The shrewd politicians who discuss the subject fiel that it will be Mr. Stenger who will be appointed as a member of the Cabinet and that he will be given his old place as Secretary of State. The people in this country are in such a state that not even the most prosperous class will stand the weight of a feather of tax. The worst policy any party could pursuo is to take the stand of favoring an increase in the taviff when it is and has been

I think I saw what was coming; at least my ac-tions show that I pursued a wise course, and other Republicans knew only too well the in-evitable consequence of the McKinley bill's adoption. I received a leither from a Minnesota Concressman this morning which read: "How terrible was the slaughter. You saw the trouble and slid out, but I staid like a lamb and was butchered beautifully. The McKinley bill and the Farmers' Alliance were too much for me."

If and the Farmers Alliance were too much or me." I do not think that the actions of Speaker Reci antagonized public feeling to the extent the newspapers make out, and nearly everyone knows that the Democratic gains were made because the mass of Republicans are be nore and more disgusted with high tarill teachings. Now that the propiet has spoken and a lesson been taught, have no doubt that proper adjustments will immediately follow.
