### A. O. U. W.

From reliable authority comes the encourag-ing news of 10 or 12 new lodges in various stages of formation all over the State. Allegheny Lodge, No. 34, will celebrate its anniversary Friday evening next. These events have always been enjoyable affairs and well attended.

Deputy S. I. Osmond has close on to 50 names for a new lodge, and expects to institute it with 60. He is doing good work, and will be heard from again.

### Select Knights of America.

Managers Ed Keenan and Connors, of the Vorid's Museum, will be entitled to the name f comrade very shortly. It is said that P. C. J. A. McKee, who led the

grand march at the reception, resembled to great extent Prince Bismarck. The catalogue of prices of new uniforms and the changes in the old ones have been received, and the comrades can obtain all information with regard to it by calling upon S. C. Kirker or Colonel C. V. Lewis, The cost of changes are very low, indeed.

The reports from the legions in the First that the comrades have gone to work in earnest, and as the new ritual is about completed and vill soon be delivered to the legions, there is no loubt that the members will all feel more enouraged and will continue to increase their interest in the order, which can only result in

wonderful success.

Grand Commander William B. Kirker, assisted by P. G. C. Bert Patterson, P. G. C. John Rowen, G. R., R. H. Thomas and several comrades from the different Legions in this vicinity, instituted Central Legion No. 9, at its hall on Central avenue. The following officers were elected and installed: Commander, S. A. Johnson; V. C., J. A. A. Brown; L. C. E. S. Gardner; Secretary, W. R. Slentz; F. C., W. J. McMilhen; Treasurer, S. M. Miller; Marshal, Robert McCoy; S. R., J. Bell; S. P., W. W. Peters; J. P., H. Blethwell. This legion starts out undsr very favorable auspices, possessing, as it does, some of the best material of the old legion, which was considered one of the finest legion, which was considered one of the finest legions in the State. Let the good work con-tinue, comrades. The Colonel is with you, beart and soul.

## THE TREND OF TRADE

An Exciting Week in Speculative Circles at Home and Over the Sea.

BUSINESS UNTOUCHED. Recent Sales Show a Steady Advance in

East End Business Property. THE EXCHANGE BUILDING BANGS FIRE

The bulls and bears of New York and Chicago had a monkey and parrot time of it last week. Money was manipulated so successfully that holders of stocks were unable to keep up their margins, and unloaded so rapidly as to glut the market and slaughter prices. Values did not suffer; it was only the water that vanished.

The trouble began on Monday, and had alost run its course, a good part of the losses having been recovered, when, yesterday, another sensation was caused by news from London that the Barings would go into liquidation, and Wall street was thrown nto another spasm of excitement. When it into another spasm of excitement. When it was learned that the London trouble was not a failure a steader feeling soon developed, attended by some recovery in prices.

Pittsburg securities were lower during the week in sympathy, but they, too, rallied, and at the close of business yesterday had regained nearly all the lost ground. The flurry was, perhaps, the best thing that could have happened. It had been impending for some time, and the bursting of the cloud may clear the financial skies. Legitimate business was scarcely touched. Clearing House figures, given elsewhere, show that so far as Pittsburg was concorned the week was one of the best of the year.

Not Up to the Mark. It was nobodys fault that a batch of panicky news came on the day set for the sale of the Exchange building, but the conjunction was unfortunate, as it no doubt prevented a deal. According to previous notice, the building was put under the hammer yesterday. There was a large crowd in attendance. The first bid was \$90,000, or \$2,000 a foot. The next was \$100,000, and the next \$125,000. Then, after a short pause, it was increased to \$130,000 and then to \$140,000. Another short breathing spell ensued, and then followed the best bid of

spell ensued, and then followed the best bid of the day, £i45,000. This being £5,000 below the limit, and there being no prospect of raising it, the sale was adjourned.

