ATHLETIC CONTESTS FOR AMATEURS.

President Young Talks About Baseball-General Sporting News of the Day.

It is intended to hold a very important meeting of the Homerwood Driving Park Association to-day. The meeting will be one of stockholders, and it is anticipated that one of the questions for discussion will concern the to-be or not-to-be of the Homerwood track.

"Of course, if our meeting takes place, it will be a lively one. I expect it will be held, at least, notices are out for it, and there are two parties. One is in favor of retaining the track and the other is for selling it for building sites. It is claimed that the latter party has a controlling interest in the stock. That may be so, but I'll show you how they will be downed. A certain gentleman has bought a large quantity of stock, but he has not yet been elected a member of the association, so that he cannot vote. I further think that the directors himself to the effect that he wants to sell the track, he will not be elected a member of the association. Most certainly, there is a movement going on, the object of which is to break up the park as a real estate speculation."

ATHLETIC SPORTS ARRANGED.

Some Entertaining Exhibitions to be Given at the East End Gymnasium. There are few, if any, men more active in promoting athletic contests than Professor Kitchener, of the East End Gymnasium. As a preliminary event to his proposed indoor racing which is going to be on a large scale, the professor has arranged an athletic exhibition which is to be given in the gymnasium hall during the middle of next month.

HE FAVORS MR. O'NEILL.

The following communication fully explains his attitude. To the Sporting Editor of the Dispatch: SIR—As one who has watched the baseball conflict this year with strict impartiality, and as one who wants to see a good baseball club here, I hope that the directors of the new club will select J. P. O'Neill as their president. He has proven beyond all doubt that he can look after the interests of a club as well as any man living. He has made a name for himself as a club man, and it is certain that any club he is president of will not only be successful, but will also be a credit to the city.

THE BURLINGTON SHOWS FIGHT.

CHICAGO, November 17.—The Chicago, Burlington and Quincy Railroad, being left in its refusal to accede to the demand of the Union Pacific for an increased percentage on overland business, is preparing to make the best fight it can. Its officers say that it formerly carried more of this business than any other line running west of Chicago, but that much of it was lost through delays after delivery to the Union Pacific. It is arranging for the carrying of its coast business over the Denver and Rio Grande.

A COMIC OPERA WAR. Pauline Hall Out With Her Managers and Discharges Them. JEALOUSY OF AGNES HUNTINGTON Given as the Cause of the Row Stirred Up in the Operatic Camp. MAY HAVE A SENSATIONAL ENDING

(SPECIAL TELEGRAM TO THE DISPATCH.) CINCINNATI, November 17.—It is not longer possible to doubt the fact that Pauline Hall, the comic opera star, is at odds with her managers, Mayer & Stern. Her engagement in this city brought matters nearer to a climax than they had been at any time since the disagreement first became known. A week ago Harry Vaughn, the theatrical agent, arrived here from New York armed with letters of introduction to Miss Hall and the local managers, stating that he would act as the official representative of Mayer & Stern during the remainder of Miss Hall's tour. Miss Hall, however, stoutly refused to recognize Mr. Vaughn in any way. "I am no longer under the management of Marcus Mayer and Ben Stern," she declared. "They did not direct my affairs as I wished and I discharged them, as I had a perfect right to do by my contract. I am my own manager now."

WATCHING BOX OFFICE SALES. Vaughn remained outside the theater all the week, awaiting instructions from Mayer & Stern, both of whom are with the Agnes Huntington company. It was declared by Vaughn that Mayer & Stern have an ironclad contract with Miss Hall; that there had been no violation of its provisions, and that they are acting in accordance with the terms of their contract. The success, social and artistic, of Agnes Huntington, who is also under the management of Mayer & Stern, is said by Stern's friends to have aroused Miss Hall's jealousy. One of the company, friendly to Mayer, said today: "Miss Hall is a very hard star to handle. She refused to sing 'Ermine' when billed in it by the manager, and she refused to sing 'Ermine' when billed in it by the manager, and she refused to sing 'Ermine' when billed in it by the manager."

(SPECIAL TELEGRAM TO THE DISPATCH.) WILDWOOD, November 17.—The prolific southwestern line of the Wildwood field exhibits a tenacity that surpasses the expectations of the most sanguine operators who had pinned their faith to the glory and wealth of the field. (SPECIAL TELEGRAM TO THE DISPATCH.) SYRACUSE, November 17.—The Rev. Father Grimes was called to officiate at the wedding of a young woman, claiming to be the wife of a prisoner who has given the police of the city a very irritating effort upon his wife, who has openly charged that Mayer & Stern have been neglecting her interests to forward Agnes Huntington's career. THE WORST IS OVER. [Continued from First Page.] Local causes for the liquidation that has taken place in railway securities is the utter disregard which the managers of the Western roads have shown for the rights of the security holders. They have done so by permitting the control of the income of the several properties to drift into the hands of an army of irresponsible and unscrupulous freight agents and carriers, who have practically taken the facilities of the railroads over to shippers at their own prices.

SPECIAL WEATHER BULLETIN. Rain Generally Prevails Throughout Most of the Country. The moderate cyclone which has been confined to the Gulf by a continuation of high barometer areas passing west to east over the country, has finally forced its way up the Mississippi Valley to the lake region. The storm in Michigan has been drawn into the storm in the lake region, forming a low barometer area, which extends northwestward into Canada. The high barometer in the center of the country has moved of the coast, inclining toward the south. A second high barometer area has appeared in the West, extending to the Pacific coast. Rain has fallen over the entire country, except a small area in the extreme Northeast and west of the Rockies, where fair weather continues. The temperature has risen in all sections, except the extreme Northwest, where it has fallen to below the freezing point. Fog prevailed to-day on the Atlantic coast from Sandy Hook to Portland.
