PROSPEROUS IN CEARACTER. Elections Had no Perciptible Effect on the Country's Trade.

GOOD FEELING IN PITISBURG GLASS

PEPECIAL TELEGRAM TO THE DISPATCH. NEW YORK, November 7 .- Special telegrams to Bradstreet's show about the customary check to the jobbing trade throughout the country owing to the election and attendant excitement, though a number of trade centers report no appreciable inter-

ierecce with an active trade provement. The weather has preven generally favorable for farm and plantation work, and the movement of staple crops has been increasing and free. This is noticeable in wheat, sugar, cotton, and rice shipments to primary markets.

Indian corn and oats are, on the contrary, to decreased movement. Cetton has continued to decline on liberal receipts, weaker cables, and short selling at all points. New York prices are 5-16c lower, Liverpool 3-16c off, and Southern markets are 3-16@5-16e

CROPS DROP IN QUALITY. Crop estimates tend toward the maximum, quality of the new crop is poorer than last

Prices for granger, trunk line and other shares on Friday were the lowest for the year, and stock speculation at New York is hadly demoralized. The Sugar Trust receivership, unfavorable rumors about railroad properties and heavy bear manipulation share in producing the result with appreleusions regarding the financial and specuarre situation at London. Our money market is close, with call loans at between 6 ad 35 per cent, the condition being aggravated by a sudden advance of the Bank of igland rate to 6 per cent. At the interio e situation apparently begins to favor a turn of funds to New York. Foreign exhange was quite weak, but is stronger on be advance in money in London.

COAL DEMAND FALLING. Hones are somewhat depressed and even advance prices for anthracite coal at billadelphia last week did not succeed, and the demand has fallen off. There have been sales of steel rails reported at less than \$29 per ton at Eastern wills, which marks a de-cline. The customary influx of orders for ralls for next season's delivery has not been a feature of the past two months and makers

are nuscttled as to the outlook.

Fig from is barely firm for best grades, makers continue to report that no incturer are actively employed and their outlook is favorable. San Francisco ship-ped 275,000 gallons of wine to New York via Panama and the Horn.

October bank clearings at 37 cities ex-The October gain over last year for locountry is only 3.9 per cent, owing to lectrease at New York of 1.4 per cent, assed by reduced stock exchange specu-

ACTIVITY THROUGH THE COUNTRY. Elsewhere than at New York the activity

14.2 per cent over October, 1889. 3.2 per cent over October, 1889.

3.be total clearings for October were \$5,15.081,919, New York City's clearings were

4.580,583,454, and at 56 other cities the
field was the largest on record, \$2,138,558,485. For ten months the total clearings
aggregate \$49,561,748,408, a gain of 8.3 per
cent over last year. New York City's total
is 6.2 per cent larger, and at other cities the
gain is 13 per cent. Dry goods are less
netice East. Settled yold weather is deactive East, Settled, cold weather is desized as a stimulus to an expected supplementary demand from jobbers and agents. Business in spring cotton and wool dress goods shares the quieter tone of the general New business in men's wear modens is light and less is doing in foreign

RAW WOOL FIRM. Frint cloth quotations remain at 3 5-16c for November. Raw wool is in good, steady demand and prices are firm. The tone is cheerful, with the outlook favoring bolders. Provisions are firmer, and cattle and hogs are in good request at primary markets. Refined sugar is off life and raw sugar 1 loc per pound on slack demand. Whent has been lower in price on freer Cur own advices indicate that total domesa warmble stocks increased only 11,000,000 to Dember, against a gain of 20,-10,000 bushels in October, 1889. Stocks in United States (both coasts) affoat for crops and at principal points of accumuratherst on November 1 were 18,000,000 whels smaller than on November 1, 1889. One mounth ago like stocks were about and to accumulations on October 1, 1889. usts, aggregated 2,209,919 bushel, this seek aggregated 1,994,670 bushels last week od 2,151,334 bushels during the week one The total snipped July 1 to date 04,950,837 bushels. In a like share of

Furshess failures reported to Bradstreet's sold for \$245. Also a good upright plano with all the latest improvements in action, egainst 16) last week and 248 this week last year. Consola had 37 this week against 30 sold for \$190. Remember these are bona week. The total number of failures in United States January 1 to date, is 5,502 against 9,631 in a like portion of 1889.

GENERAL PROSPERITY. R. G. Dun & Co.'s weekly review of trade says; The volume of business, both domestic and foreign, continues large beyond precedeut, and in character prosperous. The elections interrupted business but little, and the result has no perceptible effect as yet upon trade, though some fear that the exconsion of manufactories may be checked by uncertainty. The monetary situation is

substantially unchanged.
The reports from all parts of the country how that business is large and healthy. ment of heavy weight goods expected at better prices. Philadelphia finds the wool trade less active, the demand being checked by what manufacturers consider extreme prices; the fron trade a shade weaker, but rolling mills full of orders, and the coal rade hardly up to expectations, with October primes actually ruling. At Chicago grain receipts equal last year's, cured meats ter and hides show decrease, but dressed . . land, cheese and especially wool inand in drygoods, clotning and shoes

