2

paratus wouldn't be needed, but it is still WON'TOWEADOLLAR, "Did you ever look into one of these fur-

naces and see the gas rushing out from the tube? You could get some idea, if you did, as to what becomes of much of the gas, and on cold days, when there is an unusual demand, a scarcity follows. I have often tried to get the Amaigamated Association to change its plan of work. According to its scale, it will only permit two heats, o six hours or so in length, in the 24. The balance of the time the furnace is idle, but the gas is kept on to maintain a roasting heat. Neither the gas company nor the manufacturer receives any benefit.

ALWAYS CAUSED A SHORTAGE. "It occurs, too, at night, when the general usumption of gas is low, and in the morn ing these buddling furnaces resume opera tion when the gas is needed to supply other people. I have known mills to begin at 6 o'clock, when, according to contract, they were not to start before 9, to give us a chance. You have heard of the gas being turned off with heats in the fire. Well, this is the reason why it was done. The work-men found the gas there at that time and men found the gas there at that time, and they thought they would begin work. This used to be the usual explanation, while the balance of the consumers were complaining of a shortage."

CHANGE IN THE MILLS

CAUSED BY THE RECENT SHUT-OFF OF NATURAL GAS.

The Return to Coal Being Felt Everywhere -Horses, Mules, Carts and Extra Labor Necessary-The Gas Companies Greatly Interested in the Matter.

There is already a remarkable change noticeable in the iron mills in the short time since coal has taken the place of gas. There are now five mills in which 156 puddling furnaces are back to coal, and in the three mills of the National Tube Company at McKeesport are 111 furnaces, which is already one-fourth of the whole lot in this district. The difference in the change will amount to nearly 100,000 bushels of coal a day. In less than another month there will be about

20 mills changed from gas. The change is commencing to be felt every-where. Horses, mules, carts and extra labor is no way of shortening the life of a bond, not even when the issuer buys it back again. are necessary for the supply of coal to all the mills. It will take at least 5,000 more men, in-It must run its full term and be charged against the issuer, no matter who owns it. cluding the coal miners, and at least 500 more mules and horses, beside the carts and wagons, This will leave those animals that have been dispensed with by the cable cars to be used in at a measure, introduced in behalf of Pitts-The main obstacle now, and that is already

burg, making it legal for a municipality, The main obstacle now, and that is already being felt, is a lack of room. On all railways centering in Pittsburg there is now nearly a blockade. The Allegheny Valley Railroad Company has leased every foot of sidings of the Standard Oil Company, where it extends into the yards of their refineries all along the Allegheny tixer. when it bought back the securities it had previously issued, to cancel the bonds. The Governor decided that such an act would conflict with the Constitution, and for that reason knocked it out with his little but forcible veto.

BAILROADS CROWDED FOR ROOM.

The Pittsburg and Western is so crowded for troller's last annual report. In it the room that it is almost impossible to move its freight in the yards on the Northside all the honded debt is placed at \$13,203,401 87. way from Bennett Station to a point below Nevertheless \$1,876,583 68 of bonds have Herr's Island, where it is a solid block of loaded cars, requiring the use of 20 engines, day been bought back by the city, and had it not been for Governor Pattison's veto would and night, to keep them moving. And all along the main line, for a distance of 100 miles, have been canceled, and could no longer have been charged-on paper-against the loaded freight trains are waiting on every side track, and impeding the passenger traffic so much that people out as far as ten miles along city. In addition, the sinking funds held at that time \$1,300,013 31 in securities and cash,

the road are greatly inconvenienced. The loss to the gas companies by having to cut off their heaviest consumers, or rather the to be applied to the extinguishment of the city's debt. This left an actual indebtedmount paid by the manufacturers, was quite a sum. According to the rates charged on the sumount of iron and steel in Allegheny county, every day, it ran about in this way: 2,400 tons of muck iron (about what is pro-duced) at 51.50 a ton, \$3,600; 5,000 tons of iron and steel, finished, at \$1.25 a ton, ness of \$10,026,804 88. Since January 31, the end of the fiscal year of 1889, the debt has been further reduced by the purchase of bonds and the accumulation of interest, nutil now the sctual debt of the city is, in of from and steel, thisseed, at 31 25 a ton, 85,249, and 1,450 tons of wronght from pipes at 92 a ton, would be 52,830, a total of \$12,640, not including Carnegie Brothers & Co. It will re-quire some time, however, until the gas compa-nies will get enough private consumers to make up this great loss. round numbers, but \$9,652,000, which sounds very different from \$14,000,000. Under the present arrangement the city

LOWER PRICES EXPECTED.

