To-Day's Contest Between Princeton's Team and the University of Pennsylvania.

BRETOINS AND THE ATHLETICS.

After Fighting Nineteen Rounds.

MORE ABOUT COMISKEY'S PLANS.

Firemaker Breaks the Jumping Record—General Sporting News of the Day.

Although the football game between the local team and the Princeton to-day will be of great interest there will be another that will be equally interesting to Pennsylvania patrons of the game.

Referring to the game a dispatch from Princeton last evening said: The Princeton eleven played their last practice game with the scrub this afternoon prior to meeting their strong antagonist, the University of Pennsylvania.

Princeton eleven played their last practice game with the scrub this afternoon prior to meeting their strong antagonist, the University of Pennsylvania.

FOOTBALL GOSSIP.

The Harvard Players Jubilant Over Their Defeat of the Westlysians.

CAMBRIDGE, November 7.—In the football world the past few days have been fraught with a great deal of interest.

There is one football man who has come rapidly forward in the past few days, and that is the name of the Harvard team.

He returned to the team yesterday, and he is expected to play in the game.

He returned to the team yesterday, and he is expected to play in the game.

He returned to the team yesterday, and he is expected to play in the game.

TRICKS IN POLITICS.

Thoughtful Schemers in McKinley's District Masquerade

Not a Trace of the Entombed Dunbar Miners Discover Yet.

RECORD OF EVENTS IN THREE STATES

SPECIAL TELEGRAM TO THE DISPATCH.

LIMA, November 7.—There is an interesting story told of the way the politicians worked the Amish settlement in Holmes county.

As is well known, these people are very classish. The Democratic managers engaged a number of men to rig up old wagons, stock them with tinware, then go through the settlement and try to sell tinware at fabulous prices.

They would shake the tin to the Amish farmer and offer to sell him a 5-cent tin cup for \$1, while an ordinary dishpan was out of the reach of even a millionaire.

When the paralyzed farmer would kick he was told that the best that could be done under the circumstances; that the McKinley bill had so increased the price of everything that he could not get it any lower.

Once the Amish got this idea in their heads the most eloquent of Democratic speakers could not convince them of the truth.

They would sullenly confer together and answer: "We saw the men ourselves; they had the tinware with them."

When the Republicans fought to the end, and there is little doubt the tin peddlers contributed to the defeat of the champion of protection.

THREE IN THE FIGHT.

A Trio of Applicants Working for the Bedford Postoffice.

SPECIAL TELEGRAM TO THE DISPATCH.

BEFORD, Pa., November 7.—Since Tuesday the fight for the Bedford postoffice has been waged with unusual vigor.

The latest applicant is Marion Cessna, a son of ex-Congressman John Cessna. The other applicants are B. F. Cessna and W. H. Cessna.

Both Cessnas are sons of the late John Cessna, who was a member of the Republican party.

The property was valued at \$10,000, and was partially insured.

Tri-State Brevelles.

Barb burners at Carlisle got in their work Thursday night by destroying Aaron Smith's brick buildings and contents.

Loss, \$5,000; insured.

RUDYARD KIPPLING'S great story, "The Day After Tomorrow," begins in THE DISPATCH to-morrow morning.

WILDWOOD'S WELL.

It Has Been Christened Governor Pattison by the Happy Owner,

BEING STRUCK ON ELECTION DAY.

Mysterious Nonsense Prevents Reliable News From St. Mary's.

THE WELL POSSIBLY TAPS A NEW VEIN

SPECIAL TELEGRAM TO THE DISPATCH.

WILDWOOD, November 7.—Wes Guffy has christened his phenomenal Holehouse gusher "Governor Pattison," as it was struck on the memorable day of Mr. Pattison's election.

Last night the well was flowing 100 barrels an hour, which rate was steadily maintained until to-day at 1 o'clock, when the drill was run for ten or fifteen minutes, which increased its production to 150 barrels an hour.

One or two practical operators who took a gauge of the well say it is doing fully 4,000 barrels a day, but the more conservative estimate of the pipe line places the output at 3,600 barrels in 24 hours.

Just how long this rate of production will be kept up remains to be seen, but one thing is certain, that they have tapped the jugular vein of the Wildwood field.

WILL INCREASE PRODUCTION.

The new strike has materially increased the aggregate production of the pool, which to-night is estimated between 8,000 and 9,000 barrels a day.

Burns & Steele tapped the sand last night on their Simpson No. 3, and at 39 feet got first pay, when the well responded at a 20-barrel an hour rate.

The venture is located about 250 feet south of the old pump No. 1, and as the formation is so far drilled, it is identical with the Young, it is but fair to presume they will find a second pay.

These gentlemen will bring in their 100, 4 Simpson next week, which will locate 150 feet northeast from the Young, and if there is anything in location it should be a good well.

They have also come to the conclusion that the well is not a regular one, but not drilled deep enough for the second pay, and in a few days the tools will be swung and the drill set to work.

The King-belt was reported as doing 30 barrels an hour to-day.

THE ST. MARY'S MYSTERY.

ST. MARY'S, St. Mary's well has created no little comment in oleaginous circles, and but little knowledge has been gained bearing upon its true status.

The well is located upon a wildcat section, and is located one-quarter of a mile southwest, and a half mile east from the Stewart well, which is the most advanced venture in the Belmont field.

It is owned by Duncan & Co., and is being worked for a mystery. The sand was tapped on a wildcat morning at daylight, when the well was struck, and it was reported on the same day it made one flow over the top of the derrick, and the same evening made two more flows.

As there are no tanks in the field, the well was made of the well, and just what the well will amount to when drilled in can only be determined by time.

It is expected that the well will be drilled in the next few days, and it is expected that the well will be drilled in the next few days.

It is expected that the well will be drilled in the next few days, and it is expected that the well will be drilled in the next few days.
