These improvements where they are on the bonded roads are of special value to the Gov-ernment, as they not only increase the earning

capacity of the roads and thereby the amount of net earnings to be paid in liquidation of the Government debt, but they add largely to the value of the property and so increase the Government's security."

The Commissioner discusses at considerable length the causes which have operated to so largely reduce the net earnings of the bonded roads, the most conspicuous one being the building of numerous competing lines, and the consequent reduction in both the volume and rates of traffic. In the last few years there has been a craze for railroad building in the West, and many investments in railroad properties have falled to yield even the smallest dividends. He predicts, however, that this condition of things, owing to the rapid development of the West, will not long exist. The Commissioner reiterates his opinion that it will be necessary to extend the time in which the railroads may meet their obligations to the Government.

ACCUSED OF ACTING FALSELY.

Serious Charges Preferred Against Leopold

Brothers, of Chicago. CHICAGO, November 6.-Serious charges were preferred in court to-day against Leopold Brothers & Co., of Chicago, by Herman Bernheimer, of New York. The Leopolds recently failed for a large amount and are now accused by the New York people with having falsely stated to a commercial agency in January and February that they had a surplus of about \$290,000. It is alleged that the Leopolds were at the time hopelessly insolvent and the statement was made with the intention to defraud by ob-

taining heavy eredit.
Other allegations are that some of the judgments entered at the time of the failure were without consideration, and that a number of book accounts have been assigned to relatives who are not bona fide creditors.

Persons one meets have catarrh in a mild or aggravated form, and yet comparatively few pay any attention to it, not seeming to realize til too late that other dangerous diseases, such as bronchitis and consumption, are very sure to follow if the trouble is not arrested. Catarrh originates in impurities in the blood, and requires a constitutional remedy like Hood's Sarsaparilla, to effect a thorough cure.

Good Results.

"I have been a sufferer from catarrh for a good many years. I tried nearly everything I heard of, and also many different physicians, with little or no benefit, until I began taking Hood's Sarsaparilla, which I am now using with good results. I can recommend it heartily to all, being confident that it is a good medicine.

A TRUE STORY.

A LITTLE boy, seven or eight years old, was crying at his brother's wedding as if his heart would break. The minister tried to console him with the thought that it would be but a few years when he would be able to follow his brother's example and get married also. "Yes, but I can't wait-(boo-hoo) -I want to (boo-hoo) get married now." It's the same way about the new suit or overcoat; the little fellows want them now; they don't want to wait. And if the people are taking their children to the other stores in anything like the numbers they are bringing them here, there are not many waiting children; and really, at the present prices that we are selling children's clothing, there is no excuse for letting them wait; and the same holds good of our stock of Men's Clothing. It won't pay you to wait from any point of view; you are going to get that overcoat soon, we know. Get it now and have the comfort of it so much longer; you'll never buy it lower. We'll not try to scare you with any harrowing tale of speedily advancing prices, because we deal in truth and our prices will not advance this season. But what we mean is, that they will not be lower. You want clothing right now; we've got a splendid stock of it right now, and can serve you to very good advantage