Just at present it is rather too soon to predict the effect that the return to coal will have on the trade in the future, but there is some talk that there will be a falling off, which will nate-rally follow with a decline in prices, and as usual the manufacturers will ask the workmen to suffer the consequences, in the work men-to suffer the consequences, in the way of ask-ing the Analgamared Association for a reduc-tion of 10 per cent on next year's scale. The first to complain are the pipe manufac-turers, who are to have a meeting before long, and it is runnored that for the first time in two parts who are to march the list time in two

cars the price on nearly all sizes of p 15 15 LO

sounds peculiar to say that the city is forced to pay interest on its money, but it is just as broad as it is long. Pittsburg merely transfers the money from one pocket to another, and the only injury to the taxpayer is that the system of bookkeeping forced upon the city by the Legislature has a tendency to depreciate the value of property in the municipality by con-veying the impression abroad that Pittsburg is hopelessly in debt. Preparing for Last Rites Over Chancellor Controller Morrow is purchasing bonds right Controller address is pitchasing boads right along—at his price, which means that he ex-percent per annum upon the investments. It is a peculiar fact that the Controller's willingness to purchase at a reasonable figure is not gen-erally known, not even by financial institutions. E. Church, when it is expected the body will to purchase at a reasonable figure is not gen-erally known, not even by financial institutions. A few days ago a Pittsburg bank desired to dispose of some city bonds, but instead of going to the City Controller direct placed the securi-ties in the hands of a broker for disposal. It did not take the latter long to get rid of them. The outstanding city bonds, at the time of the Controller's last report, together with the date of maturity and the amount outstanding, which includes those held by the sinking fund, are as follows: be viewed by thousands. The services will be in charge of the Rev. T. J. Leak, assisted by the Rev. Dr. Petty, the Rev. Dr. C. Holmes and the Rev. J. Petty, the Son. Address will be delivered on the various phases of the late Chancellor's life. TO CONVERT THE HEATHEN. The Methodist Mission Committee Will are as follows: HELD BY LUCKY INVESTORS. Dr. C. W. Smith, editor of the Christian

PITTSBURG DISPATCH, TUESDAY, NOVEMBER 11, 1890. THE

HE IS ABSOLUTELY ASTONISHED

At the Production of Steel Ingots Cheaper

Than Bessemer Pig.

DOINGS OF THE DAY IN LABOR CIRCLES

The Adams process for making open

hearth steel direct from the ore has been

pronounced an unqualified success by the

George J. Snelus, Vice President of the

British Iron and Steel Institute, which met

in this city a few weeks ago, left the re-

mainder of the delegates after the tour of

the country had been completed, and came

here a second time for the express purpose

of making a more thorough examination of

the Adams process than he had been per-

mitted to make while here the first time.

He has been here for two or three

days and has witnessed several heats

at the works of Meysrs. Park Brothers &

Co., where the process is in operation. Mr.

Snelus is at the head of several of the most

important steel works in Europe, and is

consequently interested in every new devel-

opment in the industry. He is interested

in the Dowlais works, in Wales, and the West Cumberland Steel Works, on the west

He is particularly interested in direct

processes, as the first patent he ever took

out was for such a process. Mr. Snelus and

Sir Lowthian Bell ars the recognized au-

thorities of the world on such matters, and

although the latter read a paper at the re-

cent institute in this city, in which he pro-

nonneed the direct process a failure, he

afterward admitted it was a success. While

standing in the Black Diamond Steel

Works, with a number of other delegates,

watching a heat, he said: "Had I seen that

CONVINCED A SKEPTIC.

Mr. Snelus has spent the last two or three

days with Messrs. Blair, Adams and Protz-

first I never would have read my paper."

coast of England.

nost noted metallurgist in the world.

CONVINCED AT LAST ALMOST A RIOT. A VERY LIVELY ENCOUNTER ON A PAN-HANDLE TRAIN. George J. Snelus Pronounces the An Officer Attempts to Arrest a Passenger Adams Steel Process a Success.