GLASS FAIR AT PHTSBURG. at St. Louis trade is rallying again; at concinnati it is encouraging, the tobacco rade improving; at Pittsburg iron is rather descessed, but the glass trade fair; at leveland business is good, though in lathing dull; and at Detroit there is leading activity. No change is noted at Milwaukee, except that warm weather chooses the said of winter goods. At Omaha huminess is excellent and at St. Paul, and sairly active at Kansas City. New Orleans reports larger trade than a year ago; liberal receipts of cotton and sugar, and a good outmek. At Memphis and Savannah trade is

sound and prospects bright. Iron is weaker here for Southern, and Bessemer is weaker at Pittsburg; but at Philadelphia revised quotations are \$18 and upward for standard Pennsylvania, \$17 and upward for standard Southern, and \$15 inc neutral forge. More inquiry for rails is seen. Bar mills were not so full of orders go they were, but structural and plate works are busy. The textile manufacturers are all active and with improving prospects.

LIVELY SPIRITS. Tin is weaker at \$21 35 and lead at \$5 00@ 5 20, and copper is sold by outside parties

BIG FOREIGN TRADE. Foreign trade in October will surpass that of any other month in the history of the country, for exports from New York show a gain of \$9,000,000, indicating an aggregate of more than \$105,000,000 for the country; imports also show an increase of about \$9, 000,000, indicating an aggregate scarcely exceeded, if at all, in any month.

The money market here has been active at about 6 per cent, the treasury having added \$1,967,532 to the circulation of silver notes during the week, but otherwise having paid out only as much money as it has taken in. At Boston the market is strong, at Philadelphia firm at 6 to 7 per cent, with large demand for discounts; at Chicago, close with an advance in the rates of ex-change, the tightness being due to increase f business, and at St. Louis the market is trong at 7 to 8 per cent. New Orleans re-orts an easier market, but at most Western enters the demand is sharp, while outside of such centers the market is comparatively easy. Here it is noted that the demand for the rediscounts is unusually large.

FAVORABLE REPORTS AS TO COLLECTIONS But the reports as to collections are again much more favorable than usual, com-plaints of slowness being almost unknown. The speculative markets are lower. Wheat 21/c; cotton, 5-16c; coffee 13/c, and corn and lard a fraction. Silver has fallen to 1.02 per cent per oz., and sugar is also lower, refined having declined an eighth.

The business failures occurring throughout the country during the last seven days number 215, as compared with 218 last week. For the corresponding week of last year the figures were 267.

BEAUTY SLEEP is the subject of Shirley Dare's letter for THE DISPATCH to-mor fear of frost damage being removed. The row. She is always the ladies' favorite. A paber for all classes. Twenty-four pages.

Purchasing a Piano. In the purchase of a piano the best and most durable is the one wanted, but, do you always manage to get such a piano? the purchaser get misled into getting an inferior instrument where the case shows resplendant, but where the interior, the action, the most important part, is very imperfect, gets loose, cracked, and becomes absolutely worthless in a short time Such pianos are not found at the old and famous musical establishment of Mellor & Hoene, but only the best and most reliable instruments, such as have built up solid, imperishable reputations for their work and standard excellence, viz., the Hardman Krakauer and Vose pianos. These are ex-amples of absolute perfection and beauty.

A call at the warerooms of Messrs, Mellor & Hoene, 77 Fifth avenue, and an examinstion of their instruments will convince you of their superiority and excellence. D

### MYSTERIOUS ACCIDENT.

Unknown to His Fireman in the Cab, an En gineer Struck Uncons ALBANY, November 7 .- The ambulance met the 9:50 train from the South at the Union depot last night. Engineer William J. McMurray had been injured and was taken to the City Hospital. When examined by the physician there it was found that his head had been struck with some object, causing concussion of the brain. No-body seems to know how McMurray re-ceived his wound.

The fireman, who was in the cab with him, reports that he noticed some distance below Hudson that the whistle was not blown at he crossings, and, upon examination, found McMurray unconscious in the cab. McMurray is a new engineer on the road, this being only his second trip. The doctor jured man was doing well. There are hopes for his recovery.

and shall be able to wait on our trade promptly. There will doubtless be a jam in our Men's Suit and Overcoat Departments, but we've got the goods to suit you and the men to wait on you. Every broken line in Suits and Overcoats has been filled in, and, on account of the unprecedented demand for Overcoats this fall, we have ventured on a late purchase of several thousand additional garments. This puts within your reach the grandest and best assorted stock of Overcoats ever brought to Pittsburg, and the prices we are willing to let tell their own

THOUSANDS Of Suits and Overcoats for the little ones are here in our Boys' and Children's Department, and you never had such an opportunity to clothe your children in stylish garments at moderate cost as now. Don't fail to see our immense line of Overcoats for Boys and Children. Some very nobby Capes this season, and we start in in price

### IN FURNISHINGS

We beat the earth in assortment and prices. If you want a new Tie, you'll not desire to look further than our 49c line for something for business or even dress wear, while in the higher grades the prices are correspondingly low.

### the cheapest domestic, and our well-known prices regulate the values we offer for the money asked.