The sale failed to attract as many capitalists as had been expected, but as they were well represented by real estate agents, many of whom were present, their absence, it is thought, made no difference. Some curiosity was ex-pressed to find a reason for the non-appear-ance of the gentleman who, as reported all along, had for months had a standing bid of £150,000 ready to launch forth at the first op-portunity.

Business property in the East End has scored a big advance in prices in the last five years, and the demand for it is steadily widening and taking in a greater scope. Several sales made quite recently show clearly that buyers think well of the business advantages possessed by this part of the city. One of these involved the this part of the city. One of these involved the property on the northeast corner of Frankstown avenue and Station street, lot 30x100 feet, which brought \$14,000. A to 64x190, in the same locality, was picked upat a price approximating \$23,000. The other transactions referred to were of less importance from a financial point of view, but equally significant as showing an active demand for the kind of property in question at good round figures.

## Homes for the People.

Rapid transit has come to be the most important factor in the development of the sub-urban districts and the founding of country houses. It has rendered thousands of acres accessible to the industrial classes which a few years ago were practically worthless because of their isolation from the business centers. As their isolation from the business centers. As the system of rapid transit is developed the movement of population toward the suburbs will increase, until in a few years they will be thickly built up. There is no reasonable doubt that this will be the outcome. With such a prospect few, if any, will deny that real estate in any of the surrounding districts is a good purchase at present prices.

The Cost of Water. Ill. water works, furnishes the following table It gives the cost of water to the average house solder in 25 cities, compiled from official reports: Allegheny City, \$24 50; Boston, \$37 25; Buffalo, \$25 50; Chicago, \$21 75; Columbus, O., \$32 80; Dayton, O., \$45 80; Detroit, \$28 25; Erie, Pa., \$21 75; East Saginaw, Mich. \$26 50; Fall River, Mass., \$31; Grand Rapids, Mich., \$33; Indianapolis, \$32; Rapids, Mich., \$38; Indianapolis, \$32; Lawrence, Mass., \$25 80; Milwaukee, \$22; Minneapolis, \$29; Newark, N. J., \$28 25; New York City, \$32 75; Omaha, Neb., \$30; Philadelphia, \$28 75; Pittsburg, \$23 50; Sandusky, O., \$25 50; St. Paul, \$24 80; Syracuse, \$31 75; Toledo, \$28 50; Utica, N. Y., \$31 50. It appears from the above statement that \$28 66 per annum is the average price paid for water by the householder circumstanced as above in the United States, if the above 25 cities afford a fair basis from which to construct an average.

## from which to construct an average. The Building Record.

During the past week 31 permits were issued, representing 37 buildings—7 brick, 27 frame and 3 ironclad, the total cost of all being \$51,432. The Twenty-first ward led with eight, followed by the Fourteenth, Eighteenth and Thirty-second, each having four buildings.

The number of permits issued the previous

week was 46, representing 51 buildings. The total number of permits issued this year to date total number of permits issued this year to date is 15,977, representing 2,695 buildings. Yesterday's list follows:
Charlotte J. Dawes, brick two-story and mansara dwelling, 33x40 feet, on Craig street, Fourteenth ward. Cost, \$5,300.

Business News, and Gossip.

## Business News and Gossip. There was considerable talk on Fourth ave-

ne yesterday afternoon in regard to the emfailure, and as nobody would lose anything by ment over it would soon subside. All concurred in saying that Pittsburg would not be affected beyond, perhaps, making financiers more cautious in extending loans.

W. I. Breane has just completed a fine three-

The storm broke on Monday, causing a de-The storm broke on Monday, causing a decline all round. On Tuesday the disturbance was at its height and values vanished like dissolving views. On Wednesday there were symptoms of a reaction, which became quite manifest the following day. The recovery was as rapid and pronounced as the break, and the opinion was very generally entertained that everything was on its feat again. Yesterday, however, advices from London of the embarrassment of the great house of Barings, with connections in New York, gave Wall street another twist and stocks again went off, rallying, however, at the close. The news was received too late to affect local stocks, and the entire list closed at about the best prices of the week.