Who Objects-The Man Escapes and in Shot At-He Again Boards the Train-A General Scuffle Follows. Things were pretty lively around the Panandle depot at 6 o'clock last night. A little drama was enacted about that time that came near ending in a riot, and as it was, could hardly pass being put under that caption, except for a technicality in the legal meaning of the word, which signifies that there must be

addressing the keeper of a thriving retail shop not far from the Union station. the stranger, as the shopkeeper ran the order through his fingers and intently eyed

except for a technicality in the legal meaning of the word, which simifies that there must be three men who defy the law and its officers. At the time named Frank Martin, of Mun-hall, entered the Panhandle depot on the Southside, and, his story for it, rapped on the ticket window and asked for a ticket. He says that Edward Wescott, the depot officer, stepped up to him and said: "I am the man you must ask about your train." Martin and Wescott got into an altercation, and the latter at-tempted to arrest Martin. Martin, after a tussel, got away. At another time he cutered the depot and bought his ticket, and eluding the officer, went around the depot and got on the train. Wes-cott gave chase. Martin ran through the train and up the track. As he did so he says Wes-cott fired at him with a revolver, but the builet missed its mark. Martin then ran up the track to Fifth street, and got on the train when it came along. The conducter took up his fare, and just as he did so Wescott appeared, and told the conductor to hand it hack, as the man was under arrest. In the scuffle that followed Martin says Wescott pulled a revolver. Martin told him that he was used to eating builters, and to shoot ahead. By this time the train was in an uproar. Women were screaming and men were ducking their heads. Finally the conductor, brakeman, fireman, baggagemaster and a number of passengers joined in the scuffle. Martin had the handenffs on his wrists, but that did not interfere with his throwing two or three of his would-be captives down. "Thirty dollars? But this is for more than that. Why don't you go to the office?" nervously asked the storekeeper. the almost angry retort. "I forgot about this pesky little order until just before I came in here. But if you haven't got the stuff to lift it I'll wait till I get

to New York. I'd let you have it for 30 Martin had the handcouffs on his wrists, but that did not interfere with his throwing two or three of his would-be captives down. During this melee the train had stopped at South Nineteenth street and some one went after city officers. In the fight before the officers arrived Martin was hit on the head, as he says, by a revolver. Officers Michael Wright and John Shanning arrived, and Martin gave himself up, and a charge of disorderly conduct was lodged against him. Martin says he did nothing wrong, and prom-ises to prosecute for shooting and the abuse he cases, just to be rid of it. I can't spend it very handliy in that shape. Here, give it to me." He reached for it, but avarice had calculated a profit of over \$16 for the accommodation, and the storekeeper smiled as he opened his money drawer and counted out the cash. The stranger hurriedly pocketed the

isses to prosecute for shooting and the abuse he underwent. Altogether the affair, though not ending seriously, was extremely lively, and even more lively results are promised. The train hay at South Ninth street for fully half an hour before the matter was settled and

the arrest made, A DAY'S SERIOUS ACCIDENTS.

Thomas Godfrey Falls Downstairs and Breaks His Neck-Cable Cars Get in Their Work-Two Victims Hurt-Struck by a Train-Both Legs Crushed.

days with Messrs. Biair, Adams and Proiz-man, examining the system and testing the product. He continued his examination until he was thoroughly convinced as to its merits, and then spent the whole of yesterday after-noon with J. D. Weeks, giving the latter his opinion of the matter. A DISPATCH reporter made an effort to secure an interview with the distinguished expert, but he declined to see anyone. From Mr. Weeks, however, was learned the result of Mr. Snelus' examination. "It is a process of creat promise." said he. Thomas Godfrey, aged 72 years, a resident of the Eighth ward, died suddenly at his home, No. 49 Hazel street, last evening. He started down the steps leading into the back yard and when near the bottom of the flight, lost his balance, falling violently to the pavement below. His wife ran to him and found him unconscious. She called several of the neighbors who carried him into the house. Dr. McCandiess was summoned, but before he arrived Godfrey had expired. Dr. McCandless examined him and found that his neck had been broken by the fall. James Faber, a well-known saloon keeper of Thirty-fourth street, was struck by a cable car of the Citizen's Traction line while crossing Butler street, at the forks of the road, last night. He was knocked down and suffered a severe scalp wound. pavement below. His wife ran to him and

