The Supreme Court Hears Attorneys' Arguments in Five Cases.

SURPRISE IN SHEEHAN AFFAIR.

William Wilkinson's Appeal Against the

OTHER COURT NEWS OF YESTERDAY

### Quail-Selling Law.

The celebrated Sheehan case occupied a portion of the Supreme Court's time yesterday. This case was argued Monday by Mr. Lazear, in behalf of Julia Mary Mitchell, the alleged lost daughter. When it came time for the defense the Court stated that no argument was necessary on their part. It was thought that the case was ended, but Chief Justice Paxson created a little surprise on Wednesday when he ordered that the defense in the case would be heard yes. | field. terday morning. The history of the case, together with the arguments, was published

in Tuesday's DISPATCH. The appeal of Thomas Wilkinson from Quarter Sessions was the next case argued. Mr. Wilkinson is a Diamond Market game dealer, and was tried and convicted of having quail in his possession out of season, that being

quail in his possession out of season, that being quail in his possession out of season, that being contrary to the laws of this Commonwealth The defense set up if that Mr. Wilkinson bought the quail from Judy & Co., of St. Louis, and that it was perfectly lawful to kill game in that State at that time, December, 1839. The verdict of the jury in finding Mr. Wilkinson guilty is the specification of error.

Ernest Church et all appeal, a certiforari to Orphans Court, was argued by W. B. Rodgers, Esq. This case springs from the will of William Morrison, who died in Allegheny some time ago, leaving \$506,743-33. In the will was a clause that the deceased had a number of nephews and nieces living in different parts of the country whose names he did not know, but to whom or their children he bequeathed \$10,009 each. The appellants, who live in the interior of Minnesota, are the children of a niece of the deceased, and claimed their share in the will. This claim was not allowed by the Orphans' Court, hence the appeal.

The appeal of Hill Burgwin and John S. Phillips, trustees, from Common Pleas No. 2, was next taken up. This case grows out of the attempt of the heirs of Oliver Ormsby to build a branch railroad from the coal road now; extended along South Twenty-first street. The Pittsburg and Lake Erie road has placed certain obstructions in the way, because of the alleged interference with its road. A suit was brought and a Master appointed. The appeala.

the appeal.

The appeal of William E. Stewart and Catherine Watson Stewart from Common Pleas No. 2 was the last argument of the day. This case grows out of a dispute over the title of a piece of land, the value of which is about \$200. The appellants became heirs to the land through the death of Samuel Watson.

A bili in equity was filed yesterday by the Brandock and Turde Creek Street Railway Company against the borough of Braddock, and L. T. Holtzman, W. J. Dible and Joseph Borough Engineer, and Hen Spangier, Chief of Police. It is stated that the railway company obtained a right of way for its line over Main street in the borough. They commenced work according to the terms of the ordinance, and among other things erected poles along the great. No objection was made to the putting up of the poles, except three, which they were prevented from creeting. The objection to these, it is alloged, is only because of the committee of the owners of the abutting property. plaint of the owners of the abutting property.

### SEVERAL NEW WELLS. A BIG ONE AT WILDWOOD VIELDS 100 BARRELS AN HOUR.

The Total Yield in That Field Now 5,500 Barrels Daily-A Wildcat at Belmont Excites Interest as a Mystery-Other Petroleum News.

SPECIAL TELEGRAM TO THE DISPATOR ! WILDWOOD, November 6.-The monotonv at Wildwood was relieved to-day by the bringing in of Guffy & Queene's 30acre Rolshouse well. Drilling was resumed about 12:30 o'clock, which was continued only 15 or 20 minutes when they shut down for dinner, after which the drill was kept bobbing for an hour and a half. When at six feet in the sand the well responded to the tune of 100 barrels an hour, which rate was maintained last night when THE DIS-PATCH scout left the well. There is no particular significance attached to the new strike as it is an inside well and was looked upon as a gilt-edged location, and had it not been a good well all theories and signs would have been reversed on this line of the

Herr No. 2, owned by W. E. Griffith and the Forest Oil Company, is making six inches an hour to-night in a 250 tank, or about 15 barrels an hour. The Ringheisen is holding up good and showing remarkable staying qualities. The Hunter well, located one-third of a mile north from the Whitesell well, at the creek, is 25 feet in the sand, with no indications of oil, while the Fogel farm well is 40 feet in with the same result,

and a fishing job on hand.
Guffy & Queene are drilling an important experimental two and a half miles north-east from Sharpsburg on Little Pine creek, located on the Olendorf farm. The venture is nearing the sand, and is being closely watched by different parties, About two years ago two wells were drilled in the immediate locality, one of which had 50 feet of good white sand and a showing of oil. The Guffy & Queene well is located 1,000 feet east from this old well where they are hunting for another Wildwood field, and it is just possible they may succeed. Unknown parties are also drilling another important well northwest from Sharpsburg, which will be due in the neighborhood of two weeks; these wells will bear watching. The pro-duction of the Wildwood field is estimated at 5,500 barrels a day, which does not include the Guffy & Quenne well struck to-

BELMONT-Ackerley & Sammell are again in luck at Belmont. Yesterday they brought in their No. 2, Rufus Green, locat-ed 300 feet southwest from the old Brown well. The venture in its present stage is making 150 barrels a day, but the owners expect this figure will be increased with deeper drilling. This firm will have another well due this week, located on the J. B. Green farm, and have a fishing job at

1,500 feet on the R. Green farm. SAXONBURG-Two wells are nearing the sand at Saxonburg, one on the Welsh farm owned by Shfleir, and the other belonging to Iman & Co., on the Weber farm. BUILER—Some interest is manifested in a wild-cat well on the Cypher farm, in the

Rough Run district, east of Dike's station, on the West Penn Railroad. The venture is located in the locality of the old Leidecker midnight mystery, drilled some five years ago. It is claimed that the well has made one 50-barrel flow, and is now being closely guarded and worked for a mystery. The chances are that the reports are exaggerated for the purpose of disposing of territory at handsome prices.

many years—not finding any relief from the 20 doctors he had employed. He suffered from belching of gas from his stomach after eating, sour taste and often felt like vomiting his food. His appetite was poor, and as his liver was much enlarged it gave him great pain. In fact, he would often be taken with such sharp cramps and pain across his stomach and bowels it seemed as if he could not live. He had palpitation of the heart, dizzness, weakness and pain across the small of his back, and a numb, lifeless feeling in his limbs. He could get but little sleep, and as every change of weather gave him a cold, he took on a lingering cough. His breath became short and he felt pain and soreness in his lungs and under his shoulder blades. Night sweats weaknend him very fast, and he gradually grew worse until he lost 30 pounds of flesh. Many of his friends thought he had consumption, and that he must die from that terrible disease. On calling on the catarrh specialists he was told he could yet be cured. A'though he had but little faith, he resolved to try once more, and after taking a course of treatment, he says: "The above history of my disease and cure is true in every respect. I had received treatment from 20 physicians, yet gradually grew worse, and for one year before beginning treatment with these physicians I was scarcely able to do any work.
