IN THE MODERN ARTS

That of Photo-Engraving Can be Classed as One of the Finest.

BOOKS AND PAPERS REPRODUCED

So Neatly That the Counterfeit is Hardly Noticeable.

THE WORK EXECUTED IN THIS CITY

Photo-es ... aving is rapidly developing into one of the finest and most beautiful arts of the age, and no book is complete without numerous specimens of this wonderful illustrative process, no matter how interesting the subject matter or how fine the binding.

For years after the discovery of this splendld process of picture making it was backed by a tried firm.

In the making of these instruments, skill, the more elaborate work of high-class books, but now it has become so that photo-engraving is considered a necessity in all book work, in magazines and all other illustrated periodicals. The old chalk and wood cuts have been discarded everywhere except in the newspaper field, where speed as well as good work is necessary and where the finer art takes up so much time as to be impracticable. However, the weekly humorous papers have mostly thrown aside the old rapid processes and have taken up the new and beauti ul art of photo-engraving.

One of the finest features of this modern art is the fact that a fac-simile of anything from a postage stamp to a \$1,000 bill can be made rapid and true to the original. Photographs of men and scenes of battles famous in history can be produced in a manner so realistic that every line and position can be readily recognized. Thus it becomes a splendid means of education, for what will teach more readily than the project of the p more rapidly than taithful illustrations! Histories replete with photo-cograved scenes will teach the pupil much more rapcover with solid facts and here and there a wood cut that blurs the idea rather than

THE ART IN PITTSBURG.

It has not been very long since photo-engraving was comparatively an unknown art in Pittsburg and whatever work was done had to go East to find artists to do it. But work is located in this city. The Pittsburg Photo-Engraving Company have elegant offices and complete racilities to do the finest work in this line. Ever since the establishment of their business in the city they have been rapidly improving upon their work until to-day their rooms in the Power Hall at Nos. 75, 77 and 79 Diamond street, are among the best equipped in the country and they are prepared to furnish the most elaborate and artistic specimens of the engraver's art. Their work will compare favorably with the highest class work in the country and they are prepared to do anything that comes within the lines of photo-engraving. They also are prepared for the finest of book printing and binding, furnishing the illustrations by any process desired.

The Pittsburg Photo-Engraving Company has had numerous chances to display its facilities for the reproduction of old prints. They have reproduced old books as to paper, print and engravings so neatly as to be taken for the original production. Old newspapers published in the quaint style of "ye olden times" have been repro-duced so well as to bring to the memory of the readers of the ancient specimen of the then young printer's art scenes and incidents of youth chronicled in its aged and yellow pages. This work is often done so neatly as to make the reader wonder whether he holds in his band the original or the counteriest. Plans of lots are also among the specialties produced by the company and this has proved of great advantage to all interested in the real estate and plans of

The company can show specimens of fine work almost without number. They include all manner of books and matters of the novelty nature. The charter of the Select Knights of America has been admired by all who have had the pleasure of exam-The souvenir programme of the Brotherhood of Locomotive Engineers attracted universal attention because of the splendid illustrations and excellent workmanship in general. Perhaps one of the best pieces of work turned out by the company was the handsome leather case hand-book of the Standard Underground Cable

SOME SPLENDID SPECIMENS. Advertising novelties are among the snecisities of the company though all their work can be said to be especially fine. The artistic programme of the Carnegie course s an admirable piece of work and illustrates how photo-engraving can be brought out in advertising matter. During the Exposition the company was fairly flooded with orders for their work by exhibitors at the great Pittsburg show. Chief among the produc-tions in this line were Horne & Ward's comprehensive little book, and Rosenbaum's elegant souvenir. Many catalogues can be placed on the list of elaborate and beautiful specimens of the art; for instance, that of Danziger & Co., the milliners, which for ele gance of design and print is incomparable,

heir facilities to reproduce the beauties of nature in picture form and in both instances he originals were all but improved upon. The company now has in course of proection two books, the artistic elegance of which defv description. The catalogue of the Fuel Gas and Manufacturing Company will be the most elaborate book of this description ever produced in the city, the finest portion being the engraved work and colorings. The Official History of Alle-gheny City will be an elegant piece of work in every particular. The engravings will be executed by the best artists employed by the company, and will display great taste in the selections of colors and originality of design. The paper was prepared especially for the book, and in every way it will be a wonder-

The catalogues A. M. & J. B. Murdoch and

splended opportunities for the display

rully beautiful piece of work.