Severe scalp wound. Contractor Michael Gallagher, of No. 222 Bedford avenue, attempted to board a Citizen's car yesterday. The gripman failed to slacken up and Gallagher was dashed to the ground,

James Donahoe, of Greenleaf street, Mt. Washington, was struck by a Panhandle train last night. His skull was fractured, but he

will recover. Jacob Vial, of 31 Main street, aged 70 years, was run over by an oil wagon on Ridge avenue, yesterday. Both legs were crushed.

CAPTURED A HIGHWAYMAN.

ael Cameron Arrested for Holding Up People on the Railroad Bridge.

Detectives Fitzgerald and Robinson effected an important capture yesterday afternoon they arrested Samuel Cameron and

when they arrested Samuel Ca landed him in the Central station. Last July John Hagerty was robbed of \$25 in money and a gold watch valued at \$125 on Duquesne way, under the Ft. Wayne Railroad bridge. This robbery was reported to the police authorities and Detectives Fitzgerald

LOST, BUT FOUND AGAIN. Another Bid for the Water Works That

Mysteriously Hid Itself in a Drawing-It Will be Received-City Values May be Boomed. A specter bid for the erection of the new

Allegheny water works was the interesting HE WILL KNOW BETTER NEXT TIME feature of last night's meeting of the Water Committee. It had been decided to have printed 500 copies of the report of the sub-Than to Trust a Stranger Who is in

printed 500 copies of the report of the sub-committee appointed to investigate the mat-ter of new water works, and also to receive bids for the creation of the works. The sub-committee to far has been unable to agree. The committee was ready to adjourn when Mr. Cochran said that a few days ago, in open-ing one of the plans, he had discovered a bid which had been tied up in one of the drawings, and thus overlooked when the bids were opened about a month ago. The Councilmen eyed each other suspiciously. Mr. Cochran, when asked whose bid it was, said he did not know, but could tell if he saw the drawings. After a long discussion and much talk about bids that turn up mysteriously in overlooked plans, it was decided the unknown bid should be opened by the Controller in the presence of the sub-committee at its meeting next week. On motion of Mr. Knox the Controller was ordered to furnish the committee with the val-nation of the city, the indeptedness of the oliv HOW HE WAS TAUGHT A GOOD LESSON "Cash that? Give me \$30 on it?" The peaker, a well-dressed stranger, accompanied his laconic query by a proffer of what purported to be an American Express Company money order for \$16 53. He was "Hurry-if you can," impatiently urged ordered to furnish the committee with the val-uation of the city, the indebtedness of the city and the amount the bonded indebtedness can the numerals on the face of the slip of

and the amount the bonded indebtedness can be increased without going beyond the limit. Concerning this matter, Mr. Heurichs said: "The present valuation of the city was a little over \$50,000,000 and the bonded indebtedness \$1,788,000. Councils can only increase the bonded indebtedness to 5 per cent of the city valuation, and it may be increased to 7 per cent by a vote of the people. As the water works will cost at least \$2,800,000, it will be impossible to erect the water works. Next year will be the triennial assessment, and it is probable the city valuation will be pushed up to \$75,000,000 so that the bonded indebtedness can be increased without a vote of the people. "Do you want me to miss my train?" was

"Our protest which was sent to the officials "Our protest which was sent to the concluse of the Guion line has been answered by an apology on the part of the company and every-thing is satisfactory. The officials say such a thing shall not happen again. I am sorry the matter became public, for we were treated handsonuely by the officers of the Guion Line and we had no desire to hurt their business."

The official count of Allegheny, together with the returns from Fayette, Greene and Washington, last night, indicate that Stewart has a majority of 34 in the Twenty-fourth Congres-sional district, in 1888 this district gave Ray a majority of 4,338.

The Leading Pittsburg, Pa., Drygoods House,

Sailed Up Salt River. The Delamater Guards, a colored organize tion from the hill district, to the number of 75 have gone on a trip up Salt River. The club started last night, headed by Captain Charles Miller and a dismal drum corps, and made a parade of the principal streets, the members wearing plug hats, linen dusters, and carrying satchels. Securely fastened in each hat was a Sait River ticket, while their banner reminded the public that they would return in '32.