Local trading was quits heavy on both the decline and rally. Total sales for the week were 2,430 shares, of which Electric furgished 906; Philadelphia Gas, 590, and Pleasant Valley, and Signal at 13%, 15 Luster at 20%, and

Nothing Wrong With the Money Market-Business in Good Shape.

In spite of the upheaval in Wall street and inancial troubles abroad, Pittsburg held the fort last week, coming out with a splendid record and nothing in sight to cause apprehensions for the future. There is more than usual significance in this. It shows clearly that legitimate interests and values are beyond the reach of panics.

The Clearing House report is a very satisfac-

for document. It shows that bank clearings for the week were nearly \$3,000,000 greater than for the corresponding time last year, and more than \$1,000,000 in excess of those for the previous week. The gain over 1889 to date is \$157,760,609 75. In detail the report shows: Baturday's exchanges..... 2,816,108 36

Bankers reported a fair working supply of loanable funds and a good demand at 6@7 per cent as the extremes, but they were conservative in extending accommodations, so as to protect home interests.

Money on call at New York yesterday was easy, with no loans, closing offered at 5@6 per cent. Prime mercantile paper, 6%@5%. Sterling exchange quiet but firmer at \$4.79% for 60-day bills and \$4.80% for demand.

The weekly statement of the New York banks, issued yesterday, shows the following changes: Reserve, increase, \$5.577,800; specie, decrease, \$4.91,200; legal tenders, increase, \$783,500; deposits, decrease, \$5.675,800; circulation, decrease, \$5.600. The banks now hold \$332,000 less than the requirements of the 25 per cent rule.

### NEW YORK STOCKS. Baring Brothers' Troubles Have a Tre

mendous Effect on Stocks-An Improvement Toward the Close, but Losses Are Not Made Good.

NEW YORK, November 15 .- The stock man ket to-day for the two hours' session was the liveliest we have had since the great slump of there existed a perfect panic among the holders of securities, especially railroad stocks, and the declines established during that time were greater than ever before seen in the same time, The only cause of the excitement was the announcement from London that the great firm of Baring Brothers had been forced to seek assistance to tide them over the present financial crisis, and the holders of stocks became panic-stricken over the news, without reflecting that the danger had really already passed when the Bank of En-gland and the Rothschilds came to the rescue. Reflection, however, is the last thing a man thinks of when his pocketbook is in danger, and everyone went in to save as much out of the wreck as possible by selling out in the

uickest time. The early advices from London were reassuring and the crisis was represented as over there, and, continuing the improvement begun yesterday, first prices were generally fractionally higher than yesterday's figures, with Northern Pacific preferred up 2 per cent to 5936. The announcement about the Barings was thrown at the market immediately, howwas thrown at the market immediately, how-ever, and the good feeling disappeared in an instant, and from prospective buyers the whole room became sellers at the best prices obtainable. The force of the decline may be gathered from the fact that in an hour Lacka-wanna had dropped away 9% per cent to 123%; Jersey Central, 7% to 88; Atchison, 5% to 23%; Juliman, 5% to 175; Canada Southern, 6% to 42; Burlington, 7% to 80; Rock Island, 5% to 63%, and the other leading stocks from T to 5 per cent.

Jersey Central, 7% to 98; Atchison, 5% to 23%; Pullman, 5% to 175; Canada Southern, 6% to 42; Burlington, 7% to 80; Rock Island, 6% to 63%; and the other leading stocks from 2 to 5 per cent.

