

A FINANCIAL FORECAST. SENATOR SHERMAN ON THE PROBABLE **RESULT OF THE ELECTION.**

He Says Capital is Already Timid About New Ventures, and That Industrial Enterprise Will be Delayed-Course for

Republicans to Pursue. INFECTAL TELEGRAM TO THE DISPATCH.1

WASHINGTON, November 12 .- As everybody knows, Senator John Sherman is one of Lonisa Engelman, of Allegheny, charged by of the ablest financiers in the country, it not | Frank Raichel with selling liquor without a the world. He looks into the future and license. The jury had been out some time the world. He looks into the luture and forecasts the financial outlook with conserv-ntism and acumen. In conversation this morning on the present financial crisis, he made the following significant statement: nade the following significant statement: Inade the following significant statement: The most serious result of the late election is the hardening of the times, caused by the dis-trust of the financial policy of the incoming House of Representatives. All sorts of finan-cial schemes of the wildest character will be proposed, and whatever may be the outcome they will make capital timid and arrest many business enterprises that are on the point of being executed. The first effect is the eager desire of every prudent may to realize on all esire of every prudent man to realize on all oubtful securities. The new unfif act would ave set afoot many new industries, which will be prevented or delayed by this doubt created a to the industrial policy of the future. The subsenant joy in the foreign markets over our vertices it is the her origin markets over our ections is the best evidence of the dangers e have to meet. Foreigners do not understand te conservative nature of our instituto be change our policy, but timid men among us suil be affected and will not engage in competi-ion until satisfied of the stability of our pro-ection policy. And then who can tell what still be our standard of value? The immediate will be our standard of value? The immediate fail of silver upon the happening of our elec-tions is an indication of distrust and alarm. The policy of tying together rold and silver with an increase of currency gave a hopeful outlook to the future, but a renewal of the con-test for free coinage of silver will cause an ex-pertation or boarding of silver and the relative fail of silver. Our only course as Republicans is to maintain and strengthen our industrial policy on the line we have pursued, in the hope that by the next election the people will be convinced by the test of time that the tariff act will not advance prices, but will advance home industries.

You cannot deny facts, and it is a fact that Salvation Oil is the greatest pain cure.

DISCHARGED THE JURY. Judge White Does Not Like Their Method

of Trying a Case. In Judge White's branch of the Criminal Court yesterday a halt was called in an unusual manner on a jury that was about to acquit an

alleged illegal liquor seller. The case was that court, and when they had med in he said: "To say that I am surprized is posting it very mildly, that you should ask anything about the costs in such a clear case as this. You are discharged from the case." This took the matter out of the hands of the jury and will give the prisoner a chance before another lot of jurors.