A Cancer's Grim Work. The funeral of Mrs. Edward Noyes occurred yesterday afternoon. The cause of her death was a cancer in the left lower limb. The mem-

ber was amputated, but that did not prevent the work of the cancer. The case of Mrs. Noyes attracted the attention of the medical profession from all over the State.

DON'T WANT THE HONOR.

The Ladies of the Allegheny German M. E. Church Vote Against Representation -An Overwhelming Majority - Only a Small Number Present.

The Methodist ladies don't seem at all anxious to gain a sitting in the councils of their church, at least so the result shows in the first vote taken in Pittsburg. At the election on the question held last evening at the Allegheny German M. E. Church, corner of Ohio street and Union avenue, it went negatively by a large majority. The

it went negatively by a large majority. The roling was not very spirited, and after it was all over the initial result announced was that 32 had voted against it while 4 lonely ballots said "yes." The larger number of the roters were ladies, which shows that they decided their own fate and can never accuse their husbands of form-ing a trast to hold the balance of power. There are about 255 members of the church. A the Methodist ministers' meeting yesterday afternoon the "woman question" was the topid discussed. Rev. Q. A. Enerson read a paper on the question, which, though conservatives, leaned a little from the fair ones. Revs. L. Maguire and W. S. Robinson discussed the question negatively, while Revs. E. S. white and G. W. Jenkins championed the cause of the ladies. The discussion was interesting from each point of view.

each point of view. Three churches will vote ou the question to-

To this first reception for Winter Millinery we cordially invite the ladies of these cities and vicinity. We promise you interesting and pleasing to all

learned the result of Mr. Snelus' examination. "It is a process of great promise," said he. "All that needs to be done is the working out of a few minor details, and there is a process from which can be brought astonishing results. The three great items of expense seem to have been pretty thoroughly disposed of. These are the maintenance of the apparatus, fuel and labor. Another important factor affecting the success of the system is the waste, and so long as the ratio of loss in a given lot of stock re-mains undetermined the question of waste is unsettled. The estimate of 12% per cent loss, however, would seem to exceed the facts, and, if that be correct, there is no further doubt as f that be correct, there is no further doubt as

"Most unhesitatingly. It would be a safe in-vestment, beyond a doubt. The little irregurestment, beyond a doubt. The little irregu-larities in the system at present can soon be overcome, and with furnaces properly con-structed much greater returns can be had than have yet been experisonced. I am satisfied that by the Adams process, in certain sections of the country, a ton of steel ingots can be made cheaper than a ton of Bessemer pig can be made in Pittsburg. That means, of course, where the ore can be had at the right price." Mc. Snelus also left a letter written over his signature, for the benefit of the owners of the

certain very wealthy gentleman, who resides in a beautiful house on the banks of the Ohio, is charged by the executor of his father's estate is charged by the executor of his lather section with owing the estate \$1,400 on a promissory note and a balance of \$400 ° of purchase money for a certain lot of ground which he bought from his aged father shortly before he died last spring, only paying him \$100 at the time the if that be correct, there is no further doubt as to the cost of production being confined within the original claims." "Does the process come up to your expecta-tions." was asked. "I had expected great things of it, jndeng-from what I read of it. But I must say, the re-sults are much greater than I had hoped to witness. I am perfectly delighted with it, and am very free to admit it is the most astonishing process I have ever seen."

plants in various sections of the country for the exclusive operation of the system?"

hast spring, only paying him \$100 at the time the deed was signed and made over to him. That was the burden of complaint in one of the papers. The other one said that this same gentleman, about 25 years ago, had induced his widowed sister to break up ber home and go to the home of their parents to reside, promising that if she did so he would, as his contribution to the care of his father and mother, pay her an annuity of \$100. The same to ran on accumu-lating until both the old people would be gaad over to her by him. Now that both parents are dead he has been asked to make good his promise and has refused to recognize it. For that reason suit was brought by the woman who brings the action, and claims that since she kept well her part of the agreement he should be kept to his. A SAFE INVESTMENT. "Would you recommend the erection of

be reduced, giving as a reason that the failure of gas has already caused a stagnation in the demand that will result in restricting the imsense amount that is now made, and which as just doubled itself in the last five years, a 1884, when gas was first introduced in Pitts-In 1854, when gas was first introduced in Pitts-burg, the amount of pipes made was not much over 500 toos a day. The pipe business has always been ahead of any other branches in the iron and steel line in the last 10 years. There are 13 rolling nulls in and around Pittsburg, where almost every ton turned out is pipe iron, and bosides, there are nearly always three or four mills where more or less pipe iron is manufactured, and the number of men work-ing in these and the pipe mills will reach over 10,000.