The drop in Lackawanna is entirely inexplicable upon any known hypothesis, but the selling of Atchison was based upon the fear that the holdings of the Barings would in all movement set in discount of the reactionary movement set in discount and the receipts to-day and those promised for Monday were so light that holders were very firm, and work to cause a break of 3%, even when wheat work to cause a break of 3%, even when wheat contral the previous day's closing. and May was 3% chigher. There was a track of 3% to 10% selling of Atchison was based upon the fear that the holdings of the Barings would in all probability have to be luquidated. The other stocks were sold merely upon the impulse of the scare. The drop, however, soon brought into the market the class of buyers who are paying outright for their securities, and the current was soon turned by this support, when the bears joined in the buying to realize the profits accrued upon the tremendous drop.

The early selling soon developed the fact that there were large selling orders in the market, and the trading and professional element soon took the market away from the sellers and innumerable stop orders were quickly uncovered.

minute.

After the downward movement was checked the bank statement was issued showing a material gain in the surplus reserve, and the growing strength of the banks leaves no further feeling of apprehension among Wall street houses, and the general impression is that as soon as London becomes really quiet there will be no disturbing influence found here. Some investment houses now report that they have more orders for the purchase of securities than they can fill, and these purchases are all for investors who take the securities away from the street.

The rally which obtained in the last hour extended to 4 per cent and over in some of the most pronounced cases, but the upward movement was insufficient to make up anything like the losses incurred, and an extremely feverish and unsettled condition marked the trading throughout. The close was very active and strong for the moment at material losses for the day. There is talk of a meeting of influential bankers and capitalists to consider the situation over Sunday and come to some conclusion as to what can be done to allay the excitement and apprehension prevalent on the street.

sion as to what can be done to allay the excitement and apprehension prevalent on the street. The final losses are very material, and Lack a wanna is off 4%; Jersey Central, 1.5; Rock Island, 4; Missouri Pacific, 3%; Atchison and Chicago Gas, each 3; Burlington, 2%; Cleveland, Chicago, Columbus and St. Louis, 2%; Silver certificates, 2; Northwestern and Canada Southern each, 134; Western Union, 1%; New England, 1½; Wheeling and Lake Erie, 1½; Texas Pacific, 1½; Lake Shore, 1½, and Sugar Refineries, 1 per cest.

Railroad bonds were active, but showed none of the excitement or animation of stocks, and while the sales of all issues reached \$1,484,000, the final changes of note were comparatively few. The active issues comprised Archison incomes, with \$19,1,00: Northern Pacific 5s, with \$178,000; Texas Pacific 2s, \$154,000, and the Kansas and Texas 4s, with \$158,000. Prices to-night are naturally lower, and Atchison incomes lost sas and Texas 43, with \$120,000. Frites to high are naturally lower, and Atchison incomes lost 2 at 48, and Wabash 2s 2 at 70. The exports of specie from the port of New York last week amounted to \$744,028, of which \$102,676 was gold and \$631,850 silver. The im-ports of specie during the week amounted to \$203,912, of which \$63,716 was gold and \$225,196 silver.

The Post says: Of course great lots of long stocks were poured out, but there was no recovering of shorts, and the outstanding short interest is now so large that, with any turn of the market, it will prove an important factor in

an advance.

### MARKETS BY WIRE.

An Erciting Day in the Chicago Wheat Pit-The Longs to Unload, Resulting in a Tremendous Slaughter

of Values. CHICAGO-The wheat market exhibited all the symptoms of a true case of panic before trading had been in progress over an hour to-day, but the spasms, though violent, were not of long continuance, and during the last hour there was a recovery of nearly 25% from the lowest prices of the day, with the closing figures showing a decline since yesterday of 1/4c in De cember and %c in May. Corn and oats were dragged down, while wheat appeared to be in the threes of dissolution, but came up again like corks when the weight of the wheat panie lifted, and each closed with moderate gains. Provisions were dull, and, while averaging lower, closed with very little loss since yester-

The wheat market, while the complicity attending upon the financial situation as it appeared to be for about 15 minutes near the open-ing, gave some symptoms of returning confi-dence among the local speculators. In fact, quite a general feeling that the end of the decline had already taken place was apparent, some of the leading commission men so ex-pressing themselves. How far these opinions

cline had already taken place was apparent, some of the leading commission men so expressing themselves. How far these opinions were from gauging the probabilities of the day's fluctuations the after course of the market has been witness. The price of December wheat started at 94½c, with the pressure coming principally from the selling side, and it quickly declined to 94c. For a short time the fluctuations played nervously around 94c, touching 93½c, and selling sparingly at 94½c in the course of its several changes.