This company has in its employ a staff of artists selected from the best from all parts the country, and no expense has been spared in making their equipments the best in the country. The finest steel engravings, color work, stationery and eard printing also come within their line of work, and all is done in a manner that catches the artistic

Skill, Experience and Ripe Judgment. The eyes of the public are being pretty well opened to the tricks of trade in and of the piano trade in particular, and the ears and eyes of the people can no longer be deceived as of yore, and they do not "bite" at any (absurdly low weekly payment) schemes. Piano buyers turn with positive belief to a firm whose 60 years of business life in this community attests to its worth and high principles. All feel assured that such a firm cannot and will not place upon the market a plane or organ that will not fully come up to every re-

quirement of the most exacting, and that will not stand the test of time in every particular. The standard instruments of merit that will stand the test of time and are represented by such a tried firm are the Hardman, the A. B. Chase, the Krakauer and the Vose pianos, and the A. B. Chase, the United States and the Chicago-Cottage organs, which fill the extensive show rooms

of Mellor & Hoene, 77 Fifth avenue, Here are instruments of standard excellence and

long experience and ripe judgment have been embodied. Nothing hurried or imperfect is permitted to leave the factories where these beautiful and complete instruments are created. The fact that the above firm handles these makes is even a sufficient guarantee of their excellence, and we can only say to those as yet unconvinced go to 77 Fifth avenue and see and hear for yourselves. Extreme beauty of design and form, perfection and quality of tone, greatest durability and reasonable prices, contribute to make the establishment of Mellor & Hoene a sort of Meeca for piano and organ buyers. Such has been the case, we might add, for nearly two-thirds of a century, and the indi-cations are that it will be the case for fully as long a time yet to come. Courteous attendants are always ready to aid visitors in becoming familiar with the merits of the instruments, and terms are made perfectly satisfactory to all reasonable purchasers. Send them your address for valuable hints

Coal, Coke and Iron.

to prospective buyers.

Trinidad, Col., bids tour to become another Pittsburg or Birmingham. Surrounding it are 600 square miles of the finest coal ands in the world, producing an average of 10,000 tons per acre of coking coal, the coke of which is driving all Eastern cokes out of the Western market. The coal is shipped freely all over the country to the East and South, the Missouri river and the Gulf, and Southwest almost to the Pacific coast and

Old Mexico.

The immense mountains of iron ore that lie a little back, have been explored and are soon to be brought into market. With the large smelting and iron and steel in-dustries that must soon be established in Trinidad as the outcome of this rare and happy combination of raw materials, it is not only that Trinidad will become one of the great manufacturing cities of the country, but also that Colorado will ulti-mately establish her claim that she is as rich in the more humble but highly valua-ble minerals of coal and iron as Pennsylvania and Alabama, and at the same time maintain her high rank as the second greatest precious ore producing State in the Union. For full information address Trinidad Land and Improvement Co., Trinidad, Col. w

GEORGE BOOTH, City Clerk, PITTSBURG, November 12, 1890. nol2-79

NOTICE IS HEREBY GIVEN THAT THE report of the Board of Viewers of Street Improvements and Assessments for the cost of construction of a sewer on Ann and Marion streets, from Gist street to Forbes street, has been approved by Councils, which action will be final unless an appeal is taken on the same to the Court of Common Pleas of Allegheny county within ten (10) days from date bereof, GEO. BOOTH, City Clerk, Processing November 12, 1890, no12-70 PITTSBURG, November 12, 1890,

DEDICATION OF IRWIN PLACE FROM Forty-second street to Forty-fourth Whereas, I, Charles I. Travelli, of the City of Pittsburg, county of Allegheny, State of P sylvania, have laid out and opened sylvania, have laid out and opened and graded, and paved at my own expense, a certain street situated in the Seventeenth ward of the City of Pittsburg, aforesaid, which street is of the width of 50 feet and extends from Forty-second street to Forty-fourth, and is called Irwin place, and is shown upon a certain plan of streets made by me and duly approved by the proper authorities of the City of Pittsburg aforesaid.

proper authorities of the City of Pittsburg aforesaid.

Now know all men by these presents, That I, the said Charles I. Travelli, do hereby dedicate and grant the said street and highway to and for public use as one of the streets and highways of the City of Pittsburg aforesaid, provided that the same shall be taken, and accepted by the said city, at its present grade, as the legal grade thereof, and as at present paved and sewered by me.

Excepting and reserving, however, from the operation of this grant the land now occupied by a certain bay window of my dwelling house abutting upon said street for such period of time as I, my heirs or assigns may see proper to keep and maintain said dwelling house and bay window as now located and constructed.

Witness my hand and seal this 29th day of September, A. D. 1850.

CHARLES I. TRAVELLI.

Sealed and delivered in presence of us.

Sealed and delivered in presence of us, GEORGE M. WEED, GEORGE A. BLANEY. GEORGE A. BLANEY.

Be it remembered that on the 2d day of October, A. D. 1890 before me, a Netary Public in and for said county, came the above named Charles I. Trayell, and acknowledged the foregoing grant and dedication to be his act and deed, and desired that the same might be releed, and desired that the same might be re-ported as such. Witness my hand and notariel seal the day and year aforesaid. [NOTARIAL SEAL.] GEORGE M. WEED, Notary Public for Suffelk county. In Councils this 27th day of October, A. D.,

1890.

Read accepted and approved.