He Doesn't Know Anything About Quay's Resignation

Colonel W. W. Dudley, a member of the Republican National Committee, was in the city on legal business vesterday. It was reported 1913.
Funded debt improvement bonds, ex-changed registered, 5 per cent, June 1, 1912.

on legal business yesterday. It was reported he meta number of local politicians at the Monongahela House, but he denied it. When his attention was called to an article about Quar's resignation and that he had in-tended to resign all along after the election, Mr. Budley replied that Quay had never handed in his resignation, so far as he knew, and he thought the present talk on that sub-ject was only newspaper cossip. He declined to say anything further. 1. 1912. Improvement bonds, revistered & per cent, December 1. 1915. Improvement bonds, coupon, 4 per cent, December 1, 1915.

INCREASED THE APPROPRIATION.

Allegheny City Agrees to Double Her Gift to the General Hospital.

The Allegheny Finance Committee last ties which will mature shortly, such as water night recommended to Councils that the appropriation for next year to the Allegheny willing to anticipate that date for a considera-tion, in order that they may take advantage of a favorable opportunity to remvest. This suits Controller Morrow, as he desires, so far as pos-rible, to purchase the bonds in the order of ma-General Hospital should be \$10,000 instead of \$5,000. This is on condition that the hospital authorities will agree to take care of all the patients for which the city would otherwise be

Controller Brown's report for the month of October showed \$50,750 63 receipts. The bal-nuce on hand is \$175,855 53.

STOPPED BY A SILL

A Supposed Attempt to Wreck a Pennsyl vania Train.

When one of the Pennsylvania accommoda tion trains was coming in last evening, the engineer discovered a large log on the track near the Point of Rocks not far from Brinton. It was placed on a sharp curve, but fortunately did not cause a wreck. It delayed the train about ten minutes until it was removed. The about ten minutes until it was removed. And break on the engine was broken by running on

The obstacle. The train crew claim that somebody had tried to wreck the accommodation, but the officials think the sill fell off an east bound train.

the month has yet expired.

Than Ten Years.

Open To-Day at the Monongahela

House-War is Probable-List of Dele-

The meeting of the National Fraternal

Congress, which begins to-day at the Monon-

gahela House, promises to be extremely in-

The body is composed of 35 fraternal

orders and represents 1,250,000 persons.

About 50 delegates are expected to be

present. The organization came into ex-

istence in 1886, at Washington, D. C. It is

istence in 1886, at Washington, D. C. It is composed entirely of fraternal orders, which pay sick and death benefits. The interesting part of the programme will be when the applications for membership are taken up. There are several such applications which will be favorably acted upon, among them being the Fraternal Mystic Circle of Columbus, O., the Home Circle of Canada, and the Independent Order of Forresters. But there are others which pay out in five, seven or ten years would like to enter the association, but they will doubties be denied, the present members considering that they are not eli-gible.

Michael Considering that they are not the gible. Mr. N. S. Boynton, of Port Huron, Mich., Supreme Record Keeper of the Knights of Maccabees, was one of the early arrivals. He is also Chairman of the Committee on Statis-tics and Good of the Order. Yesterday, in re-gard to the admission of the "paying out" societies, he said: "They will certainly not be admitted because they are of an entirely different class of orran-

they are of an entriely different class of organ-izations. They claim to work under a ritual and to hold regular meetings but we don't want them in. We don't like them because they are speculative, depending upon the inistortunes of some of their members to benefit those who