The trading during the time referred to was not very heavy, and in the lulis which took place the tendency appeared to be in the direction of firmness. It was observed, however, by the students of the blackboards in stock offices that securities were again breaking in New York, and upon this hint the nimble runners in the wheat pit commenced to unload, and in a few minutes a decline in December to 93½c took place. There was only a momentary rest at the figures named, when it was followed by a further drop to 92½c. There was a hard and exciting struggle lasting two or three minutes before the pressure of the offerings could overcome the buying which such a profitable decline brought in favor of the shorts, but, it was overcome in the end, and then ensued one of those periods of wild delirium which occur perhaps at intervals of a year or two in the wheat pit. Buyers were wanted, but they would make a move, and for a time the competition in underbidding to secure a buyer was such as knocked prices from under so rapidly that it was impossible to execute hundreds of orders at the limits of the exhausted margins.

The decline was not arrested until December was selling anywhere from 90½c to 91c and May at 98½c/ga/de. The report of the financial embarrassment of Baring Bros., of London, was the cause of the wild stampede. The reaction from the lowest prices of the day was not indicative of any very great accession of confidence, but the market during the last hour of trading was free from the panicky feel

further advance of 1/4c before the reactionary movement set in, during which latter period the price broke 15/4c from the top, but recov-ered 1/4c of this immediately after, and during the remainder of the session the price was maintained at some improvement over yeste day's closing quotations.
Oats were active but weaker and lower early Oats were active but weaker and lower early in the day, owing to the weakness and decline in wheat and corn and free selling by loncs. Prices for May declined 1½c from yesterday's close and touched 42½c. Later in the day a firmer feeling gradually developed and prices advanced 1½c and the market closed steady at full outside figures and at a fair gain on yesterday.

## THE SOUTHSIDE AGAIN.

Mr. John T. Good, who lives at No. 129 Nineteenth street, Southside, is a window glass blower, employed in the Cunningham Window Glass Co., Limited, on Twentythird street. In a recent interview with the writer Mr. Good told the following story of

his own experience:

"For about four years," says Mr. Good,
"ever since I recovered from an attack of
diphtheris, I had suffered almost constantly
from catarrh. My head and nose would
stop up. I had a continuous dull pain over my eyes and a rumbling, roaring noise in my ears. My eyes were weak and watery. I could feel the mucous dropping back into my throat and was always hawking and raising to clear it. My throat would fill up at night and I would wake up gasping for breath, as if I were choking to death. My throat was raw and inflamed.

Mr. John T. Good, 129 Nineteenth Street, South-side, Pittsburg, Pa. side, Pittsburg. Pa.

"As my trouble grew worse, snarp pains like the stab of a knife would take me in the chest. Palpitation of the heart set in. My appetite failed. The little I ate caused me distress and nausea at my stomach. My nights were restless. I would get up in the morning more tired than when I went to bed. A short time ago, after reading so much of Drs. Copeland & Blair and their wonderful success in cases similar to mine, I called on them, and finding their charges so very low I decided to begin their treatment at once.

"I never made a better resolution," concluded Mr. Good, "for they have really done wonders for ms. My symptoms all rapidly disappeared, and to-day I am like a different man entirely."

Drs. Copeland & Blair have their own laboratory and their own pharmacist, whose whole time is devoted to preparing the medicines for their many patients. Every prescription is compounded under the direct supervision of the doctors themselves, which accounts to a certain extent for the invariable positive results of their treatment. To each and every patient under their care Drs. Copeland & Blair furnish all medicines free of charge.