of some of their members to benefit those who stay in. If all their members to benefit those who stay in. If all their members were to stay in the full term they would be nuable to live at all. Then there is always trouble arising with such orders and we don't care to have it mixed up with our association." The present officials of the Fraternal Con-gress are: President, Dr. D. H. Shields, of Hannihal, Mo.; Vice President, A. R. Savage, of Lewistown, Me.; Secretary, O. M. Sheid, of West Pounbkeepsie, N. Y.; Treasurer, George Hawkes, of Philadelphia. The change in the offices will probably not be great. The orders embraced in the association have paid out \$500,000,000 in benefits within the past Syears, of which \$20,000,000 was paid out last year. The oldest order is A. O. U. W., which was organized soon after the war, and all other

vas organized soon after the war, and all othe

was organized soon after the war, and all other beneficial organizations are somewhat similar. Following is the list of arrivals up to mid-might: Royal Arcanum-W. O. Robeson, Supreme Secretary: Charles F. Loring, Secior Vice Regent; J. J. Miller, Esq., Pittsburg, A. O. U. W.-D. L. Shields, President of the con-gress: John J. Acker. Legion of flonor-Adam Warmock, Enoch Brown, K. of H.-Samuel Klotz, Senior Vice Dictator. Pilgrim Fathers-J. E. Shepard, Assistant Insurance Commissioner of Massachusets. Heptasophs-S. A. Will, Equitable Aid Union of Columbus -R, W. Seaver, Fraternal Mystic Circle-D. E. Stevens, Supreme Mystic Ruler, Knights of the Maccabes-N. S. Boynton, Supreme Record Keeper.

A MYSTERY SOLVED.

Two Innocent Bits of Paper and What They

Really Portended.

Two innocent bits of paper lay on the clerk's

desk in the Prothonotary's office one day last

week. They were each marked "præcipe for summons," which simply meant that a well-

known gentleman named in both would have

to "come into court." It was not until yester-

day that they received their rightful explana-

tion, in statement ; of the complaints of whose

arrival they were the heralds. It seems that a

THE COMMITTEE HERE.

Representatives of Railway Organiza **Consider** Grievances,

Advocate, went to Boston last evening to at-About a dozen of the general grievance con mittees of the Brotherhoods of Locomotive En-gineers, Trainmen, Firemen, Switchmen and tend the meeting of the Missionary Committee gineers, Trainmen, Firemen, Switchmen and Order of Railroad Conductors of the Pennsyl-vania lines west of Pittsburg, came into the city late last night, and went directly to the St. James Hotel, Among them were W. C. Williams and E. Phalen, of Columbus, representing the south-west division; W. B. Lancaster, John Maloy and George Felker, of Logansport, Ind., repre-senting the northwest systems, About 25 more members of the committee will arrive this morning and a meeting will be held at either the St. Charles or Seventh Avenue Hotel. It was reported yesterday that the commit-tee would present a schedule of wages to Gen-eral Manager Woods and ask for the investiga-tion of certain grievances against some of the officials. Two or three of the committeemen were seen last night, and the substance of, what they said follows:

were made looking to the continuance of the organization, but this was not considered neces-sary or advisable. The opinion was general that the specific purpose for which the organi-zation had been formed having been accom-plished, there was no necessity for further agitation outside of the Republican party lines. The members of the committee expressed themselves as gratified with the success of their work, and the difference between the vote cast for Delamater and that cast for Watres, they say, represents the strength of the Independent movement in Allegheny county. were seen last night, and the substance of what they said follows: "We are not in shape to give you details: if you come around to-morrow evening we will give you some good news. Our committee will not all be here until to-morrow, and then there will be here until to-morrow, and then there will be a conference with the officials, and it will be at least a week before our work here is done. In regard to the readjustment of wages on the Lake Shore road, it took effect last Satur-day, and the Baltimore and Ohio also increased the wages of their employes, to take effect on November 16. vement in Allegheny county. West Salem Land Company.

George Allen, President of the West Salem Land Company, of Salem, Va., is visit-ing our city on business connected with the November 16. None of the men would say whether or not charges against officials are to be investigated, but from the general drift of a conversation that was going on within hearing of the re-porter, it is safe to say there is something invely in the wind. manufacturing interests of Salem, which place is situated on the Norfolk & Western

Railroad and in the midst of the immen deposits of iron and coal, for which Southwest Virginia is famous. The land companies of Salem are prepar-Puddling Iron With Slack Coal.
